Thursday Morning, February 9, 1860.

$10 Reward.

We will pay the above reward for the apprehension, with evidence sufficient to convict, of every thief detected in stealing the APPEAL from the stands of our publishers. McNAMARA, THOMPSON & DILL.

February 7, 1860.

☞ Mr. Young advertises a plantation and negroes this morning. Those wishing to buy would do well to call on him.

THE TRIAL OF MYRATT.—The trial of Thos. B. Myratt will take place this morning at the criminal court room in Exchange Building, at 10 o'clock.

DISCHARGED.—Charles Pritz, who was arrested several days ago on the charge of stealing a watch, was examined before Squire Horne yesterday and discharged.

NEW LODGE.—The new lodge of the Sons of Malta, on Front Row, was thrown open to the public yesterday, and was visited by a large number of the friends of the order of both sexes, and was greatly admired.

AT LARGE AGAIN.—Marcus Dougherty and Dennis Carney, who were sentenced to the city gang at the last term of the criminal court for a period of three months, having served out their allotted time, were released from prison yesterday.

ROOM, ROOM, ROOM.—We all want room, and room we must have, but we want you to understand that the house of Tichnor, Robins & Co., next door to the Planters' Bank, on Jefferson street, want more store room, and we say to all, both great and small, that this is the place to get your good clothes cheap.

NEW CLUBS FOR OUR WEEKLY.—Yesterday we received thirty new subscribers to our mammoth Weekly. For one, we are indebted to the kindness of Mr. J. M. Wyatt, of Yorkville, Gibson county, Tennessee. For the other, our thanks are due to Mr. L. M. Hughes, at Gravel Hill, McNairy county, Tennessee. We shall endeavor to make the APPEAL worthy of these favors.

TUCKER'S SPRING TAR.—This best is known to be the most comfortable, healthful, and serviceable, and at the same time the cheapest now in use. Housekeepers will thank us for informing them that an agency for their sale has been established in this city, and that Messrs. McKinney & Co. are the agents for the manufacturers.

☞ Mr. McGimpsey, of this city, is selling a very superior article of soap, which is used for removing spots, grease, etc., from furniture, for cleaning paint, jewelry, plate, etc., and for shampooing and bathing. We have seen the qualities of this soap tested, and have no hesitancy in pronouncing it superior. Call at the sign of the soot now in use. After use it leaves the skin soft and moist. Give this soap a trial.

NOVELTIES FROM THE NORTH ICE.—The panorama of the Arctic Regions, accompanied by a number of curiosities from that region, reached this city yesterday by the steamer N. W. Thomas. Among the curiosities referred to were a pair of Esquimaux dogs and a small boat covered with the skin of a polar bear. These novelties will be exhibited at Odd Fellow's Hall next week.

EXTENSION OF THE OHIO ROAD.—We publish a notice this morning from the superintendent of the Ohio railroad, W. L. Nelson, Esq., to the effect that after this week trains will run to Caledonia, seventeen miles this side of Paris. We are happy to find that this well-managed road—one of the most agreeable we know to travel on—is progressing so successfully, and hope, before another winter, to have to record the driving of the last spike, at Paris.

THE GREAT SHOOTING MATCH.—There will be an extraordinary shooting match at two o'clock to-day at Capt. Travis' gallery on Shelby street, opposite the Gayoso, in which Capt. Travis himself will bear a part. The Captain will shoot forty shots, and his antagonists, three in number, will shoot five shots each—Capt. T's shots to be fired between his legs, with his back to the target, of course. The public is invited to be present.

MISS M. A. BAKER.—This remarkable young lady, accompanied by her charming sister, has arrived in the city, and will deliver a lecture upon the "Inner Life," at Odd Fellows' Hall, Monday evening. The rare mental gifts, personal charms, and natural misfortunes of these two young ladies, render them objects of peculiar interest to all who are actuated by the nobler sentiments of humanity. If we do not greatly err in our estimate of the tastes and generosity of our citizens, Miss Baker will be cheered by the presence of a large audience on Monday evening.

