R. MORROW, M. D., Prof. Materia Medica and Therapeutics.

J. W. MORROW, M. D., Prof. Surgery and Demonstrator of Anatomy.

T. G. GAYLE, Sec. and Asst.
W. E. MORROW, Steward of the Faculty.
S. P. CUTLER, Treasurer.
L. W. GARDNER, Secretary.

Fees for tickets to lectures, $100; or one hundred dollars in advance. If cash, or the check accepted of the best check responsible, at par valuation; Matriculation Fee, $5; Demonstrator's Ticket, $5; Graduation Fee, $25; Dissection Ticket, $5; all in cash.

Preliminary lectures will commence on the 10th day of October and course will be opened for examining at the same time.

The regular course of lectures will commence on the first Monday, the 5th day of November, and will continue three months.

The present arrangement of the faculty is for the ensuing year, and students will be taught the practical and theoretical knowledge the medical profession demands, and has ever been taught in this school. The Faculty will be found in all the departments, filled by an able professor with the greatest care and assiduity, and the results of natural and medical science are incorporated and illustrated in the lectures, demonstrations and hospital exhibitions, which will be the principal object of the Faculty, and to which the student will be a listener and observer.

Students desiring to pursue practical medicine in the Middle, Western and Southern States, we would say that our Institution possesses great advantages for acquiring a practical knowledge of the diseases of this climate, which are very frequent in the North and East, and it is a date the practitioner from the North and East must learn to patronize his profession.

Students who graduated in the same are those recommended by and other respectable medical colleges.

Good board can be obtained at from $2.50 to $4.50 per week.

For further information address either Profs. Gayle, Morrow, Cutler, Gardner, Hewitt, Morrow, Morrow, R. Morrow, M. D., Dean of Faculty, at Middleburg, Tennessee.

By a special arrangement with the board of trustees of the Medical hospital, the students of this college have access to the hospital, and have the benefit of the clinic of the Memphis College; and the whole fee is paid to the hospital, and no tuition fee is charged with one of the professors.

Prof. Wm. Hewitt is now in New York selecting additional chemical and philosophical apparatus for the college, and the facilities for scientific medical knowledge will be much greater than heretofore.

All are advised to come in by the 15th of October.

Students on their arrival will please call immediately at the office of Drs. Gayle & Winchell, 275 Main street, or Drs. Gardner & Morrow, Union street, north side, second door east of Main.
