Esquire Mallory has removed his office to a fine large airy room in the Greenlaw block, just below Union street.

CITY BUSINESS.—There will be a special meeting of the Board of Mayor and Aldermen this afternoon at the usual hour.

JAIL DELIVERY.—Four fugitive slaves escaped from the city prison at an early hour yesterday morning, forcing open the door of the cell in which they were confined.

REPONTENTIAL.—Mr. F. M. Gallor, of the *Avalanche*, left this city for the North, yesterday. In the meantime, Mr. W. H. Rhea will control the city department of the *Avalanche*.

RAILROAD IRON SUNK.—A barge of railroad iron, intended for this port, in tow of the steamer *Pink Varble*, was sunk on the bar opposite Evansville, in the Ohio river, Sunday.

REPORTED DEATH.—We were pained to hear the report, yesterday, that Mr. Philip Foot, late of this city, had died suddenly at his residence in Mississippi.

TO BE SUPPENDED.—We are gratified to learn that the police of the city have determined to suppress the circulation in this city of the *Jobe's Budget*, an obscene publication issued from St. Louis.

SHELBY COUNTY AGRICULTURAL ASSOCIATION.—There will be a special meeting of the Board of Directors of the Shelby County Agricultural Society at the office of Stewart & King at ten o'clock this morning.

PERSONAL.—Capt. L. A. Welton, late of the steamer *Imperial*, and at present agent in New Orleans of the railroad line of steamers, was in the city yesterday, and departed last evening for New Orleans.

RECORDER'S COURT.—The daily session of this tribunal will be held in future in the Criminal Court room. There were twelve delinquents sent to the chain-gang by the recorder yesterday.

AN ACCESS.—We are indebted to Thos R. Smith, Esq., at Bolivar, Tenn., for a club of forty-one subscribers to the WEEKLY APPEAL. We thank the Democracy of old Hardeman, through Mr. Smith, for this substantial exhibition of their appreciation of the APPEAL.

UNIVERSITY OF NASHVILLE.—This popular military institution will commence the ensuing term on the 3d September, under the supervision of an able faculty. The merits of this college are generally known, and we need only invite the attention of southern parents and guardians to the card of the superintendent, elsewhere in our paper.

THE MEMPHIS AND LITTLE ROCK ROAD.—A contract has been consummated with Gen. Peabody, the American banker in London, to supply the Memphis and Little Rock railroad eight thousand tons of iron, or a sufficient quantity to complete the road from the Mississippi river to the terminus at Little Rock. The iron for the road will be sent forward at once.

SOMERVILLE FEMALE INSTITUTE.—We this morning publish the card of this excellent institution, of which J. C. Humphreys is president, and E. Dickenson is secretary. It opens in September, under the supervision of the Rev. J. D. Meredith and a corps of experienced and skillful teachers. The terms are moderate, the location pleasant and healthful, and the course of instruction complete and satisfactory.

REMARKABLE RUN.—Mr. Fred. Myers, the young man who substitutes the billiard tables at the El Dorado saloon, yesterday made a continuous run of two thousand six hundred and fourteen points, the greatest run by far ever made in this city, and one of the largest ever made in the world. The El Dorado is thronged daily and nightly by the admirers of the pleasing, innocent and manly game of billiards.

CITY DISPENSARY AND MEDICAL COLLEGE. We dare say our readers were generally surprised by a perusal of the report of Prof. Yandell to the board of aldermen, at its last meeting, in regard to the number of applicants for medical aid at the city dispensary. While it discloses a lamentable amount of pauperism in our city, it exhibits resources for medical instruction such as few cities in our country affect. We should suppose that such ample advantages would of themselves be sufficient ultimately to create a great medical school in Memphis. Students of medicine will resort to schools where the teaching is demonstrative—where the eye is addressed as well as the ear—where a practical knowledge of the healing art is acquired along with the theory. Memphis possesses all the means for rendering medical education eminently practical.

