THE DAILY APPEAL.

TUESDAY.....OCTOBER 16, 1858.

WHARFMASTER.—We are under obligations to F. WOLFE, Esq., Wharfmaster, for polite attentions.

CRIMINAL COURT.—This Court met yesterday, a Grand Jury was organized and the Court adjourned until 9 o'clock this morning.

COTTON FREIGHT.—The VICKSBURG Southron says the *Republic* and *Hedge* steamboats have engaged to carry cotton from that city to New Orleans at seventy-five cents a bale.

TENNESSEE BONDS.—The bonds of this State are still rising at the New York stock exchange. On Friday five thousand were sold at ninety one and a half cents.

☞ Prof. ST. MAUR STUART will open his school in dancing in the magnificent hall room of the Gayoso, this evening, at half past 4 o'clock. See his card in another column.

THANKS.—For late papers our thanks are due to Boston of Adams & Co's Express, PETTY and QUIN of the *Daniel Boone*, and WILLIAMS & CO.

SUNDAY VIOLATION.—JOHN DUPLINKER, the proprietor of the Turners' Hall, was yesterday fined ten dollars and costs by the Recorder, for selling liquor on Sunday.

☞ City and country merchants should attend the extensive auction sale of clothing, advertised by Geo. W. HANNA, to take place this morning at 10 o'clock, in Provin's Block, Main street.

BROKEN.—We learn that a bridge upon the Illinois Central Railroad broke on Thursday at a place twenty miles from Cairo, delaying the trains. It was expected to be mended again in two or three days. We did not hear whether any injury was done to the train.

☞ The proceedings of the Fayette county Fair, for Friday and Saturday, which we are compelled to publish this morning, in order to have them inserted in our Weekly of to-day, occupy our entire available space, to the exclusion of editorial matter.

MOVEMENTS OF BANK OFFICERS.—ORVILLE EWING, President of the Planters' Bank, JOHN OVERTON, President of the Bank of Chattanooga, and J. CORREY, Cashier of the Union Bank, are at present in the city. Capt. JOS LENOW, President of the Memphis Branch of the Bank of Tennessee, is in Nashville.

☞ Our friends, Messrs. DUVAL, ALGO & Co., are still before the public as receiving, forwarding and commission merchants and general steamboat agents. They are well known to the public as experienced, prompt and reliable business men, and hence we take pleasure in asking attention to their card in another column.

UNCA MAJOR.—The bear, the great bear, that has been exhibiting on Main street, will be removed to the Fair, where our citizens will have an opportunity of seeing an object of creation seldom surpassed. He is of gigantic stature, and performs most amusing tricks. He is accompanied by a leopard, of great beauty. The exhibition will be a great treat to the Fair ground.

WEEKLY APPEAL.—This edition of the APPEAL, which is made up to-day, including the morning's daily issue, will be found to contain a large amount of useful and interesting reading. Among the articles of prominence is a Report of the Somerville Fair, not contained in any other city paper. We commend special attention to our Prices Current, which are carefully corrected every day and consolidated for the WEEKLY. This department of the paper receives our critical and constant attention, and shall be made acceptable to our home and distant readers. Subscription to Weekly, $2 50; Tri-Weekly, $5; Daily, $10. Single copies, ten cents each.

MISSISSIPPI CENTRAL RAILROAD.—The Hon. A. M. CLAYTON, President pro tem. of this road, has received a letter from President GOODMAN, to the effect that he has succeeded in obtaining a sufficient supply of iron to complete the whole line of the road. About $300,000 or $400,000 will be required to grade the balance of the road, the cross-ties and iron put down, and the road finished and put in running order. The farmers and others interested in this great undertaking, are called upon to subscribe the amount. The citizens of Marshall, Lafayette, Yallobusha, Carroll, Holmes, and Madison, are especially appealed and looked to.

EDITORIAL CHANGE.—We observe that our particular friend Mr. PHIPPS has withdrawn from the editorial management of the Oxford (Miss.) Mercury, leaving that paper under the sole control of Mr. STEVENSON. The Mercury, under the joint editorial control of Messrs. PHIPPS and STEVENSON, has within the past twelve months reached a very prominent, creditable and influential position among the journals of Mississippi. The reputation which it has acquired is due to its prudence, political soundness and ability. It is, however, with unaffected regret that we part with one of its gentlemanly editors. The Mercury, however, will lose none of its interest, in consequence of this change, as the remaining proprietor has in himself both the ability, earnestness and energy to maintain the reputation which it has so honorably earned.

