TO THE MECHANICS OF MEMPHIS.

Those of you who advocate the election of Stephen A. Douglas to the Presidency, are requested to meet at Exchange Building on Saturday evening next at 7½ o'clock, for the purpose of organizing a mechanic's Douglas club.

☞ The present term of the common law court will adjourn one week from to-day.

ELECTED.—Mr. Wm. Kosbe has been elected chief of the fire department, vice A. Dewell.

FUNERAL.—The funeral of Mr. Patrick Manning, who was killed on Thursday afternoon last, was largely attended by the different fire companies of the city yesterday afternoon.

NEW COTTON.—We learn from a gentleman who arrived in this city yesterday, from North Mississippi, that several planters in that section will endeavor to send in early next week, a new bale of cotton each. We look anxiously for the first bale.

NUISANCES.—Complaints of various citizens, in different sections of the city, combine to prove a very unpleasant condition of certain streets and alleys. A thorough digging out, and a drenching rain or two, would effect wonders in producing health and general comfort.

COTTON FACTORS.—By reference to another column will be found the card of Messrs. Horton, Estes & Co., cotton factors and general commission merchants, No. 12, Front row. Any business entrusted to these gentlemen will receive prompt and immediate attention.

THE WEATHER.—Though sunshine was all aglow yesterday, a delightful breeze kept the air in motion. During the fore part of the day we were favored with a slight sprinkle of rain, just enough to lay the dust. The officers of the *C. E. Hillman* inform us that yesterday morning, about forty miles above this city, they encountered a severe rain storm, which extended within twenty miles of this place.

ESCAPES.—Some days since we made notice of the arrest in this city of a man named Wall, charged with unlawfully appropriating to his own use a woodboat and skiff, at Ashport, Lauderdale county. Wall was placed on board a steamboat at this point, and taken back to Ashport, where, after his arrival, he made his escape by slipping off the handcuffs from his wrists.

☞ We had a visit yesterday from Mr. J. T. McMurray, editor of the Chicot (Ark.) *Press*. The *Press* is a handsome and interesting paper, published in the beautiful little town called Lake village, about eight miles back of the river. Chicot is known to be one of the very richest counties in Arkansas. Our merchants and other business men would therefore do well to advertise their cards in the *Press*.

CHILD SHOT.—Yesterday morning a policeman, while attempting to shoot a dog near Winchester avenue, accidentally missed his aim and the contents of the pistol (bird shot) took effect in the back of a little girl, daughter of Mr. John McMahon, a cinyman resident on the corner of Main and Winchester streets. The wounds received by the child are not considered dangerous. The accident, however, appears to have been one of sheer carelessness.

BRIGHT FUTURE.—While walking up Main street last evening, about nine o'clock, we noticed, sitting on the curb at the corner of Poplar street, a ragged little urchin, about twelve years of age, reading by the light of one of the street lamps. He was quite busied with the book, and though we interrupted the light in passing, he did not raise his eyes. How many little fellows with better lights and better homes, were there so happily employed as the little bare-headed, bare-footed student of Main street?

THE LAST WRINKLE.—A very unique ornament to watch fobs made its appearance in the city yesterday, in the shape of a miniature hooped skirt. The idea is certainly a most original one, and for gallant young men equally appropriate. Whatever the ladies love, it is but a commendable manifestation of devotion for gentlemen to worship. To bow to the same idols and wear the same ornaments is in keeping with the universality of the commanding influence of women. There is a spice of satire, however, even in the very praise bestowed upon the fair. This crinoline attachment to the fob is, doubtless, not wholly innocent in that particular.

ELMWOOD MALE INSTITUTE.—The attention of parents and guardians is respectfully invited to the advertisement of Elmwood male institute, to be found in another column. This institution has hitherto been under the charge of Mr. G. R. Scudder, who has disposed of the establishment to Professor J. W. Stewart. The next session will commence on Monday the 3d of September, and we feel that we hazard nothing in commending it to the favor and patronage of the public. The school building is delightfully situated in a beautiful forest grove, north of Elmwood cemetery, removed from the noise and bubbub of the city, where the students are enabled to pursue their studies free from interruptions of all kinds. The course of studies is thorough, while the terms are moderate.

THE HOT SUMMER.—The summer of 1860 will long be remembered as par excellence the hot summer. We need not recapitulate our daily record of the last two months, by way of showing how hot it has been. Our cotemporaries of the press in the North, South, East and West, are making similar reports. One day last week, the Mobile *Advertiser* could not work off its edition, as the rollers melted to the press room. In Charleston the *Courier* says the time past is the history of that city recorded on the memory of the most aged inhabitants, affords the record of no spell of hot weather worthy to be compared to the present, either for intensity or length of duration. The unparalleled heat began there on the 28th of June, and since then has been sustained with scarcely any abatement. The quicksilver has been kept at points it is not common for it to rise to even during the hours the sun has the greatest power, in the morning and evening twilight, and all the time the stars are shining. It was at 96 for several hours every day, and one day reached the fearful hight of 100 degrees. The South Carolinian says the prominent heat can find a precedent in the memory of many years, only in the year of 1818. In referring back to our files, says the Louisville *Journal*, we find that during the last week in June, the thermometer ranged very high, and on the 29th day of that month, was full as high as it was on the 11th inst. The heat was very general in Philadelphia, New York, Baltimore, and Washington—the thermometer indicated from 90 to 98 degrees. Deaths from sun-strokes were numerous in all of our seaboard cities, and at a little later period, the fever committed dreadful ravages; whether this was but a coincidence, or a cause and effect, is for others to determine. As in that year, so now in this, the corn crop suffered terribly.

GONORRHEA,

THIS remedy cures when all other preparations fail. It is entirely unlike any other compound—containing no Mineral Poison or Nauseous Drug, as it is prepared solely from Roots, Herbs and Leaves, and has been handed down, from one generation to another, by the Cherokee Indians. It is offered to the public on its own merits. It performs what it promises speedily and thoroughly. The unfortunate, of either sex will be relieved by using this remedy. Instead of placing themselves at the mercy of some Quack or Professor. This remedy strikes at the root of the disease; its tendency is not simply to suspend the pain, but to remove the cause on which it depends. Full directions, in pamphlet form, accompany each bottle. The speedy and permanent relief afforded by this remedy, in all cases of Gonorrhea, (Clap,) Gleet, Gravel, Stricture, Fluor Albus, (Whites in females,) and all diseases of the Urinary Organs, has established the most enviable fame of the age.
