☞ Rev. Dr. BARKER will preach at the Christian Church this morning at 11 o'clock.

MEMPHIS POST OFFICE.—The post office will hereafter be opened on Sunday morning at 9 o'clock, and remain open one hour.

APPEAL CIRCULATION AND LETTER LIST.—The superior circulation of the APPEAL within the delivery of the Memphis Post Office has entitled it to the advertisement of the LETTER LIST, which appears regularly in our SUNDAY EDITION, and in no other paper. Copies of this issue may be had as usual at our counting-room up to 10 o'clock A. M.

☞ We are happy to state that Rev. Dr. GRUNDY has returned from his late visit to the East and will attend to his pastoral duties at the Second Presbyterian Church, this morning at 11 o'clock.

FINED.—Dr. J. C. COLE and GEO. W. NELSON, arrested for an assault upon JOHN YARBOROUGH, on Thursday night, pleaded guilty yesterday and were fined, the former $25 and the latter $10.

RECORDER'S COURT.—There were quite a number of unimportant cases before the Recorder yesterday, principally for drunkenness, vagrancy and violations of the negro laws. The offenders were severally dealt with as the law directs.

☞ We would invite the attention of the ladies to the extensive sale of millinery and fancy dress goods by M. C. CATCH & SON, at the store, 186 Main street. The sale of Monday and Tuesday is especially intended for the ladies, and the goods have been selected with a view to accommodate their peculiar wants.

HEALTH OF THE CITY.—We are gratified to be able to state that the health of Memphis continues uninterruptedly good. The city is entirely exempt from every species of epidemic disease. The season's report, which we publish this morning, shows eleven interments for the week, ending at noon yesterday.

NEW FIRM.—Messrs. J. L. TAYLOR and T. B. MCEWEN have become associated as partners in the dry goods business, and are now opening a large stock of rich, tasty, and withal cheap goods, at the old stand of J. L. TAYLOR, on Main street, near Adams. Both gentlemen have been long and favorably known here in the dry goods business, and now that they have united their means and efforts, we predict for them increased usefulness and success.

A SQUEEZING.—If the law did not discriminate in favor of articles manufactured in this State, and require the payment of the same tax upon them as upon those from abroad, it would trouble the proprietors of certain papers in this vicinity to pay the duties on the great men they manufacture out of exceedingly small materials. Our apostolic friend across the alley suggests that the tax on Colonels alone would pay the whole city debt of Memphis in a few months. Who will circulate a petition to have the law amended in this particular, for our especial benefit?

☞ Dr. C——, an accomplished physician, and the acknowledged wit of a certain village in Middle Tennessee, met Dr. H——, another disciple of Esculapius, who also makes considerable pretensions to saying funny things, in the streets one morning. "How d'ye do, doctor," said C. "Poorly, thank you," returned H.; "I have lost my appetite, and that, you know, is a great loss to me." "I should suppose so," dryly returned C.; "but," he added, raising his eyes devoutly towards heaven, "I trust no poor man will find it by it would ruin him."

DEPLORABLE ACCIDENT.—On Monday last, as we learn from the Knoxville Citizen, Mr. SHERWOOD, the depot agent of the East Tennessee and Virginia Railroad Company, at Russelville, while crossing the switch at the depot, in front of an approaching passenger train from Bristol, suddenly, as he said afterwards, became incapable of the power of locomotion, and the train passed over him, cutting off one of his legs just above the ancle. During the day, amputation of a portion of the limb was deemed, by the attending surgeon, to be necessary, and soon after the operation Mr. SHERWOOD died.

ANOTHER SPLENDID BLOCK ON MAIN STREET.—We learn that Mr. BARNETT GRAHAM has purchased of Mr. ROBERTSON TOPP 119 feet on the corner of Main and Gayoso streets, immediately in the rear of the Gayoso House, and intends early in the spring to erect a splendid block of five tenements five stories high. It is the design of Mr. GRAHAM, we learn, to make the buildings equal in every respect to any in the city. So it will be seen that, notwithstanding the cry of hard times, the spirit of improvement, so far from being checked, has taken a fresh impulse, and will probably meet with no impediment until Memphis, in respect to her fine buildings, shall stand second to no western city. It should be remembered, too, that the improvements which are now beautifying our city, are made by intelligent and wealthy gentlemen, not as a mere speculation, but a permanent investment.