BUCKLEY'S SERENADERS.—This renowned band will open at Ash's Theatre to-morrow night, and a treat of no common order may be expected. The troupe have been unable to pass down to New Orleans on account of the yellow fever, and will therefore delight Memphis with some of their splendid Burlesque Operas, in which they are without rivals. The performers are among the most eminent in their profession, including Miss GRACE, FRED BUCKLEY, BAGGINS, BARNES and others. The opening piece is the burlesque *Lucrezia Borgia*, in which opera they have filled large houses night after night in New York and New Orleans. Comic imitations and other amusements will be added to the bill. We have long had a dearth of amusements in Memphis, but at length we have something worth visiting.

SUDDEN DEATH.—About 12 o'clock yesterday noon, MICHAEL SHALLER, an old citizen of this place, fell suddenly dead near Court Square. It seems that he was taken suddenly with a very severe hemorrhage of the lungs or stomach, and, after walking some thirty paces, fell upon the pavement in a lifeless condition. He was instantly taken care of and treated by Dr. CREIGHTON, but the stream of life had flown, and he expired in a few minutes. Mr. SHALLER, for some years past, has resided in Cincinnati, but had recently returned to Memphis, with the view of making this his future home, and, as we are informed, was in daily expectation of the arrival of his family. He was for many years connected with Mr. KELLER, of this city, in the clothing business, and all knew him as a man of the warmest and most noble impulses. We deeply sympathize with his family and friends in their sudden and unanticipated bereavement.

OUR FAIR.—Third Annual Fair of the Shelby County Agricultural Society, will be holden at the Fair Grounds, commencing to-day and continuing during the week. Every arrangement has been made to secure the comfort and pleasure of those who may attend. The recent rain having laid the dust and made the travel agreeable, we bespeak a large attendance of all classes of the community. Agriculture being the most important pursuit of the country, and that upon which every other interest of society depends in a great measure, it follows that whatever tends to its advancement, must materially benefit all other pursuits. As an important means of improving and advancing agricultural science and skill, fairs commend themselves to the favorable regard and support of all true friends of human progress. We trust our citizens will not be backward in showing their appreciation of the value of these exhibitions, but will turn out en masse and insure success to the pending Fair.

The following, which appeared in our paper of the 1st inst., should have referred to the firm of Drs. ENOCH & STRIGEL, and not to Dr. STRIGEL alone:

NEW MODE OF CURE.—Dr. C. STRIGEL, whose surgery is on Main street, west side, one door below Union, has a mode of dealing with cancers that is peculiar to himself, being entirely painless and dispensing with the application of either caustic or the knife—good news this for the afflicted. We yesterday, in company with a number of respectable citizens, witnessed his mode of operation upon cancers, from which Mr. W. R. FARLEY, of Laurens Court House, S. C., and M. V. RICHARDSON, of Echols street, Memphis, were suffering. The Doctor applied a liquid with a fine pencil, and then laid a small plaster on the affected part. After the lapse of a short time the plaster was withdrawn, and on immersing it in liquid a number of filaments were seen, which the Doctor assured the bystanders, were fibres extracted from the cancer. When all the fibres are withdrawn, the place will rapidly heal, and a cure be effected. The gentlemen stated that they received no pain, or pain so slight as to be unworthy of mention.

Port of Memphis.

RIVER NEWS.
MONDAY, October 11, 1858.

The river was still falling yesterday. The weather was cold, with a slight drizzling rain that laid the dust.

The Vicksburg packet line is not running as proposed, at the opening of the season.

The Silver Heels made a single trip, then returned to St Louis.

The Garvin did not go out on her regular trip. The Boone, however, runs her regular trips.

The only regular boat for to-day is the Daniel Boone, Capt. Hancock commander. She leaves at 4 o'clock for Vicksburg, carrying the U. S. mail from Napoleon. The Boone is a favorite boat, and the reputation is well merited.

☞ The St. Nicholas leaves for New Orleans at 5 o'clock this evening.

The St. Louis *Republican* reports:

The river at this point is falling slowly. There is 7 feet in the channel out to Cairo. The upper rivers are all reported falling by the last arrivals. There is from 4½ to 5 feet in the channel of the Illinois river from Lasalle to the mouth. The Upper Mississippi is reported with 4½ feet on the upper and 3½ on the lower rapids, and the Missouri is falling with 3½ feet scant on the bars. The officers of the Sate Howard report the channel exceedingly bad.

THE CAMPBELLS.—This inimitable troupe of humorists are drawing large and fashionable audiences, notwithstanding the great variety of amusements now in our city. This week positively closes their engagement for this season. The *Burlesque Italian Opera* will be repeated to-night with gems from *Sonnambula*, *Stradella*, and *Il Trovatore* by those really elegant singers BIDAUX and LESLIE, with Little Benny, the Infant prodigy, as *Prima Donna*, and NEWCOMB, the funny NEWCOMB, director.

MARRIED.

