Local Matters.

Sunday Morning, ::::: July 3, 1859.

FLOORING FOR SALE.—Mr. Bunch, at the Memphis and Charleston Railroad Depot, has a large lot of desirable flooring for sale.

☞ Services in the Jefferson street Chapel to-day at 10½ o'clock, A. M., and at 8 o'clock P. M. Let the poor attend—to them should the Gospel be preached. Seats free always.

☞ We are requested to state that Messrs. Holmes and Payne have changed their appointments for Tuesday, the 5th inst., from Concordia to Gallaway's Switch.

PERSONAL.—Mr. Frank Smith, of the firm of Frank Smith & Co., left this city yesterday on a visit of half business and half pleasure to the East, and Mr. Clark J. Morton, of the house of Clark J. Morton & Co., returned from St. Louis.

FRONT.—An affray occurred last evening at the corner of Howard's Row and Tennessee street, between two men named Graffa and Moore. The combatants were arrested, and a formidable slug-shot was found on the person of Moore.

☞ The attention of cotton planters, and all others interested, is invited to the card of Grisley and Davis, who have formed a partnership in the cotton factorage and commission business. They are gentlemen of large acquaintance and experience, and may be safely relied on by the public at large.

OLD SOLDIERS.—The old soldiers have been invited to attend the great military parade which is to come off at the Fair Ground to-morrow. All those whose purpose it is to attend, are requested to meet at the office of Dr. P. M. Dickinson, No. 149 Main street, above Washington, at 8 o'clock to-morrow morning. They are requested to be punctual.

LATE PAPERS.—For copies of St. Louis papers of the 1st we are indebted to our friend H. Dow, who returned from St. Louis yesterday evening. About thirty miles east of St. Louis, he informs us that he, with the other passengers, saw the balloon Atlantic going in a north-east direction, toward Chicago. It seemed to be about twelve miles north of a due east line from St. Louis.

THE JACKSON MURDER.—We published a week ago a statement from a Philadelphia paper to the effect that a quantity of Tennessee money had been found in that neighborhood, which was supposed to be a portion of the money stolen from the bank at Jackson, in this State, at the time of the shocking murder there. It turned out that not a dollar of the money was on any Tennessee bank, and it follows that it had not been taken from the Tennessee bank.

GAYOSO HOUSE.—On calling at the Gayoso yesterday we found our friend M. J. M. Mason, Esq., recently of the Worsham House, doing the honors. The Gayoso has made an acquisition. Mr. Mason's prompt attention to the wants of guests, his universally courteous and affable demeanor, his industry, and constant attention to his duties, qualify him eminently for the position in which he is now placed, and we are sure he will be a favorite among the patrons of the house.

NEW FIRM.—The firm of Goggin & Holt is well known to many of our citizens as a house well established in Memphis in the tobacco business. These gentlemen have recently united with them our old friend Mr. D. C. Trader, and in addition to the tobacco trade, they purpose to carry on a general commission and grocery business. Mr. Trader has been in business in our city for the last eighteen years, and will add influence, strength and business to the house. We invite attention to the card of the firm in the advertising columns this morning.

A MIGRATORY NUISANCE.—The most intolerable of all nuisances is a slaughter pen, a live K. N., the city prison, or the alley back of the printing offices on Madison street. But there is one transcending all these in its stench-giving properties, worse than a dead horse, a rotten party platform, or than the old Potter's Field. A polecat would bow down its head in shame, and a sweltering inhabitant of Congo would relize in disgust from a Virginia brakeman, should the sorry wagon which peripatetates our streets draw nigh. Queer—queer but not migratory as well as stationary nuisances? Should they be abated?

