THE APPEAL.

IMPROVED MAIL FACILITIES FROM THE ATLANTIC TO THE PACIFIC.

First.—From New Orleans, Louisiana, by Indianola, to San Antonio, thence by El Paso and Fort Yuma, to San Diego, on the Pacific, twice a month. This was the *Pioneer Line*, demonstrating that an overland mail route was practicable. It is now in full and successful operation, the last trip from San Antonio to San Diego having been performed in twenty-three and one-half days.

Second.—The great overland mail route from Memphis and St. Louis, forming a junction at ... Smith, near the head of navigation on the Fort ... river; thence in the direction of Arkansas ... the Red river; thence to Fort Fillmore, Preston, or the Paso, on the Rio Grande; ... more, above El ... the Colorado, and thence thence to Fort Yuma ... Francisco. The contracts by the Tehon Pass to San ... & Co., have examined the route, Messrs. Butterfield ... Wells, and will soon have the service in operation. The San Antonio service commences, it will supersede the San Antonio line between the Rio Grande and the Colorado river, but leave it in full operation on the balance of the route.

Third.—To give similar mail and traveling facilities, the Hon. A. V. Brown, Postmaster-General, established another great overland route, and to be run weekly, to accommodate the Northwestern States and Territories, above St Louis, from St. Joseph's, on the Missouri, to Salt Lake and from Salt Lake through Carson Valley to Placerville; thus penetrating California in her most populous region, and furnishing an overland route of the highest importance. The contractors, Messrs. Hockaday on the east and Chorpenning on the west, give assurances, by their experience and simple means, that this great route will be speedily and successfully carried into effect. So soon as the roads can be improved, and actual experience shall show within what time the service can be performed, the time will no doubt be reduced to the very shortest that it can be run in.

Fourth.—From some point on this line west of Salt Lake a four-horse coach service will be put on (it is now advertised for) to the Dalles; thus establishing a most important communication with the Territories of Washington and Oregon. Both Gov. Lane and Gov. Stevens, if elected to the next Congress, have announced their intention to pass over this important route.

Fifth.—From Independence, on the Missouri, to Santa Fe, the capital of New Mexico, weekly in four-horse coaches.

Sixth.—From Santa Fe, by Albuquerque, to Stockton, California, or falling into the Butterfield or El Paso route, at Tehon Pass, above Stockton. Connected with this route is a monthly four-horse coach service from Niesbo (or Fort Smith) to Albuquerque.

Seventh.—The new Tehauntepec route from New Orleans, Louisiana, to San Francisco, connecting with the Panama line at or near Acapulco. This route has been long desired by the people of the United States. It is the one nearest our possessions on both oceans, the easiest protected and kept open in time of war. The Gulf of Mexico is destined hereafter to be emphatically an American sea; over which, from necessity, the United States must have a preponderating and controlling power. Contracts have already been made by the Postmaster-General whereby mails and passengers can be conveyed by railroad from New York to New Orleans in three days and ten hours; and this improvement, taken in connection with the route by Tehauntepec, must greatly shorten and cheapen the communication between the Atlantic and Pacific States.

Eighth.—The coast service of the Pacific has by no means been neglected. In August last a much needed line of mail steamers for the benefit of the coast towns and settlements between San Francisco, Astoria, and Olympia, was established, at a cost of $122,500 per annum; and soon after a similar but much more ample supply of the officers on Puget's Sound, once each week, at a cost of $22,400 per annum.

The above routes, connecting the Atlantic with the Pacific, have been established in the face of the most signal difficulties in mail and commerce, which reduced the revenues of the Government in a most unprecedented degree. In the face of that revulsion, prostrating the means of the Government as well as of individuals all over the world, Congress would not venture at present on the construction of a railroad to connect the two oceans. But, with a liberality hardly to have been expected under the circumstances, the Administration, through the Post Office Department, has opened up new channels of intercourse which must soon develop the riches of the intermediate country, and contribute largely and immediately to the wealth, population, and general prosperity of California, Oregon, and Washington. The establishment of these six or eight great overland routes will be well calculated to throw a flood of light on the great question over what particular route a railroad shall hereafter be constructed, when the country shall have recovered from its present pecuniary embarrassments.

AGED.—The N. O. *Picayune* of the 7th, mentions the death of a negro woman belonging to Miner Keener. She was born on the east coast of Guinea, Africa, and died at the age of 140 years.

