THE DAILY APPEAL.

THURSDAY MORNING, DECEMBER 3, 1858.

THE WEATHER.—The weather was cool and cloudy yesterday, with some wind, but it was very agreeable for out-door exercise.

☞For late papers we thank WILLIAMS & Co., W. M'CREDDIE, of the *J. H. Lucas*, E. J. BOOKER, of the *Belfast*, and A. BYERS, of the *Hickman*.

CRIMINAL COURT.—This Court yesterday succeeded in obtaining a jury in the case of BROOKS, indicted with stealing jewelry. To-day the trial will proceed.

ARRESTED.—JOHN T. GRIFFIN, was put in jail yesterday, for helping himself to a garment from the door of SENSIT'S clothing store, on Main street.

FARM WHITE RIVER.—The *Evansville*, from White River yesterday, brought in a large quantity of venison, ducks, rabbits, partridges and wild turkeys; also, a hundred and sixty two bales of cotton.

ROWDIES.—W. C. MANEE and A. H. NUTTALL were fined sixteen dollars each at the Recorder's court yesterday, for brandishing bowie knives, firing pistols and smashing glasses at the Worsham House on Friday night last.

A TENNESSEE BEAR.—"OLD JOE" had a bear hanging up in front of his shanty yesterday that weighed three hundred and sixty pounds. It was shot six miles east of this city.

ST. ANDREWS' DAY.—A gentleman was asked on Tuesday if it was not St. Andrews' Day. He replied that he could not tell, but he knew it was JOE ANDREWS' day at the Commercial Hotel.

BAD WORK.—The new pavement on Main street, between Beal and Linden streets is already going to ruin. Another smart rain will will wash a considerable part of it away. Who pays the damage?

THE WOUNDED.—WM FINE, one of the parties in the terrible stabbing affray at MARGARET HAYDEN'S, is out of danger. It is believed that drugged liquor had been given to him. He was yesterday taken to jail. JOSEPHINE PARKER, the other party, lies in an awful condition, her body being paralized beneath the spot where the wound was inflicted. She cannot life.

OYSTERS.—Those who like good Oysters, should call at VANCDART, at the corner of Monroe and Second streets. He has the genuine Baltimore oysters, so famous in every part of the Union for their excellent quality and healthfulness. Although far superior to the ordinary New Orleans article, they are cheaper, as a larger number are put up in a can. Try them once, and you are sure to like them.

MISS AVONIA JONES.—A telegraph dispatch was received by the manager of the theatre yesterday, announcing that the gifted young American actress, Miss AVONIA JONES, would open at the Gaiety on Monday night next in "Juliet;" Mrs. MELINDA JONES as "Rosine." The piece will be produced with an excellent caste. In addition to the above, Mr. W H. CRISP will appear as "Mercutio," Mrs. JOHN LAWS as "Nurse," and Mr. WHALLEY as "Friar Lawrence."

A HARD CASE—Much indignation is expressed respecting the case of the two landlords of the Commercial Hotel, who disappeared the other evening, and most astounding facts are mentioned in connection with occurrences previous to their flight. We presume a strict search will be made for them, and they will be brought back to meet the charges made against them, when the whole particulars will probably come before the public. Many poor persons, servants and others, we are sorry to learn, have been heartlessly robbed.

CELEBRATION OF ST. ANDREW'S DAY.—OUR Scotch friends, in connection with several invited guests, including a representation from the press-gang, celebrated the anniversary of St. Andrew's Day, night before last, at Young America Hall. An excellent supper, embracing all the varieties of fish, flesh and fowl, was handsomely served on the occasion, to which ample justice was done. The sentiments, the songs, and the addresses were alike appropriate and patriotic, and the whole affair passed off to the infinite satisfaction of all present.

A MONEY MERCHANT.—On Tuesday the police arrested JOHN W. PHILLIPS, in consequence of some disagreeable circumstances that required explanation. In his possession was found money to the amount of eleven hundred and sixty-three dollars, in bank notes, the whole of which was worthless. Some of it was spurious, some on broken banks, and otherways good for nothing. He had mailed $259 of good money to St. Louis, by Adams Express, which, with other good money he had in his possession, amounted to four hundred and twenty seven dollars. He is destined to have an interview with the officials of the Criminal Court.

