Local Matters.

Sunday Morning, 11 o'clock April 3, 1859.

☞ All persons are requested not to purchase papers from our boys or carriers. The papers do not belong to them, they have no authority to sell, and they only buy them of a friend upon us, and a good open our subscribers.

Shelby County Democratic Association.

The members of the Shelby County Democratic Association are requested to meet at the office of Judge Brown, in Bethel's building, corner of Court Square and Second street, on Thursday evening, the 7th of April, at 8 p. m. A full attendance is desired.

WM. H. CARROLL, President.

☞ Dr. Teasdale, of Columbus, Miss., will preach at the First Baptist Church to-day at eleven o'clock.

☞ Rev. C. A. Davis, of Lexington, Mo., will preach at the Cumberland Presbyterian Church on Sunday next at 11 o'clock, a. m.

HOSPITAL TRANSFER.—We are desired to state that there will be a meeting of the trustees of the Hospital, at four o'clock to-morrow afternoon, at Dr. Martin's office.

☞ Mr. Dunbar's splendid property, on Madison street, will be sold on Monday, at 10 o'clock, on the premises, the best location for sale in the city.

FOOTE'S ARRIVAL.—Capt. Foote did not last night address the citizens of Memphis according to appointment, as he went on to Vicksburg; but he will do so Saturday next.

TYLER & CO.'S PORTRAITS.—Families should avail themselves of these works of art, taken daily in groups and single, at prices from 50 cents to $150—opposite Odd Fellows' hall.

A FIGHT.—A fight took place last evening at the Germania House in the course of which an individual had his lip completely severed. The man who inflicted the injury was arrested.

LETTER LIST.—Our large daily circulation entitles us to the advertisement of the letter list, which appears in this morning's paper. Copies of the SUNDAY APPEAL are sold at our counting room.

☞ Religious services will be held in the side-room at Odd Fellows' Hall, by those connected with the new movement in Christianity, on Sunday, at 10½ o'clock A. M. All classes are invited to attend.

MARKET HOUSE.—The market house question appears to have subsided into quietude. In South-Memphis, the work of building the structure is progressing; in North-Memphis, the contract is fixing the stakes, and the work of filling in and leveling will soon commence.

RECORDER'S REPORT.—We learn from the report of Major East, that during the month of March 327 persons were brought before him, of whom 298 were found guilty, of these 186 paid fines to the amount of $1,615 25, 34 were put on the chain gang.

Dr. Baird's lecture for to-morrow (Monday) at Odd Fellows' hall, commencing at 8½ o'clock P. M., will be on "The Scandinavian Countries and Spain." Admission to those who have not tickets for the course, 50 cents; children half price.

THE THIRTY-TWO MEN HERES.—The City Marshal has served upon the proprietors of the thirty-two ponds and slaughter-houses in the city, notice to the effect that offensive nuisances must be abated, or they must take the consequences, which are likely to be expensive.

THE GREEVE MAN.—That most useful of Memphis citizens, R. M. Spicer, in his advertisement this morning, calls public attention to his superior Nashville hams and nice new-laid eggs. He has also onions and potatoes, a delicacy rather scarce this season of the year, which he offers for sale in the city.

☞ M. C. Cayce & Son request us to remind all of the great Division sale of real estate and other valuable properties, to be sold on Tuesday, the 5th inst. Surely there is sufficient inducements for hundreds to go out to this sale. None should forget the day of chances for homes and speculations.

COMMON LAW CHARGE.—In consequence of the continued indisposition of Hon. J. P. Carruthers, the Presiding Judge, this court will not be in session to-morrow, but will meet on Tuesday morning, unless further notice is given to the contrary. The list of cases will be published in the APPEAL of Tuesday morning.

CONCEALED WEAPONS.—A lady yesterday appealed to a couple of policemen to take from her door a man named Ira Toppan, who is from Mississippi, and was lying there in a state of intoxication; when they proceeded to remove him, he drew a pistol and tried to shoot. The Recorder yesterday fined him twenty-five dollars and the cost of prosecution.