GAS.—It is the belief of all eminent gas engineers that gas is not produced directly from coal or other materials,—observation leading to the conclusion that tar, a mixture of oils, is the first product, which is subsequently decomposed and partially converted into gas.

TUNNEL.—The scheme of tunneling the East river, so as to provide easy and certain transit between New York and Brooklyn for the growing population of the two cities, begins to engage public attention, and a plan and estimate have been submitted, costing something over half a million dollars, which seem to present plausibility and feasibility.

RIGHT OF VISIT.—The Louisville *Journal* says: Notwithstanding the language of apparent concession employed by these spokesmen of the British Government, it is susceptible of easy demonstration that no real practical concession has been made. The true point at issue, the right of ascertaining by visit the national character of suspected vessels bearing the American flag, is not relinquished. It is saved. To all intents and purposes the British pretensions remain as before. It is virtually what it was fifteen years ago.

A WOMAN WHIPPER.—Capt. Fuller, of the steamboat *Gen. Pike*, was arraigned at the Cincinnati Police Office on Tuesday with horse whipping a woman who had a child in her arms. The child is said to be his own, and with it the unfortunate woman prescuted herself at his house in Newport, Ky., after the marriage of the Captain, some months since. A crowd collected at the whipping, and summary vengeance would have been taken if Fuller had not drawn a knife to defend himself.

QUEER BANKING.—Queer banking operations are not confined to Tennessee, the Indianapolis, Ind., *Sentinel* says: We understand that the Free Banks of the State refuse to redeem their currency in anything but American silver coin, which is worth 15 per cent. less than gold or Eastern Exchange. If this system of redemption is persisted in, it must result in a general discredit of Free Bank paper.

CONSTITUTIONAL CONVENTION.

The people of Tennessee will be called upon to vote on the first Thursday in September next upon the question of calling a Convention "to revise, alter, or amend the Constitution of the State of Tennessee." For the purpose of bringing the subject early before the public, in order that it may be deliberately considered, we publish the following Act of Assembly authorizing the people to vote:

AN ACT to authorize the people to call a Convention to revise, alter, or amend, the Constitution of the State of Tennessee.

SECTION. 1. *Be it enacted by the General Assembly of the State of Tennessee*, That the citizens of this State, entitled to vote for members of the General Assembly, are hereby authorized to assemble at the several places of holding elections in their respective counties, and vote for or against calling a Convention to amend, revise, or form and make a new Constitution for the State.

SEC. 2. The election provided for in the first section, shall be held on the first Thursday in September next.

SEC. 3. The sheriffs of the several counties in the State shall, after giving sixty days' notice in writing in each civil district in their respective counties, and in some newspaper printed in each county, if there be one, and if not, in some newspaper printed in Knoxville, Nashville, Jackson, and Memphis, open and hold an election, at the several places of holding elections in their counties, on the first Thursday in September next, as prescribed in this section.

SEC. 4. The elections authorized by this act shall be held and conducted under the same rules and regulations that elections are for members of the General Assembly, and the returns of such elections shall be made in the same manner, that returns are made of election for members of the General Assembly.

SEC. 5. Each voter shall write on his ticket "Convention, or no Convention," and the returns of such election having been made, the Governor and Secretary of State shall compare all the votes cast for, or against the Convention, and if it shall appear that the votes in favor of a Convention amount to a majority of the whole number of votes polled for Governor at the election next preceding the day of election for or against said constitution, *Provided*, that a majority of the entire vote so polled shall be in favor of the Convention, then, the Governor shall issue his proclamation, declaring that a majority of the votes polled, are in favor of a Convention. He shall also issue writs of election, directed to the Sheriffs in every county in this State authorizing and requiring the Sheriffs thereof, to open and hold election for delegates to the Convention, at the several places of holding election in their respective counties, on the first Thursday in November next.

SEC. 6. Each county electing one representative to the General Assembly, shall elect one delegate to the Convention, and each representative District composed of more than one county, shall elect one delegate to the Convention. Counties that elect more than one representative, shall elect the the same number of delegates, as they are entitled to elect representatives.

SEC. 7. Elections of delegates to the Convention shall be held under the same rules and regulations, as members of the General Assembly, and returns of such elections shall be made in the same manner, as returns are made for members of the General Assembly. The persons having the highest number of votes shall be declared elected delegate to said Convention.

