JOHNSON'S
DRUG STORE,
REMOVED TO 317 MAIN STREET,
MEMPHIS, TENN.,
A few doors South of the Old Stand, opposite Messrs. Webb & Rawlings, and Flaherty & Bro.

A CARD!

THE subscriber begs leave to announce to his numerous friends and customers that in consequence of the erection of buildings at his old stand, corner of Main and Madison streets, he has removed his DRUG STORE to

317 Main-St., Memphis, Tenn.,

Where he will be pleased to see his friends and customers, and assure them and all in want of anything in the Drug line, at wholesale or retail, that he is offering such inducements in the quality and price of his goods as cannot fail to give satisfaction.

All orders from Druggists, Physicians, Merchants, Plantations, and others, will meet with prompt and careful attention.

Tendering my thanks to the citizens of Memphis and the surrounding country for the very liberal patronage extended to him during nine years past, I trust, by strict attention to business and the wants of my customers, to merit a continuation of their patronage.

BLUE LICK SPRINGS,
Nicholas County, Ky.
JAS. S. HUTCHISON, PROP'R.

I HAVE leased this celebrated watering place for the ensuing season, and will be prepared for the reception of visitors on the 15th of this month.

The celebrity of the Blue Lick Springs is such as to need no particular description. Suffice it to say to the Memphis and Lexington turnpike road, twenty miles from Paris (the junction of the state lines and the Covington and Lexington Railroad), and twenty miles from Maysville, the location renders this place easy of access from all parts of the country.

The Hotel, which is all in readiness, has been thoroughly renovated and put in good repair. The proprietor can only promise that he will endeavor to keep a

FIRST CLASS HOTEL,

in every respect, and with the aid of polite and experienced assistants, feels confident that, in point of comfort to guests, the Blue Lick Springs will be second to no watering place in the West.

A fine band of music has been engaged for the season. The celebrated Henry Stahler band will be in attendance, where horses and buggies can be had at all times.

A Post Office has been established at the Springs.

THE UNION
Patent Circular Mill!
Cuts from 10,000 to 12,000 feet of Lumber per Day of Twelve Hours!

WE are at length enabled to inform our numerous customers that we have perfected, by new important improvements, the Union Circular Saw Mill, that we have no hesitation to pronounce it superior to any other mill in operation. Strong and durable made, having about double the stock of wood and iron work in the same class of mill. Our long experience has taught us that if we want a first class mill it can only be had by a liberal outlay of labor and material. The guides for carriage are planed, and the rolls turned into long lines that the log is made to move with the least and without play. The saw (half is cut up in the best style, size 8½ inches, with long bearings so that we have neither vibration or heating of shaft.

The improved Head Blocks we have introduced command the highest praise of practical sawyers. A large saving of time with increased power and strength are combined in this superior Saw Mill. We will not for fear of appearing extravagant, say what we have offered in this country, but we have not little it any behind our Eastern cities. It is more substantiated this season than ever. Our leading branches are, first—

WATCHES,

CARSON'S
PUMP SHOP,
On Second Alley,
BETWEEN UNION AND MONROE,

THE undersigned would respectfully inform the citizens of Memphis and its vicinity, and his numerous customers living at a distance in the country for their past patronage, that he has now moved his shop, which has hitherto been confined to the manufacturing and putting up the Chain-Pump alone, and still believing them to be the best pump, he has added to his shop and stock a full assortment of Tin, (and the meanest when not so bad and put up,) however as there are places where the Chain Pump is not wanted, he has now put up and keeps on hand a few of the "olden times," who still think that there are other Pumps in use superior to the Chain Pump. I have determined to attend to the Tin ware, and to do all work at or shipping to order, any kind of a Pump that this market can furnish. I have therefore, employed an experienced workman, from the East, who will attend to putting up and repairing all kinds of Iron Pumps. He will also do every kind of PLUMBING, and if he does not work as well and cheap as he warrant, I mean what I say, and say what I mean.

I have in the back shop a lathe and machinery to a number of our Chain Pumps with entire success. I have also used large balance wheels on Hand Chain Pumps with equal success. In one case I have used the wedged Link Chain and Turned Bottom, which is quite expensive, but it "fadeth not away."

