OVERLAND MAIL.
The Overland Mail leaves every Wednesday and Saturday at 5 A. M., by the Little Rock Railroad, per steam from foot of Jefferson street.

NEXT TERM.—Skinker, who killed Myers, is to be tried at the next term of the criminal court.

CRIMINAL COURT.—The criminal court has attempted to meet again for the second Monday in June.

INQUEST.—Esquire Hume held an inquest over the body of the man who was killed to death by a mule. His name was Charles Mallory.

HELD TO BAIL.—S. C. Prentiss has been held in $1000 bail by Squire Horne, to take his trial on the charge of fraudulently appropriating a gold watch.

THE WOUNDED POLICEMAN.—Tucker, the wounded policeman, was no worse yesterday. His recovery is considered certain.

MORE POLICE.—It is proposed to double the present night force—in quantity, we mean—not in quality, unfortunately.

CHANGE OF LOCATION.—Messrs. Jack & Shanks have purchased the establishment of Messrs. Principle & Hollingsworth, and offer their stand at 301 Main street for rent, and their fixtures for sale.

SALE OF PROPERTY.—The report of a very interesting sale of real estate in Vance street, made yesterday by the popular agents, Messrs. Bogard & Co., will be found in our commercial column.

PERSONAL.—Colonel Q. K. Underwood, the well known editor of the Raleigh Shield, passed through the city yesterday en route for Baltimore. The Colonel is a delegate to the Opposition national convention.

FOR REQUISITION.—The criminal court has directed that P. Loomis, alias Ki-ses, charged with the murder of a shoemaker in New York State, be held in close jail to await a requisition from the Governor of New York.

THE WEATHER.—Cloudless skies and delightfully cool nights made our delicious yesterday, while the warmth was tempered by a sweet, cooling breeze. It has adorned the parks and Main street with gaping crowds of beautiful and fashionable ladies.

STOLEN MONEY RECOVERED.—The money stolen from Michael Mayer at a boarding house on Front Row on the 26th ult., has been recovered. By returning to this city, or advising his friends of his whereabouts, he will receive the same. R.

THEATRICAL.—A number of our theatrical folks took passage yesterday by the steamer Glendale for Cincinnati, and their departure is the sorely disappointed every Miss Maggie Mitchell, Mrs. Pope, the Misses Stanley, Miss Frost, Miss Chantlier, Mr. Turnbull and family, and Messrs. Mc. A. Coleman and Jones.

SHOWER BATHS.—Passing the store of J. H. Flaherty yesterday evening, our attention was called to a large number of shower baths just arrived. The article had become so in the city, but all desirous of the healthy luxury of the bath can be supplied at this store, where a splendid display of furniture may be seen.

STRAWBERRY SUPPER.—The ladies of the First Baptist Church hold their second and concluding strawberry supper to-night, and who would miss a pleasant evening, with a plate or twoof delicious strawberries and before him he fair hands, with bright eyes glistening and sweet smiles dancing around them, should be there. The Baptist ladies strawberry supper ought certainly to be patronized.

ANOTHER SCALDING CASE.—At 4 o'clock yesterday evening a difficulty occurred on board a Red boat lying at the foot of Poplar street. The proprietors of the boat, and some hirelings they had engaged to assist on board, were the parties. During the melee one man was scalded very badly with the hot steam. Parties, we are informed, is not serious. The whole party, consisting of five men, were taken into custody.

NOMINATION MADE OR NOT?—For Douglas and Dickinson.—Our friend Spicer, at the "Useful Plate," has completed an arrangement with C. F. Vietor & Son, of President's Island, to supply the citizens of Memphis with a fresh supply of Shad, the new gill every morning by 10 o'clock, also vegetables of every kind. Our friend pledges himself that shall be right. Call and see his arrangement, which is a perfect system.

A SOUTHERN INSTITUTION.—We call attention to an advertisement, in another column, of Messrs. Milton & Torian, agents of the Southern Insurance company, from whom we learn that it is the only one, so far, that has made the deposit of $20,000 Tennessee bonds. The institution is a southern one, and offers an opportunity to citizens entitle any insurance without sending southern money into overgorged eastern coffers. The company accepts all losses promptly at the office of the agents. The capital stock is $500,000. Merchants and others wishing to insure should give this company consideration.

STOLEN MONEY RECOVERED.—Michael Mayer had a pocket book containing $40 stolen from his room at a boarding house on Front Row, on the night of the 26th ult., and he offered the reward to be paid had been obtained. Yesterday, however, a suspected party was arrested, and the money and pocket book found on his person. Mr. Mayer left the city on the Memphis and Ohio railroad Wednesday morning, before any trace of the money had been obtained, and the employees of that road will please notify and inform him that by reporting to this city he can receive his money.

TO THE LADIES.—There is an express invitation issued to all the ladies in and around Memphis to call and see three magnificent specimens of goods which are displayed at M. Goldberg's store, corner of Main and Union. No one who looks at the beautiful bonnets can wonder that the ladies should wish to put their sweet faces within the most bewitching enclosures skill could construct, or fancy invent. The millinery, the dress artists, the gorgeous textiles, the varied trimmings, and all on the line that emanates from the metropolis of Paris, and the fashionable taste of New York can invent and supply, may be found at Goldberg's. A lady has only to make liberal purchases there to be entirely content at home.