DRESS BALL.—On Tuesday night, at the Exchange building, there will be a grand fancy dress and costume ball. No masks, or masks, will be admitted. Professor Hewings' band will give the witchery of music to the occasion, and beauty and pleasure will combine with "the mystery of motion," to make up a night of enjoyment.

GUILTY OF MURDER AND MORAL CHURCH. The trial of the two negroes, Isaac and Spence, charged with the murder of Mr. Cowden, came to a conclusion last evening. The jury, after a short deliberation, returned as their verdict, that Isaac was guilty of murder in the first degree, and upon the manslaughter. Judge King made applications for a new trial in the case of Isaac, which will be considered to-morrow.

DR. BAIRD'S LECTURE.—Dr. Baird gives another of his lectures to-morrow (Monday) night at Odd Fellows' Hall, on "Sweden and Spain." This lecture will embrace countries but little known to most Americans. All ought to desire to know something about Spain and the Spaniards. We may have much to do with them some of these days. See advertisement.

THE ECLECTIC MAGAZINE.—We have received a communication from the agent for the Eclectic Magazine, informing us that his list of Memphis subscribers did not reach the publishing office, on which account subscribers have failed to receive their March and April numbers. On learning the failure, he sent on a duplicate list, in conformity with which the books will soon arrive.

☞ On this (Sabbath) afternoon, at 4 o'clock, at the Cumberland Presbyterian church, will be held the anniversary meeting of the Bible Society. All the friends of Bible distribution—ladies and gentlemen, church members or not—are invited to be present. The proceedings will be interesting, showing the progress of the work, with an address, also, from Rev. Mr. Leavitt.

Immediately after, at the same place, Rev. Mr. Woodruff will address the Christian public, especially Sabbath school teachers and the friends of Sabbath schools, on the subject of Mission Schools by the churches. The meeting, therefore, will be unusually interesting.

THE WHARF.—Messrs Greenlee have declined closing their proposed contract for paving the wharf at $2.80 per square yard. Since then, Col. Douglass, chairman of the committee for paving the wharf, has been in communication with Mr. John Lowden, a substantial contractor, who has done a considerable portion of the fine paving that has so greatly improved the city of Cincinnati, from whom he has received a telegram, which reads: "I accept the contract at two dollars and fifty cents, agreeably to the specification and terms; will be in Memphis in a few days." This is thirty cents per square yard less than the Greenlees proposed to take the contract at, and the difference will make a saving of nine thousand three hundred dollars.

RECORDER'S COURT.—The Recorder had thirteen cases before him on Friday, which were as follows: Disorderly conduct, Michael Mahoney, James Kennedy, fined; disorderly and drunk, Wm. Sullivan, James Ryan, put on the chain gang—Nat Hamilton, fined; drunk, John Sullivan, Lawrence Leonard, Daniel Holland, put on the chain gang; resisting police, Thomas Jordan, put on the chain gang; fighting, Henry George Stephens, put on chain gang; vagrant, Fleming Duncan, put on chain gang.

Yesterday the cases at the court amounted to only five, as follows: Drunk, Thomas Holland, Michael Ryan, put on chain gang; drunk and disorderly, John Duffy, fined; disorderly, Francis Burchitt, sent to jail; for carrying concealed weapons, Ira Toppan, fined.

LIGHT FOR ALL.—The coal oil and lamps sold by Ambrose & Co., at their store on Monroe street, between Main and Second, are attracting attention; we often look in and generally find purchasers about; people are tired of greasy candles, extortionate gas, smoky lard oil, and explosive camphene. We are still burning the best oil we can offer, and are more and more pleased with it. Its advantages are a bright, yet softened light, extremely inflammable for burning, reading, or sewing by; when used with shades the eyes are shielded from the bright rays, while the object looked upon is always bright. It will not coagulate in the lamp. This is a great saving to the eyes, the economy of lamps, wicks. It costs but a dollar and a quarter a gallon, and it does not burn rapidly. Before buying another box of candles, or any other description of lamp, call at Ambrose & Co.'s and see the Coal Oil Lamp.

