McLEAN'S STRENGTHENING CORDIAL.—This remedy has been before the public only a short time, but it has proved to be invaluable remedy to purify the blood and strengthen the system; every one who uses it recommends it to others, until it has become the standard remedy with every family in the United States. We say to every reader, try it—it is a delightful cordial. See advertisement in another column. jul25-dw1y1d

Fees for tickets to lectures, $100, payable invariably in advance, in cash, or the note certificate of the joint stock company, or per valuable. Matriculation Fee, $5; Graduation or Diploma Fee, $25; payable invariably in cash.

Preliminary lectures will commence on the 15th day of October, and session will be opened for dissection at the same time.

The regular course of lectures will commence on the first Monday, the 5th day of November, and close with the ordinary weeks.

The unusual arrangement of the faculty is by far the most complete and efficient (as proved by our collective experience the sessions past) that has ever been organized in the college. Every department is represented by an able professor with the greatest care and assiduity, and every branch of the profession and science are investigated and clearly elucidated by demonstration and practical illustration. We will give the advantage of place refuse in the mind of every candid and intelligent observer.

In Materia Medica practice medicine in the Middle, Western or Southern States, we would say that our individual practice and observation has convinced us of the total knowledge of the diseases peculiar to this climate; also of the use of Calomel, Lancet and Tartar Emetic, as the surest cure in fevers and inflammatory and congestive diseases.

Students can board in families for the same as those required by all other respectable medical colleges.

Board can be had at dressed at from $2.25 to $3.50 per week.

For further information address either Prof. Gayle, Galbraith, Cutler, Hewitt, or Morrow, M. D., or S. W. Morrow, M. D., Dean of Faculty, at Middleton, Tenn.

By a special arrangement with the board of trustees of the Memphis hospital, the students of this college will attend the hospital practice, the same as those of the Memphis college, and this is also desire is with their interest, as the hospital is the property of the professors.

Prof. W. Hewitt is now in New York selecting additional material for the illustrative departments of the college, and the facilities for acquiring medical knowledge will be greater than ever before offered.

All are advised to come in by the 15th of October; Students, Professors and Lecturers will be in attendance at the office of Drs. Gayle & Gaskins, 275 Main street, or Drs. Galbraith & Morrow, Church street, North side, second door east of Main.

W. S. MORROW, M. D.,
Dean of Faculty.
