☞ To-day being Thanksgiving day the telegraph office will be closed for the day at 11 o'clock.

☞ Thanksgiving services at Grace Church (corner of Main and Union) this morning at half past 10 o'clock.

PERSONAL.—Col. Robert Forsyth, the popular general freight agent of the Illinois Central Railroad, is at the Gayoso House.

RECORDER'S COURT.—There were eleven cases before the recorder yesterday, and three documents were sent to the chain-gang.

☞ The post office will close at 9 o'clock this morning, and remain closed until 4 o'clock P. M., when it will be opened for half an hour.

☞ There will be preaching to-day at Wesley church at 11 o'clock, by Rev. W. C. Anderson, and at Asbury church at the same hour, by Dr. Guthrie Jones.

☞ "Thanksgiving day! Turkeys and other fowls can be obtained at J. T. Holmes & Bro's, 26 Madison street."

LATE PAPERS.—We are indebted to Mr O'Brien, of the Adams' Express Company, for New Orleans papers of Tuesday, received last evening.

☞ It should not be forgotten that Pantomont the "spider man," is daily in receipt of fresh Baltimore oysters. He is now offering an excellent article. Thanksgiving plum cakes nolice.

CORRESPONDENTS NOTICE.—We publish no marriages of which correspondents inform us, unless their communication is authenticated by a responsible name.

GATHERING THEM IN.—From statistics kept in the possession of one of our leading caterers, we learn that he has in the experience of his business obtained in no less than three thousand several orders.

ARTISTIC.—We were pleased to meet, yesterday, with our old artistic friend Dr Carr, who has been on an aquatic shadow-catching expedition down the coast for some months.

RECESS FOR THANKSGIVING.—The various legal tribunals of the city, including the Criminal court, will not be in session to-day, having taken a recess by way of an observance of thanksgiving.

☞ There will be a thanksgiving sermon and appropriate service held in the First Presbyterian church at 11 o'clock this morning by Rev. Dr Stedman pastor of the church.

THANKSGIVING DINNERS.—By calling on our friend Frank, at the Malta House, all the luxuries of the season may be obtained, fish, flesh and fowl, prepared in the most tempting style. Private families and parties will be supplied at the shortest notice.

COMMON LAW COURT.—The jury in the case of John Cobbs against A. H. Douglass, involving a large sum of money, did not receive their charge from the bench yesterday, and a decision, therefore, has not yet been rendered.

☞ Prof. L. P. Yandell, M. D., late of the University of Kentucky, will deliver a lecture at Odd Fellows' Hall on Friday night next. The public are invited to attend. We deem it only necessary to state that Professor Yandell is one of the most popular lecturers in the South.

☞ Connoisseurs and lovers of fine arts should not fail to attend the choice catalogue sale of Messrs. G. S. Lucke & Co., at 3 o'clock, P. M., to-day, when many little gems of art will be offered yesterday, will be sold together with all not called for by that time by purchasers.

CRIMINAL COURT.—In this tribunal yesterday W. D. Robinson and James Williams, charged with rape, were acquitted of that charge and held to answer for riot. The grand jury returned a true bill of indictment against Robert Thompson, charged with stealing a horse from O. Stone.

COMMITTED.—We announced yesterday that Fanny Kahl and father had been committed on the charge of stealing some jewelry and a quantity of clothing from Bridget Hayden. The two were examined before Squire Barto yesterday afternoon, when the father was discharged and the girl committed for final trial in default of $1000 bond.

AN APPEAL TAKEN.—We announced yesterday that the jury of the Common Law court in the case of Mrs. Jane P. Pittman against the Memphis and Ohio railroad company, for $25,000 damages for causing the death of her son, had returned a verdict of one-dollar damages for the plaintiff. An appeal has been taken from the verdict of the jury, and the case will be taken to the Supreme court.

☞ To-morrow morning at ten o'clock continuous will be in waiting at the auction room of C. S. Lucke & Co., to convey all to their great sale of suburban lots, who wish to attend. This property is very desirable for residences, and are only four miles east of Court Square. The property will be sold regardless of price, on long time. This sale presents greater inducements than has been offered this season. Purchasers may expect great bargains.