MEMPHIS AND OHIO RAILWAY.—This road has now two trains leaving each day. At a quarter before six in the morning the St. Louis, Chicago, and New York Express starts, connecting with the East by the Illinois Central, Mobile and Ohio, Western, and New York Central roads, taking the traveler through a considerable portion of Western Canada and by the Niagara Falls. At twenty minutes past four in the evening, the Louisville, Cincinnati, and New York Express sets out, making connections with the Ohio and Mississippi, Terre Haute and Alton, and Bellefontaine Railroads, affording excellent transit to Baltimore, Washington, Philadelphia and New York, by the beautiful Baltimore Road, which crosses the Allegheny Mountains. The traveler should not fail to avail himself of one of the most agreeable, rapid, and economical modes of reaching the Eastern cities. We lately travelled over the Ohio Road, and found polite conductors, elegant cars, and every needful convenience and accommodation.

STREET RAILROADS.—The following account of proceedings that took place on Thursday last at Philadelphia will give some idea of what street railroads are thought of where their results are known.

"It having been announced that subscriptions for city railroad stock were to be received to-day, a large crowd gathered at the office of the company at an early hour this morning. During the forenoon there was a great rush for the subscription book, and at one o'clock about $50,000 had been subscribed. Subsequently, the crowd increased, and an intense excitement prevailed, there being a struggle on the part of some to get at the book, unmindful of the interest of others who were ahead of them. A squabble ensued, during which the clerk took the book and handed it to one of the grantees, but before it was safe in the hands of the latter, it was seized by a Mr. Dougherty, the warden of the penitentiary (who had subscribed for $20,000 worth of stock,) and carried off by him.

"The excitement was increased to fever heat by this act, and a meeting was called to investigate the proceedings on the spot. A committee was appointed, and the book recovered, Mr. Dougherty disclaiming any other intention than the desire to prevent its destruction. Many of the subscriptions are very large, not less than $500,000 being subscribed by parties from Philadelphia."

BOCAGE'S JACKSCREW COTTON PRESS.—The subjoined notice of one of the most useful, and at the same time simple inventions of the day, is taken from the Fine Bluff *Democrat*. We have witnessed the operation of one of these presses, and were highly pleased at the result. We think that Judge Bocage's invention is destined soon to supplant every other contrivance at present known for the packing of cotton. Indeed, we cannot imagine anything more simple in construction, more easily worked, less liable to get out of order, or better adapted to the wants of the planter than the Bocage Press. We take pleasure in calling the attention of those interested in cotton growing to the advertisement in to-day's paper.

We append the notice of the *Democrat*:

We had the pleasure, a few days since, of a visit from our distinguished fellow-townsman, Hon. Joseph W. Bocage, the author of the above-named invention. We mentioned, last Spring, our visit to the Judge's plantation near this town, upon which occasion we witnessed the operation of his newly invented cotton press. On inquiring of him, on the occasion of his late visit, whether or not he had yet received the patent for his invention, he answered in the affirmative, and exhibited to us the *bona fide patent certificate*, obtained from the Bureau on his recent visit to Washington City. It gives us unfeigned pleasure, therefore, to state to the public that Judge Bocage has actually obtained a patent for this very important and most useful invention; and we hope (which will result greatly to the interest of planters,) that this press will be speedily introduced wherever cotton is grown. There are, already, slaves of Bocage's Jackscrew Cotton Presses at work within the limits of our county, which are, we learn, all performing with entire satisfaction to their owners—pressing about eight bales of cotton in an hour—which, we believe, is an improvement of about 200 per cent. over any other press hitherto in use. We have also seen a great number of certificates from many of the most reliable and responsible gentlemen of our county, to the effect that the advantages and excellencies of this press, which warrant us in saying that, for simplicity, strength and expedition, it far exceeds any other press extant; and, as far as durability is concerned, it is estimated, by a large and intelligent planter of our county, that one of these presses will last a life-time, and will be good for service twenty-five years and upwards! As for the cost of construction of the Jackscrew Press, it does not exceed that of the lever press or any other kind of cotton press. We, in all this spoken of the many advantages of Bocage's Jackscrew Cotton Press, deeming it a matter of much interest to our planting friends. There is no question as to the superiority over every other press. We, therefore, predict that the Judge will, ere long, be crowded with orders for his presses from every portion of this Union. We must, before closing, be allowed to congratulate Judge Bocage on his triumph of mechanical genius. The invention is a matter in which all cotton growers should rejoice, and Arkansas may well be proud that a citizen of our own State is the inventor.

