PREPARATION OF PARCELS FOR THE MAILS.

Due to the failure of patrons properly to prepare parcels for the mails, and to the action of many offices in accepting improperly prepared parcels, many have been damaged in transit, resulting in complaints against the service and losses to patrons. This also entails additional heavy expense, as in the larger offices two or more employees are engaged regularly in re-wrapping improperly prepared packages received from other offices.

During the month of November the American Railway Association and the American Railway Express will conduct a "Perfect Package Campaign."

It is urgently requested that all persons having occasion to ship packages by mail to be very careful and wrap them properly. In this way only will they be received by the post office department.

COMMUNITY HOUSE PROGRAM.

Friday night, October 28.—Elsie Ferguson in "Sacred and Profane Love." This is the play she starred in while on the stage. For two years it was the sensation of Broadway. THE RED CROSS CAR.

In Fairfield county the nurse is supported by the county, but the Red Cross Chapter, until the past few months, when funds ran low, has given the nurse her transportation by supporting her car. Thus it was the Red Cross that made it possible for the health work to reach every section of the county, so that advised if children were under school could be inspected, parents weight, classes given for mid-wives, to decrease child mortality, so that every bit of her splendid service could be available all over the county. Do you want her to come to your school next year? Do you want her to be able to come to you when you have typhoid or tuberculosis or some emergency sickness in your home? Then join the Red Cross November 11.

The Story of Our States

By JONATHAN BRACE
XXXIV.—KANSAS

WAY back in 1541 Coronado, the Spanish explorer, is reputed to have penetrated to Kansas in search of a mythical wealthy Indian tribe. It was not again visited, however, by white men until nearly one hundred and seventy-five years later, when the French in Louisiana sent out an expedition to investigate the remote portions of what was then their territory. Most of the present State of Kansas was a part of the Louisiana Purchase and so passed from French hands to the United States in 1803. A small additional part was later added in 1850, being ceded by Texas.

The Lewis and Clark party traversed this region in 1804, and Lieutenant Pike passed through Kansas two years later.

Kansas history really becomes interesting in the middle of the century, when the slavery agitation gave it the name of "Bleeding Kansas." It had been an unorganized territory since 1821, at which time it had been considered a portion of the Territory of Missouri. According to the Missouri Compromise, if Kansas became a state it could not be a slavery state. The opposition of the South was so strong the Kansas-Nebraska bill was passed in 1854, making this vital question optional with the inhabitants in each proposed state. With this law in force, the two factions actively started colonizing Kansas. Immigrants from the slave states of Arkansas and Missouri immediately founded Leavenworth. The Massachusetts Emigrant Aid society sent out anti-slavery settlers, who founded Lawrence, Topeka and other towns. Conflict between these two parties broke out at once, and it was only put down by the intervention of federal troops. The Northern settlers came in such numbers that they soon were in the majority and in 1861 an anti-slavery constitution was adopted, so Kansas was admitted to the Union in that year.

The political dispute over Kansas was the cause of the formation of the present Republican party.
