Local Matters.

Saturday Morning, : June 4, 1859.

Shelby County Democratic Association.

Our Democratic friends of city and country, should not forget that this Association holds its regular meeting every Thursday night at 8 o'clock at their hall on Adams street. Every Democrat in the county is a member, and not invited but urged to attend these meetings.

We are requested to give notice that on Tuesday night next, at the appointed hour, there will be a special meeting to consider of matters of interest and importance to the party. General and punctual attendance is requested.

ARRESTED.—Peter Flynn, who had escaped from the chain-gang a few days ago, was arrested by Capt. Garrett last evening. Several persons were arrested also for drunkenness.

RECORDER'S COURT.—There were eleven delinquents before the Recorder yesterday, and fines to the amount of $80 were assessed, but $10 of which was paid. Four additions were made to the chain-gang.

THE FIREMEN'S FIGHT.—We are informed on good authority, that the fight which occurred at the fire at the Navy Yard, was in one particular incorrectly reported by us. We learn that the No. 6 Fire Co. had nothing whatever to do with the row. We make this correction with much pleasure.

A BRUTE WELL PUNISHED.—G. H. Tagler, of South Memphis, was arraigned before the Recorder yesterday upon the charge of abusing his wife generally and knocking her down with a brick particularly, and was fined $50, in default of the payment of which he was sentenced to the chain-gang.

SALE IN GREENLAW ADDITION.—Persons who wish to purchase choice real estate in the Greenlaw Addition have now an opportunity to do so on easy terms. G. B. Locke will offer for sale at auction on Thursday next some beautiful lots, which are among the most valuable in North Memphis. Refer to the advertisement.

THE GREAT RACE AT GALLATIN.—The great match race of four-mile heats for six thousand dollars came off at Gallatin, Tenn., on Thursday, and was won by Guilt & Bibbs's Hiawatha, by Albion, in two straight heats—Time—7:57. Eli Oates's Mary Wylie was the competitor. Had the horse, we learn, won the race with ease.

PIONEERS' FAIR.—On Tuesday night the fair for the Pioneers' library opens, and there are already significant indications that it will be a magnificent festival. The ladies are going into it head and hands; they declare the fair shall be a triumphant success, and lovely women are what the will she will, we say, they usually do.

We are requested to invite all the ladies who take an interest in the fair, to meet the committee at Odd Fellow's Hall this evening at 8 o'clock.

POLICE BUSINESS.—We learn from the monthly report of the City Recorder that the number of persons arraigned before that officer during the month of May was two hundred and ninety; of this number two hundred and forty-seven were found guilty of the charges preferred against them, and forty-three were discharged for want of proof. The number who paid their fines was one hundred and thirty-three, and one hundred and forty-four were committed to the chain gang. The amount of fines collected during the month was $866 30.

SCHOOL ELECTION.—We remind voters that they are required this day to attend at the polling places in their respective wards, and record their votes for school visitors. There has been much attention paid to the Public School question in this city than its immense importance demands. Let the vote this day show that the people are widely and deeply interested in the great cause of education, that they will have good school houses and every necessary appliance for extending a good, thorough education to every child in the city. Let us have Memphis mighty in the power that springs from knowledge.

ANOTHER PROPOSITION.—A proposition has been submitted to the Baltimore Board of Trade, through Mr. Walter Barclay, acting British Consul, by the Chevalier de Bosch Spencer, the Belgian Minister, near the Court of Copenhagen, on behalf of the Belgian Government, and the "Société Generale," an extensive banking company, to organize a steamship line between Antwerp and the United States. The committee, appointed to consider the subject by the Board, reported favorably on it. It was the same that made a proposition recently to establish direct communication between this city and Ghent.

A FIRESTRAYE NOTICE OF THE GAYOSO HOUSE.—Dr. Samuel A. K. Morton, a gentleman of taste and discrimination, in a recent letter to the Russellville *Herald*, from this city, says: "On arriving at the Bluff City, we, of course, ordered our baggage to the new and 'crack' hotel, the Gayoso. This we found to be quite a palatial affair, aspiring by its handsome furniture to a rivalry of the St. Nicholas or Metropolitan, of New York. In each of the large, well ventilated rooms, from basement to attic, are mantels of Italian marble, marble-top tables, bureaus, and washstands, mahogany wardrobes, cushioned chairs, divans, and beautiful four-globe chandeliers. The entire building is illumed at night with carburetted hydrogen gas, supplied by a factory belonging to the house. The dining saloon, ball room, and ladies' parlors are tastefully and elegantly decorated—the latter with gorgeous chandeliers, lofty mirrors, curtains of satin damask, lined with silk, chased silver pitchers and goblets, Turkish chairs, sofas, divans, ottomans, etc."

