From the New Orleans Price Current of July 31: Our last was by reason of being in a quiet Cotton market, behind generally advance in prices for the Middling and better qualities. This week the demand has been quite more limited, and although factors have leaned their pretensions more of the time, we have at the same time, lowered their figure, and we had only a very moderate business to report. The sales of the week have reached barely 4,500 bales, of which 1,000 bales were taken on Monday, 600 on Tuesday, 600 on Wednesday, 1600 on Thursday, and 1300 yesterday. Prices have generally tended in favor of buyers, and most of the business has been done at a reduction from our previous quotations, but with great irregularity in classification, as well as in rates, our figures have been mostly nominal. The demand for a few weeks past, as before intimated, has been principally from Liverpool and Havre, and the stock of those descriptions is greatly reduced, but there is still an abundant supply of inferior qualities on the market. Within the last few days there has been more inquiry for the medium grades of the business including a few prime cotton at prices ¼ c. long a decline of ¼ @ ⅛ c. ⅝ from the recent rates. We reduce our quotations for Low Middling and Middling to correspond with the business of the last two or three days. For other qualities the rates are nominal.

Two bales of the new crop, the first arrival this season, were received from Texas, one was from the western part of the State, and the other was from Columbus, Colorado county. The former was of good staple and color, fully developed and well stained, classed Middling, and was sold, under peculiar circumstances, at 12c. per pound, on Saturday, the 14th August, at Liverpool Middling, and was of good color and staple, was badly stained. It was to be forwarded to New York.

The receipts at this port since the 1st of September, inclusive of the arrivals from Mobile and Texas, are 1,007,24[illegible] bales, against 1,441,364 bales to same date last year, and 1,251,[illegible] bales to the corresponding date two years ago. The receipts at the latest dates are compared with last year, in 192,924 bales. In the exports from the United States to Great Britain, we find an increase of 170,[illegible] bales last year, there is an increase to Great Britain of 272,418 bales, and a decrease of 16,005 bales to France, and of 24,86[illegible] to other foreign ports.

From Wright, Junior & Co.'s Liverpool Circular of July 2: At the close of business last Friday our Cotton market presented a firm aspect, with a hardening tendency to prices. We have continued to hear complaints of a feeling, demand and prices. Stimulus led to some extent by the last received American advices, all classes of operators have manifested a disposition to buy, and the daily sales have averaged 7 @ 13,000 bales; holders have generally not pressed freely, but all quotations for cotton have been paid with no reluctance, and as our stock diminishes, and inspection are relieved, there will be less eagerness to purchase. It is not improbable that prices may exceed the recent extensive purchases, but as speculators have hitherto been comparatively idle, and expect to hold such to some of their requirements to cover orders in hand, and every element favors increased consumption. Now as has been the course of trade, general opinion seems rapidly expanding, and appears to be seeing that our total stock of Cotton is but little more than at the corresponding period last year, and the deficiency in the supply of Surats an important item, many are anxious enough to secure such suitable materials, even in prices, some to the extent of current quotations at this date in 1857, when Middling were 8 1-16 @ 8 and 7 15-16 @ 8 respectively and advanced to 9 3/4 @ 9 3/4, and 9 3/4 before the reactionary movement set in.

To-day's business is estimated at 12,000 bales, 4,000 to speculators and exporters, the market closing with a good tone at outside quotations, which are advanced ⅛ @ ¼ on those of last Friday.

The total sales of the week amount to 77,300 bales, of which 67,600 are American. Speculators have taken 10,700 and exporters 8,040, leaving 58,820 bales of all kinds to the trade.

The import for the same time is 47,797 bales, of which 44,664 are American.

The quantity known to be at sea from American ports is about 122,000 bales.

Monetary and Financial.

MEMPHIS DAILY APPEAL OFFICE, THURSDAY, August 5, 1858.

NEW YORK.—From the *News* of July 31: There are few bills offering for discount either at bank or at the brokers. The banks get their fair share of what is offered, notwithstanding anything to the contrary. The reason why there is rather less ease in the Money market not to be had. Rates are very at 3@6 per cent, with the above, six months paper business paper being usually taken at 5 @ 6 cent. Call loans are now at 3 @ 4 cent as the minimum, with few takers at that rate. Money is still superabundant. 2,000 Tennessee notes, 93 sold at 92¾c; 2,000 at 93c.

ST. LOUIS.—From the *Republican* of August 4: The banks are discounting very liberally, although it is stated that there is rather less ease in the Money market. Sight Exchange on the East continues firm at the premium noted in our last, while there is little doing in regard to the same rate. Currency is at 1 @ 2 cent. discount, and is scarce.

BOSTON.—The *Post*, in its weekly review of Boston and other markets, says: The money market has not to-day changed since our last, but we are satisfied that its tendency is towards somewhat higher rates.

CINCINNATI.—The *Gazette* of Saturday says: The market for Eastern Exchange continues to exhibit an improving tendency, and but little business is now transacted at below par rates. Orders have been received in this city and the leading drawers report a material reduction in their Eastern balances, within the last few days.

CYLINDER COTTON GIN!

AN Agency of this highly celebrated Cotton Gin has just been established at the store of D McCombs, 157 Main street, in this city, by Mr. R. C. Clarke.