On the 1st instant at the residence of the bride's father, by Rev. W. M. DOSWELL, Mr. WM. FOPE, of Madison county, to Miss SALLIE S. WALKER, of Haywood county, Tenn.

May countless hearts bow at their path
And troubadours his power sing;
While love should to slay all wrath,
Then time will pass as bird a song!

T.

FUNERAL INVITATION.

The friends and acquaintances of M. SHALLER, deceased, are respectfully invited to attend his funeral, this afternoon at three o'clock, from Mr. McCormick's, in South Memphis to the Catholic graveyard.

☞ Refer to SPEED, DOSCHO & STRANGE's column.

☞ Attention is directed to the advertisement of "Trip Tuff Oil." It is all it claims to be.

☞ For sale, a small family residence, just outside of the corporation, immediately east of the Memphis and Charleston depot. A bargain will be given if application is made soon at the APPEAL office.

NERVOUSNESS, OR WEAKNESS OF ANY KIND. If any of our readers are troubled with Nervousness or Nervous Debility, they should procure a bottle of "BERSHAW'S HOLLAND BITTERS." We have tried it, and can recommend it confidently, as a medicine giving almost instantaneous relief.—*Daily Enterprise.*

Commercial Matters.

MEMPHIS DAILY APPEAL OFFICE,
TUESDAY, October 12, 1858.

COTTON.—Cotton has been in active demand throughout the week and sales had a decided tendency upwards, with limited supplies, have declined. The following will show the ratio of the improvement prior each day to the previous week, which number is not the total amount sold, but such portion of the whole as was reported to us in sufficient to show the tendency of the market. Monday: Of 5094 bales reported 725 bales were at 12 cents and 218 above that rate. Tuesday: Of 916 bales 324 were at 12 cents, 576 were under that price and 128 above it. Wednesday: Of 1182 bales 376 were at 12 cents, 115 below that rate and 167 above it. Thursday: Of 633 bales 265 were at 12 cents; 127 below that rate and 120 above it. Friday: The market declined and out of a limited number of reports that we have received 337 bales were at 11¾ cents and only at 12 cents. Saturday: Of 631 bales 305 bales were at 11¾; 276 below that price and 230 above it, at 12 cents.

Yesterday the rains reported to us were 161 bales at 11¾, 1297 at 11¾, 643 at 11¾, 166 at 12 cents. Total 2216 bales, probably a hundred or a hundred and fifty more bales were sold that were not reported to us. Of the 2216 bales 1237 were 11¾, 161 under that price and 818 above it.

This variegated picture is clear idea of the course of the market, and is worth attention for the following reasons: Every day during the past week there has been a gloomier one of anticipation and an estimate of the actual condition of the market which was not corroborated by the figures resulting from actual sales. For that one there is not a single quotation, the Canada's accounts being without any probable effect.

The New Orleans *Picayune* of October 9 reports: In relation to cotton, there are complaints that the product is not tinging as it should, and the crop is thus far very partial. As a general rule, the late brilliant spell of weather, which still continues without a slip of frost, has done much good and satisfactorily set the bottom at any rate. The growth will be decidedly be larger than, probably 200 bales in excess of last year. It is already forward, and it will all be wanted. The week opens with a very quiet market, and the sales of saturday and Monday amount to only 1,800 bales, which quotations hardly being maintained. On Tuesday however, with some slight concessions on the part of holders, several buyers came forward and took about 3,000 bales, prices ranging no lower for the middling rates. The demand was still more generous on Wednesday, and results to sales of 4,000 bales, at prices which at times changed hands, the rates showing no further alteration of no material importance. Thursday came heavy, with sale of barley 4,000 bales the market closing at a decline of ⅛@¼ on the 5 medium grades.

The receipts for the week ending to-day, amount 18,5.5 for the corresponding week last year. The total receipts since the 1st of September have been 126,12 bales, against 101,281 in the same date last year. The exports of the week embrace 23,859 bales, comprising 1,150 to Liverpool, 1,800 to Havre and another, 2,700 to Havre, 1,111 to Barcelona, 112 to Vera Cruz, 2,812 to Boston, 2,216 to Providence, R. I., and 600 to New York. The total exports since the 1st of September have been 63,28 bales. The exports for the corresponding week last year were 16,231 bales, and the total exports to date were 48,485 bales. The stock on hand this morning is 119,132 bales, against 7,819 at the same time last year.

The receipts of Cotton at this port have been very small in a week, with sales of only about 200 bales, the prevailing belief supposed to be all exports to be unfortunate. Undoubtedly 2,000 bales, at 11¾, and 1,000 bales, at 12 cents, could be obtained for the stock, at 12¾.

