# THE DAILY APPEAL.

WEDNESDAY..... SEPTEMBER 1, 1858

THEATRE.—We learn that Mr. Carter will open the theatre about the 20th, with a talented and attractive company.

SCHOOLS.—The public schools open on Monday next, when the long holiday of the boys and girls will come to a close.

THANKS.—Our thanks are due to J. R. KERR of the *City of Memphis*, for late New Orleans papers.

BOWERS' SCHOOL.—We publish this morning Mr. Bowers' advertisement of his school. His terms are moderate, and he is a teacher of great merits and ample experience.

☞ For sale, a small family residence, just outside of the corporation, immediately east of the Memphis and Charleston depot. A bargain will be given if application is made soon at the APPEAL office.

NOTICE.—Dr. THOMAS from New York, a very distinguished expounder of history and prophecy, will lecture at Odd Fellows' Hall, on Friday and Saturday nights; also, on Sunday night at 7½ o'clock, September third, fourth and fifth. Lectures free. sep1-4t

MORE NEW BUILDINGS.—We observe that there are several new buildings going up in the northern portion of the city, among the number of business houses a three-story brick on the north side of Adams street, between Main and Front Row; the property of MICHAEL EGAN. Mr. LEWIS GRANT is the contractor. Also a four-story brick building on Main street between Poplar and Washington streets. Mr. D. PANTE is the owner, and LEWIS GRANT, the contractor.

ROBBERY.—A negro girl, belonging to Mrs. YATES, was sent a day or two ago to work for the lady's brother, Mr. W. S. WALTON, who lives some six miles up the other side of Wolf river. On Monday the girl disappeared, and with her a valise was also missing, the property of Mr. WALTON, which contained $118 30 in money. Our police were informed of the fact, and officer LOWERY arrested her yesterday, who athe money was recovered.

WORNHAM HOUSE.—The attention of our readers is called to the full circular of this celebrated hotel, which appears in our columns this morning. The "Wornham" is one of the best hotels in the whole country, and we trust will be liberally sustained hereafter as heretofore. Property-holders in the middle and northern portions of the city should see to it that so useful, and, indeed, invaluable an "institution," is rendered permanent and enduring, and increasingly profitable to the high-minded, gentlemanly and noble-hearted proprietor.

THE SICK POOR.—Although we are providentially free in Memphis from any prevalent fatal disorder, there has been, since the late cold winds have prevailed, considerable sickness, though not of a serious nature. The consequence has been that for some days from five to ten application a day have been made to the Mayor for admission into the Hospital. For the last two or three days that admission could not be given, as the limited space in that institution is completely filled. We beg, for the sake of the poor thus left without aid, the kindly attention of the charitable. There is much room just now for the exercise of kindness, as the pastors of most of the churches in the city will testify.

ASH'S THEATRE.—We regretted to find yesterday morning that the press of matter had excluded a notice of the opening of Ash's Theatre by the gifted Weza Sisters, but the young ladies having performed last evening, we are better able to express our opinion of their merits. The young ladies are strangers in Memphis, this being their first appearance here, but they are by no means strangers to fame. They have appeared in some of the first theatres in the United States, and everywhere won applause. They were welcomed last evening by a large and very fashionable audience. We have been so long without amusements, and the nights are now so cool as to allow of attending the theatre with pleasure, therefore the fair, the fashionable and the gallant turned out, and their frequent and prolonged applause told how greatly they were delighted. The Weza family deserve, and we doubt not they will achieve as great success. The bill to-night is an excellent one, as will be seen by referring to our advertisement column.

BRIDGE BROKEN DOWN.—We some months ago called attention to the fact that the bridge over the bayou below the gas works was in a precarious condition. Since then, there has been the back water from the Mississippi and the great flood on the bayou to still further injure the crazy, miserable structure. Notwithstanding all this, our city authorities suffered it to remain, to the great danger of human life. Yesterday the concern gave way but by a merciful chance no life was sacrificed. In the morning at half past ten o'clock a negro with a wagon load of wood, drawn by steers, went on the bridge and a lot of twenty-five cattle, driven by the owners, CHAS. NILE, JACOB BENTLEY and a third gentleman, passed on it at the other side. The approach of the wagon caused the cattle to collect together, the consequence was, that some twenty-five feet of the bridge fell, carrying with it steers and cattle. Fortunately the drivers, CHAS. NILE, JACOB BENTLEY and a third gentleman, passed on it at the other side. The approach of the wagon caused the cattle to collect together, the consequence was, that some twenty-five feet of the bridge fell, carrying with it steers and cattle. Fortunately the drivers of the wagon gave way, leaving the pole projecting four feet over the chasm and the negro sitting—a most terrified negro he was—upon the load of wood. None of the cattle were killed, but some of them had their horns knocked off and received other severe bruises and wounds.

