DALY'S
AROMATIC VALLEY WHISKY!
For Medicinal Use.
HAS taken that position for the world's estimation, which justifies its Proprietor in claiming for it A SUPERIORITY UNRIVALED.
Produced, as it is, by a process known only to the manufacturer, and extracted from the choicest grain, which from its adaptedness to a favorable growth in the Valley of the Monongahela, and containing no particle of deleterious adjuncts, it has acquired a reputation for its peculiar purity and nutritive excellence, based solely upon its intrinsic merits, which, when once tried, will ever hereafter be its only guarantee; which ever so long as the Proprietor shall exist to look after the interests of the learned and

which this article is known to possess; and this silence so far part has been imputed to a selfishness deemed the shallowest conceptions should connect his name with advertisements of a character so common place as Quack-nostrum circulars. But, for some time past, the propriety has been in the constant receipt of unsolicited testimonials from all parts of the country, emanating

and testimonials which speak with such emphatic and unqualified approval of the superior excellence of the

in all cases in which vertical stimulation has become requisite—in order to restore, repair or assist the functions and energies of the human system—that he deems it his duty to set at the hazard of which he has spoken, to make known to the world, in the most public manner possible, these extraordinary and invaluable properties of this article, of his manufacture.
It is not his purpose to recite in detail a list of those diseases of the human system which have been known to be most frequently cured by the use of this stimulant. They are particularly described in the various testimonials appended, which are open at all times to the inspection of our friends, but which we do not feel at liberty, without special permission of the distinguished persons who have sent them to us, to parade in the public newspapers.
Suffice it to say, that the diseases alluded to, comprise all such as are incident to
TROPICAL LATITUDES, TO A CHANGE OF CLIMATE OR DIET,
or to any other cause which derangeth or impairs the operant functions of the human system, including inactive, insensible and depressing, and the unstrung and the flowing from this source.
In all such cases the AROMATIC VALLEY WHISKY
ACTS AS A POWERFUL STIMULANT
restoring the natural organs, for a stimulant which, both in character and degree, seems to be in all things most wholesomely adapted to the purpose. Such has been the tone and force of action in the vital organs, so essential to the preservation of life.
It is in this extent that the proprietor knows himself to be justified in claiming for his manufacture, Hygienic properties and virtues which have not been equalled, nor even valued. In universal use by the