Port of Memphis.

No advertisements of Steamboats inserted except through agents in this city, who will be held responsible for advertising fees.

River News.

On Friday night, after a thunder storm, a very heavy rain set in, and rained throughout the night; at intervals it poured in tremendous streams. During yesterday the rain continued to fall until evening. This continued, and heavy rain was not without its effect upon the river. On both Thursday and Friday evenings the water stood at 21 inches below high water mark; last evening our measurement showed it to be only 7½ inches below, a rise of 21 inches and within 12 inches of the highest water of the present flood. Yesterday week, the light was 33 inches below high water mark. Some drift was running last evening, and the croakers were prophesying a rise to exceed that of last year. Unless the rain of yesterday, and the previous night, extended wide a very vast proportion of country, we think the prophecy will again prove false news. The rise of the last twenty-four hours is a local one, and very different in its character from one caused by the swelling of tributary rivers, and unless, as we have remarked, the late rain was unusually extensive, it will not be of long continuance.

We learn from Captain Riley Jones of the Belle Creole, that White river was falling when he came down, but a rise was slowly coming down from upper White river.

The W. M. Morrison will pass down Monday evening, taking the mail for the Packet Company. She will leave on arrival of the cars.

The Sinaloa will pass up Sunday evening to Columbus to discharge a cargo of railroad iron. There will be a clerk of the boat on Monday to receive her freight, and she will be here to leave regularly as her time.

The steamer Gladiator of the New Orleans and St. Louis U. S. mail line, will arrive at the wharf this evening, bound to New Orleans, and depart upon the arrival of the eastern train. She is an A No. 1 packet, with unsurpassed accommodations for freight or passengers. For information inquire of Thomas Kernan, freight and passenger agent.

The St. Francis No. 2, the renowned passenger packet, leaves at five o'clock to-morrow evening, on her regular Monday trip to Napoleon. She is giving unbounded satisfaction in the Napoleon trade. Passengers who become guests of the St. Francis and her clever commander, A. T. Wood, invariably find her accommodations quite agreeable enough to cause them to leave the boat with regret.

The splendid and swift passenger steamer Philadelphia, Capt. John H. Marshall, is receiving for Napoleon. She is in prime order for business, and will accommodate her patrons in a manner none can excel. She has a splendid cabin and every regale for comfort, and, take her altogether, she will rank with the first. She leaves for St. Louis at four o'clock to-morrow evening. Williams & Co., agents.

The Alvin Adams has gained a reputation commensurate with the course of the western rivers as an elegant and well-managed boat. She is always in good trim, and her commander, Capt. Lamb, is a cool, steady and careful man, who never falls behind in what his duty requires, and is never guilty of imprudence. The Alvin Adams leaves at three o'clock to-morrow afternoon. Priest is the agent.

The Louisville Courier, of Wednesday, reports:

The river was falling quite fast yesterday, with twelve feet water in the canal at dusk, by the mark. On the falls there were nine feet steamboat water, the river having fallen two feet at the head of the falls during the previous twenty-four hours. The weather was cloudy and chilly all day, with a hard rain the night before, and heavy storms along the river compelling boats to tie by. The river at Cincinnati and Pittsburg continues steadily receding, and we think the Ohio will not be navigable for ascending boats much longer.

The Paducah Herald, of Thursday says:

The river has commenced falling at this point. It is falling fast from Pittsburg down.

The New Albany (Ind.) Ledger, of Wednesday last, says:

The river at this point is falling very fast to-day, having receded about three feet since last night.

