Good Ordinary	8¾@ 9	Middling Fair	12¾@12¾
Low Middling	9¾@10	Fair	nominal

The New Orleans Picayune of June 5, reports: The sales of the week footed up to 50,000 bales, with a net of about 2000 bales at the prices previously quotated. Up to the Monday, Tuesday and Wednesday inclusive 12 of 13 days was dull and nominally lower, but towards the end some improvement took place in the tone of the market, which, with a little firmness, and a disposition on the part of buyers and sellers to meet half way, the week closed at very trifling advance on the prices ruling at the commencement of the week. The quotations for middling qualities, which were little heard of, will be about 10¾@11¾ cents, and for a total for the week of about 50,000 bales. The receipts of cotton have generally been light, and the prices ruling low, with much hesitancy, and the trade quite dull. For the week ending yesterday, the receipts at all the ports have been 1,025,201 bales, against 1,055,561 in the same date last year.

The receipts of Flour and Meal have been light. Our general market has been fairly quiet during the past week, with moderate receipts, and a limited demand for our Western and Southern supplies. Western Flour—Fine—Of this there has been dull, under the influence of a decided advance from Europe, and the low prices have worn a little more favorable aspect, and some sales were made by the former during a dull market, and the latter by the latter at a decided tendency. Corn—Under the transactions have been of a limited character. Flour and Grain have improved with light receipts, which most kinds of provisions have been fairly sustained, and quiet, and still easier on shippers, and exchange has further at an eighth in the rate.

Monetary and Financial

MEMPHIS DAILY APPEAL OFFICE, WEDNESDAY June 9, 1858.

NEW ORLEANS—Friday's Picayune, reports the general market has not undergone much change during the periods this week. Money is very dull, drawing from 6 to 8 per cent, and the more confident tone is some respects the increase in exports, larger than is usually the case at this season. Money is easy and a considerable supply of gold has come in, in addition to part have been wanted for the Eastern market. For silver the rates are from 5 to 6 ⅌ cent.

The exchange market has not undergone any material alteration this week. The sales of sterling have been to a limited extent at rates for original money, and 107¾@108 for bank bills. The nominal drawers hold at 109. Some transactions have taken place in drafts with bill of lading attached, at 108¾@109¾. Francs range as quoted, from 5 25@5 17¾. The rates on New York have been firmer, and in some instances a shade more than the rates quoted. We quote at 1¾@¾ ⅌ ct. discount. The bankers at 3¾@¾ ⅌ ct. discount.
