RIVER AND STEAMBOAT MATTERS.

RIVER. WEATHER AND BUSINESS.—The river is still receding at this point at the rate of 2 inches in 24 hours. The St. Louis papers have harrowed their constitutions sufficiently, and all grave young men say the rate of 2 inches is at home. There are 42 inches on the lower rapids, with 5 feet thence to St. Louis. From St. Louis to Cairo, 5½ feet are reported, and thence to this point 6 feet boats. The river is rising quite rapidly at Louisville, with 4½ feet water in the canal and 8 feet water on Portland bar. An enthusiast says the Cumberland river has risen one foot. Not a wag suggests that when it rains the other 11 will walk along the lower bluff. The last arrivals report four feet water at Nashville, and only three feet at Clarke Island, just above Cairo. That is the shallowest point, but we hear of a single trip on the Wabash, and in the upper Mississippi, which will undoubtedly prove the channel at the lower river. We learn that the Wabash at Vincennes had risen one foot. That, together with the present rise in the Ohio, will make fully six feet water on the lower bars!

MISCELLANEOUS.—The C. E. Hillman departed for Vicksburg last evening. The place of the Scotland which boat is repairing at the mouth of Wolf river, having broken a shaft on her last trip.... The Lady Pike came in from Cincinnati yesterday. She reports passing the Southwester and Wm. H. Brown, the former down and the latter up. Both, she says, had a tolerably outward appearance. The Southwester left this port for New Orleans yesterday evening.... The reliable St. Louis packet, Paul Boyd, arrived last evening from St. Louis, bringing down a large number of passengers and 425 of which from the steamer Memphis, which boat lies aground at island 31, with a small chance whatever alone side labouring to release her.... By a letter received by J. D. Morton & Co., yesterday, from Capt. Pillsbury, we learn that the White river steamer Messenger Gem, sank on her last trip up, about sixty-five miles above the mouth of White river. No lives were lost, and the deck freight will escape comparatively undamaged, having been removed to the shore and well protected, but the freight in the hold will be seriously damaged, if not a total loss. She left this port on her regular trip last Friday, with a good list of freight, and on Sunday evening last struck a snag which sunk her almost immediately. She will probably be raised with little difficulty.... The Louisville Journal of yesterday says: "A dispatch was received in this city by Moorehead & Co., Saturday evening, announcing the sinking of the steamer Tempest, Capt. Parr, at Long's landing, in the Ohio river, on Thursday night last. The Sam Kirkman passed up after the accident, informed, but her officers were not aware the boat was sunk, as she steamed to the only landing in Captain Parr's disembarked in the Gentlemen company at this city, who at once dispatched an agent to take charge of the boat and as much of her cargo as was val ubaed. The greater quantity of her cargo, which was made up of freights for New Orleans, such as bagging and rope, meats, etc., had been unshipped. The Tempest is a fine little light draught boat, owned by Captain Parr and others of this city. She had a heavy freight for a boat of her class at the present stage of water, and had accordingly taken passenger this after leaving Evansville. She will doubtless be raised at once."

The new steamer Admiral dropped down to our landing last evening to iron her for her next trip. She has been undergoing some necessary repairs at the mouth of Wolf river, where the Gen. Pike, R. D. Mason, St. Francis No. 2 and Kentucky are still testing.... The arrivals at this port since our last are, the Southwester, W. M. McDowell, Paul Boyd, Red River, and Flying Cloud, from St. Louis; the Lady Pike from Cincinnati; the Crescent City, L. M. Kennett, J. Warner and Iatan, from New Orleans. The departures were, the Southwester, W. M. McDowell, Red River and Flying Cloud, for New Orleans, and the Crescent City, L. M. Kennett, J. Warner and Iatan, for St. Louis. The departures to-day are the Lady Pike, for Cincinnati; the Tempest, for New Orleans; Mariner and Poland for Louisville; the Frontier City for White and Little Red rivers.

Boats Leaving.

FOR LOUISVILLE.—The fine passenger steamer Mariner, Capt. J. D. Mabry, will leave as above this evening at 5 o'clock. The Mariner is a favorite packet and passenger boat, under the command of careful and experienced officers. W. P. Halsey is the Nine Wheel boat, in the stand.

FOR WHITE AND LITTLE RED RIVERS.—The fine passenger steamer Frontier City, Capt. Wm. Wood, will leave for White and Little Red rivers this evening at 5 o'clock. The Frontier City is a staunch boat, and can be relied on to get safely through, notwithstanding the extreme low water. W. P. Halsey, Eclipse wharf-boat, is the agent.