GAMBLING.—This vice has arrived at a high pass in this city, the character of young men in affluence are being destroyed, and the fortunes of merchants, whose families have no suspicion of their indulgence in the absorbing vice, are being sapped by it. Face tables abound in this city, yet our police do not move a finger. In the condition of things the grand jury, future their broken by, thought it necessary to enter their protest against the continuance of this intoxicant, to warn the citizens of the fearful causes spread in their midst, and to point out plainly the fact that officials to whom are committed the oversight of the city, are remiss in not putting down these Hecatombs that are sustained in open defiance of law. The defendants will be prosecuted.

INCENDIARISM.—If all the fires that are reported to be the work of incendiaries really be such, our city authorities and police ought to be alive to the existence in our midst of a set of the most determinate, fiendish villains that ever infested any civilized community. It would be vain to hope that our detectives were commissioned the fate of the city prison. Yesterday morning the livery stable of J. R. Richards, on Adams street, which was gutted by fire last summer, was found by workmen built to be on fire. He procured assistance and extinguished the flames. The fire had been kindled in the front part of the stable near the head of the stairway leading from the street. There was no hay in the loft, and the incidiary doubtless kindled the fire from shavings and light wood which he brought with him.

FIRE STEAMER EXPLOIT.—An extraordinary trial of the Memphis fire steamer was made last evening which was witnessed by a very select representation by a large crowd of citizens. We have been favored with the following statement of the result which the band engine people must regard as astonishing. The perpendicular stream was measured by an instrument by Mr. Cook. The stream fire on the J. D. Dunbley, after filling the Cotton corner of Main and Madison streets, forced her water through the stream on length of twenty three hundred and forty feet of hose, so an incline of about forty feet, was tried as to her ability to throw water from the pipe, which resulted in her throwing to the distance of one hundred and twenty-two feet horizontally, and ninety-five feet perpendicularly, through an inch nozzle. The engine was stationed between Madison and Court streets, taking her water from the best of the hydrants while the hose extended to Madison street.

ANNUAL PARADE OF THE FIRE DEPARTMENT.—The annual parade of the fire department of the city of Memphis will take place on Tuesday, the 8th inst., in the following order:

Division Second—Independent fire company No. 1 will form on Main street, right resting on Exchange.

M., and move precisely at 9 o'clock, and proceed down Main to Madison, north on Front, march proceed up Main to Overton, and Overton to Second, down Second to Madison, and Madison to Fourth, down Fourth to Dedoe, down Dedoe to Vance, up Vance to Main, up Main to Court Square, and disperse. J. G. DENBURY,
Chief Marshal.

Afterwards, the procession will be formed and proceed to Main street; thence down Main to Monroe, and from Monroe to Second street, and then to Court square, where an address will be delivered by Col. R. C. Foster. Citizens will be excluded from Court square until the children are all seated. The gates will be thrown open for their reception.

Memphis Races—Spring Meeting.
The weather yesterday was calculated to make glad such as have feelings susceptible to such impressions. As a consequence there was another increase of the year's subject, and we are pleased to observe that the attendance on the part of the fairing was much larger than upon any previous day. The track was dusty yesterday, and on its soft, fine condition we can depend in further; the course then, however, was quite second to that made when the track was of clay, hard as flinty. The first race yesterday was by the lady and gentlemen of good, there was a spirited contest, at three-mile heats for the prize. There were two entries, Melancholy's Alexander and Col. Campbell's ch. h. by Wagner, or Louisa Alexander was the favorite at great odds. The race was a beautiful start, Alexander falling behind fully two lengths in the first quarter stretch, which position he maintained until a rear pull until they reached the turn to the home stretch in the third mile, when Alexander gradually lapped and passed his rival with ease, coming home fully a length ahead, winning the heat in 5:48½. On the first of the four mile was 7:36, the second 7:54, and the third 7:48½. At the close of the first heat the betting was as three to one on Alexander, and few could be found to show their confidence in the Wagner horse even at lower odds. The start for the second heat was equal, Alexander pressing to the hill, and falling back two or three lengths in the first half mile. In all respects the second heat was a repetition of the first, Alexander winning the heat and race in 5:48½. This was one of the most desirable and exciting races we have ever seen on the memphis Course. The second race was a match for $200, mile heats, for well-bred horses owned in Memphis, Mr. Sam Campbell's ch. h. by Glenmore, and Kimmey's b. h. by Wagner, for the latter was Col. Campbell's colt was the favorite by due to one, and there were few who possessed the temerity to back the Nebraska colt even with such odds in their favor. At the tap of the drum Campbell's colt took a position two lengths ahead of his rival, and with the exception of a break at the half-mile post, the colt was a very easy winner of the race for Wagner colt, and the heat was awarded to him—time 1:54½. Campbell's colt got a little the advantage in the start in the second mile, and led his rival to the string with ease, making the second mile in 1:49½, and winding the heat and race. Wagner's s.
