The business of this road, we are glad to learn, is gradually increasing. The rails are now laid down to within thirty-five or forty miles of Paris, and when put through to that place, it will at once become one of the best paying roads in the South.

DISMISSED.—We have from time to time since the occurrence, spoken of the affray between J. L. Nelson and J. M. Drake, at the corner of Madison street and Bank Avenue, on Saturday evening, the 5th inst. Drake has been in prison since the affray occurred, awaiting the result of Nelson's injuries. Nelson's recovery has been announced already, and the proceeding against Drake was dismissed yesterday, Nelson refusing to prosecute him. Drake depart ed at once for New Orleans by the steamer *Kate Frisbie* last evening.

THE NEW YORK SQUABBLE.—The gentleman who was so unceremoniously castigated by our friend Geo. ge Dashiell, of this city, for his insulting conduct towards a lady from Memphis, and who, on the previous evening, vociferated so loudly "Southerns to the rescue!" when in the clutches of the police for his misconduct at Niblo's theater, formerly resided in Marion, Alabama, where he was generally respected. For ten or fifteen years past he has resided at the North. By what right, except that of expatriation, he called on southerners for help we are at a loss to divine.

We are inclined to believe that Parish's house (Catlin, Leavitt & Co.'s) is too near Delmonico's for the permanence of that moral character and sobriety which he possessed in the sunnier clime of Alabama. It was not Charles Parrish, of whose deeds we read in the New York papers, but old Tanglefoot has twisted his intellect and distorted his southern ideas of female purity and virtue, as well as shaped the tortuous course of his crural appendages.

A NEW YORKER CHASTISED BY A MEMPHIAN.—The New York papers of Saturday last, inform us that Mr. George Dashiell, of this city, in company with a well known and highly estimable lady of New York, visited one of the theaters on Friday evening. During the performance a well-dressed man, who occupied an adjoining seat, probably mistaking Mr. Dashiell's companion for an acquaintance, placed a number of notes in her lap from time to time, which the lady quietly threw on the floor, without giving them any attention. Although exceedingly annoyed at this impertinence, she said nothing of it to her escort until after the theater had gone out. On the way home, however, she mentioned the insult, which naturally enough made Mr. D. very angry. No sooner had they arrived at their hotel than the scoundrel, who had followed them all the way from the play-house, pulled the lady's dress, and endeavored to arrest her attention without attracting that of her companion. She hurried up the steps, and hurried into tears, told Mr. D. of the insult she had met at the moment previous, and described the unmanly scoundrel so accurately that as soon as he had seen her safe in the parlor, he entered the office of the hotel, where he found her tormentor, and administered to him a righteous thrashing, which he will remember to the end of his life. Mr. Dashiell was immediately arrested and taken to the station-house, but soon after released, and became a hero among those who learned the cause of the difficulty.

The proprietor of the Railroad Hotel, having publicly denied having aided or abetted him in said publication, I hereby withdraw said charge.

Water Versus Fire.

EDITORS APPEAL: Don't you think this growing city should have water in abundance? Respectfully, STRANGER.

We found the foregoing query on our table yesterday on our return from dinner. We answer it unequivocally in the affirmative. One thing is certain, we have fires in abundance, and will continue to have them until a salutary check is found in the establishment of water works. The necessity and importance of such works are seen and appreciated by every inhabitant of the city. The only obstacle in the way seems to be the means that shall be adopted to procure their establishment. The subject is one eminently worthy the serious consideration of our city fathers, and we earnestly hope they will give it such attention as its merits deserve.

HEARSES IN THE AUSTRIAN ARMY.—The Jewish Chronicle says that there are 22,000 Jews in the Austrian army in Italy; and a captain of the Jewish persuasion, in the late engagement, most heroically rescued the colors of the regiment from the French, who had taken them.

Council Meeting.

At a regular meeting of the Board of Mayor and Aldermen yesterday afternoon, all the members were present except his honor, Mayor Baugh, and Aldermen Tighe, Elder, Woodruff, and Potter.

NEW COUNCILMAN.

Mr. D. H. Townsend appeared and was qualified as a representative from the Sixth Ward.

The minutes of the last meeting were read and approved.

Police Department	2,009.48
Streets and Alleys	11,848.75
Wells and Cisterns	1,190.00
Lights and Lamps	79.42
Fire Department	4,080.00
Military	125.00
Penitentiary	869.89
City Schools	433.90
Interest on Notes	487.37

OFFICIAL REPORTS.

