Local Matters.

Thursday Morning, 11 March 24, '59.

☞ All persons are requested not to purchase papers from our regular carriers. The papers do not belong to them; they have no authority to sell, and every one by them is a fraud upon us, and a thief upon our subscribers.

NEWSY TIME.—Dealing to purchase a lot in the city upon which to erect a printing establishment, we will give a bargain in our suburban property, if application be made during the present week.

McCLANAHAN, TROUSDALE & DUDE.

THANKS.—For late papers our thanks are due to W. M'Creight, of the J. H. Lucas.

THE WEATHER.—After a warm day yesterday we had a thunderstorm and cold last night.

A NUISANCE.—Edward Cline was yesterday fined by the Recorder for creating a nuisance by throwing offensive water on the sidewalk.

LARCENY.—Franklin Rivers was arrested yesterday for stealing a coat from a fellow boarder at the Barnet House. He was taken before the grand jury, who found a true bill against him.

CONTRABAND WEAPONS.—For carrying concealed about his person a pistol, Cornelius Malley was yesterday brought before the Recorder and fined $10 to pay a fine of twenty-one dollars. Foolish boys and mischievous men will do well to take the warning.

COTTON TO PITTSBURGH.—The Stephen Decatur yesterday took away from this city for Pittsburg, 2013 bales of cotton; this is said to be the largest lot of cotton that has ever left this place for the Ohio river. The price paid per bale was $1.[illegible]

NO TRIAL.—At the Criminal Court yesterday five jurymen were obtained out of a panel of seventy-seven individuals. This morning a panel of sixty-nine are summoned and the work of obtaining a jury will be continued. The case is that of the two negroes who killed Borden.

WRANGLE.—Wendell a few days ago had the parties who had leased ground at the Navy Yard refused to pay corporation taxes; they are doing more, they claim corporation privileges. They claim that when hostilities with Mexico shall ensue, the ground leased by them, that they, and not the city, shall receive wharfage for the same. The Navy Yard seems likely to become a locality of exclusive privileges.

WHARFAGE SAVER.—Alderman Hamilton stated in Council on Tuesday evening, that there is a company that does more business in supplying boats with coal at this port, than any other, and yet it pays scarcely any wharfage. Its barges are leased to the size of the boats near the river, to deliver their cargo ashore, and thus escape paying wharfage. The present active wharfmaster, Mr. Wells, detected the manœuvre. He expects to find a way of making them pay.

HOUSEMAN ROBBERS.—Yesterday James Williams and John Adams were arrested on the charge of stealing between thirty-five and forty dollars from A. C. Mallory, in the street. It appears that Mallory was "on a spree" and considerably in liquor. As he was passing along the street three of four men got around him, one put his hand over his mouth from behind so as to prevent him calling out and the others took from his pockets the money. Both are the only ones of the party yet arrested; one of them is a professed pugilist.

THE RACES.—The St. Louis Republican, of Tuesday, gives the following account of the recent cup of the Dickey and the Swiftsure from this point to Cairo: "The Dickey and Southerner left Memphis on a trial trip of speed, the former seven minutes ahead. She arrived at Cairo an hour and ten minutes ahead of the Southerner. She passed the Southerner below Merriweather, was fairly ahead of her at Hole's Point, and again passed her at Island No. 10, where the Southerner dropped into a chute and grounded herself for a time. The Southerner undoubtedly did her best, but the officers of the Dickey consider that she did better. It is to be hoped that this may put an end to the racing between the two boats."

RECORDER'S COURT.—The Recorder was busy yesterday; he had twenty-one cases before him as follows: For disorderly conduct, John Holden, James Boyd and Martin Gallin were sent to the chain gang, and Henry Tashiki was fined. Drunk—John Nolan fined; John North, Jno. Henry, Daniel Ferrin, Mike McRay and Jno. Crosy put on the chain gang. Drunken and disorderly, Tim Ryan, put on the chain gang. Carrying concealed weapons, Cornelius Mallory was fined. Cursing and blasting, Edw. Cline, fined. Vagrancy—Daniel Griffin, John Johnson and Dan. Hannigan, put on the chain gang. Misdemeanor—Charles E. Budd, J. G. McCutcheon and James Hussey, fined.

