RIVER, WEATHER AND PORTRAIT.—The river was about stationary at Memphis yesterday. Thirteen feet was right bad water in the channel between St. Louis and Cairo, and falling. The Missouri Bottom was a mere pond yesterday, with from four to inches in the Mississippi from Warren down, and the river is fast spilling out. There is four feet in the upper and seven feet in the lower bayou at Greenville, and still on the rise. At Vicksburg, the river was five feet and a half in Delta. All the southern rivers that are tied on the bank in the Illinois from Peoria down. We learn from the Cincinnati Commercial that the river was falling at Louisville Wednesday night, with seven feet in the channel. At Pittsburg there was twelve feet and falling. The river continued to recede at Cincinnati. The Kanawha falling with five feet in the channel. The Ohio at Wheeling was five feet in the channel. The Cumberland was falling at Nashville. The Cumberland at Cairo was four