MURDER IN PINCH.—On Friday night a number of persons assembled at the house of a man named D. Deane, on Auction street, on the occasion of a dance. While the parties were engaged in that amusement a number of outsiders stepped in uninvited, when a dispute arose and some pistols were fired, without wounding any one, however. At from 10 to 11 o'clock another difficulty broke out, in the course of which Andrew Lahiff was stabbed in the middle of the breast, over the pit of the stomach. The wound penetrated his heart and caused almost immediate death. A dagger six inches long, with a pearl handle, and contained in a sheath, was afterward found on the ground outside of the door. During the whole of yesterday Esquire Horne, the coroner, with a jury held an inquest. Many of the parties present at the ball were examined. Of all who were there, none would acknowledge they saw the fatal blow given. The evidence was very contradictory, and testimony was obtained with extreme difficulty. None could assign any motive for the act; most attributed it to a grudge against body or other had borne the deceased. Two men named Hutchinson and Turner, both of whom are under arrest, appeared to be principally implicated. The jury adjourned at dark last night, and will re-commence their investigations to-morrow afternoon at 2 o'clock. Capt. Garrett and the police arrested the following individuals, as being connected with the disturbance at the ball, if not with the death of Lahiff, and are now in jail: Joseph Williams, James Hutchinson, Gus. Williams, Columbus Wright, Wm. Bromley, David Turner.

THE EYE AND THE EAR.—Dr. Moschizker will visit at the Gayoso House, where he has been affording great relief to several afflicted citizens. That the reader may know the doctor is not to be confounded with mere pretenders to the medical art, we insert below an article from the Nashville *Union and American*, of the 5th of February last. We also call attention to a number of testimonials to the attainments and skill of Dr. Moschizker, which will be found in another column. We have made his acquaintance personally, and are most favorably impressed with his manners as a gentleman and his cultivation as a scholar. In case of affliction in our own families, we should not hesitate to call his skill into requisition with the utmost confidence. The Nashville *American* says:

The public health and morals of a community are topics upon which the pen of the public journalist is often employed. It is equally his duty to point out to individual sufferers genuine remedies and improvements in science and skill coming under his observation, provided he can be fully satisfied he is not recommending a humbug. On account of the mass of newspapers for puffing humbugs and the consequent low estimate placed by the public upon the whole tribe, we have been slow in thus expressing an opinion based upon a due appreciation of real merit and eminent skill. Such are the circumstances under which we attempt to speak of the scientific research and distinguished ability of Dr. Moschizker, now in our city, treating the diseases of the eye and ear—diseases, to the special treatment of which he has devoted himself for many years, being the most precious of our senses—should make his visit one of general and special interest.

From information furnished by high authority, we are convinced that Dr. M. has been more successful in treating these diseases than those who have preceded him. We may be pardoned for referring to the fact that Dr. Moschizker's work on diseases of the eye is considered one of the best medical works in the country on the subject. Suffice it also to say that Prof. Dunglison, the best of our medical lexicographers, and one of our standard authors, has accepted the dedication of the same, and spoken of it in the highest terms. Dr. Wood, who is now our ex officio President of the National Medical Association, and known to the medical profession as one of the best diagnosticians in this country.

We might add much from best authorities in favor of Dr. Moschizker, but his practice and cures are the best evidences that need be given. We advise those in need of his services to call and be satisfied.

TOO FOR LADIES.—A DUELLAT.—Our lady friends, those of them more men who love to dress gracefully, becomingly and in the mode—that includes all our lady readers—will please to remember that Mrs M. A. Atkinson, whose millinery store is 329 Main street, between Union and Gayoso streets, has received her new Spring stock complete, and will have it arranged for showing by Wednesday next, when the ladies are requested to call and examine a stock that for richness, beauty, and elegance is beyond anything of the kind hitherto exhibited in Memphis. The display will be a gorgeous one, and will excite attention. See advertisement.

Abstract of Meteorological Observations for the month of March, 1859.

