THE APPEAL.

MISSISSIPPI NEWS.

GOV. MCWILLIE.—His Excellency Governor McWillie arrived in our town yesterday, and was honored by the Artillery Guards with a salute of fifteen guns, one for each Southern State. The Governor is here for the purpose of attending a meeting of the Board of Trustees of the University.—*Oxford Mercury, July 8.*

The same paper has the following:

COMMENCEMENT WEEK.—It is generally conceded that the number of persons who will be in attendance at the Commencement Exercises of the University of Mississippi next week, will be much larger than it has ever been before. And in order to accommodate all who will be here, our citizens must show the most generous hospitality. Every one who has spare rooms, ought to tender them freely to the visitors, and even if this be done we fear all will not be properly provided for. We trust that that spirit of generous hospitality to strangers so characteristic of our people, will be fully sustained next week.

MISSISSIPPI CONGRESSIONAL DELEGATION.—The editor of the *Paulding Clarion*, while sojourning at Washington, thus wrote home to his paper about the Mississippi delegation in Congress. The letter bears date at Washington, May 31, 1858:—"It will doubtless be gratifying to the pride of the citizens of our State to learn that our whole delegation stand very high in Congress, and they have been usually attentive to the wants and interests of their constituents. Mississippi may well be proud of her Senators and Representatives, who, during the stormy and eventful session which is closing, have done all that men could do to uphold the rights and maintain the honor of their section."

N. C. TAYLOR, Esq.—We copy, with pleasure the annexed communication from the Ripley *Advertiser*, only remarking that from a long and intimate acquaintance with Mr. TAYLOR we are prepared to endorse all the handsome things said of him:

From U's Ripley Advertiser]

N. C. TAYLOR, ESQ., AND DISTRICT ATTORNEY.—MR. FORD: As the time approaches for the election of our district officers, I find there is much talk as to the relative merits of the candidates. I take the opportunity, through your widely circulating paper, to say a few words in behalf of the gentleman who heads this article, and who may not be as well and favorably known to the people of Tippah county as to many others. Col Taylor has been at the bar about six years, and is now engaged in the prosecution of his profession in Panola. He is regarded as a young man of very superior talents and great promise. He is a forcible and graceful writer, and an eloquent and fluent speaker; and that staunch Democratic paper, the Memphis *Appeal*, of the 20th inst., very truly says of him that he is "one of the most brilliant young men in North Mississippi."

The writer of this has known Col. Taylor from his boyhood, and besides his fine attainments as a lawyer and superior speaking talents, which eminently fit him for the office of District Attorney, he has no better heart or an ever beat in the breast of man. He is the very soul of honor, and scorns little tricks to put himself forward, or to injure a foe. Besides, it is the recommendation, Col. T. is no mere aid-and-abettor of the Democracy, but has done much service with his pen for the party, having during the year 1855 edited with distinguished ability the *Democratic Flag*, at Oxford. He will make a District Attorney that will do.

ACCIDENT ON THE CENTRAL RAILROAD.—We learn from the Canton *Commonwealth* that on the 23d ultimo the construction train ran over a little boy named Osborne. He was lying on the track, and was not discovered until it was too late to stop the cars. He died in a few minutes. The *Commonwealth* says that no blame can be attached to the engineer, as he made every effort to stop the cars as soon as the boy was discovered.

CONSTITUTIONAL CONVENTION.

The people of Tennessee will be called upon to vote on the first Thursday in September next upon the question of calling a Convention "to revise, alter, or amend the Constitution of the State of Tennessee." For the purpose of bringing the subject early before the public, in order that it may be deliberately considered, we publish the following Act of Assembly authorizing the people to vote:

AN ACT to authorize the people to call a Convention to revise, alter, or amend, the Constitution of the State of Tennessee.

SECTION. 1. *Be it enacted by the General Assembly of the State of Tennessee*, That the citizens of this State, entitled to vote for members of the General Assembly, are hereby authorized to assemble at the several places of holding elections in their respective counties, and vote for or against calling a Convention to amend, revise, or form and make a new Constitution for the State.

SEC. 2. The election provided for in the first section, shall be held on the first Thursday in September next.

SEC. 3. The sheriffs of the several counties in the State shall, after giving sixty days' notice in writing in each civil district in their respective counties, and in some newspaper printed in the county, (if there be one) and if none, in some newspaper printed in Knoxville, Nashville, Jackson, and Memphis, open and hold an election, at the several places of holding elections in their counties, on the first Thursday in September next, as prescribed in this act.

SEC. 4. The elections authorized by this act shall be held and conducted under the same rules and regulations that elections are for members of the General Assembly, and the returns of such elections shall be made in the same manner, that returns are made of election for members of the General Assembly.

SEC. 5. Each voter shall write on his ticket, Convention, or no Convention, and the returns of such election having been made, the Governor and Secretary of State shall compare all the votes cast for, or against the Convention, and if it shall appear that the votes in favor of a Convention amount to a majority of the whole number of votes polled for Governor at the election next preceding the day of election for or against said constitution, *Provided*, that a majority of the entire vote so polled shall be in favor of the Convention, then the Governor shall issue his proclamation, declaring that a majority of the votes polled, are in favor of a Convention. He shall also issue write of election, directed to the Sheriffs in every county in this State authorizing and requiring the Sheriffs thereof, to open and hold election for delegates to the Convention, at the several places of holding election in their respective counties, on the first Thursday in November next.

