THE DAILY APPEAL.
THURSDAY.....SEPTEMBER 9, 1858.

THANKS—For late papers, we thank M. M. TEMPLE, Esq., of the *Sun Franklin*.

FINE FURNITURE AT AUCTION.—G. B. LOCKE & Co. will sell, to-day at 10 o'clock, at their auction rooms, a large lot of fine furniture.

COUNCIL MEETING.—Council will meet again to-night at half-past seven o'clock—speaking and fire water as usual—the public freely admitted, and seats provided for them, at the Council room, Exchange Buildings.

JOHN ABLE.—Owing to the attentions of the jailor and assistants, and to a liberal administration of brandy and laudanum, JOHN ABLE had a refreshing sleep yesterday morning, since which time the mental and physical excitement he labored under has abated.

THE WEATHER.—The weather was very warm yesterday but a pleasant breeze tempered the sun's heat. Dust is again uncomfortably plenty in the streets but the sprinklers faithfully keep it down in the principal streets.

THAT VISIT.—At 8 o'clock on Saturday morning City Council and the City Press visit, by invitation, the gravel works of Mr. GREENLAW. It is whispered that the occasion will be a spicy one, and that Aldermen will do as all Aldermen have done to all time past, spite of the gout and extended corporations.

HOW IT WAS DONE.—On Tuesday night Council authorized the filling of Union street from DeSoto street to the bayou: on Monday morning a posse of men shovelled into carts the soil that had accumulated on the sides of the street below DeSoto, during the mud inundation, being in fact the soil with which the street had been originally rounded. What will the city have to pay for this removal of its own soil?

STEAMBOAT SUNK.—At three o'clock yesterday morning the steamboat Laughlin, which had been employed to tow GREENLAW'S gravel boats to the city, sunk at its landing near the foot of Jefferson street. From what we hear it appears probable that the boat became water logged from leakage. It lies in forty feet water at an angle of forty-five degrees, the bow being kept up by the rope that fastens the boat to the shore.

ELECTION OF DIRECTORS.—An election of Directors of the Memphis and Charleston Railroad was held yesterday in Memphis and in Huntsville. There were nine Directors to elect and ten candidates. The following gentlemen were elected: Sam Tate, George P. Bierne, Wm. Echols, J. J. Donegan, C. W. Hunt, R. M. Patton, Wm. Dickson, R. C. Brinkley and Q. C. Atkinson. The first eight of these gentlemen received each 23,414 votes. Mr. Atkinson received 22 185 votes, and J. R. Moseley, who failed to be elected, 229 votes.

ASH'S THEATRE.—At this place of amusement the WEBB Family will, this evening, present one of the most attractive bills of the season, the pieces are well calculated to exhibit the powers of these talented performers. To-morrow night is set upon for the benefit of Miss EMMA WEBB, when the great and favorite tragedy of *Evadne* will be performed. Mr. D. T. ASH, the old Memphis favorite, will appear, and Mr. JAMES JOHNSON, the celebrated banjoist has volunteered an exhibition of his extraordinary powers.

RECORDER'S COURT.—Peace and good order reigned in the city yesterday, and the reporter's investigations—although as commendable as charity—were as unprofitable as sin. With a murder or two, a case of outrageous cruelty, a mysterious disappearance, a bold burglary, and a case of shocking destitution, our columns would be "spicy," and give a flavor to the coffee and a zest to breakfast; but as we have only peace and quietness to record, we shall be compelled to submit to the verdict of "insipid and uninteresting." For an enemy, Satan is wonderfully useful; the more active he is, the more pungent and fascinating the newspapers become—"true 'tis pity, and pity 'tis, 'tis true."

FINANCIAL.—At the last meeting of the City Council, as well as at every previous one for a long time, useful measures, the necessity of which every member acknowledged, were staved off by the stereotyped cry—"the low condition of the city treasury." As the ominous words are uttered with a sigh and a groan by one member, they are taken up by the rest, and in low and despairing tones, with passing melancholy visage, everybody echoes: "The low state of the treasury." Does one out of all the members know—except in general terms—what these words, reported parrot like, really mean? How much money is there in the city treasury? How much is spent—how much borrowed—how much received, from one regular meeting of the Board to the next—does a single member know? It is singular that sixteen business men should meet twice a month, and vote, or refuse to vote money away for important purposes, while they are utterly in the dark as to the condition of the fund which the money is to come from!

THE CITY RAILROAD DEBT.—The Mayor on Tuesday evening presented the following communication to Council for their approval, which approval was given and the letter was yesterday forwarded to the Directors to whom it is addressed:

MAYOR'S OFFICE, MEMPHIS, September 7, 1858.

