DR. SAMUEL GILBERT,

AFTER an absence of several years, engaged in the successful prosecution of his peculiar specialty in the cities of New York and New Orleans, has returned to

Memphis, Tennessee,

and is now prepared to treat

Chronic Diseases,

Without Surgical Operations.

Owing to the fact of his having, prosecuted the business of his profession

SILAS T. GILBERT, M. D.,

a graduate of the Jefferson Medical College, of Philadelphia, and who has had the advantage of attending the clinics of New York, Philadelphia, and Charleston, patients will now be treated at their own homes within the latter cities. SLAVES will be boarded, lodged and treated for $1 50 per day.

Particular attention paid to the treatment of CHRONIC DISEASES peculiar to females, such as

CANCERS, TUMORS, ULCERS, SYPHILIS, ETC.

During Dr. Gilbert's absence from this section of the Union, certain persons have, to the great detriment of many of the sick who have employed them, attempted to imitate him, professing to be a thorough knowledge of his profession and mode of treatment. The public is hereby notified that Dr. Gilbert has no specific remedy for any disease, that his success is a result almost wholly owing to his personal skill and experience, and that the imitations of quacks and charlatans receive only so much professional credit and experience as does the worthless imitation surgical instruments.

Dr. Gilbert's testimonials, for the gratuitous distribution, may be had on personal application, or by addressing DR. S. & T. GILBERT,

Monetary and Financial.

MEMPHIS DAILY APPEAL OFFICE, SATURDAY, June 8, 1858.

CINCINNATI.—The Enquirer of June 7, reports: In Third street, yesterday, there were no new financial developments. Money continued very easy as quiet, and currency was still flowing into the banking-houses, with a very small demand. Money is a drug here, and capitalists are desirous of lending, but have few opportunities to do so on acceptable securities. Eastern exchanges we continue to quote at ¾@¾ par. Buying, and selling rates. The market is dull but steady, at the quotations. Philadelphia and New York checks will generally bring ¼ prem.

NEW ORLEANS.—From the Picayune, June 1: The week opens without any marked change in money affairs. Pay rolls in good demand this morning, participants that maturing inside of January next. The banks take the Sep'ember and October signatures at 5 @ 6 ct, and, where they can work off exchange at ¾ @ ct above the market rate, are disposed to discount. Long months paper at 8@9. Money is, like wheat, in easy, and must continue so for some time to come. The exchange market shows no alteration, but there was less offering of domestic, and rates are decidedly better. Sterling is regular and perhaps a shade firmer.

The same paper, of the 2d, says: The market generally has maintained a quiet and steady tone this morning. We can perceive no change in money affairs. There is but a moderate quantity of paper coming, and good signatures maturing inside of January are in active request. The rates are 5 @ 6 ct for first months and 8 @ 10 for six months. For longer dated acceptances the figures remain at 10.

NEW MAP

OF THE

City of Memphis.

A DRAWING of this large and beautiful Map of Memphis is which is inclosed Hopefield, Arkansas, is now completed and ready for inspection. It is more than twice as large as the last Map of Memphis and is elegantly finished and correct, embraces the original grant, their sub divisions and numbers. The size of the Map is six by five feet, and is laid down on a scale of two inches to one inch, taking in an area of 20 square miles—equal to more than twelve times and area. In 6 months this work there has been great care taken to preserve old boundaries, and in doing so, have always consult a original plans and deeds, and in every instance where there has been any doubt the same has been carefully survey ed. Also, the location of the Bayou at the time they was laid out by the original proprietor, when it marked a boundary of a lot, has been carefully noted and preserved, and is shown on this map as well as they present location, where it has been straightened and changed. It embraces all the surveys made in and around the city in the area named, up to this date, showing numbers, size and boundaries of each lot, and further, the Cemeteries, Fair Grounds Orphan Asylum, Hospital, Navy Yard, Indian Mound, alluvial deposits, and the position of the principal buildings in the city. Art with quarter mile circles, so that any point within the area of this map can be readily measured, and its distance determined on the 1-16 inch to a mile, as shown in the section in fact, nothing is omitted that can add to the value and usefulness of such a work. The labor bestowed on this for the last two years, would fill a volume. To compiler now solicits all interested in Memphis and her surroundings to subscribe and order copies, and when the first price of the Map will be ten dollars, ($10,) elegantly framed and mounted on rollers.