FATALLY WOUNDED—A STRANGE OCCURRENCE.—Early yesterday morning a man named ANTHONY STROUP, a carpenter of German descent, who came to this city from New York State, and who was boarding at the Exchange Hall, kept by Mr. NEWMAN in Exchange Building, Front Row, was found lying in a dying condition, opposite his boarding house. His head was hurt and bleeding, and shreds of hair, to some of which the skin adhered, were lying about the spot dabbled in blood. Dr. HARTZ was sent for, who discovered on probing the wound, which was not done till evening, that the man's skull was completely broken in over the right ear. The man went out after supper the previous evening and was not again seen at the boarding house during the night. A fellow boarder named FRED. DAVIS, who had been out drinking during the night, and who was sitting at the door step in the morning before dawn, he thinks probably at about four o'clock, states that he remembers that a four wheeled wagon, drawn by one horse, came up. The driver stopped opposite him, took out a man from the vehicle, laid him down on the ground where STROUP was found and then drove off. DAVIS says he was too much intoxicated to be struck by the singularity of the proceeding, and he went to bed leaving the man lying upon the ground.

On the first discovery of the man it was supposed that he had fallen from the awning above, but the scattered hair, and the story told by DAVIS make such a supposition unlikely, besides, the landlord, NEWMAN, states that he could not have reached the awning without jumping from a window. We were sorry to learn, last night, that our police had accepted the supposition of falling from the awning as a fact, without investigation, and that the day passed by without any search into the matter. We hope diligence will be used to bring the criminal to justice, if a crime has been committed, which seems extremely probable. STROUP, we learn, was an extremely quarrelsome man when in liquor, though the reverse when sober. The last we ascertained by our inquiries was that he had been drinking at the Apollo Hall, which place he left soon after nine o'clock in company with another man. He was not then intoxicated, but appeared to have been drinking. The Doctor states that recovery is impossible.

*To the Editors of the Memphis Appeal:*

The papers of yesterday morning informed the public that I was fined by the Recorder of Memphis for riding at a rapid gait through the streets. The truth is, that I am working with my mules, carts, &c., for Mr. Greenlaw, who is the contractor for grading the streets of Memphis; while engaged at my work I was informed that one of my hands had been arrested by a police officer for rapid driving in the streets, and my mule and cart (driven by him) were tied at the Exchange Buildings. Upon this information, I mounted my horse and rode to the Recorder's Court Room, where I was myself arrested, and the boy who drove my mule and cart was fined, as well as myself, for the alleged offense of rapid driving.

Messrs. Editors, can you inform me how it is that two men can be fined for an offence, alleged to have been committed by one only?

T. SOGAR.

RIVER.—The Cairo *Gazette*, August 28th, says:

"Boats have been scarce in the New Orleans trade, not enough running to keep our wharf-boats and levee free of freight."

## Port of Memphis.

RIVER NEWS.

The river is still falling. The levee yesterday was a solitude, not one running boat lay at the landing, for it so happens that we have not a single packet boat goes out on Tuesdays, and there was but one arrival from Sunday night up to last night at dark, when the City of Memphis from New Orleans for St. Louis came in.

To-morrow at 5 o'clock the splendid St. Louis packet boat Lucas, Capt. Silvey, leaves for that city. The Lucas is a really fine boat and was the first one that opened the present successful and popular St. Louis packet line. Persons intending to be present at the great Agricultural Fair, should not permit the opportunity of taking an agreeable trip on the Lucas to pass.

The Hickman is advertised for Cincinnati at 3 o'clock this afternoon. Capt. Pepper is unexcelled for attention to his passengers, and the boat was built expressly for a low stage of water.

