THE DAILY APPEAL.

FRIDAY.....SEPTEMBER 17, 1858.

THANKS.—For late papers we thank W. H. SCUDDER, of the *Falls City*.

☞ Our thanks are tendered to Mr. J W. YEATMAN for a New Orleans paper of the 13th inst., by the *Wm. Garvin*.

TOO YOUNG.—In reply to an inquiry, why the Atlantic telegraph remained so long silent?—we yesterday heard an Irishman say it was too young yet to talk much in public.

GOOD PICKING.—The overseer of E. NUNNELLY, Esq., near Water Valley, Miss., picked 406 pounds seed cotton one day last week. Good picking that for the season.

THEATRICAL.—JOHN DREW, the best living delineator of Irish character, and one of the best actors on the American boards, is playing an engagement in Nashville. MURDOCH is playing at the Louisville theatre.

MENDING.—It is with pleasure we announce, on the authority of the *New Orleans Crescent*, that the times are mending. That paper in its issue of Saturday last says in the first line of its first local item: "Yesterday was a little better than the day before." May the improvement among the days be progressive!

THE STREETS.—The streets just now are dust depositories on a large scale. In the business portion of the city, the street sprinklers render good and acceptable service, but in other localities each passing vehicle raises a cloud that meets with anything but a welcome reception, especially from the ladies.

☞ G. B. LOCKE & Co. will lease on the premises in the Navy Yard, this day, at 9 o'clock, all the houses and lots not settled for. They have all been heretofore leased and not settled for. In order to prevent a similar occurrence, purchasers will be required to execute, as soon as the lots are struck off, notes satisfactorily indorsed, for two years of the lease. We have no doubt the lots will lease very low.

RECORDER'S COURT.—The Recorder's place of business was badly patronized yesterday; five cases summed up his whole docket. Not one of the five cases offered an item to the inquiring local. Useful knowledge does not always follow pursuit, even when the pursuit is made under difficulties, as it always is by the local, in consequence of his being continually troubled with heavy wants and empty pockets.

SCARCE.—Old maids with good tempers, boarding-school misses without beaux, Irishmen without the brogue, Mississippi water without mud, sensible Know-Nothings, honest gamblers, rational spiritualists, clean pigs, honest lawyers, and sound backs, are all scarce things; but not one of them is scarcer than local items were yesterday in Memphis.

MUSIC! MUSIC!—The winter is approaching, and it is time to prepare fireside occupations for the long, cosy evenings—what can equal the resources of music for this purpose? At MCCLURE'S large new store at No. 350 Main street, below Union, will be found all that can be wanted in this line—pianos, violins, harps, melodeons, flutes and accordeons, all are there in quantities for choice, and of the best quality. His stock of select music is large and well selected, and we especially call the attention of the ladies to it. We assure them that all the charms of a dry goods store are inferior to the delights of turning over McCLURE'S music portfolios.

STATE FEMALE COLLEGE.—We have pleasure in directing public attention to the State Female College, at Greenwood, two miles southeast of the city, occupying a healthy, rural, and agreeable location. S. G. STARKS, Esq., is the accomplished President, and there are no less than six ladies and six gentlemen of high talent and ample experience engaged to give instruction to the pupils. The first session commences on the 4th of October, and those having daughters or wards to educate are recommended to examine the claims of this institution by addressing the President. An advertisement in another column gives further information respecting this excellent college.

RETURNED.—M. W. CANNING, the efficient treasurer of Crisp's Gaity Theater, in this city, has returned from his trip to the East, whither he went for the purpose of engaging a company for the approaching theatrical season. We learn that he has perfected the necessary arrangements, and that our beautiful theatre will shortly be opened for the public amusement with a full corps of accomplished artistes, of which due notice will be given through the press. Our theatre-goers will hail this announcement with pleasure. We have had a long dearth of amusements, and anything good in the theatrical line will be received with quite a relish. Hurry up the cakes; the public is an hungered.

