THE DAILY APPEAL.

THURSDAY.....NOVEMBER 4, 1858.

RECORDER'S COURT.—Twelve cases were all that occupied this Court yesterday.

CONCEALED WEAPONS.—PHILLIP SCHAFFE was fined twenty-five dollars yesterday by the Recorder, for carrying a deadly weapon concealed about his person.

DOG LOST.—Mr. MONTGOMERY advertises this morning for a lost Newfoundland dog, for the recovery of which he offers a liberal reward.

FOR SALE.—HILL & DORION advertise this morning, that they have for sale an excellent cook, washer and ironer. Their office is No. 18 Front Row.

☞ Don't forget M. C. CAVCE & SON sell this day Dr. WELCH'S residence and four vacant lots; also, one house and lot on Echols street. Great chance for houses. Look out for omnibuses.

SCARCE.—The city is very quiet at the present time—a thing more agreeable to good morals than conducive to the interest of our local column. Indeed, local items are as scarce as honesty, and as hard to be found as truth.

THE WEATHER.—The weather yesterday was extremely dull and chilly. Last night some rain fell. Sunshine has been very scarce during the week, and inky clouds have offered a miserable substitute for the clear, blue sky.

THE MAYOR PRO. TEM.—The selection of Ald. STREET as Mayor, during the temporary absence of Mayor BAUGH in Nashville, is regarded as an excellent one. Common-sense views and energetic action are the characteristics of Alderman STREET.

CRIMINAL COURT.—At this Court yesterday in the case of ELIZA MILLINER and JOHN ABLE, for stabbing and being accessory to the stabbing of "French Lou," the jury was completed and the examination of witnesses commenced. The case will probably attract a large crowd during the day.

IMPROVEMENT.—The chain-gang are doing a very good work in rounding off Vance street near Main, but it is a folly to destroy one improvement while making another, and this they are doing by carting a considerable portion of the dirt over the brick pavement.

A WANTED IMPROVEMENT.—The footwalk on Main street, on the east side, from Beal to Linden street, is in a miserable condition, very annoying to the large mass of citizens in Southern Memphis, who pass over it. Brick has been laid, ready for paving, for the last two or three weeks, but the work of improvement is not yet begun. It is hoped the delay will not be of long duration.

MAIL LINE.—An advertisement in another column informs us that a line of coaches has been established by J. B. PRICE, which leaves the mouth of Red River every evening, connecting with all parts of northern and eastern Texas. This is a very useful route, and the spirited proprietor merits a large share of public patronage.

☞ We have been shown, by the agent in this city, a new invention for securing hoops on iron-tied cotton. It is called the "Ingersoll Hoop Lock," and, we believe, is acknowledged to be superior to anything yet invented. It is simple, convenient, and perfectly safe, while with it cotton can be put through the compress in half the time required to re-tie rope. A specimen of the lock can be seen at our office.

☞ CHAS. N. ENICH, No. 333 Main street, below Union, has received large additions to his stock of provisions—such as new buckwheat flour, fresh butter and eggs, bacon and hams, golden syrup, sugars, &c., &c., and everything found in a provision store. 1t

☞ TYLER & CO.'S AMBROTYPES.—The public should not fail to obtain the pictures taken by TYLER & CO. 1t

[Advertisement.]

Ambrotypes for 75 cents—the same as others charge $2 for. TYLER & CO., artists. 1t

PREMIUM PICTURES.—People will inquire no longer where to get pictures, when they learn that THOMAS, at DEJONGO'S Gallery, 180 Main street, opposite the Worsham House is making Malanotypes (on iron plates) as cheap, if not cheaper, than those worthless glass pictures made elsewhere. Recollect—first premium awarded to THOMAS for the best pictures at every fair where exhibited. 1t

[Advertisement.]

We are informed through the press that a great blessing has been conferred on this community by the introduction of a cheap Gallery. We doubt not that the people of Memphis will consider it a *greater blessing* when they learn that THOMAS, at DEJONGO'S, is making pictures as cheap, if not cheaper, and warranted fifty per cent. better, or no pay required. 1t

☞ We are satisfied that iron ties for cotton possess advantages which do not pertain to rope, and when planters once overcome the influence of old prejudices, they will not fail to adopt this method of tying cotton, which has proved almost a security against fire, and from the numerous testimonials of planters we have seen, is put upon the bale four times as fast as rope, and keeps the bale in beautiful form. Some planters who had bought rope have disposed of it, and are using "McCOMB'S Iron Tie." Rev. R. V. TAYLOR, of Somerville, says: "*I have tried McComb's Iron Ties; they combine all the advantages that are necessary, and I consider them preferable to rope.*" Many others have expressed their high appreciation of this improvement, which is winning favor every day. 1t.

