Commercial Matters.

MEMPHIS DAILY APPEAL OFFICE,
FRIDAY, July 18, 1858.

COTTON.—We heard of sales yesterday, amounting to some 250 bales, at 8¼, 8¾, 10⅛ and 12½ c. a. s.

Fair Ordinary	7 @ 7½	Middling	11 @11⅛
Ordinary	6 @ 6½	Good Middling	12 @12⅛
Good Ordinary	8 @ 8½	Middling Fair	12½@13
Low Middling	10 @10½	Fair	13½@14

We copy the following quotations from the New Orleans Price Current of July 10:

We closed our last weekly review upon a quiet market for cotton, but with firm prices for the Middling and better qualities. On Saturday, the buyers came forward and took about 2500 bales at the rates of our previous quotations, but subsequently the demand fell off very materially, and the sales w re confined to 200 bales on Monday, 800 on Tuesday, 300 on Wednesday, and 800 on Thursday, prices being irregular and generally easier for buyers, especially for the grading below Middling. There was, however, no change sufficiently marked to require any alteration in our quotations. Yesterday, however, with better weather the inquiry was renewed to a more extent, and about 1700 bales were sold, making a total business for the week of barely 7000 bales, taken for Great Britain, France, the Coastwise and the North. Prices are decidedly in favor of the buyers for the inferior and Ordinary, but are still mostly within the range of our last quotations which we repeat.

The receipts at this port since the 1st of September, inclusive of the arrivals from Mobile, Florida and Texas, are 1,847,721 bales, against 1,416,637 bales to same date last year, showing an increase in the receipts of all the ports up to the latest dates as compared with last year, of 431,084 bales. The exports from the United States to foreign countries, as compared with the same dates last year, there is an increase to Great Britain of 347,824 bales, an increase of 74,348 bales to France, and of 37,888 to other foreign ports.

SUGAR—LOUISIANA—With a reduced supply on the levee, the market has been still firmer, though the business done has not been of a character to indicate any favorable weather having interfered with operations during a portion of the time. The sales embrace about 8,000 hds. part from second hands, at prices for the advanced quotations. Yesterday's transactions included about 800 hhds at this range.

TOBACCO—The Tobacco market continues without animation, and has been still more depressed during the past week. The few sales reported have been forced through further concessions in the rates, but their offers have been accepted in only a few instances, and the sales have much the appearance of being made to keep the market alive on private terms, except a few unimportant lots, including 23 of which 3 at 3c, 2 at 3¾, 5 at 5¾, and 20 at 9¾ c. at 6¾, 11 at 10, and 1 hogshead at 11¾ c. Of the 149 in bale, on private terms, Prices have generally been in favor of buyers, but they are said to be still within the range of our previous quotations, though in most instances tending closely to inside figures, except for rich and fancy descriptions of Virginia, Carolina, &c., for which the rates are mostly above our quotations.

MOLASSES—The recent arrivals from the interior consist chiefly of Interior and Ordinary descriptions, for which there has been very little demand, and the market has worn a dull and heavy appearance during a great part of the week. The sales have been confined to 600 or 700 bbls at 22@23c for Interior, Fermenting and Ordinary, and 28@29c for good to prime Medium. Of bbls selling occasionally at 27@28c ⅌ gallon, according to quality. Reboiled, from the refinery, has been in demand at 18@20c in bbls, and 20@24c ⅌ gallon in half bbls.

Wright & Co.'s Liverpool cotton circular dated June 18, states:

The quiet aspect of our cotton market, noted as the prominent feature at the time of our last mail, has set in vigor of little inst., per Fire in, has be a rolling characteristic of the week under review. After receipt of the Niagara's advices, last Monday, holders extended a grater desire to realize, which increased on Tuesday and Wednesday, and resulted in a decline of ¼@¼d ⅌ lb on American descriptions without much swell ng the business. Being the inability of formal sales holds a yesterday assumed a firmer attitude, and quotations were advanced ⅛d ⅌ lb on account demand. The Trade take the fall supply out of the market; add consumption appears to progress on its largest scale, but appears find the price No. 10 Orleans long only to meet requirements answers so well that few are adding to their stock, and, in the absence of more speculative inquiry, accumulating imports press too heavily on relipt is of the staple, who are reality tied in their operations or the want of more ready banking facilities and discount accommodation. Strange as it may seem, with every element favoring the expansion of trade, there is not only a want of animation in the prospective market generally, with money at 3 per cent, and the promise of one of the finest harvests ever known, but prices are decidedly in favor of the buyer, and holders reserve so long complained of, still reigns supreme. The American advices have some influence in fostering this feeling, the probability of a second crop of Cotton being creating the present season's crop, and the possibility of our supply exceeding former estimates, inducing its adoption. With the actual deficiency in the Spinning and the tracky nature of a large portion of American on hand it is more likely that good working Cotton will become scarce than augment in stock before the new crop can reach us. Yesterday's improvement is fully supported to-day, and with sales of 10,000 bales—3,000 to speculators and exporters, the market closes with more regularity at a partial recovery of the decline submitted to in the early part of the week.