To the President and Directors of the Memphis and Charleston Railroad:

GENTLEMEN: The city of Memphis, during the past eight years, has aided the various railroads leading into her limits to the amount of nearly $1,500,000. The annual interest accruing on her bonds issued for railroad purposes, is large in amount; and this, with other necessary expenditures, make it necessary to impose a heavy tax upon our citizens. The city owns your company about $40,000 with its great for several years. She has $500,000 worth of stock in your company, besides being entitled to dividend stock to a large amount.

I propose that your company shall appoint a committee, to confer with a committee on the part of our city, as to the terms upon which you will buy the stock the city owns in your company, payable in city or in your time bonds. The city has accomplished what she desired in subscribing to aid in the construction of your great road, and she now desires to change her interest from stock to bonds, in order to somewhat relieve us of the heavy railroad debt upon us. Asking an early action upon this subject, I remain, very truly, &c.,

R. D. SAUGH, *Mayor.*

COUNCIL SPEECHES.—It is agreed on all hands, that our City Council talk too much. The President, *pro tem.*, Alderman Eider, who makes a most estimable and able director of the Board's deliberations, frankly said more than once at the last meeting: "Gentlemen, we have work to do, and the time is passing in talk." Some of the members amplify and illustrate in their speeches, as if they had enemies to demolish, instead of men to convince who are as ready to accept the truth as they are to present it. In the Board, members are not in the position, for the most part, of persons having to make out a case against opposing Council; they are simply required to present facts; if they do so clearly and tersely, they will, as a consequence, do so vigorously and effectively. If the talking against time continues, the reflecting and working members and the President will have to strictly enforce the rule which forbids any member to speak more than twice on the same subject, or to speak more than ten minutes at any one time. That this latter rule may be the better observed, Council should have a clock in the Council room; that instrument is an excellent regulator and monitor to men of many words.

Investigation Meeting.

At a meeting of a committee from each of the Fire Companies, held in the hall of Fire Company No. 4, the following resolutions, offered by Capt. BAXTER, were unanimously adopted:

Resolved, That the Mayor be requested to lock up the Engine Houses No. 1 and 6 until after a trial.

Resolved further, That the Fire Committee of the Board of Aldermen be requested to summon the officers of the above companies, with their witnesses, before them, and, after a fair and full investigation of the facts, shall reprimand, suspend from duty, or, in case the guilt can be settled upon any individual members, to request the expulsion of such from the Fire Department.

In case the fire company do not respect the decision of said Fire Committee, that the Board of Aldermen be requested to disband said company and close the engine house.

(Signed,) J. R. CHADWICK, *President.*
S. H. WHITSITT, *Secretary.*

It was also signed by representatives from the several companies, as follows:

H. H. Paynter, B. F. Miller, No. 1; I. N. Henkel, H. P. Johnson, Lewis Amis, Jr., No. 3; W. P. Kehoe, J. D. Danbury, No. 4; S. H. Whitsitt, J. C. Hoist, No. 5; John Davis, No. 6; J. H. Edmonson, A. C. Worzback, Hook and Ladder; R. P. Miller, F. W. Arth, No. 7.

The investigation mentioned in the above resolutions will take place in the Common Law Court room at 4 o'clock this evening, and the officers of the several companies are requested to be present with all the testimony they are in possession of.

F. M. COPELAND,
Of Committee on Fire Department.

Port of Memphis.

Arrivals and Departures
WEDNESDAY, Sept. 8, 1858.

Diamond, Louisville to Memphis.
Stephen Decatur, St. Louis to New Orleans.
Alock Scott, St. Louis to New Orleans.
Kate Frisbee, Napoleon to Memphis.

River News.

The river fell over seven inches during the 24 hours ending last night. But a very mode rate amount business was transacted at the levee.

The superior steamboat Lucas is at the landing taking on freight and passengers for St. Louis, for which place she leaves at 6 o'clock this evening, the enterprising Captain Silver in command. The Lucas is a first class boat, and the traveler cannot run up the river with more pleasure to himself than on board her.

The handsome and successful packet Garvin is the Vicksburg packet for to-morrow.

Kate Frisbee, the highly popular Napoleon packet, carrying the mails, is now loading for that city, she leaves at 3 o'clock to-morrow afternoon.

FILL IT.—There is an abominable hole in the pavement of the south side of Union street, above Third, in which the largest hogs wallow; it is a nuisance, and on dark nights a dangerous one, yet it has been in that condition for two months.