MEMPHIS VOCAL SOCIETY.—The next meeting of the Memphis Vocal Society, lately organized by Professor Kalenbach, will be held on Monday evening next, November 28th, at half past 7 o'clock, at the room of Grace church on the corner of Union and Main streets. All the members are requested to send, without delay, to the address of Mr. Chadwick the stipulated amount for purchasing music books. All members of the society who were prevented from attending and wish to connect themselves with this association, are requested to send in their names at an early date.

THE NEW MEMPHIS THEATRE.—A very creditable audience assembled last evening to witness Mrs. Parsons's admirable personation of the character of "Madam de Maine," in the Widower's Stratagem, and the charming Fanny Fern's production of "Fanny's First Love, or Love at a Loser. The acting of both mother and daughter was characterized by that rare and artistic completeness for which they are so eminent, and the entertainment, as a whole, was highly creditable to the Memphis boards.

THE NIGHT BELLS.—We are not aware that there is an ordinance which provides that any particular hour of the night shall be the signal for tolling the city bells, but we do know it is the custom of the police, or some other city official, to ring a bell in a central locality in the city at certain hours each night. We have observed, too, that the adventurous boys generally wait a minute or two and again at five minutes to commence the hour of ten. We suppose that it won't be a decided improvement to indicate such passing hour of the night, yesterday, with three cheers and a tiger, or three days. A knowledge of the time of night is useful to many of our citizens who have no other means of ascertaining it than in the manner alluded to above.

Memphis Annual Conference of the M. E. Church.

SEVENTH DAY.

Conference met at the appointed hour—Bishop Andrew in the chair.

Religious exercises by J. H. Brooks.

The minutes of the afternoon session of yesterday were read and approved.

The committee on memoirs read their report, which, on motion, was adopted.

The report of the joint board of finance was read, and, after a small amendment, was adopted.

Where upon a committee to whom was referred the memorial from Wm. Smith, of Washington City, presented their report, which was read, and, on motion, adopted.

A call was then made for the names of those preachers who would take free copies of the "Smithson Sermons."

The following resolution was then read:

The unfinished business of yesterday was taken up.

Mr. Brooks made some remarks in reference to the case of Dr. Speer, which is now pending.

Mr. Brooks moved the previous question, which a Christian like speech, setting forth the testimony and facts in the case, bearing on the first specification. After he closed on that point the accused replied in defense of himself.

On motion it was voted that when we adjourn it be to meet at 3 o'clock.

J. J. Brooks was granted a location, and he, W. S. Owen, S. A. Haine, were granted leave of absence.

It being stated that to-morrow was the day appointed as a day of thanksgiving by the Governor of the State, it was on motion, resolved that we have public services to-morrow at all our churches

Conference adjourned with benediction by the Rich. J. Stevenson.—Conference met at its appointed hour; Bishop Andrew in the chair.

Prayer by G. W. Carter.

The minutes of the morning session were read and approved.

The case of S. W. Speer being the order of the day, was taken up.

The report of the committee was read, and on motion received.

The testimony in this case was then read, after which brother Speer made an extended statement of the facts connected with the case in hand.

On motion, conference adjourned with benediction by the bishop.

TO THE PUBLIC.—We had intended in this morning's issue to give a full statement of the circumstances connected with the death of Mr. Poindexter, but upon further consultation with the friends of the deceased it is deemed advisable to postpone such a statement until all the facts shall have been elicited before the committing court before whom the trial of the accused will take place on Friday next.

In the meantime we ask a suspension of public opinion as to the merits of this case, that full and impartial justice may be done. We deem it proper further to say that of all the statements that have been made through the public press, purporting to give the facts in relation to this unfortunate affair, we have seen no one which, in our judgment, does Mr. Poindexter justice. Any errors of this sort have, we doubt not, been made from mistaken information, and we trust will be duly corrected when the facts shall have been more fully developed.—*Nashville Union.*

THE METEOR.—A gentleman who observed the New York meteor the other day, writes that he was in Broadway when he saw it. The sun was shining at the time, and the meteor caused a sudden brilliant flash of light. As to the dimensions of the object:

I would say it was about twice as large as the moon, with a tail twenty or thirty feet in length; the color, which was the same both in the body and tail, seemed of a most beautiful liquid silver, and resembled much that of a shooting star on a clear winter's night.