TO BUSINESS MEN. This morning at 10 o'clock, a crowd will congregate at the corner of Third and Adams streets, to see how property goes off in this central portion of the city. Men are beginning to inquire what will be the effect of constructing the Overton Hotel. The general impression is that in gravitating between the Gayoso and the palace in Pinch, the center of business will locate itself about Adams street. The Northern Road when completed to Louisville, will draw property and prices north, and Col. White's Road will attract them to the south, and again the common point between the two is found on Adams street. Go look at it reader, with its beautiful residences which line it for a mile on either side, its Churches, with the massive cathedral, its fine slope and perfect drainage, and its delightful shade, to Main on the west, and the city, and then reflect that in five years Third street will be as great a thoroughfare as Main was five years ago. We advise all desirous of making a good investment, to attend Alderman Forrest's sale this morning. See advertisement of Monsarrat, Dupree & Co.

COL. PAYNE'S ADDRESS.—Some weeks ago Col. Payne, whose late position of Railroad Commissioner for the State, and whose high order of talents as an orator so well qualify him for the task, was publicly requested to deliver an address upon the subject of the railroad policy of the city of Memphis. He kindly acceded, and at the Gaiety Theater, at 8 o'clock this evening, he will fulfil his promise. He will discuss the past history, present position and future prospects of our system of railroads, show what we have accomplished, and what remains to be done. The subject of street improvements and independent street railroads will be discussed, and some views presented of great public interest, and with which every citizen should be well acquainted. A city election is near at hand, and the railroad subject is one upon which the Mayor and City Council should be sound in their views; the mode of improving facilities for transit through our streets should receive no less attention from those officials. By hearing the address of Col. Payne, citizens will be put in a position to vote intelligently and understandingly upon these points. Col. Payne's speeches are always listened to with great pleasure by the ladies, and seats will be reserved for their accommodation; they are all invited.

JUDGES OF SCHOOL ELECTION.—The City Marshal, Mr. Underwood, will to-day hold an election for one School Visitor in each ward of the city. He has appointed the following gentlemen judges of election. The polls will open at 10 a. m. and close at 4 p. m.

First Ward.—Place of election, Whitsitt's Corner, on Market street. Judges, Messrs. W. Sheffield, W. Werner and A. A. Cox.

Second Ward.—Place of election, the Council Room, Exchange Buildings. Judges of election, Messrs. N. Gipson, H. H. Cotnell and R. Baker.

Third Ward.—Place of election, Worsham House. Judges, Messrs. B. Jones, A. Gipson and James Worsham.

Fourth Ward.—Place of election, Esq. Hill's office, Bank Building. Judges, Messrs R. A. Samples, A. Wallace and H. E. Fitts.

Fifth Ward.—Place of election, No. 5 Engine House. Judges, Messrs. James Saint, C. Young and John Davis.

Sixth Ward.—Place of election, the School House on Pontotoc street. Judges, Messrs. E. P. Williams, M. Jones and W. Watt.

Seventh Ward—Place of election, No. 2 Engine House, Desoto street. Judges, Messrs. A. Ferguson, J. N. Hunt and J. D. Goff.

Eighth Ward.—Place of election, Ratman's, Poplar street, corner of Manassas. Judges, Messrs. Ben. O'Haver, B. L. Sanders and W. Prewett.

STREET PAVING.—We are now advanced into the summer, and it is time that the subject of placing our streets in proper condition for the next business season, opening in September, was attended to. We have carefully and at great expense provided railroads to put us in connection with distant parts of the country, not an item of the advantages gained by heavy outlay, and anxious care must be lost for want of proper transit facilities within the city itself. To permit obstructions to exist in the heart of the city, while we have removed them for many miles beyond our boundaries, is a policy too suicidal to the interests of Memphis for its enlightened citizens to permit it to continue. We must have a sufficient amount of our streets put in good condition to allow, in the worst weather, of ready access to and from the railroad depots and the business portion of the city. Before commencing actual operations, it must be decided on what plan our paving shall be done. We have at various times called attention to the bowlder pavement. That has supperseded the limestone in Cincinnati, St. Louis and Louisville, but it is well that other modes of paving should receive attention. Especially ought that discription of paving be chosen which, while substantial and durable, will be as inexpensive as possible.