SEC. 6. Each county electing one representative to the General Assembly, shall elect one delegate to the Convention, and each representative district composed of more than one county, shall elect one delegate to the Convention. Counties that elect more than one representative, shall elect the the same number of delegates, as they are entitled to elect representatives.

SEC. 7. Elections of delegates to the Convention shall be held under the same rules and regulations, as members of the General Assembly, and returns of such elections shall be made in the same manner, and returns are made for members of the General Assembly. The persons having the highest number of votes shall be declared elected delegate to said Convention.

SEC. 8. The delegates elect shall assemble at the capital to the city of Nashville, on the first Monday in December thereafter, and proceed to the discharge of their duty. They shall receive the same compensation for their travel and services, as members of the General Assembly are entitled to receive under the existing laws of the State.

THE UNION

Patent Circular Mill!

Cuts from 10,000 to 12,000 feet of Lumber per Day of Twelve Hours!

WE are at length enabled to inform our numerous friends throughout the country, that we have to report improvements, the Union Circular Saw Mill, that we have been in the performance of experiments, anything yet offered the lumberman. Strong and well made, having about double the stock of wood and iron work in the same class of mill. Our friends need not be shown us that if we want a first class mill, it can only be had by a liberal outlay of labor and material. The guides for carriage are placed full in the centre, instead of two inches that the log is made to move in a true line, easy and with ease. The saw shaft is not up in the log saw, size 3½ inches with long bearings so that we have neither vibration or binding of shaft.

The improved Head Block we have introduced command the highest praise of practical sawyers. A large saving of time with increased efficiency and strength accomplished in this counter Saw Mill. We will not for fear of appearing extravagant, say how much lumber we have cut per hour. It is the newest patent, is durable, large amount of lumber is present, 1500 feet per hour of poplar, pine, walnut, &c., can be cut without taking the full capacity of the mill.

In offering these improved circular mills the trade we do not expect to compete in price with other parties who build circular mills, but we do expect to commend, after a trial, our mill for its durability, simplicity and durability. Still we offer them as low as can possibly be afforded, considering the amount of labor and material used on them.

The following are our lowest cash prices, which include 40 feet carriage for each mill, 1 set of gauges and 1 set of dogs, 1 set of wrenches, 1 set of boxes and 1 set of belts of 18 and 22 inches power; and all other fixtures complete.

PLANTERS!
Look well to Your Interests and Purchase only the Best Machines.

FELTON'S
SELF-SHARPENING
Portable Grist Mill.
EVERY PLANTER HIS OWN MILLER.

THIS is one of the most valuable inventions of the day, it possesses all the valuable improvements to make it of the greatest service to every planter, and is destined soon to supercede every other mill and to supply a great want long felt and acknowledged by all who are now running to skill take up in order.

IT IS THE ONLY MILL IN THE UNION THAT WILL GRIND WITH ENTIRE DURABILITY, UTILITY AND SELF-SHARPENING AS AN INVALUABLE FEED FOR STOCK.

It is adapted to Plantation, water or horse power, grinding to perfection wheat, corn, oats, buckwheat, drugs and spices; grinds with two horse power five to eight bushels per hour of fine flour, quality of meal for family use and ten bushels of prime feed for stock, and never heats the meal—a valuable feature.

It contains better and more grinders than all other mills combined, and only needs to be seen in operation to convince every intelligent mind of its great use and practicability. We challenge the world for a trial before competent judges, of any other mill ever invented. Hundreds of the mills are in use in different parts of the United States and all give entire satisfaction.

CARSON'S
PUMP SHOP,
On Second Alley,
BETWEEN UNION AND MONROE,

THE undersigned would respectfully inform the citizens of Memphis and its vicinity, and his numerous customers living at a distance in the country for their past patronage in his line of business, which business has increased so much as to compel him to enlarge and put up the Chain-Pump alone, and still believing them to be the best pump in use, when made of good materials and properly put up, he now offers them not as made and put up, however as there are places where the Chain Pump cannot be used, yet he now prepares to furnish the "iron lady," who still think that there are other Pumps in use superior to the Chain Pump. I have constantly in readiness a variety of all kinds of pumps or shipping to order, any kind of a Pump that this market can furnish. I have therefore, employed an experienced workman, who will work under the Shop, ready to putting up and repairing all kinds of iron Pumps. He will also do every kind of PLUMBING, all of which I will warrant to be as good as any workman, I mean what I say, and say what I mean.

I have in the last year, a little stock of machinery to a number of my Chain Pumps with entire success. I have also used large balance wheels on Hand Chain Pumps with equal success. It was such I have used the wheel Link Chain and Turned Ratlon, which is quite expensive, but it "fetch'd not away."

I have recently invented a CHAIN PUMP BOX, embracing two complete, separate and distinct Chain-Pumps, inter-dod for double temperate, (as directed) putting two pumps can draw water from this box at the same time, having no interference with each other whatever, being made in half the partition, wait or factor, large enough for an inch, dog or cat, chicken or mouse to crawl from one yard to the other. I would refer you concerning the Pump, to F. G. Bingham and J. F. Merriman & Co. W. CARSON.

P. S. I am now prepare to ship Pumps on orders by rail or stakes, up or down, east or west of the Mississippi river.