It seemed to fall from an easterly to a southerly direction, and described a most beautiful curve. I would suggest that, instead of looking in this immediate vicinity for any traces of the meteor, would it not be more likely to expect (judging from the great hight it was seen at) that it fell far out at sea instead of on land?

THE CHOLERA.—Yesterday our city was made quite lively by the arrival and departure of a train of camels, belonging to the Government. Our citizens turned out quite extensively to witness the train as it passed through Commerce street. Clerks and customers all made a simultaneous rush for the doors and windows, to witness the novel exhibition.

These animals prove remarkably valuable for the transmission of freight over the plains, and all portions of the country, which are more or less impracticable for wagon trains; they are capable of rendering great service with little food and less water; they are perfectly docile, and can be unpacked and repacked as easily as a common mule. We look forward to the time when vast herds of these animals will be in general use in our State.—*San Antonio (Texas) Herald.*

THREATENED OUTBREAK IN ITALY.—The correspondence of the English and French journals all express apprehensions of a collision between the Liberals and the Papal Neapolitan troops in the Legations. Austrian soldiers, too, disguised in papal uniforms, were said to be daily arriving at Ancona. It is also said that the brigand valley slaves of the Roman States had been armed, and that, with other mercenaries, an army of some 30,000 troops had been gotten together.

On the other hand, Panti and Garibaldi were redoubling their efforts, and volunteers were flocking to them from every side. A collision was not much longer avoidable.

A CARD.

HAVING associated with us Mr. Hold Beckham, that of buying and selling Negroes, both on commission and on private account, Mr. S. S. JONES, of Bolivar, Tenn., and my brother, W. H. FORREST, of Memphis, I can tender to my friends better facilities than I have ever before been able to offer them.

Our buildings are located at No. 49 Adams street, next door south of the Bank of Commerce. They are spacious, combining convenience, comfort and safety—quite superior to any establishment of the kind in the State, and equal to any that I have seen in the South. They will find her state-rooms large and comfortable, with every requisite comfort attached, and ample room in the nursery for all children and servants, while for the special convenience of the lady passengers an accoucheur has been placed in the clerk's office, by which the passengers in the ladies' cabin can directly communicate their wants to the clerk, by merely pulling the bell-rope in their state-rooms. This is the invention of Henry Lanthrun the clerk. The Persuna was built expressly for the trade between Vicksburg and New Orleans, and especial attention has been paid to the accommodation of passengers and arrangements for live stock, as her guards are covered in, and the dock room is commodious. Her capacity for freight is equal to the burthen of fifty 1,000 bales of freight, with her accounts clear of the same. The hull is well fastened, with an easy model and ample power to make her a fast boat. The dimensions are as follows: Length over all 205 feet, with 28 feet beam and 6 feet depth of hold, all well fastened. Her engine is of the simple and well applied, working an immense water-wheel with over 16 feet length of buckets. The cylinders are each 27 inches in diameter, with 8 feet stroke, and 9 boilers 32 feet long and 42 inches in diameter. Her chimneys stand 52 feet high from the barricade deck. She is furnished with a steam freight hoisting-screw capstan and all the late improvements. The cabin, one of the most beautiful on the river, has 500 state-rooms. Every state room in the after cabin contains, in addition to the berths, a trundle-bed for the use of children, which will make her a very desirable boat for families. They are furnished with spring mattresses, linen sheets and linen pillow cases, washstands, wardrobes, lavoras, and (according to the boat) a stove in the ladies' cabin is a fine promenade, which is made comfortable by a stove. Below the ladies' cabin is the nursery, which contains rooms for sixteen persons.—This splendid steamer will leave this port for New Orleans at 4 o'clock this afternoon. Messrs. Burnett, Bowen & Co., Howard's Row, are the agents.

