RIVER AND STEAMBOAT MATTERS.

RIVER, WEATHER AND BUSINESS.—There has been no perceptible change in the river or clear pale since our last report. The upper Mississippi and Missouri rivers are still falling, with a very low stage of water. The Ohio river at Louisville, has three and a half feet water in the canal. The weather yesterday was clear and pleasant, with a decidedly active appearance on the levee.

MISCELLANEOUS.—We understand from Mr. Josh Lawrence, agent of the Memphis and St. Louis packet company in this city, that passengers will be taken from Memphis to St. Louis on this packet this, and benefited during the fair, for $20 the round trip—decidedly low.....Capt. Marshall, of the Dickey, reports that the City of Louisiana had been passed, and will be taken back to St. Louis immediately after reaching Memphis. Several of the craft compare for the approaching season in the new theater soon down from Cincinnati on the Lady Jackson yesterday.....Capt. John P. Gross, is to run hereafter in the Memphis and St. Francis river trade.....The departures to-day embrace the Lady Jackson, for Cincinnati; Kate Hostetter, for White river, and the Jack Dunphin, for Louisville.

## WM. C. BANKS' CORN PLANTER.

IS A COMPLETE, and perfect machine, which we guarantee to do all that is claimed for it. We have supplied a large number of orders for any number of Planters, to be delivered at any time stated upon at the time of purchase, from all persons whose orders are located within the limits of Memphis and Vicksburg, Mississippi, Southern Louisiana and Yazoo country, Mississippi.

Mr. Banks is a resident of Panola county, Mississippi, and not being willing to go North to learn how to work iron, turned his attention and inventive genius to the construction of this Planter, which we only claim can be better than about done by a mule, but saves much useless labor and time.

The old work, heretofore, given by some of our best farmers, will be sufficient to satisfy.

This is to certify that we, the undersigned, have witnessed the perfect action of Banks' Corn Planter, on ground long enough prepared, and on suitable ridges to test its merits, and we do cheerfully recommend it to any farmer, deeming it an any required distance and with portions regulated to any depth desired, and will operate the same.