INFIDELITY AND DESERTION.—A disgraceful case of infidelity and desertion became public in this city yesterday. It appears that on Sunday last one Dr. L. B. Arrington, of Napoleon, arrived in this city simultaneously with a Mrs. Green, both of whom took rooms at the Worsham House. Subsequently Mrs. Arrington, the deserted wife, arrived and confronted the wayward husband, who expressed regret for his unfaithfulness and promised to be true to his lawful wife in future. Believing him to be sincere, Mrs. Arrington confided in her husband's protestations, and was induced to supply him with money to pay his bills here, thus impoverishing herself. Arrington had no sooner obtained his wife's money, than he decamped and was followed by his paramour, leaving his wife friendless and unprotected, and failing to pay his hotel bill. From what we can learn Arrington's conduct is of an outrageous character. Mrs. Arrington is an estimable lady, and formerly resided in Columbus, while her relatives live in Clinton, Kentucky. She left for Columbus by railroad last evening.

CHEMICAL PAINT.—This is an article that certainly demands attention, and as it is now manufactured in Memphis—by the Memphis paint company, at Grant's oil mill, in the navy yard, J. J. Newman, agent—it can readily be obtained. We all know what an unhealthy nuisance new paint is in a house, and have learned to dread the process accordingly; but here we have a paint that requires no oil, rejects all intermixture of turpentine, is wholly free from smell, dries quickly, so that a room can be painted over and finished in a few hours, when the resident can occupy it at once, there being no smell, no sticking paint. It is declared to be very durable and not liable to fade or turn yellow, and can be polished like marble. It is fire-proof, does not blister by heat and will not peel off. These are great qualities, but actual specimens of work may be seen in the navy yard; and we have read in St. Louis papers statements confirming all that is said. It is half the price of white lead, and as it is used thinner it goes very much further.

GERMAN DOUGLAS CLUB.

In accordance with a previous notice, the Germans of this city held a meeting last Monday evening, at the Tonnel, on Adams street, for the purpose of forming a Douglas club. The meeting was quite enthusiastic, and argues well for the cause of Douglas and the true national Democracy of Memphis. There were between two and three hundred Germans present, and several short but cheering speeches were made. The meeting was called to order by Capt. Wm. Miller, and after the adoption of a constitution and by-laws, the following officers were appointed to preside over the association during the present year, to-wit: Mr. John Dettlinger, President; A. Munch and George Garlies, Vice-Presidents; A. Renkert, Treasurer; F. X. Mulhaupt, Secretary, and Fred. L. Werner, Corresponding Secretary. The meeting then adjourned to meet again on next Monday evening at the same place and hour.

THE CITY COUNCIL AND CITY FINANCES.—

Our readers are well aware, from frequent articles in this paper, that for the last two years the city council failed to keep that strict watch over matters connected with the city finances it was their duty to do. The monthly financial report required of the register was never made according to the terms of the ordinance. The charter requires the mayor, at least once in every three months, to lay before council a statement of the financial condition of the city, which statement must be published in one or more of the city papers. This statement for two years council permitted to pass unmade. The mayor is also required, with the other members of the committee on accounts, to examine the books of the city treasurer within ten days of the commencement of every month, and report the result of such examination at the first succeeding meeting of council. This report was not once made during the existence of the two last councils. The charter makes it necessary that a full annual report of the condition of the city finances shall be published in two of the city newspapers, within one month after the end of the fiscal year. Those statements were not made as required; one year no statement was made at all; last year it was delayed until the 10th of April instead of being made by the 1st of August. It is true the delay was attributed to a failure on the part of the city treasurer to keep his books posted up, but that delay would not have occurred if the monthly examination required by the city ordinance had been made by the mayor and committee of accounts; moreover, the settlement with the treasurer was effected in February, while the report did not come out until April.

These and similar errors on the part of the aldermen—for it was their duty to see that the officers required to report to them and to the public performed their functions, and of the annual report the charter requires shall be made by the "mayor and aldermen"—had their natural effect upon the minds of the observant and reflecting people. On the twenty-fifth of last February we wrote: "It is for the citizens of Memphis to decide whether they will again place in office persons who withhold from them information so important as that named above, violating the obligations imposed by the city charter, and neglecting duties prescribed by the city ordinances." The citizens have decided, and only one of those who were members of council at the time we wrote is in the present board. This is sufficiently striking and cannot fail to produce its effect.