FOR CINCINNATI.—The steamer Poland, Capt. E. J. Pickett, will leave as above this evening at 5 o'clock, for Cincinnati and way landings. She is a good boat, and her officers will spare no effort for the accommodation of passengers and shippers. Larry Hammond is the agent.

LAND For Sale.

The undersigned of last County moved to Dr. J. T. M. Willingham, for in the possession of the subscriber, is offered at private sale. Said land is situated in Shelby county, Tenn., on the Mississippi and Ohio railroad, twenty miles east of Pontotoc, and one mile and a half south of the depot at Ripley station. It is a healthy neighborhood; one mile and a half from a Presbyterian church, one from a Methodist church, where there is regular preaching. On said section of land there is about five hundred acres of open land, the balance in timber, (oak, hickory, ash, poplar, and red cedar [illegible]; some very good land, and some inferior very, and not fit for tillage; with suitable fencing and horizontal plowing.

On the place are two or three never failing springs, two or three wells of water, and rock water abundant; good apple orchard and peach orchard, and everything that appertains to a farm.

Any person desiring any further information, by addressing the undersigned at Pontotoc, or Willingham's Mississippi, will be promptly attended to.

Terms: Cash, or accepted drafts payable in Mobile.

A NEW ARTICLE.

SOLIDIFIED MILK.

The American Solidified Milk

IS SIMPLY THE RICHEST MILK which can be produced from pure healthy cows. It is prepared at Lake New York. Evaporated at very low temperature, and with great care, in order to make it readily soluble and preserve its delicacy of flavor. It is compressed, and is dry, and upon the very best refined loaf sugar, not a particle of other ingredient is used in its preparation and is recommended to any other chemical product that is adulterated.

The advantages from the use of the American Solidified Milk are:

1st. Cows are free from milk one week or half in any part of the world, where it is impossible or difficult to procure fresh milk.

2d. That an article far preferable to the poisonous milks offered in pure milk, can be afforded at a very moderate price.

3d. That the consumer pays each day for the amount of milk only that is required for use, and that which has been spoiled, or necessarily wasted.

4th. Parties can have at their command a nutritious food which can be found in all hotel at air command.

5th. That it is a perfect food, for all ages, and particularly and in proper cooked potatoes, at a cheaper rate than milk can be bought in large cities.

New York Medical College, June 7, 1859.

Have introduced the Solidified Milk in chemical and microscopic examination, and have found it to be an article to be pretty, there being no foreign substance present, nothing added or abstracted, and no other chemical, I have furthermore satisfied it is sanitary domestic treatment and it makes food, cooked, or used, as the milk. I not only believe it perfectly reasonable, but a most valuable article of food.

I am happy to congratulate you on the success of your experiments, and trust that the article may meet with the approval of the public, which it justly merits.

Yours, very respectfully,
R. OGDEN, DORANCE M. D.,

A CURE FOR THE MILLION!

THE CELEBRATED

HIGHLAND BITTERS!

Or, SCOTCH TONIC,

Has no equal as a Stomach Medicine in the World!

THE delicacy can be sold in a very few words, but the wonderful cures effected by this beautiful specimen would require a volume of details. When the Crimean war was in progress, thousands of French, and more especially British soldiers, fell victims to the change of climate and unaccustomed diet. The Highland regiments of the newspaper detailed with symbolic power the miraculous effects of the tonic of the range. The press and the public became aroused to a general fever; and thousands of their companions were sleeping the long sleep of death, while their mates were labouring on in an opposite show. Commissioners were appointed by the distinguished Lord Panmure, the Duke Richmond, Professor of Military Surgery in the University of Edinburgh, and specialized by special request of Her Majesty Queen Victoria, to determine of water drinkable supplied a remedy. His details of cures, in the regiments of the Highland brigade, were so astonishing, the command of Sir Colin Campbell, Dr. Salmond, Dr. Ogilvie, and Dr. Cameron, that it was thought best to bring testimonial, in the habit of your certain and cures, collected in their skills and place, which had the advantage of the medical profession as well as relief to a cure for disease of a certain kind, which all physicians know and dread, and which is the cause of millions of the sweat in locality. The extraordinary cures of Sir Hugh's celebrated Highland Tonic, in ward up of the disease commonly on a chance of climate, and the transmissible consequences arising from an inoculated section of country, which is the cause of the disease of different kind, and a train of disease more impossible to be cured than any other. The cure of the Highland regiment—the blood, the stomach, the liver, and the bowels. The cure of this medicine first tried in the Crimea, and its astonishing success cures, have induced to open an experimental foundation. In delivering discourses and pamphlets, it has been proved to be the distinct innovation of this advanced age. For the information of the public, the Highland Tonic is specially recommended Christmas, and found to be the sure and certain specific. Dyspepsia, Constipation, Costiveness, Jaundice, Costiveness, Loss of Appetite, Headache, General Debility, Chills, Ague, Bilious, Intermittent, Remittent, Typhoid, and every other form of Fever.