Ald. Kortrecht submitted the Market Master's report, showing the collections for the month of June to have been $114, and for the month of July $139.50.

ACCOUNTS.

Various accounts reported by Ald. Perkins were referred to the appropriate committees.

Ald. Elder presented the account of Mr. R. Smith, of $128.00 for burying the sufferers by the disaster to the steamer Pennsylvania, at the rate of $14 per body.

Ald. Street moved that the sum of $8 per body be allowed, the amount now paid the City Sexton for burying paupers, which motion was withdrawn after explanation.

The bill of $128 was then allowed.

The account of Mr. Lindsey of $500 for building cisterns, was allowed.

The account of Wm. Mahoney of $20, for filling a cistern, was allowed.

The account of Chandler & Co., of $101.25 for medicines, was referred back to the committee on accounts.

The account of R. L. Smith, the jailer, of $319.40, for the board of city prisoners for the month of July, was allowed.

The account of the German Southern Advertiser, of $29, for printing, was allowed.

SECRETARY TO THE BOARD.

Ald. Barnett reported an ordinance modifying the ordinance in reference to the duties of a Secretary to the Board, making that officer subservient to the City Register. The ordinance provides that the Secretary shall receive a salary of $1,000 per annum, and be elective by the Board. The ordinance was passed upon a final reading.

EXTENSION OF FIRE LIMITS.

Alderman Hamilton reported an ordinance in reference to the extension of the fire limits between Union, Beale and Hernando streets and the river.

Ald. Lofland offered an amendment to the ordinance providing that the fire limits commence at Winchester street and Front row, running east to Fourth street, with the west line of said street to Beale, thence west with the north side of Beale street to the river, thence up the river to the mouth of Wolf river, thence up Wolf river to a point opposite the beginning, thence east to the beginning, which was lost.

Ald. Farris opposed the extension of the fire limits as oppressive to the poor.

Ald. Barnett's ordinance was then adopted on its first reading.

FERRY PRIVILEGE OVER WOLF RIVER.

Ald. Douglass presented the petition of various persons asking that three ferry privileges over Wolf river and the Bayou, be granted at the rate of $40 per annum, which was granted.

THE MARKETS.

Ald. Drew offered a resolution recommending certain improvements about the new market-house, on Beale street, asking that Messrs. Greenlaw & Co. be required to place gutters, etc., on the eaves of the building, as a part of their contract, which was adopted.

A resolution providing that the grounds about the Beale-street market, and that Third street be graveled, was referred to the appropriate committee.

AS EVERLASTING QUESTION.

Ald. Elder made a report in reference to the title to sixteen feet of ground claimed by Dr. White, used as an extension of Second street to Beale street, to the effect that the best compromise that can be made is to pay $1,780.00 to Dr. White for the property.

Ald. Douglass moved that Dr. White's proposition be accepted, which was rejected.

Ald. Elder moved to amend by providing that the city pay Dr. White $1,700.00 for the property twelve months hence without interest, Dr. White to give the city a warranter deed, which motion was adopted. The question was then reconsidered and referred to Ald. Kortrecht.

THE STATION HOUSE.

Ald. Perkins offered a resolution providing that a new door be erected at the station house, and that a new room be secured for the confinement of dissolute females, which was adopted.

WATER WORKS.

Ald. Farris reported a proposition from Isaac Saffarans, to establish water-works in the city, upon the same terms vouchsafed to the city in the charter, embodying the details of the proposition.

A majority of the committee reported that they were in favor of referring the petition to a special committee, which was adopted, and the following committee was appointed: Ald. Lofland, Farris, and Douglass.

A petition from Mr. Tucker, on the same subject, was referred to the same committee.

A minority of the committee on water-works reported that it was inexpedient at present for the city to adopt any system of water-works.

DELINQUENT TAXES.

Ald. Kortrecht made a report in effect that the Board has the power to change the ordinance in reference to the collection of city taxes for former years, but that no change be made at present, recommending that such action be taken as to make it the duty of the present tax-collector to collect all taxes due the city at the time he was qualified, which was adopted

The same offered a resolution instructing the Ordinance Committee to report an ordinance making it the duty of the tax collector to collect the taxes due during his term of office, and to continue his labors until such collections shall be made, which was adopted.

FIRE DEPARTMENT.

Ald. Douglass submitted a report in reference to the adoption of the present constitution and by-laws of the fire department, recognizing the same in effect, etc.