THE ENCAMPMENT.—The great feature in the celebration of the national anniversary in this vicinity will be the military encampment at the Fair Grounds of the Shelby County Agricultural and Mechanical Association. The three gallant corps, the Washington Rifles, the Light Guards and the Steuben Artillery, which compose the battalion, under command of Major W. H. Carroll, marched to the scene of the encampment last evening, and will remain there until to-morrow evening. The exercises to-day will be mainly of a religious character, and a sermon will be preached in camp by Rev. Dr. White of the Episcopal Church. To-morrow morning, 4th inst., a detachment of the Steuben Artillery will be dispatched to the city, to fire from the Bluff a salute of thirty-three guns—one for each State in the Union—and will then return to the encampment. During the morning there will be a drill of the battalion; the Declaration of Independence will be read by Marcus J. Wright, Esq., and an oration delivered by N. D. Collins, Esq. After partaking of a dinner prepared for the members of the battalion and invited guests, those who desire it will be afforded an opportunity to join in the dance till gun-fire in the evening, six o'clock, at which hour the tents of the encampment will be struck and the battalion return to the city.

We are requested to state that the members of the old Soldier's Association, the Old Folks at Home; the members of the City Press; retiring and incoming Boards of Mayor and Aldermen, and all the old soldiers transitorily in the city, are particularly invited to be present and join in the festivities of the occasion.

THE FOURTH ON THE RIVER.—Many of the regular packets which departed yesterday were supplied with fireworks and ammition wherewith to celebrate the "glorious fourth" while under way. The *Jennie Whipple* was well fortified with fireworks, and will make a grand display on her arrival at Little Rock the evening of the Fourth. The steamer *Southerner* had an order for fifty loaves of fresh bread and a half barrel of molasses from the vicinity of Dyersburg; but, owing to the delinquency of the baker, the bread was not forthcoming in time, and, as the molasses was the only item that went forward, we infer that our Dyersburg friends will have a sweet time of it.

ROBBERY IN DE SOTO COUNTY, MISS.—A dispatch was received here yesterday informing the police that one Hampton Hammond, who had stolen a pocket book from a citizen of De Soto county, Miss., had arrived in this city. He is described as being thirty years of age, and five feet eight inches in height, having dark hair and being poorly attired. The accused is a wagonmaker by trade, and has three children. He has been seen by the police since his arrival here, but has not yet been arrested.

ARRESTED.—We gave an account yesterday of a robbery at the Merchant's Hotel on Thursday night. Hugh Perry, who was suspected of the crime, was arrested last evening and locked up for a short time, but was subsequently released, there being no positive testimony to implicate him. The man Samuel, supposed to be Perry's accomplice, was not arrested. James Kelly, a boarder at the Merchant's Hotel, lost $70 in gold and $100 in notes on the occasion referred to above.

THE VESTAL LIGHT.—This great modern invention seems to meet the same appreciation in this community that has attended its introduction elsewhere. It is cheaper, more convenient, and more useful than the ordinary gas light, and may be employed with equal facility in private dwellings. The agency for the sale of this light in the Gayoso Buildings, next door below the entrance to the Gayoso House.

ADAMS' EXPRESS.—We, in common with the press in the many cities where this company's extensive business has its branches, are under frequent obligations for acceptable favors passed. H. Borden, Esq., the clerk of the branch in this city, is unremitting in his kind attentions. He has our hearty thanks.

FRESCO.—Such of our citizens as have not observed the splendid fresco painting at Clark's jewelry store, and at Donohoe & Sayre's dry good store, should not fail to do so. It is most beautiful. It is the work of Mr. Roberts, a resident artist, whose powers are of no ordinary character.