THE SWISS BELL RINGERS.—These charming musicians have given such satisfaction here, and they have nightly been crowded with such overflowing audiences, that they have determined, in compliance with numerous and pressing invitations, to remain two more nights, to-night and to-morrow night. The music of the Park family is so peculiar that it rivets the attention of even the greatest novice in musical art, and it is so sweet, fascinating and absorbing that the most proficient listen delightedly. These two additional nights offer an opportunity, no one would willingly miss who could form a conception of the enjoyment to be found at Old Fellows' Hall while the Swiss Bell Ringers remain there.

SEPULTURAL.—We have had within a few months complaints respecting the burial of the dead at this place, that show the most disgraceful institution to the usages of civilized nations in this respect. Statements were made a while ago of the interment of one body over another in the Potter's Field until but a few inches of soil covered the last bodies deposited. The City Council directed that the place should be closed, but they have opened no other to be used in its place. We have now complaints of a similar nature made with respect to the burial ground at the Hospital; corpse has been superimposed upon corpse, until the rains have washed away the little soil that covered some of the dead, leaving portions of the ghastly remains exposed to view.

A CHEAP ROAD BED.—We gave at full length, a few days ago, the plan proposed by Alderman Dupree for placing squared cedar timber blocks in the crossings upon the streets, to form a road bed, so as to entirely do away with the necessity of paving. The ingenious Alderman proposes to have a sunken track placed on each side of the center of the streets along which heavily loaded vehicles could pass, all bound east or north to take the right hand side of the street, and all going the contrary way the left hand. The motion of the wheels in those tracks would be so smooth that larger loads could be drawn than at present, and with less labor to the mule; then the expense of drayage would be reduced, a most important consideration in a commercial city. The crossings of cedar that are present in use, are exposed to great wear, from the fact that they are rarely on a level with the adjoining portion of the road surface, yet they wear well; we judge from this that the proposed pavement would be durable, especially as the iron tracks would take off a large portion of the heavy traffic. The road on made would be smooth, free from the noise of other pavements, and easily kept clean. What is of no small importance, it would also be very greatly cheaper than the stone paving; the material would cost less, no sand or gravel foundation would be required, and a whole stick of cedar would be laid down with less labor than a stone of the size of the foot, as it would require no ramming. Alderman Dupree does not propose to cover at once the whole city with the cedar road bed, but to try it on some selected locality, where the traffic is large, so that its value might be positively known before a large expenditure was incurred.

We have not seen anything like what we will take the liberty of styling the "Dupree pavement," but we are inclined to think well of it, and hope that it will be tried on a scale sufficiently extensive to demonstrate its capacity and substantiveness. The subject has been introduced in Council, where it was referred to a special committee, consisting of Messrs. Dupree, Street, Foote and Elder, gentlemen who will, we have no doubt, give the proposition a fair consideration. It is certain that something must be done with our streets. The gravel that has served us so ill this winter, will not serve us at all the next, and it will be well to be prepared for the coming contingency as soon as possible. The Council should daily, and hesitate upon this important subject, cannot some of our public-spirited merchants and storekeepers have a block or two covered with the Dupree pavement at their own expense? We have no doubt the speculation would pay. Or, there's another plan—one that was suggested to us by one of our leading merchants. Let such parties as would like to have this pavement opposite their places of business, arrange with Council that they shall themselves pay the expense of having the pavement laid down where they want it, Council to allow them to retain the amount out of their future taxes. Street paving is a subject on which a little public spirit might be very advantageously displayed in Memphis.

Port of Memphis.