FOR NEW ORLEANS TO-DAY.—The popular steamer Jessie Wise, Capt. Montgomery, will leave for New Orleans at the usual hour this afternoon. Since she has come into her new trade she has gained an enviable popularity; and we are gratified to note these evidences of her success, for she is a fine boat, and her officers deserve success.

The steamer Hatteras, Capt. Wood, will leave for New Orleans at 5 o'clock, to-morrow afternoon, and we are authorized to say that she will take 2,500 bales of cotton. The Hatteras has excellent passenger accommodations and attentive officers. Messrs. Thomas H. Williams & Co. are the agents.

The splendid new steamer Atlantic, Capt. McGill, is down from Louisville, and will leave for New Orleans at 5 o'clock this afternoon. We have given a description heretofore of this fine steamer, from which it would appear that she is second to no passenger packet on the western waters. Our young friend Mr. John Woolfolk, who, crippled the Mons McCrillis such a severe and unforeseen favorite in this trade, has charge of the clerk's office. Messrs. J. D. Morton & Co., at the new wharf-boat, are the agents.

The fine steamer New Falls City, Capt. J. R. Woods, will leave for New Orleans at 5 o'clock this morning.

The steamer James Johnson will also leave this port for New Orleans at 4 o'clock this afternoon. Of the many boats heard down to do the Johnson is one of the most desirable as a passenger packet.

FOR NEW ORLEANS FRIDAY.—The elegant steamer Belfast, Capt. Wray, will be the regular mail and passenger packet for New Orleans to-morrow, leaving promptly at 3 o'clock P. M. Her accommodations are all of the first class, and her officers attentive. Mr. R. J. Booker, a popular boatman and clever gentleman, is the clerk.

FOR ST. LOUIS.—The fine steamer Ben. Lewis, Capt. Brierley, is the regular mail boat for St. Louis to-day, and will depart at 5 o'clock this afternoon. She is a commodious and substantial passenger boat, having accommodating officers.

FOR VICKSBURG.—The fine steamer Skylark, Capt. Ben Johnson, will leave for Vicksburg at 4 o'clock this afternoon, in place of the Victoria, taking the mail and making all the connections heretofore made by the Victoria, and sending passengers through to Capt. Conroy's line of splendid mail boats to all points on White river. The Skylark has excellent accommodations and popular officers, including a detachment from the Victoria.

FOR THE WHITE RIVER.—The splendid new steamer St. Francis No. 1, Capt. Scantlan, will be the regular packet for all points on the St. Francis to-day, and will leave promptly at 4 o'clock. She and her officers are well and favorably known to the trade. Our young friend Dewitt Abbott is the chief clerk.

FOR THE ARKANSAS RIVER.—The fine mail packet S. H. Tucker, Capt. Pritchard, will leave for Little Rock at 4 o'clock this evening. She is of very light draught, and will take passengers through without detention.

FOR THE ARKANSAS RIVER.—As we have been informed, the fine little steamer Jessie Whipple, Capt. Gray, will leave for all points on the Arkansas river at 5 o'clock Saturday. She will be under command of the "old veteran," Capt. Charley, and Capt. Ad. Norton is her clerk. Everybody will be delighted with the announcement that the Whipple is coming out so soon.

FOR WHITE AND LITTLE RED RIVERS.—The popular steamer Admiral, Capt. Amos Batty, is the regular packet as above to-day, and will leave at five o'clock this afternoon. She is an admirable passenger packet and well adapted to the trade.

FOR LOUISVILLE.—The popular low water packet Alice Gault, Capt. Brown, will leave for Cairo and Louisville this afternoon. She is of light draught, and will, therefore suffer no detention. Mr. Reuber, an excellent boatman as if agreeable traveling companion, is the clerk.

FOR CINCINNATI.—The fine steamer Hickman, Capt. Byers, having been detained, will leave for Cincinnati at 5 o'clock this morning. She is a deserved favorite with passengers.

DEPARTURES YESTERDAY.

Pacific	N. Orleans	Dunrath	N. Orleans
J. T. Johnson	N. Orleans	Adriatic	N. Orleans
Little Rosanna	N. Orleans	Letsom	Cincinnati

There was a swell of about two inches in the river at this point during the twenty-four hours ending at 6 o'clock last evening. The weather yesterday was clear, warm and spring-like, with unusual activity at the landing.