In this connection, we may mention that a specimen of the Nicolson pavement, of which we have already spoken, will be kept at the Mayor's office during the whole of this day, and the public at large are invited to call and see it. Merchants, cotton factors, and all interested in comfort, easy and cheap transit through our streets, should call and examine it, that its claims may be known and canvassed, and a just conclusion be arrived at. A correspondent, who has already given us one communication upon the subject, has engaged to supply us with another, probably for next Tuesday morning, in which the Nicolson pavement will be described and the advantages claimed for it pointed out. Those who visit the specimen at the Mayor's office to-day, will be better able to form a judgment upon the explanations and representations of our correspondent, whose communication will probably appear on Tuesday morning. If the pavement appears likely to answer the desired object, no time ought to be lost in laying down a few squares of it in some business and much traveled part of the city, that we may have practical proof of its merits.

☞ We would advise all our friends who are in want of choice Groceries, to call on our young friends Brooks & Vaughan, who have lately opened an establishment at No. 50 Monroe street, nearly opposite Bruce's Carriage Factory. They have on hand a large supply of new honey, besides fresh country butter, vegetables, plantation and family supplies.

DEAD BODY FOUND.—The body of a man was found floating in the river at Fort Pickering yesterday morning, having been in the water for some time. It is supposed to be the body that was seen in the river about ten days ago. Esquire Horne held an inquest on the body last evening, but no testimony was elicited as to the identity of the deceased.

FINE LIQUORS FOR MEDICINAL PURPOSES.—Menke, Schell & Prince, at their admirable drug store at the corner of Shelby and McCall streets, have on hand a lot of superb wines and brandies for medical use, together with an assortment of fancy and toilette articles of the rarest quality.

☞ We are assured that the difficulty between the fire companies No. 2 and No. 6, at the fire Thursday morning was inaugurated by individuals who belonged to neither company, and that the best relations exist between the members of the two organizations.

PERSONAL.—Mr. J. T. Chidester, of the firm of Chidester, Repley & Co., the well known mail contractors, arrived in this city yesterday and departed for his home in Alabama last evening.

HON. STEPHEN A. DOUGLAS.—This distinguished politician spent the day at the Gayoso House yesterday, and received a large number of his friends during the day. He left for Chicago last evening.

ATTEMPTED INCENDIARISM.—A house on the corner of Madison and Third streets was set on fire by an incendiary Thursday night, but discovered and extinguished before an alarm had been given.

ACCIDENTAL SHOOTING.—A negro named George, a slave of Mr. Scales, accidentally shot himself in the hand Thursday night, on Beal street, near the Bayou, in an attempt to shoot some dogs that were harassing him.

LUMBER FOR SALE.—Messrs. Priest & Bowen, at No. 7, Monroe street, have a lot of superior walnut lumber for sale.

☞ Dr. Sloan, of Memphis, Tenn., is going to Mississippi in a few days on a business tour. He expects to visit Hernando, Cold Water, Batesville, Panola and other points. All who want the services of a Dentist will do well to call on him; he warrants all his work, and gives good references. jet-3t*

FRESH FAMILY GROCERIES.—Attention is invited to the advertisement of our friends Mitchell & Co., who keep constantly supplied with fresh, choice and cheap groceries. They are holding forth at their old stand on Main, in the Pyramid Block. Give them a call.

☞ Messrs. B. B. Atkinson & Co., on Madison street, have a choice supply of groceries, family stores, fresh marketing, and everything usually kept in a family grocery. Their Old Bourbon in bottles is unexcelled.

FRENCH.—Sprott's saloon, with ice cream and soda water refreshments, are the most popular things in town, now that the warm weather has set in.

TO CARRIAGE MAKERS.—We have now on hand and for sale low, a lot of superior walnut lumber.

DEPARTURES YESTERDAY.

Hiawatha.....St. Louis. | St. Francis No 2, Napoleon

The river has fallen about twelve inches at this point during the past twenty four hours, and is falling at all points from Cairo to New Orleans.

There was a decided change in the atmosphere for the under Thursday night, and the weather was pleasant yesterday, with a sprag air, and a stiff breeze setting the afternoon. In the neighborhood of this city it is almost intolerable. But none was dealt at the landing yesterday.