No advertisements of Steamboats inserted except through bills to the city; who will be held responsible for advertising fees.

RIVER NEWS.

The news from above of the rivers again rising, has caused the most painful fears on the minds of those having connections lower down the river. The river continues to fall gradually at this place; we are measuring it carefully each evening at sunset, from the high water mark of last summer. Last night the surface of the water was 12¼ inches below high water mark, three-fourths of an inch lower than on the day before. The highest water during the present flood was on Monday week, on which day it stood at six inches below high water mark. Since then, the light each day has been as follows: 7, 7½, 8, 8½, 10½, 11½ and 12 inches, and yesterday, 12¼ inches. The weather yesterday was very warm; at dark, a thunderstorm set in, with rain.

We learn that the Stephen Decatur is to become a regular packet between this and Pittsburg, Hartsteed & Hayman will be her agents.

The S. H. Lucas, the fast and popular steamboat, O'Neil commander, McCreight clerk, will leave for St. Louis and way points, this evening at 4 o'clock, for which place she is the regular packet. She has no superior as a passenger steamer, and her officers are decidedly popular. Williams agent.

The McLellan is the regular packet to-day for Louisville, for which place she will leave at 4 o'clock this evening. She is an excellent steamer, and we take pleasure in commending her to public patronage. Capt. Erwin is an officer of high character for carefulness and politeness. Priest agent.

The St. Francis No. 2 is up, as usual on Thursdays, for her regular trip to Vicksburg. Capt. A. T. Wood and W. M. Wood, the clerk, are gentlemen who will pay their best attentions to their passengers. The boat starts at 5 o'clock. Hartsteed & Co. agents.

The Belvoir will be at the landing, as usual on Saturday, when Capt. Riley Jones will be ready to receive attentions to passengers bound for White river, who can take no better boat than the Belvoir.

The St. Louis Republican, of Tuesday last, says:

The river here commenced rising on Sunday night, and at dark last evening it had swelled six inches, and was rising rapidly. The Illinois is again rising at Lasalle, and is bank full. The Mississippi is rising from Prairie du Chien down. The officers of the Chippewa report the river open to the foot of Lake Pepin. At Keokuk the river is swelling rapidly. The Missouri river is still falling, or was at last accounts. Yesterday morning the weather was beautifully bright and mild. At 10 o'clock A. M., it commenced raining, and continued to pour all day. There was no intermission in the fall of water, and at this writing (8, p. m.) it continues to pour down.

The Cairo correspondent of the same paper reports the rivers as receding quite slowly at that point, and the Mississippi is falling very little below.

IMPROVEMENT.—The lot on Main street, between Adams and Jefferson, where giants and dwarfs, bears and snakes, two headed children, five legged calves, living skeletons and horses with snakes in their eyes, have been exhibited for an indefinite period, with the accompaniment of music excruciatingly attractive, is doomed to be put to its ancient uses no longer. The hand of improvement has reached here in the shape of a brick building business building, and within two weeks the laborer, with his barrow and shovel, will be digging up the ground which has so many monstrous and whimsical associations. The lot is owned by Cooke & Co., and Todd & Goyer, who will jointly raise a block of four story buildings, containing three stores. Messrs. Fletcher & Winters are the architects, and they have designed a plan which, for elegance of design and richness of decoration, will bear favorable comparison with other buildings lately erected on Main street. This will be a great contrast to the rough tent of the wandering exhibition that has been so frequently the sole tenant of the spot.

ÆTNA INSURANCE.—The Ætna Insurance Company of Hartford, Conn., is one of the firmest established commercial institutions in the United States. Since its existence it has received over fifteen million dollars in premiums, and paid over twelve million dollars for losses by fire. At this time its annual receipts of premiums is nearly sixteen hundred thousand dollars. Its capital and chartered stockholders to two hundred dollars, as we learn from its published statement. The company has acted on the principle that a million at ten or fifteen per cent. profit was better than fifty thousand at fifty per cent. profit. In this way they have built up an immense business. Mr. James E. Chadwick is the agent for the company in this city.