Major John B. Mosby has been engaged to exhibit the Map and solicit subscriptions, and it I depend that no one he may ask will refuse to take a copy. The Map will be ready for delivery about the first of July.

Assisting Nature.

It is a well established fact, that although nature cannot be forced, she can be assisted. This is peculiarly the case in all those diseases caused by blood or coagulated lymph settling under the skin, as goes ally happens after a bruise or sprain. By doing some good penetrating rubefacient, such as BRAGG'S ARCTIC LINIMENT nature is stimulated and assisted to take up and remove the deposit of lymph and blood, and an immediate cure is effected.

Bragg's Arctic Liniment is for sale by all respectable Druggists throughout the country. jun1-lawtw

Fever and Ague.

THIS trying and provoking disease, which fixes its relentless grasp on the body of man, rendering him to a mere shadow in a short space of time, and rendering him physically and mentally useless, can be defeated and driven from the body by the use of Dr. J. HOOFLAND'S RENOWNED BITTERS. The great success it has met with, and the beneficent results following its use, have established it as a permanent "institution." We would advise our readers to procure this valuable specific and if an absent friend is afflicted with the Fever and Ague, or any other form of chronic disease, to hasten and procure this much favored and greatly celebrated article. A trial is all that is needed to prove its many excellent qualities.

For sale by Druggists, and dealers generally, everywhere. jun2-dtaw1w

FRIENDS OF HUMANITY!

TO you (always disposed to aid the suffering) it may appear incredible, after in vain trying all the "wonderful" medicines of the day, that one application externally, and a few drops taken internally, of my (Genuine) ELECTRIC OIL, will do very absolutely relieve the sufferer from the most vio ent pain; yet, it is a fact, established, by many men and by good women whose names are at my office. Not one have used it without derive some special benefit within an hour, and many are they who have been perfectly cured of Rheumatism, Neuralgia, Spinal and Bronchial Complaints, Croup, Tic Doloureux, Felons, Burns, Piles, Sprains and Bruises, Cuts and Wounds, Stiffed Glands and Stiff Joints, Sores of long standing, Sore Nipples and Swelled Breast, Salt Rheum and Cankers in the Mouth or Stomach, Ruptures and all kinds of Sores, Headache and Toothache in five to ten minutes, Chilblains and Sore or Tender Feet. It will be seen that I do not profess to cure everything but only a certain class of complaints; all of which are certain on simple Electric and Chemical principles through the affection of my Electric Oil, and the so very little of the human body.

The modus operandi of progressing and ever changeable Romantic pains is imperfectly understood by mankind; whether its location is the membrane or covering of the nerves, inflamed by derangement, (like the cooling of an ill fitted stomach,) or some disturbance of the vital electricity of the nerves, it is the same thing "it is reality also bed into, if it does not, actually supply a needed deficiency in, and equalize the circulation of, that great principle of living organization.

Let the skeptical and the humane look into this matter—for if these things are so, all are alike interested. I will take any case from the hospitals to test it for all my Electric Oil: pleasant and innocent; no danger of cold or exertion, as it will bear no stirring. Come and see for yourself—near Chestnut street, 39 South Highth street; 40 cents and $1 per bottle.

PROF. HASKELL.—The following testimony in favor of Dr. Haskell's Electric Oil is furnished us for publication:

PROF. HASKELL—Dear Sir: I feel it to be my duty to inform the public, through you, what your wonderful "Electric Oil" has done for my family. My wife has been alarmingly troubled with falling of the womb and pains in the back and breast. I bought one bottle of your Oil yesterday, and to-day she is entirely free from pain, and sends her warmest respects for your success and sympathy. I have had a rheumatic pain in my shoulders and arms for a long time, and in ten minutes from the time I applied your Oil, the pain was all gone It is truly a wonderful remedy for all pains, such as we have been suffering with, and I cheerfully give this testimonial of its effects.
