Daily Appeal.

RIVER AND STEAMBOAT MATTERS.

RIVER WEATHER AND BUSINESS.—The river at this point continues to rise at the rate of two inches in twenty-four hours. We can see no prospect of the rise being permanent. The river at St. Louis is reported stationary, with a slight inclination to swell. There are five and a half feet from St. Louis to Cairo, and seven feet from Cairo to this point. The Ohio was rising at Louisville at last advices, with four and six inches water in the canal by the mark. The Tallahatchie reports 20 inches water in White river. The weather still continues pleasant—a sort of a mixture of the best of summer and the best of spring. Business still continues active on the levee, the arrivals and departures being well freighted and crowded with passengers.

MISCELLANEOUS.—From Mr. George Carver, the silver pilot of the so-more Fort Pike, we learn that the Fred Tom, Capt. Pentlon, which left here on Saturday evening for Greenwood with 2200 bales of cotton and 18 bales out of the Poland, which had met with an accident just above this point, ran upon a ledge of rocks at the foot of Island 10, near New Madrid Bend, and is lying in a desperate position with every indication of being broken in two. A barge was alongside of the Tom when the Fort Pike passed and seemed to be taking off her freight. The Fort had a good passenger and freight list when she left this city, and from the amicable disposition of the officers and crew, night's trip Capt. Pentlon has heretofore maintained, we have no doubt that both shippers' and passengers' interests will be as carefully looked after as the circumstances will allow. The Fort N. P. came in with a full freight and passenger list, including 11 bales of cotton. She will leave on her return trip this evening.

For boats leaving this port to-day, we list below. The Ben Sanford will leave the Rosedale, Judge Turnerne, Turner, and T. D. Rhea from Cincinnati, the Tallahatchie from White river with 350 bales cotton, the Argo-Sanda with 40 bales cotton, Roma, Burns, Woodford and Planet from New Orleans, John Gatts from Louisville and Hillman from Tuskaloosa with 40 bales cotton. The departures were, the Rosedale, Judge Turnerne, Turner, and T. D. Rhea for New Orleans, the Roma for St. Louis, the Woodford for Louisville and the C. E. Hillman for Vicksburg. The D. Francis and Tallahatchie will leave to-day for White river, and the Lady Jackson and John Gault for Louisville and Cincinnati. The Freeborn Waterman pushed out of last night for Cincinnati. She had on 700 bales of the stuff when we left the levee at six o'clock. The Nakenah was the regular packet from St. Louis Monday in the railroad line, and may be expected in to-day.

Captain Tom Doherty, formerly of the Bay Lee, and other popular Missouri river boats, is now building a steamer at Carondelet, for the St. Louis and New Orleans trade. The new boat will be called Fred. Knowles. She is to be a passenger and freight boat, having a full length cabin, and all arrangements for the comfort and convenience of passengers in first class style. She is now fast verging toward completion, and will be ready for business in December. The Fred. Knowles will rest in length on deck, with forty feet beam, and seven feet hold—she has thirty-six feet floor. She will be provided with a five foot boiler, twenty-six feet long, and forty inches in diameter. Her cylinders are twenty-seven inches in diameter, with seven feet stroke. The new boat will have a carrying capacity of 1,200 tons. Capt. Doherty says he finds cheaper to build river boats than St. Louis to run them, having to tow the Ohio river on several occasions.—The Kendall packet company, so famous for hedging and running the steamboats, have just turned out another craft, which in point of speed, passenger accommodations, complete finish and general improvements will prove herself equal to any boat in the Kendall packet line. The name of the new boat is Jennie Deans, after a former favorite boat in the Kendall line.

The Louisville Courier of the 22d says: "We learn that the Gunnison, Paul Jones and Dove have ended the Cumberland river trade, and will run as regular weekly packets from New Orleans to Cumberland, and we will leave the former place every Tuesday and the latter every Saturday. The E. H. Strand, on her last trip, had a slight encounter with a snag, which sprung her timbers, and permitted the ingress of some water. She is being repaired, with a side dock, at present.—We learn that the Linden, on her way from Cincinnati to St. Louis, met with an accident near Cairo, which did not do much damage. She entered protest at Cairo, and proceeded on her way to St. Louis.