The telegraph continues to report a declining river at St. Louis. One last night's dispatch advises us of a twelve inch fall in the preceding 24 hours.

The regular packet departures yesterday embraced the Capitol, for New Orleans, and the St. Francis No. 2 for Napoleon, both having comparatively light trips.

The Capitol took 47 bales cotton yesterday for New Orleans, and had little other freight.

The Daniel Boone brought up the broken shaft of the steamer Irene from Napoleon, which will be removed here.

The steamer J. H. Dickey arrived from St. Louis yesterday with one of the best trips of the season, both of passengers and freight, including a large amount of produce for Mr. Clark J. Morton, a heavy lot of boats, and a considerable number of mules and horses for redispatch on the Memphis and Charleston Railroad.

We are indebted to Messrs. Reed & Worsham, the enterprising news agents to Capt. R. M. Dill, to Mr. McDonald, of the J. H. Dickey, to Mr. Grier, of the R. J. Ward, and to Capt. W. P. Hollister of the Pacific, for papers and other favors.

The splendid low-pressure steamer Southerner will arrive this evening and depart for Louisville at 5 o'clock p. m. precisely (Sunday) morning.

The steamer Pacific arrived here about 10 o'clock last night, with an excellent trip of freight, and coaled at the mouth of White river.

The R. M. Rosepie left St. Louis, on a pleasure excursion from Nashville.

The Cairo correspondent of the St. Louis Democrat, says that the Kentucky passed the Imperial under way between Memphis and Cairo.

For St. Louis.—The fine and popular steamer J. H. Dickey, Capt. Dan Able, of the regular mail and packet, are packed for St. Louis and way places at 4 o'clock this afternoon. The Dickey is the favorite in the line, with commodious accommodations and popular and efficient officers. Mr. McDonald, the clerk, is a model officer and a most pleasant traveling companion.

FOR VICKSBURG.—The popular packet Daniel Boone, Capt. Hicks, is the staunch packet for Vicksburg to-day, and will leave at 4 o'clock this afternoon. Her character for speed and high living is worldwide, and the popularity of her officers is as universal. Messrs. Petty and Woodcliff are the clerks.

FOR WHITE RIVER.—The old and popular packet Republic, Capt. Pennington, will leave for White river the usual hour this afternoon. She has become a part of institution in the White river trade, having been remoded for some time as the exclusive accommodation line for that region. Her commander, Capt. Pennington, is well known on White river as a model officer and gentleman in the Little Red. We commend passengers and shippers to Capt. Rodgers, the popular clerk.

FOR LITTLE ROCK.—The faithful packet Jennie Whipple, under the command of Capt. Morris, will leave at one o'clock this afternoon for Little Rock. This is a great favorite in Mississippi trade to Napoleon and for all points on the Arkansas river thence to Little Rock. The Whipple has fixed her water packet, with the best accommodations for passengers. Messrs. Gray and Palmer are the clerks.

FOR THE ST FRANCIS RIVER.—The fine little steamer W. C. Langley, Capt. Smith, will leave for Helena and all points on the St. Francis river after the arrival of the train this afternoon. She is a great favorite in Capt. J. G. Kennett's packets to the trade, in the river.

THE IMMENSE DEMAND
FOR
SINGER'S SEWING MACHINE
IT very conclusively proves its superiority over all others. A splendid large Salesroom has been fitted up, 323 Broadway, next door to Mitchell's Hotel, in furniture store, connecting with the latter upon the second floor.
The reputation of SINGER'S SEWING MACHINES is so well established, it is deemed supercilious to expatiate upon their merits, especially since it is customary to advertise every kind of Sewing Machine, whether good or bad, as superior to all and equal to the best known. But experience is our proof, and no sensible person will trust to a puffing advertisement, while he can avail himself of the opportunity of judging by personal inspection what Machine is best suited to his purpose.
It is impossible for the purchaser of a Singer Machine to be deceived, simply because each Machine is sold with the principle, and warranted in a given time if it should not prove to be what it was represented.
Were it necessary, we could point to a volume of facts illustrative of the matter. "Actions are a surer evidence of merit." It is well known that I. M. Singer and Co. (who succeeded the firm of I. M. Singer & Co., have become millionaires. It is an undeniable fact, that Singer's Machines have always commanded a higher price, and that there is a much larger number of them sold than of any other kind, and that hundreds of these Machines have been in constant use for the space of seven years, being still in good condition.
Singer's Machines are manufactured in New York, in consideration of a remarkable circumstance even in that city of unequalled establishments, and with all their immense facilities they are barely able to supply the demand, which has more than doubled since the public has discovered the efficiency and worthlessness of the scores of Sewing Machines with which the whole country is designed.
Those who patronize the Singer Sewing Machine trade would do well to make a thorough examination before buying.
☞ Prices of Singer's Machines from $40 to $150.