☞ The fever holds in way, says the New Orleans *Crescent* of the 13th inst., with unmitigated severity. The fluctuations of the week past have not been such as to enable us to announce any positive decline. For the twenty-four hours ending Friday noon, the mortality by fever, as reported by the Board of Health, was 85; and for the twenty-four hours ending Saturday noon, 70. For the week between Saturday noon and Sunday morning, we find an increase of 50 over the mortality for the week ending Sunday morning, 5th inst.

ABOLITIONISM A DISEASE.—The Boston *Courier* expresses itself on the subject in this wise:

"One of the most interesting and instructive facts in the history of the human race is the recurrence, from time to time, of diseased delusions of the public mind, constituting moral epidemics, which infest society with moral delusions, just as its physical conditions is occasionally distributed by infectious or contagious distempers. Whenever one of these moral epidemics seizes upon the public mind it becomes morbidly sensitive on some specific subject; it runs into the most pitiable extravagances; it seems to lose all sense, reason, and judgment; it exhibits the symptoms of temporary delirium. The prevailing excitement in the Eastern States, in regard to the negro race constitutes a striking illustration of these intellectual epidemics, and one which in future times will be looked back upon with the same mingled sorrow and amazement with which we at this time regard the witchcraft mania of the old colony of Massachusetts."

THE PEACE WITH CHINA.—The London correspondent of the New York *Commercial*, writing of the effects of the peace in China, says:

"It produced a further slight rise in the funds and considerable depression in the Exchange market; although the holders have firmly resolved to await further advices, and meanwhile not to submit to any heavy reduction. The silk market has not been materially affected. It previously exhibited a tendency to firmness, which has since been in no way diminished. In the Liverpool cotton market the tidings naturally occasioned animation."

DEATH OF A NOTED PREACHER.—The Lexington (Miss.) *Advertiser* announces the death, in Holmes county, of the Rev. Mr. Cooper, the original dreamer of Cooper's Well. He was an eccentric but eloquent and good man—perhaps, at his death, a superannuated member of the Mississippi Conference. These celebrated waters, known as Cooper's Wells, were his discovery, and once his property. It is said and credited, that he was led to dig for them by a dream, three times repeated, by which a certain spot was designated—healing waters welling up, and hosts of sick and impotent folks flocking around and getting cured.

RARRY.—Mr Rarey's book on horse-taming, which has been sold by the million in England, has been translated into French, and fifteen thousand copies were immediately sold.

Common Sense.

IN view of the rainy season this Spring, and in consequence a large portion of the South being inundated by the overflow of the Mississippi and other rivers, it is reasonable to suppose that the health of the country will, to a corresponding extent, suffer from the most untimely malaria or miasma, which such a state of affairs will naturally produce, manifesting itself certainly and without fail in some one or more of the many diseases so common in the south during the Summer season. Yellow fever is yearly becoming more common in our cities, and if not yellow fever, chills will be sure to take its place, to say nothing of the many types of bilious and typhoid fever, and fever and ague, which always claim their share of victims for the grave. In view of these facts, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life; for this end, Dr. Hostetter has introduced to this country a preparation called HOSTETTER'S STOMACH BITTERS, which at this day is not a new medicine, but one that has been tried for years, giving not only satisfaction to those who have used it, but has increased in popularity and general favor throughout not only the Atlantic States, but California, Oregon, and islands on the Pacific; they have also been introduced into South America, Germany and other countries successfully. This great medicine has been compounded by one who has a profound knowledge of the nature of disease, and it is especially designed to attack the insidious enemy in his stronghold, the Bowels, where nearly all sickness has its origin. It will not only regulate the liver, restoring them to a healthy and vigorous action, and thus by the simple process of strengthening nature, enable the system to triumph over disease. Its adaptation to cure all affections of the digestive organs is peculiar to itself. Diarrhoea, dysentery or flux readily yield to its potent agency; also, debility, which is frequently produced by the enervating climate of the South, is established by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, when taken in all its various forms, that any other; the cause of