A SPECIMEN OF CRIME.—If crime is looked into, it is surprising to find how it ramifies and spreads itself, ope crime being connected with another. At the house where the dagger fight took place between JOSEPHINE PARKER and WILLIAM FINE, on Tuesday night, a man was shot and seriously wounded a few months ago. The woman who keeps it herself killed a man a few years since. That man was at the time of his death, under bonds to appear at the Criminal Court, for having killed another man, and the latter individual was also under bonds at the time to appear at the same Court, to answer for some offence, the nature of which we do not remember. Verily the people who enjoy life pay dear for their luxuries, yet they laugh at the folly of others less given to enjoyment for paying now rent at churches.

THE GAIETY.—MISS MITCHELL appears to become more and more attractive to the public as they see more of her. But a short time remains unexpired of her very successful engagement, and those who wish to see her should not lose the opportunity. Our advertising columns contain the particulars of an excellent bill for to-night. In addition to Miss MAGGIE MITCHELL's popular impersonations, Mr. SAM. GLENN appears in one of his inimitable Dutch parts. To those who saw his "Richard III," it is only necessary to say that this is a still more amusing piece. We shall expect a crowded house.

As the impression seems to prevail, that we censured the management unjustly in yesterday's notice of the Gaiety when speaking of the coldness of the theatre, we deem it but due to ourselves to say that we had no such design. We did not know, nor did we undertake to say, whose fault it was that the theatre was frequently uncomfortable and chilly. We only knew that it lay between the manager and the stockholders. We have since learned that the stockholders have all along designed to place a box door at the entrance, but have from time to time neglected it. This, with the furnaces at present in use, and the unlimited consumption of fuel, which the manager allows would be ample to make the Gaiety warm and pleasant in all kinds of weather. We trust the stockholders will not neglect this matter any longer. The rent paid by the lessee is most liberal considering the size of the city and the situation of the theatre, and we trust the stockholders will not hesitate to respond with equal liberality to the general desire of the public, that they continue the necessary improvements on the building until it is rendered comfortable.

River News.

The river continues to fall slightly. The weather yesterday was cool and pleasant for business.

The highly popular boat J. H. LUCAS, Capt. Silver, master, is the regular St. Francis packet to-day, and will leave at six o'clock to-night.

The Kate Frisbee has been busy repairing since her late accident, and we learn from her clever clerk that at two o'clock this afternoon she will leave with the U. S. mails as usual, for Napoleon, in as good condition as ever.

The splendid steamer Belfast is the regular packet for New Orleans to-morrow.

The Hickman was at the landing yesterday, up for Cincinnati.

The famous and favorite Return is the White river boat. The Return will be in to-morrow, and take on freight and passengers, and on Saturday, at six o'clock in the evening, she will leave for White river. This a good and commodious boat, and her captain, Riley Jones, is unsurpassed in skill and courtesy.

The Evansville is at the landing, and will leave this evening at six o'clock, exactly, for White river. She goes through to Jacksonport, and receipts freight through to Pocahontas. She has a fine staff of officers, and is an excellent boat to travel on.

The St. Louis *Republican* of Nov. 29, reports:

The river continues to fall rapidly. The Illinois and Upper Mississippi are both falling. The Missouri is falling very rapidly from St. Joseph down. There is three feet scant in the channel from St. Joseph to Weston, and three and a half below. When the latan left St. Joseph, the river was falling at the rate of one foot in twenty-four hours, and Low Lagoon with Sibley found it falling eight inches in twenty-four hours. There is no ice below St. Joseph to impede navigation; a little thin shore ice is all that was discovered.