Average elevation of Barometer for the month 29.800
Average temperature 58.5
Total rainfall 4.40

REMARKS.—During the month of March, as in February, a much larger amount of rain has fallen than usual. During the three past months of the present year, the quantity of rain amounts to nearly 18 inches, which is more than a third greater than the amount fallen during the corresponding months of last year. In other respects the meteorological conditions are but little different.

Latest News by Telegraph.

TO ASSOCIATED PRESS OF MEMPHIS

From Washington.—Nicaragua Affairs, &c.

WASHINGTON, April 2.—The non-arrival of the British naval frigate, having on board Lord Lyons, the new British minister to this country, excites great fear for her safety.

The commander of the United States frigate Jamestown, corroborates the recent statements about Nicaraguan affairs.

The Nicaragua Transit treaty has been ratified with an additional article, to the effect that Nicaragua has surrendered some of her rights over the Mosquito coast. The Mosquito treaties were still pending.

The Cass-Yrisarri treaty has not yet been acted on. If it appears that Minister Ousely has transcended or violated his instructions, England will be formally requested to disavow his acts. It is also probable that if Nicaragua ratifies all the British treaties and rejects ours, Lamar will withdraw and Jones be tendered his passports.

It is reported that our vessels will be concentrated at the most exposed points, for the protection of persons and property of Americans citizens.

Minister Bowlin writes hopefully of being able to make a satisfactory arrangement in the Paraguay difficulties.

Later from New Mexico.

ST. LOUIS, April 2.—The New Mexican mail of the 12th has reached Independence. The Gazette office at Santa Fe was burned on the 12th; almost total loss; supposed to be from the effects of a rocket.

The Kiowa Indians had driven men from the mail stations at Pawnee Fork, and were depredating troublesome.

The people at upper New Mexico were desirous of annexation to Jefferson territory.

From Kansas.

LEAVENWORTH, April 2.—A dispatch says that information has been received from Washington that the Government designs placing several companies of cavalry along the route to Denver City to protect emigrants.

Fraud Against Government.

NEW YORK, April 2.—J. Churchill Wolde was yesterday arrested and held to bail in the sum of $10,000 for frauds against the Government with disbursements on behalf of the waguonsmith between El Paso and Fort Yuma.

River News.

LOUISVILLE, April 2, P. M.—River falling slowly with 6 feet on the falls and 9 feet in the canal.

THE IMMENSE DEMAND FOR

SINGER'S SEWING MACHINES

HAS compelled more extensive accommodations than any other house in the city. These Machines are sold from as low as $20, 100 Main street, next door to McKinney & Co.'s Furniture Store, connecting with the latter upon the second story.

The reputation of SINGER'S SEWING MACHINES, is so well established, that it is needless for us to recapitulate upon their merits, especially since it is customary to advertise the merits of Sewing Machines, whether good or bad, as superior, or at least equal to all others. But assertion is not proof, and no sensible person will trust to a public advertisement, when he can avail himself of the opportunity of judging by personal inspection what Machine is best adapted to his purpose.

It is impossible for the purchaser of a Singer Machine to be deceived, or induced to purchase such Machine as will with the privilege of returning it in a given time if it should not prove to be what it was represented.

Were it necessary, we could point to a volume of facts illustrative of the maxim: "Business is a safe evidence of merit." And it is because that L. M. Singer and Ward Clark, who constitute the firm of L. M. Singer & Co., have been successful in the sale of Sewing Machines, that Singer's Machines have always commanded a higher price, and that they have a much large number of them sold than of any other kind, and that hundreds of these Machines have been in constant daily use for upwards of seven years, being still in good order.

Singer's new manufactory in New York, is considered a remarkable achievement in that city of mammoth establishments; yet with all these immense facilities they are barely able to supply the demand, which has more than doubled since the publication of the certificate of a committee of the Institute, awarding Sewing Machines with which the whole country is defaced.

Those who are not posted in the Sewing Machine trade, should call at the store and examine the machines before buying.