In all accounts of the country this noble boon to suffering humanity is established at the request of physicians in their private cases with unprecedented success, and has restored to health thousands who were apparently beyond the reach of the medical art. It has been given a trial of 1000 from authentic documents, that numerous physicians, of the most distinguished rank, have recently cured to the Highland Bitters, in a period varying from one to six weeks; and that its return is often nearly presented, and the digestive powers restored to the fallen victim by a subsequent occasional use of this remarkable preparation, which removes the oppression after eating, spasms in the stomach, or flatulence, morbid nausea, fluttering of the heart, bright sleep, nightmare, loss of memory, dizziness of sight, prostration of strength, and general despondency. In Bilious and other Fevers, Ague, Dysentery, Diarrhoea, it has called forth the warmest expressions of gratitude from persons who have experienced its effects in the United States.

It is a gratification to the proprietors to know that the British home has been of incalculable service to the army and nation. Being the most agreeable and palatable medicine ever discovered, it can be completely charming and refreshing properties, without any of the disagreeable or offensive qualities of other tonics, which have been objections to Leiby, the great Gene on chemist, and the best pharmaceutists in New York. This tonic is deservedly popular with persons in the domestic circle, and is unlike the enhanced powers of nature, when all other medicines have utterly failed. Some ounces of compound of selected herbaceous roots, gathered and preserved in Scotland, imported by curiosity, and scientifically prepared under our own supervision, and combined with a portion of anylitic infusions in the most delicate form, and may be given to small fowl. Price 50 cents and one dollar. All are benefited by its wonderful influence on the frame and constitution, and the vigor of life, vital force, it is impossible, every where nature has neglected to supply. It may be taken by persons of the most delicate stomach, and apply our motto—"Drink and Live."

Beware of Counterfeits,

Which may be easily known, as none are genuine but in bottles, but without stamps. Each quart bottle has the name, Highland Bitters, or Scotch Tonic, blown in the glass, and bears the signature of the proprietor.

Valuable Plantation

AND

NEGROES

FOR SALE.

THE undersigned offers for sale his PLANTATION, consisting of about 2231 61-100 acres of superior

Mississippi Bottom Cotton Lands,

Situate on the west bank of the Mississippi river, Phillips county, Arkansas, and within five miles of the city of Helena.

There is cleared and now in cultivation about one thousand acres of said tract, all of which is inclosed by excellent and recently made fences. The entire tract being judiciously and thoroughly ditched and effectively secured by a permanent levee, constructed under the supervision of an engineer appointed by the State authorities for that purpose.

The undersigned will also sell with said Plantation from seventy-five to eighty first-rate and thoroughly

Acclimated Slaves,

Constituting an effective force of from fifty-five to sixty hands. Also,

44 Head of Mules and Horses;

An ample supply of well broke WORK OXEN; 60 or 80 head of Milch Cows; 150 to 200 head of Stock Cattle; 200 or 300 head of Hogs, all 75 or 80 head of Sheep, with corn and provender to supply the plantation the ensuing season. There is a first-rate and commodious

DWELLING,

With ample out buildings, on said place, to make it desirable as a place of residence.

The premises being supplied with twelve or fourteen cisterns, there is a plentiful supply of water for all domestic use and the quarters. There is an excellent quarter, capable of accommodating eighty or ninety hands, which has been thoroughly repaired during the great expense the undersigned, during the last year or two, built a

NEW GIN HOUSE

On the place, and since then steam works of the most approved style and workmanship have been attached to it, so that the gin is operated by steam, and this new gin stands and a new mill, propelled by steam.

The undersigned is induced to offer the above premises for sale on account of his age and ill health. He prefers the public to the following named gentlemen in Helena, Arkansas, where there may be consulted by letter or otherwise, to-wit: H. P. Cocke, Cyrus G. Baldwin, John A. Craig and Thomas E. Harris.

For terms and conditions of sale, application may be made to the undersigned by letter through the post office, or personally to him on the premises. Possession may be given as soon as the growing crop is gathered. It is desirable that those who may wish to purchase should make application without delay, as that the proprietor may not commence arrangements for next year. None need apply but such as can make a large payment in cash.