SUGAR.—There has been some further arrivals of new crop, the entire stock which sold at 100 bbl., have been of a coarse quality, and the demand for fair to prime 5¾@6¾ and 6¾@7 for fair to choice. To day one or two small lots of choice new sold at 7¾@7¾. The receipts of old crop have been very light and the demand for fair to prime is more firmly maintained. We omit quotations.

MOLASSES.—With light receipts of old crop and very little of new, the demand has been quite active. We quote old crop at 18@19c per gallon for ordinary and good ordinary, and 20@22c for prime and choice. New crop has sold at 16@18c for old and 20@22c for prime, and 24@25c gallon in bar lots, with sales of 600 to 800 gallons at these rates. To-day we quoted any new crop at 18c, whereas, a few weeks ago, 20@22c gallon for new, in, sale.

RICE.—Prime Carolina, 5¾@6 per lb. Common, 4¾@4¾ Clover, 5¾@6¾ per lb.

BACON.—Sales of Shoulders, 6¾@7¾ Sides, 8¾@9¾ Clear Sides, 9¾@10¾ per lb.

LARD.—Sales in tierces, 8¾@9¾ per lb.

NEW ORLEANS.—From the *Picayune*, Oct. 8: The Money market continues extremely quiet. The offerings of prime paper outside are limited, while its rates, also, the application are comparatively small. It is natural therefore, to be given a theme that just now possesses the highest relative importance. The Exchange market was dull for all descriptions excepting Sterling on New York, which was decidedly in request, at 1 to 2 cent discount. We quote 1¼@1¾ for the bulk of sold at the former figure. On other points business was very limited, Boston Sterling, with 31 of the latter, was taken at 3@3¾ %. Sterling on Paris and the rates of France. We quote the form at 10@5 cents, and the last at 5@5¾ @5¾ N. Sixty days on New York 3@3¾ % discount.

The same paper of the 9th reports that "business is depressed by the prevalent sickness. The Money market continues in the same quiet and satisfactory state noted in our report of a week past. The demand is unusually light, and under the large and remunerative sales of Cotton the private Capitals continue to run up in bank faster than they can be employed. We hear of sundry transactions in prime paper at 9, 8 and 9 P ct, the medium lots selling from April to October next. There is not much offering."

LOUISVILLE.—From the *Journal*, Oct 10: The Money market has undergone no change whatever. It is dull, and sales are doing nothing. Eastern Exchange is slow of sale at ¼ premium. New Orleans (nominal at ¼ to ½ premium. Sight is in good demand. Tennessee bank notes and Indiana free banks are discount.

ST LOUIS.—From the *Republican*, Oct 9: We notice more disposition to buy and less anxiety to sell on the part of sellers, which is tending to lower rates of discounts. The demand for the interior explains the diminution. The rates of exchange on the interior are still unusually adverse, 2 P ct. premium for Sight on New York and New Orleans.

NEW YORK.—From the *News*, Oct 7: To day there appears no change in the aspect of Wall street matters. The tenders of capital in some quarters, cannot find borrowers to take it, and the demand for good paper is very limited indeed. Call loans are over at 4, 3½ and 4 P ct. Good paper commands 4 to 6 P ct, including long dates, stock notes, 6 to 7. Foreign Exchange is dull and heavy; 109¾ asked for Sterling, and 5.18¾ @ 5.17½ for francs.

Business News was in demand and buoyant; $1,000 were sold at 94.

The Bullion Bank, the establishment of which will form a new era in banking, is about to be confined to foreign exchange and banking, is approaching fast to organization. For some time past a number of bankers, merchants, and others have been in the town or their business week discussing the subject. Yesterday, at a meeting, a national gold note currency. They were first made to stamp, gold bullion, and Bronze Medals, of the Bank of America, who was to take the lead in the management of such a bank, in which he consented to be a Director. The Bank will be conducted by a new trade, in as Messrs. Peter Cooper, Treasurer; J. J. Cisco Assistant Treasurer; R. Van Brunt; James Punnett, President of the Bank of Commerce; James Gallatin, President of the National Bank; Benning Bear, Jas. Boorman, S. J. Walker, William B. Astor, Moses Taylor, Robert B. Sherman, Francis Bowes, George Opdyke, and W. T. Mali, the Belgian Consul. It is proposed to subscribe a capital of $1,000,000, which shall receive specie deposits, but not issue them, charging only a small commission for their safe keeping, and will employ its capital in exchanging business paper. It will only pay and receive specie or certificates of deposits of specie in the now or other banks. Its dividends will be limited to 7 P ct. It will give certificates for specie, for which the gold will be ever in readiness when called on, as the deposits made with the bank will be a sacred trust, and will not be used by others. Such certificates would be a par currency, perhaps a premium currency in other cities and towns. The capital of the stock as fast as it accumulates.

The time is ripe at hand when a number of banks will be formed, and the stock as fast as it accumulates.
