MEMPHIS DAILY APPEAL OFFICE, SUNDAY, August 15, 1858.

NEW YORK.—From the N. Y. *News* of August 10: The returns of the fifty-three city banks show an increase in loans of $1,062 401 in circulation of $176,050, in specie deposits of $995 085, average daily exchanges of $3,500,625; and a decrease of specie of $268,924, and of net deposits of $306,262. The great diff rence in the difference between the gross deposits of this and last week with those of the net, is owing to the great increase in the average daily exchanges. The falling off in the net deposits was expected, but not so the great increase in the bank loans as well as the circulation. This is concerning the course at both ends at once, and it continued in this will soon cause correspondent. This week the banks will lose much cash, on account of the new loan of ten millions awarded to day, the great bulk of which is given to home bankers and capitalists, little or none going to Europe. One hundred hear of $500 000 will come out of a hiding place, its owner being afraid to trust it to any bank. The money market, nevertheless, continues well supplied, with a very slack demand, and rates are easy; at 4@4½ c. for call loans and 4@5 ½ ct. for the discount of first class paper; second class, 5@7. 1,000 Tennessee 6's, 80 sold at 82 ½c.

Common Sense.

IN view of the rainy season this Spring, and in consequence a large portion of the South being inundated by the overflow of the Mississippi and other rivers, it is reasonable to suppose that the general health of the country will, to a corresponding extent, suffer from the peculiar atmosphere thus produced, which is a state of affairs will naturally produce, manifesting itself certainly and without fail in some one or more of the many diseases so common in the south during the Summer season. Yellow fever is yearly becoming more common in our country, and if not yellow fever, cholera will be sure to take its place, to say nothing of the many types of bilious and typhoid fever, and fever and ague, which always claim their share of victims for the grave. In view of these facts, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life; for this end, Dr. HOSTETTER'S STOMACH BITTERS, which at this day is not a new medicine, but one that has been tried for years, giving universal satisfaction to those who have used it, but has increased in popularity and general favor throughout not only the Atlantic States, but California, Oregon, and Islands on the Pacific; they have also been introduced into South America, Germany and other countries successfully. This great medicine has been compounded by one who has a profound knowledge of the nature of disease, and is perfectly designed to attack the insidious enemy in his stronghold. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus by the simple process of strengthening nature, enable the system to triumph over disease. Its adaptation to cure all affections of the digestive organs is peculiar to itself. Diarrhea, dysentery or flux, readily yield to its potent agency; also debility, which is frequently produced by the enervating climate of the South, is established by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent when taken in all its various forms, than any other; the cause of which may always be attributed to derangement of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS as per directions on the bottle, and in addition take a glass of cold water after rising in the morning, which will facilitate the cure. For this disease every physician will recommend Bitters of some kind, then why not use an article known to be invaluable? Every county has where the Bitters has a preference of disease and strengthening of the system in general, and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which has attended to advance the destiny of this great preparation in the medical scale of science. Further, any of the above stated diseases cannot be contracted when exposed to every ordinary conditions producing them. If the Bitters are used as per directions, a long experience has proved that it will effectually cure any case of dyspepsia which can be produced. This desirable result is obtained in a brief space of time. And as it neither creates nausea nor offends the palate, and rendering unnecessary any change of diet or disruption to ordinary pursuits, but promotes sound sleep and healthy digestion, the complaint is thus removed as speedily as is consistent with the production of a thorough and permanent cure. In fact, HOSTETTER'S STOMACH BITTERS are only to be tried for the numerous diseases for which they are intended, and which we heretofore named and our word for it they will be appreciated. The fact that several imitations have made their appearance in different localities, since the medicine was introduced, is a sufficient guaranty of itself that Hostetter's Stomach Bitters are undoubtedly appreciated by an afflicted public. Therefore, we caution the public against using any of the many imitations or counterfeits, but ask for HOSTETTER'S CELEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork.

The Drugs

COMMONLY administered to Fever and Ague patients, a severe purgative to the system, instead of cure the and strengthening; yet the nostrum devised by self-sufficient old women are not much better. Something is needed which shall be the product of profound skill in the healing art, yet beyond the ordinary routine of the profession. This desideratum is supplied by the distinguished Dr. J. Hostetter, whose Bitters take rank among the most wonderful medicines ever devised. Its effects are speedy and certain. Even the most settled cases of the disease yield to the tonic properties of the Bitters.
For sale by Druggists, and dealers generally, everywhere. anil-dtawsw

DYSPEPSIA AND FITS.
Dr. O. Phelps Brown,
THE great cures of CONSUMPTION, was for several years so badly afflicted by Dyspepsia, that for a part of the time he was confined to his bed. He was eventually cured by a prescription furnished by a young chirropodist girl. This prescription, given by a mere child, while in a state of trance, has cured everybody who has taken it, never having failed once. It is equally as sure in cases of Fits as of Dyspepsia. The ingredients may be found in any Drug Store. I will send this valuable prescription to any person on receipt of one stamp to pay postage. ADDRESS,
DR. O. PHELPS BROWN,

Radical Cures.
THE best evidence of the value of a medicine is, that it effects a radical cure and not merely affords a temporary alleviation of the disease. This is eminently the case with Dr. BRANDRETH'S ARCTIC LINIMENT, which thereby differs greatly from the quack nostrums so extensively advertised in the public prints. Dr. Brandreth is a scientific physician, and his invention of the Arctic Liniment is founded on a twenty years' experience in the treatment of the disease for which it is intended. The first instance of its failing to cure has yet to be recorded.
Brandreth's Arctic Liniment is for sale by all respectable Druggists throughout the country. and-dawtw