DEBOW'S REVIEW.—Prof. Stoneckrah, one of the editors of *DeBow's Review*, who is now in the city, is compiling an article upon the subject of Memphis, her history, business and commerce. He would be glad to see all who wish the information conveyed to be full and accurate, to call upon him at room 281, Gayoso House, and communicate such intelligence as they may possess. He will also be happy to receive the names of subscribers to the *Review*. He will correct any errors respecting the delivery of the work, and receipts of money, of which any subscriber may inform him.

SONS OF MALTA.—This order is rapidly increasing in this city; it has been in operation less than a month, and already numbers over a hundred members, with new admissions at every meeting. We hear that it is in contemplation by the order to give a grand festival at the Gaiety theater in two or three weeks; this will be the first appearance of the order in public in this place.

JOE'S RESTAURANT.—At Joe's restaurant on Front Row, every delicacy of the season can be purchased at every hour. He has experienced cooks and excellent purveyors procuring at all times the choicest varieties in fish, flesh, fowl and turtle. Try a dinner at Joe's, and you will be in a condition to judge what constitutes good living.

ACCIDENT.—A young daughter of Judge King's tripped on the staircase of the Commercial Hotel yesterday and met with a severe fall. She was unable to stand after the accident, owing to a contusion upon the head, but we are glad to hear that no serious injury was inflicted.

☞ The ladies will bear in mind that Messrs. G. B. Locke & Co. continue their sale of jewelry and watches at 3½ o'clock—night sales as usual. Every article warranted as represented.

MOREHEAD'S
MAGNETIC PLASTER
The Great Strengthener and Pain Destroyer.
THE best and most powerful remedy in the world—simple and pleasant in its application, certain and effectual in its results. A beautiful, scientific, external Curative, applicable for the relief of pain at any time, in any place, in any part of the system, and under all circumstances. If you put the plaster anywhere, if pain is there, the plaster will stick there until the pain has vanished. The plaster magnetizes the pain away, and PAIN CANNOT EXIST WHERE THIS PLASTER IS APPLIED.

Rheumatism, Lameness, Stiffness, Weakness Debility, Nervousness, Neuralgia, Paralysis, Cramps and Colds, Pains and Aches of every kind, deep seated or Curbs, are IMMEDIATELY RELIEVED, and, with a little patience, PERMANENTLY CURED, by the magical influence of the MAGNETIC PLASTER. It is the simplest, surest, safest, cheapest and most effective remedy in existence. Its application is universal—equally in the strong man, the delicate woman, and the tender infant. To each and all it will prove a balm and a blessing. Its use is agreeable, and without annoyance or trouble. Its price is within reach of all—rich or poor, all may have it, and all should have it at their side, and suffering in any way.

PLANTERS should be always supplied with this invaluable PLASTER. It will be the best Physician on any plantation, ready at all times, and at instant notice.

Put up in six-sight tin boxes. Each box will make six to eight plasters, and any child can spread them. Price 50 cents a box, with full and explicit directions.

C. B. MOREHEAD, M. D.,
Inventor and Proprietor, 19 Walker-street, N. Y.

Latest News by Telegraph.

TO ASSOCIATED PRESS OF MEMPHIS

LATER FROM EUROPE.

ARRIVAL OF THE STEAMER NOVA SCOTIA.

COTTON ADVANCED.

Peace News.

NEW YORK, March 23.—The steamer Nova Scotia has arrived at Portland to-day, bringing Liverpool advices of the 6th inst., being three days later advices than brought by the steamer.

COMMERCIAL INTELLIGENCE.

LIVERPOOL, March 6.—Sales of cotton for three days 30,000 bales; Speculators took 6000 bales, and Exporters took 3000 bales; market closed with advancing tendency; Middling quotations are unchanged, 5-16d.