ANOTHER INSTANCE OF THE EFFICACY OF BOERHAVE'S HOLLAND BITTERS.—N. M. POINDEXTER, at Union office, September 16th, 1854, says: "Some weeks since, being seriously affected with pain and uneasiness at the stomach, loss of appetite, and at times strong symptoms of dyspepsia, I was induced to try your HOLLAND BITTERS, and I feel it but an act of justice to the article, as well as for the good of those who may be affected with like derangement of the stomach, to state, that the use of one single bottle of this medicine proved of incalculable benefit, having freed the stomach from all sense of depression, and removed every symptom of dyspepsia. I would also remark, that two other members of my family, who were afflicted in a similar manner with myself, were entirely relieved by the use of a single bottle each."

☞ Country merchants, planters and citizens in general, wishing to purchase fine, well made fashionable clothing at low prices, for cash, will do well to visit the house of R. B. DE BANE, 187 Main street, under the Worsham House. He has a splendid stock at both wholesale and retail. oct23-1m

COUNTERFEIT SCHEIDAM SCHNAPPS.—We beg leave to call the attention of our readers to the advertisement of UDOLPHO WOLFE, in to-day's paper.

☞ Refer to SPEED, DONOHO & STRANGE'S column.

DEPARTURE OF OVERLAND MAIL—PASSENGERS FOR THE EAST BY OVERLAND.—The following named gentlemen left this morning for the Atlantic States, by the overland mail route, (Butterfield & Co.) The coach took its departure at 1 o'clock this morning, (before our going to press,) the cause being to go through Pacheco Pass before dark, which place they will reach this afternoon:

NAMES OF PASSENGERS.

1—Louis Lane, for Memphis, Tennessee.
2—George W. Fidler, " "
3—Samuel Gay, for St. Louis, Missouri.
4—Virgil Odom, " "
5—Jefferson Lake, for Memphis, Tennessee.
6—William H. Hilton, for St. Louis, Mo.
7—William Rose, for Los Angeles.
8—Joseph Wales, "

The next stage for Memphis leaves Friday, 25th inst.; for Los Angeles, Wednesday, 23d instant. The regular trips for Memphis from this city take place, for the future, without fail, on Mondays and Fridays. An additional stage for Los Angeles leaves every Wednesday. *San Francisco Herald, Sept. 21.*

A MARVELOUS OLD AGE.—Gov. Blacksnake, an Indian Chief of the Seneca tribe, who resides on the Alleghany Reservation, 60 miles from Buffalo, has arrived at the patriarchal age of 116. He is probably the oldest person living in the United States. He was a favorite of Gen. Washington, during the Revolutionary war, and has now a beautiful silver medal which was presented to him by Washington. His sands of life are now nearly run out, and he is so feeble that he reposes upon his couch a great portion of the time—is nearly blind, and must soon join his brothers in the hunting grounds of the Great Spirit, where game is plenty, and the war-club and tomahawk are laid aside, there to smoke the pipe of peace.

☞ Industrious people at Key West are making a fortune out of prepared turtle soup, put up in hermetically sealed cans, and sent to distant ports. It is represented as very lucrative.

Port of Memphis.

River News.

The river was rising yesterday, and boatmen begin to entertain hopes that the difficulties that at present impede navigation will soon be over.

The fast and elegant packet boat, J. H. Lucas, Capt. D. H. Silver, Wm. McCreight, clerk, leaves for St. Louis this evening at 6 o'clock. The Lucas has been recently repainted and is in fine condition. She has made herself a fine reputation in the St. Louis trade, and is eminently adapted for the business. Passengers bound up the river will find her an agreeable boat to travel on.

The R. W. Adams is a boat that stands high on its traveling qualities, its fine accommodation, its munificent table, and its gentlemanly officers. She starts for New Orleans at 5 o'clock this evening, and passengers for ports below will be well satisfied with the accommodations on board her.

The popular packet boat, Kate Frisbee, Captain McMannus, commander, and the highly popular Folger, clerk, will leave our landing at 3 o'clock this afternoon. She carries along with her the United States mail, and may therefore be relied upon for dispatch in making her trips, and punctuality in calling at the various ports.

The Dry Goods Trade.

The following is a comparative statement of the imports of foreign dry goods at New York, for the week, and since January 1:

For the Week.	1856.	1857.	1858.
Entered at the port...	$845,072	$751,604	$1,236,685
Thrown on market...	872,119	801,318	1,281,122
Since Jan 1			
Entered at the port...	$83,865,591	$5,690,859	$1,662,774
Thrown on market...	83,083,775	78,195,136	59,434,222

The above table exhibits a large increase in the amount of dry goods entered at this port the past week, as well as in the amount thrown upon the market, compared with the same period for the two previous years. The totals, however, since the 1st of January last to the present time, are still largely in arrears of the amounts for the two previous years. The trade has in a great degree assumed its winter torpor, broken by the near-by trade and renewed assortment orders from distant points at the South. The prolonged mildness of the season has been favorable to an eking out of the fall trade and to the visits of country dealers, who come to look up stories to fill out their winter supplies. The clothiers have finished buying heavy woollens, and confine their trade mostly to desirable light goods, to make up for the spring trade. The summer clothing carried over was quite to be lighter than usual.