☞Hair Dye is vile wash, but the article that will naturally restore the color of the hair, the changing of which to gray, being an indication of a lack of proper secretions; is truly a valuable medicine. Professor Woods Hair Tonic, if the certificates of the leading minds over the Union do not falsify, is the only safe remedy for baldness, dryness, premature change of color, and the several evidences of a lack of secretions at the roots of the hair, which can be found. Quack preparations abound, and "hair tonics" fill every "corner grocery" in the country. Avoid all "hair tonics" unless known to be the preparation of some man whose celebrity has become world wide. Do not let any nostrum vender experiment on your hair. Touch nothing you have not good reason to believe is all that it purports to be. Professor Wood has cared by years of severe test of the virtues of his preparation, his present fame. Over 150 certificates are before us of the value of this hair restorative, from parties who have tried it. Use no other.—*From the New York Day Book.*

Of the offences against property, 11,087 were for grand larceny; 4,567 petit larceny; 258 selling lottery policies; 609 for picking pockets, and 360 for passing counterfeit money.

The nativity of those arrested is as follows: Ireland, 36,005; United States, 10,208; Germany, 5,928; England, 2,508; Scotland, 808; France, 367; Canada, 210; Italy, 157; Spain, 47; Poland, 43; Sweden, 20; Norway, 11; Holland, 10; Prussia, 10; China, 8; West Indies, 6; Denmark, 6; Switzerland, 8; Belgium, 2; Nova Scotia, 1; Mexico, 1; Chili, 1; unknown, 4,387. WEAKNESS OF THE STOMACH AND INDIGESTION—ANOTHER GREAT CURE EFFECTED BY BEHMAVE'S HOLLAND BITTERS.—The wife of Pieter De Witte, living in Holland Town, Sheboygan county, Wisconsin, suffered much from *Weakness of the Stomach and Indigestion*. She had been under a physician's care for some time, but the disease seemed to baffle even his skill. She purchased some HOLLAND BITTERS at our office, which has given tone to her stomach; her appetite and strength are returning, and we firmly believe that this is another great cure effected by our medicine.

We have still to record many wonderful cures effected by this remedy, but must wait another opportunity. One thing you can rely upon, what we have published are from persons much respected in our community, and are literally true. J. QUINTUS

Important to Planters!
New and Improved
COTTON TIE
—OR—
HOOP LOCK.
P. C. INGERSOLL'S Patent.

THIS most useful invention can now be seen at Lowrie, Orgill & Co.'s, No. 18 Front Row, Memphis, Tenn; its wonderfully simple adaptation to the purpose required is apparent at a glance; the security afforded by it is also as apparent; the facility of using it more simple than any other TIE now in use.

Read the following from the Montgomery (Ala.) Mail:

INGERSOLL'S HOOP LOCK.—We have seen a bale of cotton tied with hoop iron secured with this new device. It seems to accomplish the end proposed with the maximum of cheapness and simplicity. The "lock" consists of two small castings, about 1½ inches long and only ¼ inch thick, riveted together in the centre. The entire one has an opening at each end, sufficiently wide to admit each end of the hoop. The upper one, or button, has a rowel at each end, and a depression in its upper surface, for about half an inch from the end.

The manner of applying is very simple. Any common hoop iron of proper width and thickness, (which is about ¾ in and gauge 1-16 inch thick,) and of any requisite length to unit the bale, is taken in the hand, one end passed through the opening from the under side, of one end of the under part of the lock to the length of about one inch, and then bent over the end of the lock. The other end of the hoop is then passed around the bale and drawn through a loop opposite to the opposite end of the lock, and then bent in the same manner as the other. The bottom is then turned back to its place over them, and the hoop is fast on the bale and the bale may be moved if desired. To prevent the bottom coming into the recess or depression referred to in each end of the lock, the hoop is then clipped with the finner's shears to the proper length, and then bent up over each end into the recess or depression referred to in each end of the lock, by being done either before or after the bale leaves the press.

The advantages seem to be that any quality of iron can be used; that no particular length of iron is required, so it is long enough to go round the bale, and that no machine is required to secure them or put them on. These are said to be advantages over every other device known.

The advantage of metal ties will hardly be denied at this late day, the question having been frequently discussed. The metal ties to be used in future will be the great staple both for land and water, where so much cotton is shipped. Its cheapness, its ease of adjustment and the perfection and security of the package is also apparent.

THE NEW COTTON TIE.—We understand that the tie made yesterday at 3 o'clock, of the strength of hoop iron as a band for cotton, was entirely successful.