☞ Prices of Singer's Machines from $60 to $150.

COSMORAMIC STEREOSCOPE.

A THING more instructive and amusing than the Stereoscope. The Stereoscope Views are impressions from Nature, representing the chief Scenery, Cities and Monuments in Europe and this country, which, viewed through the instrument, appear as perfect in bold relief, actually as they are, and thus are the best substitute for Actual Travel. Call and view at Morgan Committee and Act, and make the finest parlor ornament.

Citizens and Strangers visiting the city, should call and see the Stereoscopic Views of the Great Scenery, Cities and Monuments in Europe and this country, which, viewed through the instrument, appear as perfect in bold relief, actually as they are, and thus are the best substitute for Actual Travel. PLANTATION AND NEGROES FOR SALE.

I OFFER for sale the place on which I now reside, together with twenty acclimated Negroes. The Plantation is situated on Lake Concordia, Deloc county, about three miles from the Mississippi, and a Post Office, on the Mississippi river, and twenty miles below Vicksburg. The place is in good state of fence, Lot, viz: Section 13, Township 2, Range 10, west. One hundred and fifty acres in cotton, and about five hundred more, described every acre, with all the undergrowth cut off. The whole section is cleared of timber, and the place is in good order, considerably, if all taken by one purchaser. For terms, etc., inquire of R. R. Barnes, Memphis, Tenn., or of the subscriber on the premises.

In Chancery at Memphis.

STATE OF TENNESSEE—At Chambers in the Clerk's Office, Chancery Side of the Common Law and Chancery Court of Shelby of Memphis, Monday, March the 7th, 1859.

Thomas H. Fearon, Complainant,
vs
The President, Directors and Company of the Union Bank of the State of Tennessee, Jno. A. Wood et al., Defendants.

It appearing from affidavit filed in this cause, that the defendant, J. Wheatley, is a non-resident of the State of Tennessee, it is ordered that he do enter his appearance herein before or within the first three days of the next term of said court, to be held on the fourth Monday in May next, (1859) and plead, answer or demur to complainant's bill, or the same will be taken for confessed as to him, and set for hearing ex parte, and that a copy of this order be published once a week for four successive weeks, in the Memphis Appeal.

A copy—attest JOHN C. LANIER,
Clerk and Master.

PLANTATION AND SINGER SEWING MACHINES

HAVE received more premiums than any other Sewing Machines. Warranted superior to any other machine. Sewing Machines sold from as low as $20, 100 Main street, next door to McKinney & Co.'s Furniture Store, connecting with the latter upon the second story.

The reputation of SINGER'S SEWING MACHINES, is so well established, that it is needless for us to recapitulate upon their merits, especially since it is customary to advertise the merits of Sewing Machines, whether good or bad, as superior, or at least equal to all others. But assertion is not proof, and no sensible person will trust to a public advertisement, when he can avail himself of the opportunity of judging by personal inspection what Machine is best adapted to his purpose.

It is impossible for the purchaser of a Singer Machine to be deceived, or induced to purchase such Machine as will with the privilege of returning it in a given time if it should not prove to be what it was represented.

Were it necessary, we could point to a volume of facts illustrative of the maxim: "Business is a safe evidence of merit." And it is because that L. M. Singer and Ward Clark, who constitute the firm of L. M. Singer & Co., have been successful in the sale of Sewing Machines, that Singer's Machines have always commanded a higher price, and that they have a much large number of them sold than of any other kind, and that hundreds of these Machines have been in constant daily use for upwards of seven years, being still in good order.

Singer's new manufactory in New York, is considered a remarkable achievement in that city of mammoth establishments; yet with all these immense facilities they are barely able to supply the demand, which has more than doubled since the publication of the certificate of a committee of the Institute, awarding Sewing Machines with which the whole country is defaced.

Those who are not posted in the Sewing Machine trade, should call at the store and examine the machines before buying.

☞ Prices of Singer's Machines from $60 to $150.