New Spring Goods!
At Reduced Prices.
JAMES A. STREETT & CO.
Are now receiving a full stock of SPRING AND SUMMER FANCY AND STAPLE DRY GOODS, embracing all the novelties of the season. Fancy Silk Dress Goods, 50 per cent less than former prices. Monetary and Financial.

MEMPHIS DAILY APPEAL OFFICE,
THURSDAY September 9, 1858.

NEW YORK.—From the N. Y. *News* of Sept. 4: The movement in financial circles continues of the most long to hand as it has been during part to the waste of the times. The West is sure to run of money, and cannot spare credits on New York in the extent it used to distribute. Southern and Western dealers in money for short investments are cautious, while there is not so much disposition to invest for long periods—that is over six months. Loans are offered freely at 3 to 4 ½ cent. And business paper is in good request at 4@5 ½ cent. Prime grades, at 1 date, and 6@7 for second-class indorsers and state names.

Ten thousand Tennessee Bonds sold at 80¼.

There is more activity in foreign exchange. Some drawers of sterling are asking rates above the market—to 109@110½ without sellers at the backed asking being at 109¾, at which there is a ready equal to the demand.

NEW ORLEANS.—*The Picayune*, of Sept. 5, says: We close the week with a more cheerful and hopeful feeling than was evinced at the opening. Trade is beginning to revive, and in a few short weeks our business transactions will exhibit their wonted activity. Already the life is setting in fast, though not so rapidly as we hope to be partially repaired by the sickness that prevails, but which has now reached its culminating point. There were some operations to-day of a large character, for cash at 60 days, the longer dated, to not prime at 10 A round amount of such paper, for next season's and fall, was placed at 8@9 ct. The offerings of short paper in bank are still moderate. The bank statement for the week shows a general increase in all departments excepting exchange.

Special Notices.

Common Sense.

IN view of the rainy season this Spring, and in consequence a large portion of the South being inundated by the overflow of the Mississippi and other rivers, it is reasonable to suppose that the general health of the country will, to a corresponding extent, suffer from the pestilential malaria or miasma, which such a state of affairs will naturally dispose to, manifesting itself partially and without fail in some one or more of the many diseases so common in the south during the Summer season. Bowel fever is yearly becoming more common in our country, and if not yellow fever, cholera will be sure to take its place, to say nothing of the many types of billious and typhoid fever, and fever and ague, which always claim their share of victims for the grave. In view of these facts, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life; for this end, Dr. Hostetter has introduced to this country a preparation called HOSTETTER'S STOMACH BITTERS, which at the day is so universally known, and so highly esteemed by those who have used it, but has increased in popularity and general favor throughout not only the Atlantic States, but California, Oregon, and Islands on the Pacific; they have also been introduced into South America, Germany and other countries successfully. This great medicine has been compounded by one who has a profound knowledge of the nature of disease, and it is especially designed to attack the insidious enemy in his stronghold. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus by the simple process of strengthening nature, enable the system to triumph over disease. Its adaptation to cases of affections of the digestive organs, peculiar to itself. Diarrhœa, dysentery or flux readily yield to its potent agency; also, debility, which is frequently produced by the enervating climate of the South, is established by a trial use of this preparation. Dyspepsia, a disease which is probably more prevalent when taken in all its various forms, than any other; the manner in which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS as per directions on the bottle, and in addition take a glass or cold water after rising in the morning, which will facilitate the cure. For this disease every physician will recommend Bitters of large kind, then why not use an article known to be infallible? Every country have their Bitters as a preventative of disease and strengthening of the system in general, and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which has attended to advance the destiny of this great preparation to the medical world of region, Fever, Ague, and the above stated diseases cannot be contracted when exposed to any ordinary conditions producing them. If the Bitters are used as per Directions, a long experience has proved that it will effectually cure any case of dyspepsia which can be produced. This desirable article is obtained in a brief space of time. And as it neither creates nature nor effects by stimulating or rendering unnecessary any change of diet, or interruption in usual pursuits, but promotes sound sleep and healthy digestion, the complaint is thus removed as speedily as is consistent with the production of a thorough and permanent cure. In fact, HOSTETTER'S STOMACH BITTERS are only to be tried for the numerous diseases for which they are intended, and which we heretofore named and our word for it they will be appreciated. The fact that over one hundred imitations have made their appearance in different localities, since the medicine was introduced, is a sufficient guaranty of itself that Hostetter's Stomach Bitters are undoubtedly appreciated by an afflicted public.

Therefore, we caution the public against using any of the many imitations or counterfeits, but ask for HOSTETTER'S CELEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork.

Sold by all druggists and dealers generally throughout the United States and Canada, South America, Germany and other countries. HOSTETTER & SMITH,