The whole subject was finally referred to the next meeting.

The board then adjourned until Thursday, the 18th inst., at four o'clock, P. M.

SATISFACTORY ADJUSTMENT OF AN UNFORTUNATE AFFAIR.—We announced yesterday a satisfactory adjustment of the difficulties between Messrs. N. D. Wetmore and Silas W. Younkin. The following cards from each will prove more satisfactory than any explanation that we could make at this time:

MEMPHIS, August 15, 1859.

To the Editors of the Appeal:

I think it due to Mr. S. W. Younkin that I should make it publicly known that I have conclusive proof that he has done me no injustice, and that the charges I brought against him have been fully cleared up. Mr. Younkin does know, and I fully believe, will say that I had just reasons for believing that he had wronged me, being misled by parties who wished to conceal their own crimes. I also announce to the public that I believe that Mr. Younkin, whenever he has had any thing to do or has connection with me, his actions and intentions while with me were honorable, and he is entitled to the confidence of the public.

Respectfully, N. D. WETMORE. Jr.

MEMPHIS, August 17, 1859.

To the Editors of the Appeal:

GENTLEMEN—I noticed in the *Evening Argus* of the 15th inst., a letter from Mr. N. D. Wetmore, addressed to the public, in which he withdraws the charges which he brought against me. There were reasons which, without an explanation from me, being urged upon Mr. Wetmore, that did justify him in the course which he pursued. I told Mr. Wetmore, while in his employ, that his cash did not come up to what it should, not thinking that he would, for a moment, suspect that I was guilty in the premises. I consequently did not keep as strict an account of his business as I should, otherwise have done. I believe that Mr. Wetmore's intentions toward myself and every other man with whom he had business connections, while I was in his employ, were honorable.

Respectfully, S. W. YOUNKIN.

THROUGH OUR NEWSPAPER ENOUGH FOR AMERICA.—In looking over a copy of the life of Benjamin Franklin, the philosopher and statesman, we find the following passage:

"My brother had in 1720 or 1721, begun to print a newspaper. It was the second that appeared in America and was called the *New England Courant*. I remember his being dissuaded by some of his friends from the undertaking, as not likely to succeed, one newspaper being, in their judgment, enough for America."

Runaway Arrested.

A NEGRO man named Jim, belonging to J. B. Gaines, of Gaines' Landing, Tenn., was committed to prison on the 15th July, 1859. A white man named Thompson, is also imprisoned upon the charge of having enticed him away. The owner will come forward and claim his property.

E. J. Gee	New Orleans	W. H. Lanier	White R.

DEPARTURES YESTERDAY.

Hannibal	St. Louis	South Bend	Ark. river
E. J. Gee	St. Louis	Kate Frisbie	Vicksburg.

During the twenty four-hours ending at 6 o'clock last evening the river declined 3 inches at this point. The weather was very warm yesterday, with a very slight sprinkle of rain during the afternoon.

There was but one regular packet departure yesterday. The Kate Frisbee left for Vicksburg with a light trip.

The steamer Hickman was receiving cotton for Cincinnati yesterday, and will leave this afternoon with a large number of passengers and as much freight as she can carry.

There is eight feet of water in the channel of the Mississippi from St. Louis to Cairo, and from four to five feet in the river from Louisville to Cairo.

The steamer Don Lewis, the new Memphis and St. Louis mail boat, was receiving freight at St. Louis for this port on Saturday last. She will be commanded by Capt. T. H. Brierly, and Capt. W. S. Harper will have charge of the office.

The Hannibal, from New orleans yesterday, discharged two hundred barrels rosin at this port.

The E. J. Gay, discharged two hundred bags salt and a quantity of merchandise at this port yesterday. She had a large number of passengers and a good freight list f r St. Louis. The Gay is decidedly faster than she was expected to be.

The new South Bend, of 350 tons burthen, passed down yesterday. She will form one of the mail lines between Napoleon and Little Rock. With all her natural advantages and with E. D. Hale, Esq., in the offi e, she will have a prosperous career.

The Mary Patterson left Cincinnati for this port on Sunday. She has a trip for White river, and will run as a regular packet between Cincinnati and White river hereafter. She is in command of Captain Bateman.

The Mound City (Ill.) Emporium says that steamers of all descriptions and from every point, are congregating there to undergo repairs, till now the lower part of town closely resembles Cincinnati during a dull season. The Republic, Montgomery, Nick Thomas, Mars, Universe, Violet, Belfast, Southerner, and Pocahontas, are waiting their turn and will be taken out and repaired as rapidly as the force —amounting to over one hundred hands—employed about the ways, can perform the operation.