SUNSTROKE.—A drayman was afflicted with sun stroke, at the corner of Main and Linden streets yesterday afternoon, and fell senseless in the street. He was removed to his home by Marshal Underwood, and it was hoped last evening that he would recover.

CRIMINAL COURT.—No progress was made yesterday in this tribunal, in the case of Mc-Dowell, charged with murder. A panel of fifty-seven was exhausted in the effort to obtain a jury, but no additions were made.

☞ A poor woman applied to the Mayor yesterday, with the dead body of an infant in her arms, for pecuniary assistance wherewith to bury the child. The Mayor contributed the required aid, and took possession of the body.

POST OFFICE.—We are desired by W. H. Carroll, Esq., the postmaster, to give notice that to-morrow being the Fourth of July, the post office will open at eight o'clock A. M., and remain open one hour.

RECORDER'S COURT.—The Recorder disposed of ten cases of the ordinary character yesterday. Fines to the amount of $52 were assessed, $35 of which were paid.

ADMITTED TO BAIL.—Jerry Toohig, the particulars of whose arrest on a charge of stabbing we have given heretofore, was admitted to bail yesterday.

COMMON LAW COURT.—The July term of this tribunal will convene in the city to-morrow.

City Offices.

Persons desirous of applying for any office in the gift of the City Council, will please forward their applications to the Mayor, R. D. Baugh, Esq., on or before Tuesday next, directing them to the care of Jno. B. Mosely, Esq., Post-Office. 1t.

THE SEASON for chills and fever is almost here and those who have not provided themselves with a box of the MANRISS ACUE PILLS had better do so at once. They are the only pills WARRANTED to cure this unpleasant and troublesome disease.

REMEMBER that in all cases if the directions are carefully observed when they fail to perform a PERFECT CURE the purchase money will be refunded.

Trustee's Sale.

BY virtue of a Deed of Trust, executed to me by George R. Vinyard on the 26th day of April, 1858, and duly recorded in the Register's Office of Shelby county, Tennessee, in book No. 27, pages 438, 439 and 440, I will proceed to sell, at public auction, on Court-house, in the city of Memphis, on the 30th day of July, 1859, a certain tract of land, lying in the county of Shelby, and State of Tennessee, near the city of Memphis, and designated upon a plat of the subdivision of said land, made by Jas. Lee, Surveyor, and recorded in the property of W. R. Governor & Co., J. L. Sefferans & Co., E. P. Kerr, E. P. Kerr, adjoining the city limits on the east, on the 24th April, 1856, of lot No. two hundred and eleven (200,) and bounded as follows, viz: fronting 74 feet 2 inches on the east side of North street, and running back between parallel lines at right angles with said street, to the west side of Rankin's or Bay Street road, the north line of said lot being 227 feet, and the south line 224 feet 6 inches, and being eight lots or four street lots. I will proceed to sell the property of Jesse Wilkie, and interest, reserved in said Deed of Trust. Terms of sale: cash at the rate of twelve m. ad. Sale of mortgage, 1st July.

J. H. Dickey.....St. Louis | Return.....White River
John Rance.....Louisville

During the twenty-four hours ending at 6 o'clock last evening, the river had fallen three inches at this point. The weather was quite warm yesterday and the streets continue dusty.

Business was somewhat brisk at the landing yesterday, as there were no less than five regular packet departures, including the Southerner, for Louisville, the J. H. Dickey, for St. Louis, the Jennie Whipple, for Arkansas river, the Dan'l Boone, for Vicksburg, and the Return, for White river, all with good trips.

The little steamer Emmabett, Capt. Robinson, left this place for the Sunflower river yesterday, and will become a regular packet in that stream. Capt. Wm. Porterfield went as a passenger to Vicksburg by her.

The steamer Pacific arrived at Louisville from New Orleans Wednesday evening, and departed again Thursday evening. She will be due here to-day.

