Commercial Matters.

MEMPHIS DAILY APPEAL OFFICE, SUNDAY, May 16, 1858.

Yesterday was an unusually dull day in the market, nothing having transpired worthy of special notice. Sales were quite limited, and rules about the same as those of Friday. The unsettled state of the market prevents the possibility of giving reliable quotations.

The New Orleans Picayune of the evening of May 11, says:

COTTON.—With the Parole's accounts at hand at an early hour, very few buyers have come forward to-day, and the sales have been confined to about 1800 bales without any material change in prices. We still quote—

NEW INVENTION!

Horizontal Progressive Power

Cotton Press,

PATENTED MARCH 9th, 1858.

THE inventor, Rev. I. Loving having constructed one and used in packing forty bales of cotton, is prepared to recommend it to the public as possessing many advantages over any Press heretofore used, some of which have set forth.

First—CHEAPNESS: The device is so simple that it does not require a mechanic to construct it—it does not take more lumber than half the cabin feet of lumber, and any tree that will make good rails will suit as well as the best of timber.

Second—CONVENIENCE: It is placed at the lint room door with the screw in it, so that presses can be used, and can therefore, be filled for packing much sooner than usual.

Third—SPEED: The horse having to travel only 360 feet against 2,640 feet with the Screw Press.

Fourth—DURABILITY: The Press is so constructed that it can be repaired with a knife, with no part of the work exposed, except the ends of the levers, and they can be changed and thus prevent the wear and tear of concave friction at the time the bale is making the greatest resistance, therefore, the wear is quite imperceptible.

Some intelligent gentlemen have expressed the opinion that it would last from 30 to 50 years, with but slight, if any repairs.

I have appointed Mr. A. W. LOVING, of the firm of Bessely & Loving, No. 12 Front Row, Memphis Tennessee, my agent, who is authorized with a full working model of my Press, and circulars explaining the principles upon which it is constructed. Call and look for yourselves.

The inventor lives five miles east of Moscow Post office, the Railroad and Chewalla Station, Fayette, who will take pleasure in showing and explaining his Press to all applicants, who may favor him with a call.

New Books---Late Arrivals.

CYCLOPEDIA of Drawing, a text book for the Mechanic, Architecture, Engineer and Surveyor, by W. A. Worthen.

The Golden Age of American Orators, by R. O. Parker.

Ran Away to Sea: an Autobiography for Boys, by Capt. Mayne Reid.

A Biographical Sketch of Sir Henry Havelock, K. C. B.; The Mariner's own Book, or the Art of Conducting a voyage of Discovery; Gladstone's Medical Discourses; Adele, by Julia Kavanagh. This, probably is the best book Julia Kavanagh has ever written. As we follow the story to the last page, we wish it had no ending, when change cannot trouble, when sorrow has fled—the table laid, the reader cannot fail to be interested in it. my13

BYRD'S

Incorporated Commercial College

AND

WRITING ACADEMY.

THIS Institution is now in successful operation. It is the intention of the Principal to make it permanent and equal, in every respect, to any in this or any other State. Every branch will be taught to qualify youth for a mercantile life—the art of Penmanship, (with six original illustrative diagrams,) the science of Double Entry Book-keeping moreover, the Principle and the Nature of Banking, with Book Book-keeping, &c.

The attention of parents and guardians is respectively solicited to this Institution. He flatters himself, from the patronage he has already received, that he will merit a continuance, by his unwaiting zeal to the interest of his pupils.

Terms, &c., made known on application at the College, 292 Main street.

I have the honor to refer to the following gentlemen and others, who have kindly consented to act as a Board of Visitors for Examination, being practical business men.