The Langley, Capt. Worman, leaves at 3 o'clock this afternoon for Napoleon. It will be sufficient to say that she carries the mails, calls at all the intermediate points, keeps a good table, and has the most obliging officers possible.

BEATING THE ATLANTIC CABLE.—Owing to the great difficulty of taking a first rate picture of a bright eyed baby, VARALLO, after much labor has discovered a new agent that will take a picture of those blessed babies, in little less than "no time," thereby beating the speed of the fluid that flashes through the whole length of the Atlantic Cable by a fraction; and as "wild cats" got average lately, biting every one that handled them, he is disposed to take good bankable money "at par," and having a feible for gold and silver, he will take the same "without discount" and give you in exchange a fine picture of those "dear ones" that will neither "fail or break." Remember the Star Gallery, No. 202, Main street, three doors north of Clark's Marble Block.

THE UNION
PATENT CIRCULAR MILL!
Cuts from 10,000 to 12,000 feet of Lumber per Day of Twelve Hours!

WE are at length enabled to inform our numerous customers that we have so perfected, by new important improvements, the Union Circular Saw Mill, that we have no hesitation in pronouncing it to be equal to anything yet offered the lumberman. Strong and well made, having about double the stock of wood and iron work in the same class of mills. Its superiority has shown to that if we want a first class mill, it can only be had by a liberal outlay of labor and material. The rollers for carriage are planed, and the ratchet and pinion complete that the log is made to move in a true line, easy and without play. The saw shaft is set up in the best style, with a hanger to each end of the saw, so there is neither vibration or healing of shaft.

The improved Blast Blower we have introduced continues the highest praise of practical sawyers. A large saving of time with increased efficiency and strength are combined in this superior Saw Mill. We will not be guilty of appealing extravagant, say how much longer we have on hand. It is necessary help to handle a large amount of lumber, we can saw double the hour of poplar, pine, walnut, &c., can be sent without taking the full capacity of the mill.

In offering these improved circular mills to the trade we do not expect to compete in price with other parties who build circular mills without regard to convenience, style or durability. Still we offer them at a price we can manage to be afforded, considering the amount of labor and material used in them.

The following are our lowest cash prices, which include 24 feet carriage and main belt, with engine and boiler of 15 and 25 horse power; and all other fixtures complete.

45 in. mill and engine, 8 in. cylinder, 16 in. stroke boiler, double flued 28 ft. long, 42 in. diameter, and all fixtures ready to set up $1,800

COMBINATION PATENT
Upright Steam Saw Mill.

THIS MILL is fast coming into use in every section of the country. It has received the approbation of several thousand experienced lumber manufacturers, and is pronounced by all who have examined its operation to be the most simple, efficient and practical machine for the purpose ever produced. NASHVILLE, TENN., March 8, 1858.

BRAGG & BURROWES—Gentlemen: I put one of your combination patent mills in operation and are well pleased with it. We can saw from 8,000 to 2,500 reet inch boards in twelve hours, and make the best lumber that can be sawed. We have been running some three weeks, cutting white oak, black oak and poplar, and have never cut a cracked board yet. We have had at least one hundred persons to see it since we started it, and all believe give it up to be the best mill they ever saw.

We furnish either Locomotive or double-flued Boilers as parties prefer, without any extra charge.

Steam Engines and Boilers.

We are now manufacturing to order first class engines from new patterns of approved construction, and workmanship. Our engines have been designed expressly to meet the wants of saw mills, combining simplicity, strength and completeness of outfit in greater perfection than is usual in the trade. Our cast iron beds are of a novel construction, giving lightness and strength combined. Our Boilers are of the best quality, and are sent in all cases. We have a variety of sizes, and are furnish at short notice from 5 to 50 horse power steam engines and boilers.

Mills and engines complete, shafting, pulleys, gearing, &c., supplied at short notice.

Orders solicited.

Land for Sale.

I HAVE for sale two tracts of Land, a section in one mile from Canton on White river, adjoining a plantation I have just sold to Jas. Brobson, of Memphis—the improvements have cost more than the land, and twenty feet above overflow. The other, two miles from Aberdeen on the stagecoad to Little Rock; has 160 acres of in 6 in cultivation, 400 in all. Improvements are good, with a dwelling, negro cabins, &c. Jas. B. Lyshon, of Memphis, or J. J. Turner, near Canton, will give any information wished.