"MULTUM IN PARVO."

I have recently invented a CHAIN PUMP BOX, embracing many complete, novelty and distinct Chain-Pumps, intended for double tenements, (and double pipe) two pumps can draw water from this box at the same time, having no interference with each other whatever, being no hole cut in the partition, wall or floor, large enough for an mouse, fox or cat, chicken or mouse to crawl through, or hard to Dr. Carson. I would refer you concerning the Pump, to F. G. Bingham and J. R. Merriman & Co.

N. B. I am prepare to ship Pumps on orders in short notice, up or down, east or west of the Mississippi river.

NEW INVENTION!
Horizontal Progressive Power
Cotton Press,
PATENTED MARCH 9th, 1858.

THIS Invention, Rev. J. Loving having constructed one and used in packing his bales of cotton, is prepared to recommend it to the public as possessing many advantages over any Press heretofore used, some of which is here set forth.

First—CHEAPNESS: The device is so simple that it cannot require a costly machine to make it, does not take much less than half the cubic foot of lumber, and any tree that will make good rails will suit as well as the best of timber.

Second—CONVENIENCE: It is placed at the lint room door with the entire length of the press-box open, and can therefore, put the bale in much sooner than usual.

Third—SPEED: The horse having to travel only 360 feet against 2,496 feet with the Screw Press.

Fourth—DURABILITY: The Press is so constructed that it can be operated in a hurry, with no part of the work exposed, except the ends of the levers, and they can be shingled and thus preserved. The device overcomes Lifting-capital, the cotton bale is working the Press against resistance, therefore, the wear is quite imperceptible.

Some intelligent gentlemen have expressed the opinion that it would last from 30 to 50 years, with but slight, if any repairs.

I have appointed Mr. A. W. LOVING, of the firm of Beasely & Loving, No. 12 Front Row, Memphis, Tennessee, sole agent, who is provided with a full working model of my Press, and competent to explain the principle upon which it is constructed. Call and look for yourselves.

The Inventor lives ten miles east of Moscow Depot, on the Memphis and Charleston Railroad, who will take pleasure in showing any number of good machines.

Premium Cotton Gin

THE attention of Cotton Planters is respectfully called to the above premium Gin, manufactured by R. Chaver & Co., East Bridgewater, Mass. Under a recent improvement, the Carver Gins are regarded as the best now in general use; their superiority needs no commendation from us, as thousands are now in successful operation in the Southern country.

We have on hand fifty Gins, embracing all the different sizes and numbers of saws.

Also 10 and 12 feet segment bolts, washers, &c., manufactured at Cincinnati, Louisville and New Orleans, and sold at manufacturers prices, and on accommodating terms and time.

PLANTERS!
Look well to Your Interests and Purchase only the Best Machines.

FELTON'S
SELF-SHARPENING
Portable Grist Mill.
EVERY PLANTER HIS OWN MILLER.

THIS is one of the most valuable inventions of the day. It possessing all the qualities necessary to make it of the greatest utility, simple, slender, and is destined soon to supersede every other mill and to supply a great want long felt in every part of the country. It occupies only 2 feet by 4, and weighs 300 pounds.

The great distinguishing characteristics are, its SIMPLICITY, DURABILITY, UTILITY and SMALL COST, required by all who use the mill.

IT IS THE ONLY MILL IN THE UNION THAT WILL GRIND CORN AND COB IN THE EAR, WHICH MAKES THE BEST FEED FOR STOCK.

It is adapted to steam, water or horse power, grinding to perfection wheat, corn, oats, buckwheat, drugs and spices, using from one to four horse power to eight bushels per hour of the finest quality of meal for family use, and ten bushels of prime feed for stock, and never heats the meal or leaves valuable feathers.

It contains more good qualities than all other mills in one machine, and only needs to be seen to operatize or convince every intelligent mind of its great merit and practicability. We challenge the world for a trial before competent judges, of any other mill ever invented. Hundreds of the mills are in use in different parts of the United States and all give entire satisfaction.