MEMPHIS AND NEW ORLEANS PACKET COMPANY.—The convention of stockholders in the Memphis and New Orleans packet company adjourned yesterday, after a two days' session. At the meeting yesterday they resolved to build four new steamers, but deferred more definite action until the stock could be fully represented. The convention was composed of many of our leading western steamboatmen, among whom were Capt. Shirley and Mr. Sherlock, respectively president and treasurer of the Louisville and Cincinnati Mail company. These gentlemen concurred and planned, and carried out the recent legislative extension to Louisville, Cincinnati and Columbus, and the success of the movement redounds greatly to their credit.

THEATRE.—*King Lear* was produced last night most effectively. Mr. Sullivan came up to more than general expectation in the character of "King Lear." The audience on the occasion was critical to a degree of fastidiousness, seldom assembled in Memphis. Our play-goers had seen most of the leading actors in the part, and were prepared for a severe critical analysis. Mr. Sullivan's rendering of the part was received with the most enthusiastic outbursts of applause. In this most difficult character, Mr. Sullivan received able support from the company, with one or two exceptions, which does not attach to the "Edgar" of Mr. Whalley, or the "Cordelia" of Miss Jennie Stanley, both of whom were "well up" in their parts.

To-night Mr. Sullivan will appear as "Sir Giles Overreach," in "*A New Way to Pay Old Debts*, one of the elder Booth's greatest characters. Those who remember "old Booth," and were still more fortunate in seeing his son in this part, have now an opportunity of instituting a comparison between these distinguished representatives of the histrionic art.

DEMOCRATIC STATE CENTRAL COMMITTEE.—Hon. Geo. W. Jones, Chairman of the Democratic State central committee, has appointed the following gentlemen members of the Democratic State central committee:

Middle Tennessee.—John C. Burch, Randal W. McGavock, William S. Hurley, Nashville; Thomas Watson, Franklin; Thomas Boyers, Gallatin.

East Tennessee.—Columbus Powell, Geo. Bradfield, Wm. Parker, Knoxville; Samuel Milligan, Greeneville; George W. Bridges, Athens.

West Tennessee.—William H. Carroll, M. C. Galloway, John R. McClanahan, Memphis; McLin Cross, Purdy; H. F. Commins, Paris.

New York Dry Goods Market.—There has been a marked increase of activity in the market since our last review. Southern, eastern and city jobbers have all been buying fancy goods. Prices are scarcely higher than last year, though the importations are said to come out at an increased cost. A large supply of silks and ribbons has been received by the latest arrivals. There are very few western buyers here, and these are confined to woolen goods, which are in good supply, especially German and Belgium cloths and fancy cassimeres. In domestic goods there is an increase of activity, except in cotton goods for export to Cuba, Mexico and China, which is of marked encouragement to our manufacturers. Prices of all cotton goods are steady.

Prints are in moderate demand, but the inquiry is on the increase. Southern jobbers are buying more from the commission houses, and rather less from the city southern jobbers. More activity prevails in lawns. Woolen goods are hardly so active, and jobbers are hanging back a little from their usual purchases. Fancy cassimers, however, are in good request, more particularly the desirable styles. Fancy silk mixtures of small pattern are considered "desirable," and command a ready sale. Delaines are not active. Prices of woolens are steady, from the high price of wool. The large stocks keep prices from advancing.—*Independent.*

FREE NEGROES IN MISSISSIPPI.—The Natchez Courier of Friday last says:

From a private letter from Jackson, we understand that there is a decided probability that the bill relative to free negroes, which passed the House in December last, will not pass the Senate, at least without material modifications. Some discrimination will, it is believed, be made in favor of negroes who have already been licensed by the police courts, and are of good character.

EDITORIAL FATALITY.—Speaking of the death of Mr. Roy, late editor of the Vicksburg *Sun*, the Concordia *Intelligencer* says:

This sad event makes the fourth Democratic editor that has come to a violent death in Vicksburg. Hazan, Ryan, Jenkins, and now Roy—and all in a street encounter, except Ryan—who fell in a duel with Hammett, a Whig editor. There is not be still, a more evil city in the world where there has been such a fatality of violence all confined to editors of one of the same political creed.