Monetary and Financial.

MEMPHIS DAILY APPEAL OFFICE,
FRIDAY, July 16, 1858.

ST. LOUIS.—From the *News* of July 15: We have no change to give in quotations for Exchange or for Money. Rates are very steady. The Banks are getting daily additions to their stock.

Specie.—From the *Press* of July 15: Exchange is not plenty, but the Bankers sell at former rates, viz: ¼ ⅌ cent, premium. There is rather more call for Gold. Sales 1,014 ⅌ cent.

CINCINNATI.—From the *Times* of July 10: The Monetary market is been and is still very easy for all legitimate purposes, and the Discount Room has been desirous to loan freely to their customers at 10@12 ⅌ cent. First class names can be passed at 8@10, but few of this kind are offering. Quotations can be made without the bankers and private capitalists as low as 8@8, but there are few applicants for money even at those rates. Call loans could be had at 6@7 ⅌ cent., but none wants them. A small demand is seen experienced for Currency, which has been in very large supply. Monetary matters are exceedingly easy and money is a drug. Capitalists have few opportunities such as they desire to make investments, and Money is accumulating every week at the banking houses, while the calls for it are diminishing. Eastern Exchanges have been firm but inactive.

NEW ORLEANS.—From the *Price Current* of July 10th: The monetary affairs continue to maintain an easy character, and the supply of money in the hands of the public is very ample. There has not been much activity in the market, however, for the reason that there has only been a limited amount of what is termed prime paper offering, and the demand for which alone there is any actual demand. As to the rates, we have no very particular change to notice. Good business paper is in request, and passes at 10@12 ⅌ cent according to the standing of the parties, and those not falling due till the spring, from 9@10 ⅌ cent. Call loans, on good security, are still first class short paper, 6@8, and for second class it is from 8@12 ⅌ cent, as to the parties. The banks are absorbing a very large amount of the paper offered.

Since the date of our last report all descriptions of exchange have been in very fair request. The advices have been somewhat limited and prices are in consequence rather firmer than when last noticed. The transactions in Bills on England have been to a small extent, owing to the small supply; and the high figure obtained by drawers. Still all bills payable on sales have found purchasers. We quote for sterling 9¾@10 ⅌ cent. premium, and those not falling due till the spring, from 9@10 ⅌ cent. Good class commercial drafts first class short paper, 6@8, and for second class it is from 8@12 ⅌ cent, as to the parties. The banks are absorbing a very large amount of the paper offered.

The smart was instantly mitigated, the pain vanished, and in very short time, all the pain was gone from the bruises. In two weeks I was well, and able to resume my business.

THE BLIND SEE!
WEBSTER CITY, Iowa, November 8, 1857.
Dr. BRAGG—Dear Sir: For more than three years I had been afflicted with inflamed eyes, in an aggravated degree, and tried many physicians, and several nostrums, to no effect: I was induced by Dr. Bacon to try the Arctic Liniment, and in two months was nearly well. My little daughter was afflicted in the same manner for the same time, and during a portion of the time was entirely blind in one eye. I applied your valuable Liniment, and her eyes are now perfectly sound. Thus have I, with one two-dollar bottle, cured my daughter's eyes and my own, besides curing the rheumatism in my back. I would not be without your invaluable remedy in my house.
Yours truly, WM RUSSELL.
WEBSTER CITY, IOWA, November 10, 1857.
I hereby certify that I am well acquainted with William Russell, and with the astonishing cure he mentions and know his statement to be strictly correct.
J. J. WADSWORTH, P. M., Webster City.
GOOD FOR ANIMALS.

This invaluable Liniment is also equally efficacious in curing the diseases of animals, as witness the following certificate: Messrs. J. A. Arnot, and Lynch & Co., keep the two largest livery stables in St. Louis, and are generally known throughout the United States.

We, the undersigned, having used Bragg's Arctic Liniment, for a number of months, cheerfully testify to its superior efficacy in curing the diseases of horses, as well as in the relief of the Arctic being the best Liniment made, that we would use no other. We keep and have kept for a number of years, extensive livery stables in this city, and consequently our experience about horses and their diseases is great, and we unhesitatingly say, that the Arctic Liniment is the best and most speedy and most always effective. We cordially recommend it to all livery stable keepers and others having the care of horses.
