Scott & Co. publish for similar—even to the color of the reverse—of the original, giving the American edition at a rate far below the original. In England a number of Blackwood's cost half a month—the same number of the reprint costs twenty cents. Each of the above named are to be had at three dollars a year, or the whole of them for ten dollars a year—a cheap way of securing a good library. By including the same money in the subscription, the books will be regularly sent through the post office.

After the expenses were paid $81.25 were cleared. The subproceeds of the recreation given by the young ladies amounted to $250, which, together with subscriptions, convert proceeds, admission fees, and monthly subscriptions, to $854. It paid into the hands of the treasurer this morning. The association returned thanks to Mrs. Kershaw for the interest she displayed in devoting so much time and labor in getting up the entertainment. The following was adopted: that thanks be returned to the young ladies who participated in the "recreation," and also to Mrs. Bailey, who aided them. Mr. James M. Tate, in behalf of the committee appointed to select a suitable site for the Home, reported that the committee had not yet made a report, which report, after considerable discussion, was referred back to the committee, who are requested to report at the meeting to be held next Monday at the First Presbyterian church, for the special purpose. TRIBUTE OF RESPECT.—At a meeting of Independence Fire Company No. 8, at their hall last evening, the following preamble and resolutions were adopted:

"WHEREAS, The Department and the city of Memphis, and especially Independence Fire Company No. 8, have sustained an incomparable loss in the death of Wm. A. Kelly, a member and first pipe director of this company. He died from injuries received at the fire on Monroe street on the 30th of May, by falling from a house top to the ground, and receiving such severe internal injuries as to cause his speedy death. The deceased at the time was gallantly laboring to subdue the flames when the accident occurred, therefore,

"Be it Resolved, That in the sudden and violent death of Wm. A. Kelly this company has been deprived of one of its most genial companions and brothers, the fire department a most active and zealous member, and society at large an honorable and useful citizen. He was indeed a faithful fireman and a most devoted member of our company, and God we all deeply deplore his unexpected demise.

"Resolved, That we deeply sympathize with the family and friends of the deceased, upon this sudden visitation into their circle of so dire a calamity; and that a copy of these resolutions of condolence be transmitted to them by the secretary.

"Resolved, That the members of Independence Company No. 8 wear the usual badge of mourning for thirty days, in memory of the virtues of our deceased brother.

"Resolved, That these resolutions be spread upon the records of the company, and a copy furnished to one or more of the city papers for publication."

Who Has to Lose It?

This question has been often asked in connection with the failure of a bank.

Many persons have an idea that if they pay out the notes of a bank, immediately after the failure, and before they had heard of such failure, they are not liable to take them back or make them good.

This matter has recently been up in a case before the supreme court of Ohio, and decided in the following manner:

"Where the bank bills are transferred and received as money, in payment of a debt, after the bank by which they were issued has stopped payment, though its failure is not yet known at the place of payment, nor by either of the parties, the loss in such case must, in absence of any special agreement, be borne by the party paying the bills."

We publish this that any of our readers who have entertained different opinions may see how well they were founded.

Sad and Heart-Rending Accident.

From the Memphis (Mo.) *Democrat*, published in Scotland county, we gather the details of two very distressing accidents. The first involved the life of a young lady and the particulars are as follows:

The young lady had commenced building a fire in the stove, using a lighted candle, which she had set on the floor, and by some means or other the bind part of her dress caught fire, and she was directly enveloped in flames. Her first attempt to extinguish the fire was to jump into a swill tub, but the lid fitting so pretty tightly and the fire giving her such agonizing pain, she abandoned the idea of that mode of relief and ran toward the stable, in hopes of getting succor from a man who had but just left to go to the stable to look at some stock; but before reaching the stable she fell from extreme suffering, her clothes entirely burnt off, with the exception of a strip around the waist and her wrists. After suffering the most horrible torture death came to her rescue about four hours after the sad calamity happened.

The next one was the killing of a man by the explosion of the boiler of a saw mill, belonging to Messrs. Alexander & Holt:

Last Thursday, about 3 o'clock, the saw and grist mill, belonging to Messrs. Alexander & Holt, about ten miles west of this place, exploded the boiler, killing Mr. John D. Holt instantly, and badly scalding a young man and a boy. Two mares and a colt, belonging to Mr. Smoot, which were standing near the mill, were killed instantly. The mill is torn all to pieces—a mere wreck—boiler and engine included.

The mill at the time of the explosion was not running, and had not been started since dinner. Mr. Holt had just started to get a drink of water, with the intention of immediately commencing work, and young Alexander had just tried the water gauge, and says there was plenty of water in the boiler, and took a seat on a saw log on the log carriage, when the explosion took place. It is a miracle how he escaped with his life, as we are informed the log on which he was sitting was almost completely covered up with broken timbers of the mill. Mr. Holt was struck on the back of the head, and was found dead, bleeding and lacerated in the same most terribly, causing instant death. The little boy who was scalded, we believe was not in the mill, but near it. The report was heard for miles, and the shock felt in places seven or eight miles off. The cause of the explosion is not known.

THE members of the HIBERNIAN MUTUAL RELIEF SOCIETY are requested to meet at the hall this afternoon, at 3 o'clock, to attend the funeral of a deceased member.

Pomeroy Coal for Steamers, Etc,

THE attention of owners and officers of steamers navigating the Mississippi is invited to the facilities which now exist at Pomeroy, Ohio, for the supply of coal depots upon that navigable river.

Pomeroy coal has been favorably known on the Ohio for more than a quarter of a century, and is used by all the steamers navigating its waters. Its superiority over any coal yet mined below the falls, or on the Mississippi, is generally admitted. Depots of coal from the vicinity of Pomeroy, have been established at Memphis, Gaines' Landing and Baton Rouge, and the substitution of coal for wood by steamers will be accomplished when they can be supplied with certainty at convenient points between Cairo and New Orleans.

The undersigned will contract for loading at Pomeroy into barges and flatboats, to be provided by the purchasers, on favorable terms, and with great dispatch.

CHEROKEE REMEDY

AN UNFAILING CURE FOR

GONORRHEA,

And all Diseases of the Urinary Organs

THIS remedy cures when all other preparations fail. It is entirely unlike every other compound—containing no Mineral Poison or Nauseous Drug, as it is prepared solely from Roots, Barks and Leaves, and has been handed down from one generation to another, by the Cherokee Indians. It is offered to the public on its own intrinsic merits. It performs its cure quickly and thoroughly. The unfortunate, of either sex will be repaid by using this remedy, instead of placing themselves at the mercy of some Quack or Pretender. This remedy strikes at the root of the disease; its tendency is not simply to palliate, but to cure. It does not require the patient to change his diet, or interfere with any class of business, or require any deviation from the usual diet.

☞ It requires no assistance from other medicine.

☞ And what enhances its value, is the entire absence of all nauseous taste, being a pleasant and delicious syrup. Price $1.00 per bottle.

POTTER & HERWIN,
Sole Proprietor, St. Louis, Mo.

☞ Sold in Memphis by Chandler & Co., and all druggists everywhere.