The present council show a disposition to change the former method of proceeding, and as a means of putting an effectual stop to the baneful system of secrecy, against which we have so often entered our protest, they have appointed a committee to investigate the condition of each one of the city offices and report to the board. This will let light in the dark places. On Tuesday night the president of the board, Ald. Martin, laid before council an expose of the financial condition of the city, beginning his investigations with the year 1855, and bringing them down to the present time. He made a clear exposition of the sale of the Memphis and Charleston railroad bonds by council, and threw valuable light upon other subjects of interest. A copy of these remarks has been handed us for publication, and we commend them to the attention of every tax-payer. At a time when the city has gone to protest, attention to these subjects is demanded. Two hundred and fifty thousand dollars of the floating debt of the city is now about to be funded, and unless a system of reform and retrenchment, and an abandonment of secrecy and mystery are resolved upon, the relief will prove but temporary. A pursuance of the old system will lead to new embarrassments, and new debts will accumulate, making it necessary to fund again at a not very distant day. The speech of Ald. Martin will appear to-morrow morning.

CORRECTION.—We stated yesterday that a flattering notice of the Memphis Medical College, which we copied from the Oxford (Miss.) *Mercury*, was written by a gentleman of this city. We erred in that statement however, as the communication was written by a promising and gifted member of the medical profession at Oxford.

EXAMINATION CONTINUED.—The charge of perjury made against Israel Rosaworth, by Mr. Wright, was brought up for investigation before Esquire Horne yesterday, when, owing to some informality in the issuance of the original warrant, the case was continued until to-day.

AND THOU DESIRING A BEAUTIFUL RESIDENCE LOT IN THE SCHOOLS, ATTENTION!

If there be two purchasers who desire at any time a ten acre lot in one of a small place in the vicinity of the city, for a teacher family, we will call again we think we can give them a opportunity of purchasing six or eleven acres of land each, on such a plan as will be satisfactory to them. We have for a long time thought that the rural, near the State Female College, and in the best neighborhood in the vicinity of Memphis, would be a very desirable place for such persons, which there are some hundreds of, who would not care for a country residence, but who would like a little country for their children to run in.

The False Weight Case.—Card from Mr McKeen.

Card from Messrs. Hicks, Terry & Co., of July 18, 1860.

EDITORS APPEAL: In view of the notice made of me in to-day's papers, please do me the kindness to insert the following:

On yesterday I appeared before Esq. Horne, upon a warrant sworn out by one John Tumey, who, I understand, and am prepared to prove, is a trifling, dissipated well-digger. I was charged in the warrant with keeping false weights, and the foundation for the charge was, that this worthless well-digger bought some rope of me last Monday and paid me for twenty-three pounds. During the day he came back without the rope, and said the inspector said it weighed but twenty-one and a half pounds; whereupon I told him I always carrected errors, thinking probably the fellow was honest, and, as my eye-sight was bad, that I had made a mistake, and offered him back the money for the pound and a half wanting. But the fellow refused, and said, "I want take it, but will see you out."

Considering the charge frivolous and malicious, and relying on my innocence, I answered the warrant without an attorney, and was held to answer, by the magistrate, upon a mere possibility of guilt from the testimony of this Tumey. I had my scales and weights again inspected, which were pronounced correct by the city inspector, and they are open to the inspection of any person who may desire to look at them. I shall fully vindicate myself when the higher court meets again, which tribunal is vastly more competent to decide upon the law and the testimony. Until then, I hope the reputation I have acquired by a residence in this city for over thirty years as a merchant, will be a sufficient refutation of any and all suspicions of my keeping false weights, come from what quarter it may.

Respectfully, THOMAS MCKEEN.

COMMON LAW COURT.—The following cases will be for trial on Thursday, 19th instant, at the court rooms, corner of Adams and Second streets:

MARCUS J. WRIGHT, Clerk,

By A. J. WHEELER, Deputy Clerk.

MEMPHIS, July 18, 1860.

EDITORS APPEAL: A petition, signed by the twenty residents at the navy yard, was presented to the board of aldermen, and granted, authorizing the undersigned to act as policeman at the navy yard, without pay from the city, as it is absolutely necessary to have some guardian to protect the interests of that neighborhood. The appointed was objected to by the mayor, on the ground that I abused him behind his back. Now, sirs, if my opposing his election has made him my enemy, is that any reason why he should oppose the interests of the petitioners? Or is it true he did not receive the support from that part of the city that he calculated on? Nothing was or is asked for, but the appointment of some person, with authority to act with promptness in protecting the lives and property of those who are willing to pay for such protection, and who are entirely neglected by the city authorities.

G. W. NICHOLS.