DALY'S
AROMATIC VALLEY WHISKY!
For Medicinal Use.
HAS now taken that position in the world's estimation, which justifies its Proprietor in claiming for it A SUPERIORITY UNRIVALED.
Produced, as it is, by a process known only to the manufacturer, and distilled from the purest grain, which grows in where but in a favored locality in the Valley of the Monongahela, and containing a quantity of delicious aromatics; it has acquired a reputation for perfect purity and intrinsic excellence, based solely upon its inherent merits, which the Proprietor does not believe, as long as he controls the manufacture, shall ever be forfeited. Hence he may safely challenge the most searching scrutiny of the statements of the learned and
DISTINGUISHED CHEMISTS
whose certificates we publish herewith.
He has heretofore refrained from making public, by advertisement, the
EXTRAORDINARY MEDICINAL PROPERTIES
which this article is known to possess; and this silence on his part has been induced by a conscientious dread that the slightest suspicion should connect his name with advertising nostrums, and the numerous large class of quack nostrum circulars. But, for some time past, the proprietor has been in the constant receipt of unsolicited testimonials from all parts of the country, such as the following:
FROM PHYSICIANS OF THE HIGHEST REPUTATION,
and testimonials which speak with such emphatic and unqualified approval of the curative qualities of the
AROMATIC VALLEY WHISKY
AS A
MEDICINAL AGENT
in all cases in which artificial stimulation has become requisite—in order to reduce, equalize and assist the functions and energies of nature—that it will prove, in fact, even at the hazard of which he has spoken, to make known to the world, in the most public manner possible, these extraordinary and invaluable properties of this article of his manufacture.
It is not his purpose to recite in detail, a list of those diseases of the human system which have been known to be most favorably affected by the use of this stimulant. They are particularly described in the various testimonials spoken of, which are open at all times to the inspection of our friends, but which we do not feel at liberty, without special permission of the Gentlemen of persons who have sent them to us, to publish to the public across papers.
It is sufficient to say, that the diseases alluded to, comprise all such as are incident to
TROPICAL LATITUDES, TO A CHANGE OF CLIMATE OR DIET,
or to any other cause which disarranges or impairs the operant functions of the human system; inducing languor, lassitude, nervousness, and the thousand ills following from this source.
In all such cases the AROMATIC VALLEY WHISKY
ACTS AS A RESTORATIVE,
assisting the natural organs, by a stimulant which, both in character and degree, seems to be in all things most admirably fitted to invigorate, and to aid, without the bane and force of action in the vital organs, so essential to perfect health.
It is to this extent that the proprietor knows himself to be justified in claiming for his manufacture, Hygienic properties and virtues which cannot be generated, nor even claimed. In observing use by the
MEDICAL PROFESSION
is most urgently recommended. Already has it found its way into the principal public and private Hospitals in the country, and wherever it has been once used, it invariably becomes a regular.
I have analyzed a sample of "Daly's Aromatic Valley Whisky," and find it to be a pure article, of fine flavor, and without adulterating ingredients.

WM. H. DALY:
Your Aromatic Valley Whisky is renowned, and after carefully analyzing it, I find it to be a pure, single, unadulterated spirit, free from the adulterating ingredients so frequently used.

RICHARDSON'S
Irish Linens, Damasks,
DIAPERS, ETC.
CONSUMERS of Richardson's Linens, and those desirous of obtaining the GENUINE GOODS, should see that the articles they purchase are sealed with the stamp of the firm,
RICHARDSON, SONS AND OWDEN,
as a guaranty of the soundness and durability of the fabric.
This custom is rendered essentially necessary as large quantities of inferior and defective linens are prepared, brown after season, and edged with the name of Richardson, or Irish House, who, regardless of the injury thus inflicted alike on the American consumer and the manufacturer of the genuine goods, will not readily abandon a business so profitable. Yet no goods are to be imposed on with goods of a worthless character.