XXXVI CONGRESS—FIRST SESSION.

WASHINGTON, February 6.—*Senate.*—The Senate met at 12 o'clock.

Mr. Wade presented the petitions of soldiers of 1812, for pensions.

Mr. Secretary of the Treasury in reply to the resolution of the Senate, calling for the names and compensation of officers to his department not confirmed by the Senate, says that the list would embrace much the larger portion of the employes of the Department, and could be found in the register for 1859. Referred to the Committee on Finance.

Mr. Mallory introduced bills to regulate the pay of pursers in the navy.

Mr. Sumner introduced a resolution instructing the Post Office Committee to inquire into the expediency of establishing a semi-weekly mail between St. Joseph and Placerville, California. Adopted.

Mr. Hemphill introduced a similar resolution relative to a semi-weekly mail between New Orleans and El Paso. Adopted.

Mr. Hale introduced a bill for the extension of the pre-emption privilege to California, which was read twice and referred.

Mr. Wigfall introduced a bill for a line of railroad and telegraph to the Pacific.

Mr. Gwin moved its printing, and would call up the bill at an early date.

On motion of Mr. Mallory, the bill to increase and regulate the pay of the navy was taken up and made the special order for Monday.

Mr. Pearce offered a resolution requesting the President to communicate the dispatches sent to and received from the late minister to China, and the correspondence, if any, with commissioners.

Mr. Chandler moved to reconsider the vote ordering the printing of the President's message.

Mr. Clark, Chair. Rats. bill, and attacked the document as an imputation on Congress.

Mr. Crittenden vindicated the President's message, and defended the Chair. Rats. bill, and attacked the document as an imputation on Congress.

Mr. Clark, of Missouri, made an explanation, denying, as was charged in an editorial, that he had declared Mr. Douglas as the first choice of Missouri for President.

Mr. Phelps asked for the unanimous consent to proceed to the consideration of the pneumatic appropriation bill, which was read for information.

Mr. Maynard wished to modify the third section so as to make the 2 per cent. interest therein provided, payable to the contractors themselves, and not to their assignees, to whom they have sold their scrip at a ruinous discount, the contractors accepting this interest as full and satisfactory of all demands of damages.

Mr. Pettit objected, preferring that the bill stand, and take the calendar.

The question rose on the suspension of the rules.

Mr. Phelps said that the first section appropriated $1,000,000 for the support of the Post Office Department for the remainder of the fiscal year, ending in June last. He offered an amendment to the second section, that $2,400,000 thereon appropriated be devoted exclusively to the compensation of the postmasters and clerks in their offices, and the department, special agents and the transportation of the mails, and suggested that the section providing for interest on the unpaid compensation of contractors be stricken out.

Mr. Phelps' amendment in the second section, designating to whom the $2,400,000 should be paid, was carried by by 118 to 76. The House refused to strike out the section providing for the payment of interest to contractors, and the bill then passed.

Mr. Grow, from the committee appointed to wait on the President, reported that they had performed their duties; that the President received them to express his gratification that Congress was ready to proceed to business, and that he would be happy to co-operate with the Legislative department in the consummation of measures calculated to promote the public welfare, and that he should communicate with Congress as the public emergencies may require.

Mr. Sherman moved to proceed to the election of a Door-keeper, previous to which there was a call of the House. Whole number 207; necessary to a choice, 104.

Marston, 110; Wright, 57; Markland, 16; Ward, 12; Lomax, 12.

Mr. Marston was declared elected door-keeper.

Mr. Washburne, of Illinois, moved to proceed to the election of a Postmaster ejus. Whole number 210; necessary to a choice, 106. Locke, 108; Clusky, 95; Scroggs, 17.

Mr. Locke was then declared elected Postmaster.

The House then adjourned till Tuesday.