THE CANAL ENLARGEMENT.—The Louisville *Courier* says that the committee of gentlemen who visited Louisville from Cincinnati for the purpose of examining the canal, and the practicability of its enlargement, returned home on Wednesday. They were satisfied, fully and unequivocally, that the only feasible and practicable plan for freeing navigation around the falls is by widening the present canal. They are unanimous in opinion, and hope the work of enlargement will be immediately commenced.

The Antelope is still tied up at Louisville for debt.

FOR ST. LOUIS.—The popular steamer Philadelphia, Capt Marshall, is the regular mail and passenger packet for St. Louis at four o'clock to-morrow afternoon. As a passenger packet she is unsurpassed in point of accommodation, with efficient and popular officers, the chief of whom is our friend Tachudi, of the clerk's office.

FOR LOUISVILLE.—The splendid steamer Kentucky, Capt. Wm. Lamb, will leave as above at the usual hour to-morrow afternoon. She makes close connections with the mail boats at Louisville for Cincinnati and the East. Passengers will find Messrs. Halliday and Taylor in the clerk's office.

FOR NEW ORLEANS.—The huge steamer John Simonds, Capt. Smith, will leave for New Orleans after the arrival of the train to-morrow afternoon. The Simonds is the great favorite of the fleet, with the very best accommodations and efficient officers.

FOR NAPOLEON.—The fine steamer St. Francis No. 2, Capt. Wood, having been repaired, will leave most positively for Napoleon at four o'clock to-morrow afternoon. The No. 2 is a gay little craft, with deservedly popular officers.

The steamer Mary Patterson, from White river, Capt. Morgan Batman's new boat, built at Napoleon, passed up yesterday for Cincinnati, at which point she will receive her cabin and cabin furniture.

SINGER'S TRANSVERSE LETTER A SHUTTLE

FAMILY SEWING MACHINES!

SINGER'S new letter A Transverse Shuttle Family and Plantation Sewing Machine is constructed upon an entirely new principle, whereby the faults of all other machines have been remedied, and new features added. This expert's piece of furniture is decorated in Brilliantine and Gold.

The machine is rapid and nearly noiseless, while it is extremely easy to operate. It is capable of the lightest and heaviest work, and is the only machine in the world that does all work, sewing the strongest lines of any thread with the same facility as the very finest cotton, linen or silk. In the measure of a New York critic, it combines beauty, lightness, strength, simplicity and rapidity with the most comprehensive utility, realizing for the first time our idea of a PERFECT SEWING MACHINE." It is, without doubt, the very best, as well as the CHEAPEST family sewing machine ever yet invented.

If not put the plaster anywhere, if pain is there, the plaster will stick there until the pain has departed. The immediate application of the plaster to PAIN CANNOT EXIST WHERE THIS PLASTER IS APPLIED.

Rheumatism, Lameness, Soreness, Weakness Debility, Nervousness, Neuralgia, Dropsy, Cough and Colds, Pains and Aches of every kind, down even to Corns, are IMMEDIATELY RELIEVED, and, with a little patience, PERMANENTLY CURED, by the magical influence of the MAGNETIC PLASTER. It is the simplest, surest, safest, pleasantest and cheapest remedy in existence. Its application is universal—equally to the strong man, the delicate woman, and the feeble infant. To each and all it will prove a balm and a blessing. Its use is agreeable, and without pain or trouble. Its cost is within reach of all—rich or poor; all may have it, and all should have it who are sick, and suffering in any way.

PLANTERS should be always supplied with this invaluable PLASTER. It will be the Good Physician on any plantation, ready at all times, and at instant notice.

Put up in air-tight tin boxes. Each box will make six to eight inch plasters, and will keep good any time. Price 25 cents a box, with full and plain directions.

C. D. MOREHEAD, M. D.
Inventor and Proprietor, 19 Water street.

☞ Morehead's Magnetic Plaster is sold by all Druggists in every city, town, and village of the United States.