A bale weighing 480 pounds, was thrown off the top of the house No. 97 Commerce street, (a distance, we should think, of over 50 feet,) without the least injury to any one of the six bands, or to the "lock-of Lock," with which they are fastened. This is a severer test than cotton is ever subjected to, as the bale was not compressed, and the bale was not laid on a brick pavement, the same bale was set on fire at 7 o'clock and is still burning without damage, the bale maintaining its size, except as it burns off of the outside. It will probably burn for 24 hours.

Rent orders to LOWRIE, ORGILL & CO., or to WM. GAYLORD, Agent; Orgill Brothers's New Building on Memphis st. Memphis, Tenn.

I will sell the Rights for Carolina or States for the HOOP LOCK and attend faithfully to all orders entrusted to me commencing the 1st proximo.

MEMPHIS DAILY APPEAL OFFICE,
THURSDAY, December 2, 1858.

NEW ORLEANS.—From the *Price Current*, November 27: We have nothing new to communicate regarding our cotton and money market, unless it is to say that if that if anything, crown still more easy than it was before. So large is the supply of money in the hands of capitalists that it is impossible to find real employment for it, more especially on account of the comparatively limited amount of paper that is offering in the street. The banks are in a condition to discount liberally, and they do take all the good short paper that is offered them, or can safely extend their operations to accommodate of longer date. The bulk of the transactions in paper continue to be within the range of our previous quotations—say for good mercantile notes from 8@9 ct., first-class long dated acceptances 8@9, street—date 10 and for short commercial paper from 6@7 to 8@9 ct. annum.

At the date of our last report, we left the market for bills on England somewhat dull, with fair offerings and quotations showing ¼@¾ ct. decline on the figures current at the date of our previous report. Since then, and for the past three days, a better feeling has set in, owing to reduced offerings and an advance in the New York market. The sales for the past three days have amounted to a very fair amount at the following rates: Clear bills 9¾@9¾ and 9¾ @ cent., according to date; sales of good commercial bills at 9¾@9¾ and 9¾ @ cent. premium, the market closing firmly, with improved inquiry and short supplies of the market. We quote, according to signatures, 8 @8¾ ct. Gold. Time drafts on the North continue to be in good request, sixty days drafts selling readily at 1@1¼ ct. discount, at from 1¾@2 and 2¼ @ ct. The offerings are to no means large. Sight drafts are much scarcer than when last noticed, and prices are firmer in consequence. We quote the range 9¾@9¾ ct. dis.

The Picayune, of November 28th, says: It is expected, that it will be found on the character of the bank statement, which still continues to exhibit in a striking degree those peculiarities to force that have been for some time to prevent and so further, not cleared on the 24th inst., 196,000 bales.

In our semi weekly report we noticed sales for the first three days of the week to the extent of 31,500 bales, the market closing on Tuesday, after an active demand, at firmer rates for the Middling grades. On Wednesday the demand was equally quite active and general, rates firm to a shade of fully 16,000 bales, and on Thursday, the buyers came forward quite freely, and sales again reaching about 12,000 bales, at still lower prices for the Middling and better grades. Yesterday the ice was again in a fluid state, and some of buyers at the opening of the market, but with more firmness, prices claimed, and a material advance in the lights, at which time there was no operations, and the sales were confined to about 4,000 bales, which would make a total for the past three days of 32,000 bales, and for the week of 61,500 bales, taken for Great Britain, France, Spain and the continent of Europe, with some parcels for the North. With so great a portion, we have already intimated that they have tended to favor of sellers for some days past, and we now find it necessary to advance our quotations on MONDAY for the lower from Low Middling up. Round lots of clean cotton, classing Strict Middling to Good Middling, have become comparatively scarce, and in those descriptions the improvement is most marked. The lower grades, which have been rather neglected and accumulative, find some than not, have partaken of the general well in the end, but their relative advance has still left the advantage to prime rather on the side of purchasers.

Among the sales of the last five days was a lot of 60 bales of Sea Island, which we understand, was grown in the parish of St. Landry, in this State, which brought 15@16c.