The following despatch was received last night by telegraph:

LOUISVILLE, Nov. 23.—The river at this point is stationary, with 4½ feet in the canal.

We learn from the officers of the S. B. Tucker that there has been a rise in the Arkansas river, and that there is now three feet at Fort Riff, and thirty inches water at Little Rock, with a good deal of plenty of water for the purposes of navigation.

The last arrivals from below report eight feet water at President's Island, seven feet six inches at Greenville, eight feet at Hole-in-the-Wall, and nine feet at Pawpaw bar.

The steamboats at cotton yesterday embraced 4,825 bales, of which 2,600 bales were taken for New Orleans, 1,725 bales for the Ohio river, and 500 bales for Cairo.

The S. H. Tucker, which arrived from the Arkansas river yesterday morning, brought 140 bales cotton, which she took on board for memphis yesterday.

The steamer Pacific arrived from Louisville Tuesday night, on the first trip of the season, full of freight and people. She departed for New Orleans yesterday morning.

The Little Rosanna departed for New Orleans last evening, with one of the best trips of the season, including 1,000 bales cotton.

The Cambridge left for Pittsburg direct yesterday with 291 bales cotton. In all probability she will run as a regular packet hence to Pittsburg.

The steamer Belfast arrived from New Orleans yesterday in good time. She brought, in addition to other freight, 600 bags cotton and 36 bales cotton. We are indebted to Mr. R. J. Booker, the clerk, for late papers.

The Lebanon and Bostonia, for Cincinnati, the T. C. Twitchell and Adriatic, for New Orleans, and the W. H. Lonsdale, for Cairo, departed yesterday. The Lebanon took 800 bales cotton, the Bostonia 200 bales, the Twitchell 225 bales, the Adriatic 200 bales, and the Lonsdale 300 bales—the latter consignment for Cairo.

The Ben. Johnson arrived from New Orleans yesterday, and will return from this port.

The River Moon, Capt. Jas. Hughes's new Memphis and Cincinnati packet, will leave Cincinnati for this port to-day.

The J. G. Coles, which will be sold at Marshall's sale at this port Saturday, will in all probability leave for Cairo, Monday, and after that embark in the Louisville and Henderson trade.

The rates of freight on cotton at present are as follows: to New Orleans $[illegible] per bale; to Cincinnati $[illegible] per bale; to Louisville $1; to Cairo 75 cents per bale.

The S. H. Tucker brought up from Napoleon, 145 bales cotton that had been stolen on the Jessie Whipple in the Arkansas river. The shipment was in a slightly damaged condition.

A THANKSGIVING TREAT.—The occasion will be deemed worthy of a holiday, at least by our boatmen, as it will be marked by the advent of Capt. Leyden's "Great Eastern" steamer, the peerless Peytona. She left Louisville for New Orleans on Tuesday last, and will therefore be due here to-day. The Louisville papers are filled with glowing accounts of her accommodations, and the Courier says nothing has been spared in the construction and outfit of the cabin to make her desirable for the accommodation of the travel between that port and New Orleans, especially for families journeying to or from the South. They will find her state-rooms large and comfortable, with every requisite comfort attached, and ample room in the nursery for all children and servants, while for the special convenience of the lady passengers an accoucheur has been placed in the clerk's office, by which the passengers in the ladies' cabin can directly communicate their wants to the clerk, by merely pulling the bell-rope in their state-rooms. Total Loss of the Steamship Indian--Three Lives Lost.

NEW YORK, November 23.—The wreck reached by the schooner Victoria yesterday, supposed to be the Panama packet Bolivar, proves to be the steamship Indian, of the Montreal Ocean Steamship Company. She sailed from Liverpool for Portland on the 5th inst. The Indian was broken across the rocks of Gurdon, Nova Scotia. Three lives were lost.

The steamship Indian went ashore on the flat tide, and parted in midship. Two of the boats which got the wreck with passengers are missing. Their whereabouts of the survivors is unknown. The hurrip of the wreck is doubtful of access, rendering it impossible to obtain full particulars.