THEATRE.—Manager CRISP and a portion of the new company for the Gaiety have arrived. We had the pleasure of exchanging greetings with the Manager yesterday for the first time since his eyes were operated upon for cataract and were glad to find him quite restored to his sight. We learn that the company engaged for the present, is in many respects superior to that of last season, in addition to which the liberal manager has effected engagements with the best theatrical talent in the country. BOOTH, JOHN DREW, MURDOCH, DAVENPORT, LOGAN, the WALLACKS, and a number of others have been engaged and will appear during the season. We trust that it may prove as profitable as the Manager is determined it shall deserve to be.

Common Sense.

In view of the fatal season this Spring, and in consequence a large portion of the South being inundated by the overflow of the Mississippi and other rivers, it is the conviction of many that the general health of the country will be a corresponding extent, suffer from the pestilential miasma or miasma, which such a state of affairs will naturally produce, manifesting itself certainly and without fail to some one or more of the many diseases so common in the south during the Summer season. Yellow fever is yearly becoming more common in our country, and if not yellow fever, cholera will be sure to take its place, to say nothing of the many types of bilious and typhoid fever, and fevers and ague, which always claim their share of victims for the Summer. In view of these facts, the true course to pursue, is certainly that which will produce a natural state of things at the least hazard of vital strength and life; and to this end, Dr. HOSTETTER has introduced to this country a preparation called HOSTETTER'S STOMACH BITTERS, which at this day is not a new medicine, but one that has been tried for years, giving not only satisfaction to those who have used it, but has increased in popularity and gained favor throughout not only the Atlantic States, but Cuba, Mexico, Central America, and the Pacific; they have also been introduced into South America, Germany and other countries successfully. This great medicine has been compounded by one who has a profound knowledge of the nature of disease, and it is especially designed to attack the multitudinous ills to which the Digestive Organs are subject, such as Dyspepsia, Indigestion, Costiveness, Biliousness, Fever and Ague, Nervous Complaints, generally, resulting from a healthy and vigorous action, and thus by the simple process of strengthening nature, enable the system to triumph over disease. Its adaptation to cure all affections of the digestive organs is proof positive to itself. Diarrhea, dysentery or flux readily yield to its potent agency; also debility, which is frequently produced by the enervating climate of the South, is benefited by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent when taken in all its various forms, than any other; the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS. Persons on the boats, and in addition take a glass of cold water after rising in the morning, which will facilitate the cure. For this disease, every physician will recommend Bitters of some kind, then why not use an article known to be intelligible? Every country have their Bitters as a popular tonic of bitters and strengthening to the system in general, and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which has attended to advance the destiny of this great preparation to the medical mode of science. Further, any of the above stated diseases cannot be contracted when exposed to any other influence, if the system is fortified with this invigorant. Hostetter's Stomach Bitters are used as any direction, a long experience has proved that it will effectually cure any case of dyspepsia which can be produced. This desirable result is obtained in a brief space of time. And as it neither creates nature nor offend the palate, and rendering unnecessary any change of diet—or interruption to usual occupations, but promotes social joy and healthy digestion, the complaint is thus removed as speedily as is consistent with the production of a thorough and permanent cure. In fact, HOSTETTER'S STOMACH BITTERS are only to be tried for the numerous diseases for which they are intended, and which we heretofore stated and our word for it they will be appreciated. The fact that over one hundred imitations have made their appearance in different localities, since the medicine was introduced, is an efficient guaranty of itself that Hostetter's Stomach Bitters are unfortunately appreciated by an enlighted public.

Therefore, we caution the public against using any of the many imitations or counterfeits, but ask for HOSTETTER'S CELEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork.

Sold by all druggists and dealers generally throughout the United States and Canada, South America, Germany and other countries. HOSTETTER & SMITH,
