MEMPHIS DAILY APPEAL OFFICE, THURSDAY, July 22, 1858.

COTTON.—No sales were made yesterday of special interest—rates unchanged. The *Messenger* had but 127 bales for New Orleans, yesterday.

From the New Orleans *Price Current* of July 17th: Our last weekly review closed upon a quiet Cotton market, though prices were rather in favor of buyers for the qualities below Middling. On saturday holders were offering little at still easier rates, but purchasers were found during the week, and on Monday, with the Fulton's favorable accounts at hand only about 1,100 bales were sold, prices showing no material alteration. The Condition of the Cotton crop published on Tuesday morning, but seemed to produce little effect on our market, the sales reaching barely 500 bales, but on Wednesday evening buyers came forward and took about 6,000 bales during the day, prices being firmer without any quotable alteration. Only a very limited supply of Cotton came into the market for Thursday's operation, and with extreme pretensions on the part of factors, the business of that day fell off to about 1,000 bales. Yesterday, however, some 3,000 bales were disposed of, making a total for the week of about 12,500 bales, taken for Great Britain, the Continent of Europe and the North. The market closes firm for nearly all descriptions, and especially for the middlingest better qualities, for which outside prices were paid, yesterday transactions above our figures. We, however, retain previous quotations.

The receipts at this port since our last quotation (Saturday) have been from Mobile, Florida and Texas, 1 at 1,561,990 bales, against 1,449,144 bales to same date last year, and the receipts at all the ports since all the ports, as shown by the latest dates as compared with last year, is 141,859 bales. In the exports from the United States to foreign countries, as compared with the same dates last year, there is an increase to Great Britain of 256,181 bales, and a decrease of 30,818 bales to France, and of 38,464 to other foreign ports.

LIVERPOOL COTTON MARKET.—Wright & Co's Circular, dated Liverpool, June 30, says:—We write by way of a month's report, by this mail. Our Cotton market is steady in price, with a fair business daily transpiring. The demand is principally on Spinners' account with some inquiry from Speculators; but the absence of speculation on a wider basis deprives the market of anything approaching to animation. Holders, though offering freely, generally speaking, still, and last Friday's full quotations are currently paid for all descriptions. If importers were afforded greater banking facilities than at present, we should experiment on shipping orders; for every element favors the expansion of trade, and it is pretty evident that we have attained the maximum rate of the year, and, as the days shorten, and more mistiness, the influence will be correspondingly impressive. Money matters call for no particular comment. The Mechanics market continues active, and, if it requires some stimulating influence to excite greater action in all departments. Opening in good Yarns are reported on a small scale, individually, but sum up extremely in the aggregate. Buyers seek to obtain concessions rejected by producers, who, as before, are firmly adhering to prices. Many are still working to order, and as the general opinion favors improvement, firmness is the ruling feature, though outsiders may be found willing to accept some trifling differences in order to secure contracts. There is more activity by to-day's report, at hardening prices.

Monetary and Financial.

MEMPHIS DAILY APPEAL OFFICE, THURSDAY, July 22, 1858.

NEW ORLEANS.—From the *Price Current* of July 17: We have little or no change to record in the out-door Money market since our review of last Saturday morning. Notes continue to be a very unpopular supply of money in the hands of capitalists, but owing to the comparatively moderate demand for it at this period of the season, and more especially to the scarcity of money in the country, and the rates generally have been a little firmer, with sales at a small advance in some instances. Sterling clear bills have ranged from 9¾@9¾ and 9¾, the last quoted rate for bankers' bills. There is a scarcity of bills with shipping documents attached. Some sales were reported yesterday at 10@¾. France may be quoted at 5 21½@5 18¾, but the range during the week has been 5 21½@5 17½. For domestic exchange the market has ranged from 1, 1¼, 1¾ and 1¾ cent, discount for sixty days' bills, ¼ @ cent. for thirty days' bills and par@¼ @ cent. discount for sight checks, the latter, Discount, claiming a fraction higher. The market closed to-day, however, rather lame.

NEW YORK.—From the *News* of July 17th: The demand for money continues low, and rates for its use are low to correspond, as the unemployed balances are very large, and the supply of money seems to be ample to keep up stock in the streets of New York in winter time. It is stagnant. The low rates of 5@6 ⅌ cent., at which it is now ruling, are for the best of paper. Discount rates are equally low, being 4 ⅌ cent. for prime six months' business paper, and 5@6 for shorter dates. The Exchange rates are 109¼@109¾ for sterling, 108¾@109 ⅌ cent. for bankers' bills, and 109¼@109 for commercial. Tennessee bonds were selling at 79.

Common Sense.

IN view of the rainy season this Fall, and in consequence a large portion of the South being inundated by the overflow of the Mississippi and other rivers, it is reasonable to suppose that a very unusual amount of misery in the country will, to a corresponding extent, suffer from the pestiferous miasma or miasma, which such a state of affairs will naturally produce, manifesting itself certainly and without fail in some one or more of the many diseases so common in the south during the Summer season. Yellow fever is yearly becoming more common in our country, and if not yellow fever, chills will be sure to take its place, to say nothing of the many types of bilious and typhoid fever, and fever and ague, which always claim their share of victims for the grave. In viewing these facts, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life; for this end, Dr. Hostetter has introduced to this country a preparation called HOSTETTER'S STOMACH BITTERS, which at this day is not a new medicine, but one that has been tried for years, giving not only satisfaction to those who have used it, but has increased in popularity and general favor throughout not only the Atlantic States, but California, Oregon, and all side on the Pacific; they have also been introduced into South America, Germany and other countries successfully. This great medicine has been commended by one who has a profound knowledge of the nature of disease, and it is specially designed to attack the insidious enemy in his stronghold. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action; and thus by the simple process of strengthening nature, enable the system to triumph over disease. Its adaptation to cure all affections of the digestive organs is peculiar to itself. Dizziness, dyspepsy or fine reality pull to the potent agency; also, debility, which is frequently