The principal advantages of this Gin are:

1 It will not cut, break, or snap the staple, thereby enhancing the value of Cotton over the Saw Gin Cotton from ½ to 1 cent a pound.

2 It is practically ascertained that by giving it the same motive power given to the Saw Gin, it will produce from three to five bags per day, and is adapted to the same gearing, requiring no more power.

3 Planters need not be particular in gathering their Cotton, as it rejects bolls, sticks, &c., with the Seed without injury to the Gin or Gint.

4 The liability of injury to the operator while tending the "Saw Gin" is in this Gin entirely obviated—a property all who value good hands will appreciate

5 It is less liable to get out of repair or fall, and when dull, easily sharpened, simply by holding on the cylinder, while running, a small piece of grindstone.

6. Cotton can be ginned with this Gin in a much more damp state than is possible with the Saw Gin.

These advantages enable us to assert with full confidence, that no practical Planter can fail to see its superiority.

Planters will always find Mr. Clarke at 157 Main st. when the Gin will be put in motion and exhibited for them. Come and look.

Notice.

Webb & Rawlings, vs. Bernar. Before Hume P. Hill, J. P.
Bob. Chapman. Attachment against a non-resident

THE defendant will take notice that we have sued out an attachment against his property; that the same has been executed by seizing upon 13 hogs of mixed breed, and a carriage, and the same is now in the hands of Hume P. Hill, J. P., for Shelby county, for trial; that at the end of six months from this 20d July, 1858, we will attempt to try said hogs and carriage before the Justice of the Peace, at his office in the city of Memphis, when and where the said defendant is required to appear and defend his claim.

Radical Cures.

THE best evidence of the value of a medicine is, that it effects a radical cure and not merely affords a temporary alleviation of the disease. This is eminently the case with Dr. BRAGG'S ARCTIC LINIMENT, which therefore differs exactly from the quack nostrums so extensively advertised in the public prints. Dr. Bragg is a scientific physician, and his invention of the Arctic Liniment is founded on a twenty years' experience in the treatment of the disease for which it is intended. The first instance of its failing to cure has yet to be recorded.

Bragg's Arctic Liniment is for sale by all respectable Druggists throughout the country. ad4-dawtw

Hostetter's Stomach Bitters

ARE are now generally conceded be unequalled for their prompt action in alleviating and curing all diseases of the stomach. Their superior excellence and consequent renown is readily accounted for, from the well known fact that they are made under the personal supervision of the proprietor, a skillful and scientific practical pharmaceutic artiste. Its use is always attended with the most beneficial results, and in cases of Nervous Debility, Constipation, Flatulency, and other dyspeptic diseases, caused by a disordered stomach, its curative powers are of the most speedy and powerful character, and exceeds any other preparation of the same claims before the public.

For sale by Druggists, and dealers generally, everywhere.

DeGrath's Electric Oil

THIS celebrated remedy for Rheumatism, Gout, Neuralgia, Erysipelas, Eruptions, Sprains, Pains, Aches, &c., is manufactured only by Prof. Charles DeGrath, every where known as the original discoverer, at his old establishment, in Eighth street, below Chestnut, No. 29, Philadelphia.

N. B.—The sick, for their own safety, must avoid all worthless imitations and be sure that the one of which, the word consequence have followed so invariably, is not deceived into buying their. An article which is confessed, in the advertisement of it, to be only an imitation of Prof. Charles DeGrath's Electric Oil, is sometimes offered to the public by a person in this city, who pretends to have picked up a knowledge of the mode of preparing it, while in the employ of Professor Charles DeGrath.

This is an entirely unfounded pretension. A person who now advertises an imitation of the Electric Oil, was once engaged with Prof. DeGrath as a book-keeper and correspondent, and thus made himself known to some customers; but he never was entrusted with the manufacture of the Medicine, of which he is entirely ignorant. Of this person it is not necessary to say more at present, as, of course, no one will buy an imitation, when they can obtain the original, genuine article, by application to Prof. Charles DeGrath, at his long established office, No. 29 South Eighth street, a few doors below Chestnut.

This Great Remedy can be had of the agent here, CHARLES A. Co. Price, 25 cents, 50 cents and $1.

JOHNSON & JUST,
jun22 6m No. 3 Marble Block.

Doctor J White,

IN connection with his Cincinnati Medical Institute, has opened a Branch Office and Depot, for his invaluable Family Medicines, in Memphis, Tenn., on Union street, between Front and Main, where he may be consulted and his remedies dispensed, and he supplied to apothecaries, druggists and dealers in medicines on favorable terms.

In the employment of his remedies, the afflicted will quickly learn that they do not depress the system or vitalize it, but are constantly renovating the entire organism and building up and giving to the constitution and mind their youthful freshness, stamina and strength.

Dr. White's Cancer Ointment, is the delight of many families, on becoming acquainted with them, can no more think of being without them than they can think of doing without their bread, so useful and ready are they in relieving nearly every kind of disease—all injuries, aches and pains wherever located.

Dr. White's Pile Suppositories, and selling in specific harmony with Nature's laws, rarely fail, preserved in, to arrest and permanently cure the most complicated and formidable cases of Piles, Chronic and Acute. jun8-3m