The Louisville Courier of the 22d says: "We learn that Capt. Harry I. Epstein, new boat, the Saratoga, for the Louisville and New Orleans trade, is ready to be launched, and that she will be put into the water as soon as the river rises. As soon as she is launched her machinery will be put aboard, and it is thought that she will be ready to enter the trade about the first of January. When finished the Saratoga will be one of the finest and most complete, as well as one of the largest boats in the Louisville and New Orleans trade, and when she comes out some of the southern champions will have to look to their laurels."

Leaving To-Day.

FOR WHITE AND LITTLE RED RIVERS.—The fine freight and passenger steamer Sam Sanford, Wolfstone master, will leave as above for the above rivers. The Sam Sanford will follow, and is an equal boat with her. W. P. Hughes, Eclipse wharf-boat, will receive freight offered.

FOR GUTTSVILLE AND CINCINNATI.—The elegant packet steamer Jeanie Deans, Capt. Kelly, Master, will leave as above this evening at five o'clock. Capt. Bruce is an efficient and civil officer and we know of no better boat to the traveling public. W. P. Hughes, Eclipse wharf-boat, is the agent.

FOR LOUISVILLE AND CINCINNATI.—The fine packet J. H. Dean, Davis master, will leave as above this evening at five o'clock. The Dean is a safe and easy boat, and will be safely through. W. P. Hughes will receive your orders.

A CURE FOR THE MILLION!

THE CELEBRATED

HIGHLAND BITTERS!

Or, SCOTCH TONIC,

Has no equal as a Stomach Medicine in the World!

IN history can be told in a very few words, but the medical profession, from the time of Hippocrates, down, require a volume of details. When the Crimean war was in progress, Sebastopol was in ruins, and French and English soldiers, fell victims to the change of climate and diet, and consequent exposure. The correspondents of the newspapers detailed with startling war the misery and the blighted state of the army. The press and the public became aroused to a sense of their loss, when thousands in their countrymen were sleeping the long sleep of death, and their wives were shrieking at the false policy above. Commissioners were appointed by the allied army, and among the other medicines, Professor of Military Surgery in the University of Edinburgh, Scotland, was appointed to special report of Dr. Harvey Queen Victoria, to examine medicines and it possible ensure a remedy. He found, of course, medicine in daily use, which had been brought from the command of Sir Colin Campbell. Dr. Belmont, Dr. Hall and others, had administered the Highland Bitters in their professional in the belief of order carried in the sick beds, delivered it their hands and plans, which had for extraordinary effect. Dr. Harvey, as well as active as a cure for diseases of a certain kind, which all physicians of Europe or Asia could not cure. Thousands of testimonials of its efficacy in mortality. The extraordinary success of Dr. Harvey's medicine induced the Queen to offer the Queen's company on a change of climate, and the Highland Bitters arising from an unchanged system of a variety, which had made its favorite in different kinds and a train of diseases more incredible. Dr. Harvey, in his report, published at Edinburgh—the blood, the stomach, the liver, and the bowels." The publisher of this medicine has tried in the Crimea, and in astonishing success have taken place. It tends as a tonic, it is a cathartic. In fevers and fever and shaking health, it has no parallel; in the a medical immediate of this medicine and Dr. Harvey. The following diseases have been tried by the Highland Bitters and Christian one, and found to be the cure and cure also: Dyspepsia, Indigestion, Costiveness, Dysentery, Jaundice, Convulsions Loss of appetite, Headache, Giddiness, Fever and Ague, Ague, Bilious, Intermittent, Remittent, Typhoid and every other type of Fever.

In all sections of the country life is often lost or rendered miserable by a disorder that is easily cured, if the right remedy is used. Some of the most eminent men in the state in their practice with unbounded success and has resorted to health thousands who were apparently beyond the reach of medical aid. It has been a power in the hands of the medical profession, and has proved a boon to mankind. Its remarkable curative powers have induced many to try it, and in every instance it has proved a sovereign remedy. Its tonic and invigorating properties are unsurpassed by any medicine in the world. Its extraordinary success has induced many to imitate it, and we caution the public against spurious imitations. The genuine Highland Bitters is put up in large quart bottles, with our signature on the cork, and a fac-simile of our signature on the wrapper. Sold by druggists generally.

Beware of Counterfeits,

which unprincipled traders have endeavored to imitate our genuine article. Each genuine bottle has the name, Highland Bitters, or Scotch Tonic, blown in the glass, and bears the signature of the firm of