Heavy woollen clothing has been heavy, on account of the mildness of the season. Dealers, however, were looking for an increased demand with the advent of cold weather. Heavy domestics, and cotton piece goods were in good stock, and prices heavy. There was some demand for export to China and South American ports, but not enough to give much animation to the trade. Woollens of all kinds were dull. Brown sheetings, heavy and of usual width and weight, were at 8½c. Light goods were unchanged. Bleached shirtings and sheetings were held at former prices. Drills were in good supply and heavy. The demand for the East Indies was light. China drills were quiet at 5½c. Dyed cotton goods were generally quiet. Satinets and Kentucky jeans were dull. Blankets and flannels were heavy. In foreign dry goods we have no movement of importance to notice.

The jobbers have not fully commenced making purchases for the spring trade, for which a large share of the goods now arriving are intended. Shawls of desirable and fashionable style sell to some extent. Fresh importations of fancy millinery goods also find a good sale, chiefly for the city and near-by trade.—Wide velvets were dull and lower. Silk goods of fashionable styles, newly imported, were in steady demand at full prices; other kinds were dull. Foreign heavy woolens of all kinds were dull. There were a few auction sales during the week, which, considering the advanced stage of the season, were well attended, and prices, with some exceptions, well sustained. One or two carpet sales were held, and the higher qualities in many cases brought better prices.

Monetary and Financial.

MEMPHIS DAILY APPEAL OFFICE, WEDNESDAY, November 3, 1858.

NEW YORK.—From the *Herald*, October 30: The slight flurry in the money market, occasioned by the shipment of specie to the South to provide for the unusual large requisite of cotton at the ports, and by the movement in stocks, has now subsided, and the banks are looking forward to increased ease. In a few days we shall hear of the resumption of specie payments in Ann-Street, which will be followed naturally by a return to France of the specie which has lately flowed toward Vienna. Simultaneously the banks of Berlin and Frankfort will be likely to reduce the rate of interest to the point at which it stood before the coming resumption of the Bank of Ann in alarmed them. This will probably be accompanied, if it is not preceded, by a reduction of the rate of interest by the Bank of England. The prospects, therefore, that a few weeks hence money will be cheaper at all the great financial centres of the world than it is now, or than it has been for many years. We hear of loans to-day at 2 and 3 per cent; the latter being usually the rate asked when the borrower goes in search of money, the former the rate deposited when the lender has to look for employment for his means. Exchange on Europe for to-morrow's steamer is very quiet. Sterling is at par, and other coins are nominally at par. The transactions from bankers' bills have gone at 108@¾.

$150 Reward.

I WILL give the above reward to any person who will apprehend, and secure in jail or otherwise, so that I can get him, a Negro Man, that ran away from me. Two of them left on the 19th of September, and the other on the 5th inst. It taken up out of the State, one-half; if taken in the State, one-third for either of them. One of the men that left first is a mulatto, about 5 feet 8 inches high; tight and selected and tolerably gray, and a scar on his nose, and one knee somewhat enlarged by a cut, and about 42 years of age. The other one is about 5 feet 7 inches high, very black, weighs about 158 pounds, and is about 25 years of age. I believe they were decoyed off, and are trying to get to a free State.

The one who left on the 5th inst., is named CHARLES, very black, about 25 years of age, and 5 feet 7 inches high, heavy built, and very stout, has rather a down look when spoken to, nevertheless very shrewd and smart.

COTTON PLANTERS! Attention!

A COTTON GIN FEEDER that will save the labor of a hand at every Cotton Gin to which it may be attached, and increase the capacity of the feeder by hand, is every injurious practice to the close attendant, is certainly a desirable object. Besides which, the Feeder will remove a large portion of the trash from the cotton before it enters the Gin, thus improving the quality and "sample" of the cotton, that will be another important point. Will any one believe it?

Eclipse Cotton Gin Feeder

will accomplish the above results. I have Letters Patent for it, bearing date October 19, 1858.

I am willing to put up one of them in a neighborhood, that planters may see for themselves whether it will accomplish the above.

One of them is now on exhibition at the Lard Oil, Soap and Candle Factory of J. P. Pemoli & Co., Memphis (in front of Commercial Hotel,) where any one can see it put in operation. Planters visiting Memphis are earnestly requested to call and see it for themselves and investigate its merits. For further particulars address them

Report of the Agricultural Committee.

MEMPHIS, Saturday, October 16, 1858.

To Col. JOHN POPE, Pres. S. A. & A.

Your Committee appointed to examine and report upon "Premout's Eclipse Cotton Gin Feeder" to the report: That they have examined the "Feeder" on exhibition. Your Committee are aware, from experience, that there is a great need for such a Feeder; that it will greatly facilitate the process of preparing our staple for market; and we do unhesitatingly recommend "Premout's Eclipse Cotton Gin Feeder" to the consideration of our planting community.

Respectfully,

CHAS. I. NELSON,
M. MCCOLLUM,
N. F. BOND, } Committee.