The advices carried out by the America, which arrived out on the 8th, caused an advance in Good Middling 1-16, and in some cases 1-8. The Messrs. Clare quote Orleans strict Middling 7d, and for Upland Middling 7d. Richardson quotes the advance on Middling Orleans as 7 1-8d.

Breadstuffs had a declining tendency. Provisions dull. Richardson, Spence & Co., quote Breadstuffs dull. Provisions dull and unchanged. Wheat dull. Provisions full.

LONDON.—Consols 96½.

MANCHESTER.—Manchester advices favorable with a firm market.

GENERAL NEWS.

A pacific article which was published in the Paris Moniteur, caused a considerable rise in the funds in Paris, Berlin and Vienna.

Prince Napoleon has resigned the Ministry to Algeria, which has added materially to the general confidence in peace.

The ship David Stewart landed the Neapolitan exiles, who were on their way to this country, at Queenstown—the exiles compelling the captain thereto.

Austrian funds had advanced in three days four per cent. Exchange in London at the same time declined seven per cent.

The London journals express doubts of the sincerity of the Paris Moniteur's peace article. The journals in Vienna are also skeptical.

The Paris Constitutional reasserts that the French troops are evacuating Rome.

Mr. Cheverus Sarde succeeds Prince Napoleon in the Algiers Ministry. The resignation of the latter is regarded as a peace offering.

Trade in France was dullerthan before.

The political director of the Moniteur says its pacific article must not be regarded as a refrigerate movement, seconded by the crusade of the propagandi in Germany.

Prince Napoleon will be appointed Grand Admiral of France.

Prussia—Prussia—The Federal Council have issued a circular, stating their determination to maintain a neutrality and integrity to the Empire of Austria.

AUSTRIA.—Count Buol and other statesmen believe that peace will be maintained. Fears are, however, entertained of an explosion taking place in some of the Italian Duchies.

Lord Cowley was still at Vienna.

NAPLES.—The health of the King of Naples was such as to render it probable that he would never be able to rule again. The Queen now commands the entire confidence, and the King to sign a treaty offensive and defensive with Austria.

It is reported that the Neapolitan government has offered to furnish the Pope four battalions of Swiss troops.

SPAIN.—Minister Preston has arrived at Madrid.

ITALY.—Arrests of conspirators continued at Milan. The discontent of the Italians was general. There was a complete stagnation in business.

The fortifications at Paris were being actively continued.

Gen. Walker's Programme.

WASHINGTON, March 23.—Gen. Henningsen leaves to-day for Savannah, to collect the Arizonia emigrants, who are to rendezvous at Powderhorn, Texas, in July, and at El Paso, on the other side of the Rio Grande, in September. Three hundred men will come down the Mississippi from the West. Men are assembling in New York, Ohio, Kentucky and Alabama.

Laser from Mexico.

WASHINGTON, March 23.—Private advices from Tampico express confidence that Vera Cruz will shortly be given permission at Tampico has been reduced to 120 zero.

Fears were entertained of the loyalty of the men-of-war in that port belonging to the liberal party.

Commercial Matters.

MEMPHIS DAILY APPEAL OFFICE,
THURSDAY, March 24, 1859.

COTTON.—The intelligence of a rise from New Orleans, and from Europe, continued to exert a decided influence in favorable and financial circles. The accounts received of the crop of the Mississippi Valley show that the season is fully a week later. We do not expect liberty, with receipts of cotton to increase and accumulate. The natural calculation would therefore be, that of the increasing demand for cotton, the supply would become nearer equal to value, and interpose no more than a fair margin of profit. We, in the very nature of the case, cannot, with any degree of probability, always expect the very highest price, and the nearest of the year of prospective supply, and the nearest of the demand, to meet together. Such events have been frequent and disastrous. It is upon these that we base our calculations. We do not anticipate a very great falling off in the receipts of cotton, nor yet in