SEC. 8. The delegates elect shall assemble at the capitol in the city of Nashville, on the first Monday in December thereafter, and proceed to the discharge of their duty. They shall receive the same compensation for their travel and services, as members of the General Assembly are entitled to receive under the existing laws of the State.

Passed March 19, 1858.

Speaker of the House of Representatives.
JOHN C. BURCH,
Speaker of the Senate.

Cheap Plantation for Sale.

I OFFER my plantation for sale, lying three miles from Hernando, Desoto county, Mississippi, containing Eight Hundred and Nineteen Acres, (819.) This place was formerly owned by Capt. Hugh Lennox, U.S. navy, and purchased by Mr. N. H. Cotheal. It is now in a high state of cultivation, well adapted to the production of Cotton and Corn. The land is level, grass, and could easily be converted into one of the most rich dairy farms in the west, being divided into four large fields, the improvements are comfortable, the dwelling house is of hewn logs, and has four large rooms; cellar (comfortable) for family or thirty negroes, corn cribs, stables, and all other necessary outbuildings; good well of water, and one of the best selections of fruit in the country. This is one of the most commanding and desirable places to build a fine house in that county, being high and elevated and surrounded by a beautiful grove. The purchaser will be accommodated with the use of premises adjacent to LaGrange, and can save the expense of boarding his children as well as hasten the pleasure of their company at home. The purchaser can get Cotton Gin, Screw, &c. on the only inducement to sell. Any one wishing a bargain in land can not do better in West Tennessee. Call and examine the land and I am confident you will be pleased with it. I can be found at my residence three miles north of LaGrange, and will take pleasure in showing it to any one wishing to purchase.

The new firm will start with an efficient force in each mechanical branch, the Watch department being under the supervision of Mr. Wilkins.

Our Stock will at all times be the latest fashions, and prices low as the same quality and style of goods can be purchased in Philadelphia or New York.

I am thankful for the liberal patronage extended to me during my fifteen years' residence in Memphis, and my aim will be to merit its continuance.

F. H. CLARK.

ESTABLISHED 1841.

OUR aim has been to keep pace with our growing city, and furnish them who want Goods in our line with good articles, and at fair prices. Our assortment, for years, has been but little if any behind our Eastern cities. It is more extensive this season than ever. Our leading branches are, first—

WATCHES,

Of which we have every variety in general use, together with a large assortment made to our order, which for neatness of style and time-keeping, are supported by none. In our assortment will be found the Right Day Watch and the Repeating Chronometer, giving the time to a minute in the dark.

JEWELRY.

Our assortment in this important branch is kept full by frequent receipts of all the new styles, whether of foreign or domestic production.

CARSON'S

PUMP SHOP,

On Second Alley,

BETWEEN UNION AND MONROE,

THE undersigned would respectfully inform the citizens of Memphis and its vicinity, and his numerous customers living at a distance in the country for their past patronage in his line of business, which business has hitherto been confined to the manufacturing and putting up the Chain-Pump alone, and still believing them to be the best pump in use, when made of good materials and put up in good workmanship, (which he will do made and put up,) however as there are places where the Chain Pump cannot be used; also a few persons retilting of the "Chain Pump," also that there are other Pumps in use superior to the Chain Pump. I have determined to accommodate the taste of all by publishing up the adapting to order, any kind of a Pump that this market can furnish. I have therefore, employed an experienced workman, long in the trade, who will attend to putting up and repairing all kinds of Iron Pumps. He will also do every kind of PLUMBING, all of which I will warrant; and when I say warrant, I mean what I say, and say it but I mean.

I have to the last year attended machinery to a number of our Chain Pumps with entire success. I have also used large backwater wheels on Hand Chain Pumps with equal success. In one case I have used the welded Link Chain Pump, which is superior, which is quite expensive, but it "lasteth not always."

"MULTUM IN PARVO."

I have recently invented a CHAIN PUMP BOX, embracing two complete, separate and distinct Chain-Pumps, inter dod for double tenements, (and double price) two in one, where only one was before; the cost of one time, having no interference with each other whatever, being no hole cut in the partition, wall or fence, large enough for an inch pump, and allowing a pump to be crawl from one yard to the other. I would refer you concerning the Pump, to F. G. Bingham and J. H. Mentzinger & Co.

P. S. I am prepared to ship Pumps on orders in short notice, up or down, east or west of the Mississippi river.