The steamer Mariner, which sank twelve miles above Louisville on Saturday night last, will be raised. She was from St. Louis and bound for Cincinnati.

The Conewago left Cincinnati some time ago for this city with freight for our merchants. She is undergoing repairs at Madison, Ind.

FOR NEW ORLEANS.—The fleet and popular steamer Messenger, Capt. Langhorne, is the regular mail and passenger packet for New Orleans at 4 o'clock this afternoon. She is a deserved favorite in the line. Mr. E. J. Booker is the clerk. Capt. Larry Harmstaff is the agent.

FOR CINCINNATI.—The popular low-water packet Hickman, Capt. John Bugher will leave at the usual hour this afternoon for Cincinnati and way-points. She is a deserved favorite with travelers and shippers, having fine accommodations and excellent officers. Messrs. Byers and Merriolees are the clerks.

FOR WHITE RIVER.—The favorite little packet W. H. Langley, Capt. Williams, will leave as above at 4 o'clock this afternoon. She is the only regular packet in the trade, and supplies the wants of the trade most admirably.

A NEW ENGLISH MINISTER TO BE SENT TO MEXICO.

WASHINGTON, August 16.—The British Government saved two hundred and fifty thousand dollars by the advices received through the Atlantic Cable, that the ten regiments ordered from Canada were not needed.

Senor Mata the Mexican Minister has contracted a contract for arms and war materials in some description of goods, to be forwarded to Mexico.

Mr. Whitehead will soon return to England for the purpose of making an effort to satisfy the claims of the holders of Mexican bonds. By this arrangement it is thought that millions of dollars will be realized for the Constitutional Government of Mexico.

Mr. Otway the present British Minister resident at the city of Mexico will soon be superseded by a minister friendly to the Juarez Government.

Fever and Ague,

from which mankind suffer over a large part of the globe, is the consequence of a direct action in the system, induced by the poisonous miasm of vegetable decay. This exhalation is evolved by the action of solar heat on wet soil, and rises with the watery vapor from it. While the sun is below the horizon this vapor lingers near the earth's surface, but as soon as it takes wind it is borne into the blood. There it acts as an irritating poison on the internal viscera and enervating organs of the body. The liver becomes engorged and fails to secrete not only this virus, but also the bile from the blood. Both the virus and the bile accumulate in the circulation, and produce violent constitutional disorder. The spleen, the kidneys, and the stomach sympathize with the liver, and become disordered also. Finally, the instinct of our organism, as if in an attempt to expel the noxious infusion, concentrates the whole blood of the body in the internal excretories to force them to cast it out. The blood leaves the surface, and rushes to the central organs with congestive violence. This is the CHILL. But in this effort it fails. Then the FEVER follows, in which the blood leaves the central organs and rushes to the surface, as if in another effort to expel the irritating poison through that other great excretory—the skin. In this also it fails, and the system abandons the attempt exhausted, and waits for the recovery of strength to repeat the hopeless effort another day. These are the Sts or paroxysms of FEVER AND AGUE. Such constitutional disorder will of course undermine the health if it is not removed.

We have labored to find, and have found, an antidote,

Ayer's Ague Cure,

which neutralizes this malarious poison in the blood, and stimulates the liver to expel it from the body. As it should, so it does cure this afflicting disorder with perfect certainty. And it does more, or rather does what is of more service to those subject to this infection. If taken in season it expels it from the system as it is absorbed, and thus keeps those who use it free from its attacks; keeps the system in health although exposed to the disease. Consequently it not only cures, but protects from, the great variety of affections which are induced by this malignant influence, such as Remittent Fever, Chill Fever, Dumb, or Masked Ague, Periodical Headache, or Bilious Headache, Bilious Fevers, Neuralgia, Rheumatism, Gout, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Pain in the Side, Back and Limbs, Dysentery, Colic, Paralysis, and Painful Affections of the Stomach and Bowels, all of which, when arising from this cause, will be found to assume more or less the intermittent type. This "AGUE CURE" removes the cause of these derangements, and cures the disease.

This it accomplishes by stimulating the excretories to expel the virus from the system; and those organs by degrees become habituated to do this their office of their own accord. Hence arises what we term acclimatization. Time may accomplish the object, but this will not. This alone may accomplish the object in a few days. It is a decisive remedy.