## Monetary and Financial.

MEMPHIS DAILY APPEAL OFFICE,
WEDNESDAY, September 1, 1858.

NEW ORLEANS.—From the *Picayune*, August 28: In Money shifts the record of the week in a narrow one. There is scarcely any paper offering out of doors and prime 6 sorts[illegible] at suitable maturities are freely taken at 7@8 p ct. Acceptances at long dates, say nine to twelve months, can be passed at 8@9 p ct. The banks have a large surplus to which they cannot find Southern outlet, but when instances in exceptional, as they pick in a few ex ks, it will all be wanted. Foreign Exchange has somewhat stiffened this week and we now quote good to prime Sterling bills 109@109½. Q bey drafts would bring 108 c@108½. For France there is but little inquiry, and rates stand at 5f 15@5f 12½. Sixty day bills on New York are rather heavy, at 1 ⅛@⅜ p ct discount, though protested and selected names command 1 ⅛. Sight was somewhat lower to-day, say ⅜@⅝ p ct discount, and the tendency is to a further decline. The business in uncurrent funds calls for no remark. It is, of course, very limited, and confined to retail transactions.

## Special Notices.

Common Sense.

IN view of the rainy season this Spring, and in consequence a large portion of the South being inundated by the overflow of the Mississippi and other rivers, it is reasonable to suppose that the general health of the country will, to a corresponding extent, suffer from the prevalence of malaria, which such a state of affairs will naturally produce, manifesting itself certainly and without fail in some one or more of the many diseases so common in the south during the Summer season. Yellow fever is yearly becoming more common in our country, and if not yellow fever, cholera will be sure to take its place, to say nothing of the many types of bilious and typhoid fever, and fever and ague, which always claim their share of victims for the given. In view of these facts, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life; for this end, Dr. Hostetter has introduced to this country a preparation called HOSTETTER'S STOMACH BITTERS, which at this day is not a new medicine, but one which has been tried for years, giving not only satisfaction to those who have used it, but has increased in popularity and general favor throughout not only the Atlantic States, but California, Oregon, and Islands on the Pacific; they have also been introduced into South America, Germany and other countries successfully. This great medicine has been compounded by one who has a profound knowledge of the nature of disease, and it is especially designed to attack the insidious enemy in his stronghold. The Bitters operate powerfully upon the stomach, bowels and liver, restoring them to a healthy and vigorous action, and thus by the simple process of strengthening nature, enable the system to triumph over disease. Its adaptation to cure all affections of the digestive organs is positive and proof. Weakness of the stomach, giving it strength to its potent agency; also, debility, which is frequently produced by the enervating climate of the South, is unlabled as a first one of this preparation. Dyspepsia, a disease which is probably more prevalent when taken in all its various forms, than any other; the cause of which may always be attributed to derangement of the digestive organs, is eradicated by the use of this invigorating HOSTETTER'S STOMACH BITTERS as per directions on the bottle, and in addition take a glass of cold water after rising in the morning, which will facilitate the cure. For this disease every physician will recommend Bitters of some kind, then why not use an article known to be infallible? Every country have their Bitters as a preventative and for the strengthening of the system in general, and among them all stands HOSTETTER'S as more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which has attended to advance the cause of this great preparation in the medical scale of science. Further, any of the above stated diseases cannot be contracted when exposed to any ordinary conditions producing them. Hostetter has introduced to the American people a remedy which has proved that it will effectually cure any fever or dyspepsia which can be produced. This desirable result is obtained in a brief space of time. And as it neither creates nausea nor offends the palate, and rendering unnecessary any change of diet or interruption to business pursuits, but promotes sound sleep and healthy digestion, the complaint is thus removed as speedily as consistent with the production of a thorough and permanent cure. In fact, HOSTETTER'S STOMACH BITTERS are only to be tried for the numerous diseases for which they are intended, and which we heretofore named (see our word for it, they will be appreciated). The fact that over one hundred bottles have been made their appearance in different localities, since the medicine was introduced, is a sufficient guaranty of itself that Hostetter's Stomach Bitters are undoubtedly appreciated by an afflicted public.

Therefore, we caution the public against being any of the many imitations or counterfeits, but ask for HOSTETTER'S CELEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork.
