BRONCHIAL COMPLAINTS, ETC.—Rev. D. P. Livermore, editor of the Chicago New Covenant, says of BROWN'S BRONCHIAL TROCHES: "We have frequently had occasion to use Brown's Bronchial Troches, and have invariably found them to answer the purpose for which they are recommended. From our own personal experience and observation, we know them to be a superior remedy for colds, coughs and bronchial complaints."

NOTE.—We publish the above statement as reading matter, because we have confidence in the Troches, having tried them frequently, and always with success.—Cincinnati Christian Herald. 11

☞ The Toilet Companion is the name by which Joseph Burnett & Co. designate the neat and convenient case in which those famous chemists and perfumers put up their superior preparations for toilet use, viz: Kalliston, Cosmaline, Oriental Tooth Wash and Florimel. These are not only of approved usefulness, and all that they profess to be, but also remarkable for a delicacy of perfume and healthy purity, very seldom met with in gentlemen's or ladies' toilet articles, and all at such moderate prices.—Louisville Democrat. 11

**Cheering News to the Afflicted.**

GENTLEMEN of science may speculate and theorize, if not facts are worth more to the afflicted than all the theories the world ever produced.

DR. A. G. GOODLET'S
*Improved Houck's Panacea,*

is acknowledged by all who have given it a trial, to be one of the best medicines now extant for all diseases arising from a disordered stomach, or an impure state of the blood. The many astonishing cures performed by the "Panacea" in the city of Nashville and vicinity, and by every agent of the Infirmary where it has been introduced, is a sufficient guarantee of its efficacy.

Rev. J. C. Bowden, of McMinnville, Tenn., speaks thus:

DR. A. G. GOODLETT—Dear Sir: It may be satisfactory to you to hear that Houck's Panacea, prepared and sold by you, is doing the good work in the relief of your fellow man. During my present tour in several counties in Middle Tennessee, I have often met those who have used it. The universal testimony is, "It is the best remedy I have ever used." It has been very useful to me in cases of bronchial coughs and in pleurisy, in the open air and laboring in extremes. Please make an agent in this place. Very respectfully,
J. C. BOWDEN.

DIED FROM NEGLECT.—On Thursday night, an old man obtained lodgings for the night at the boarding house next door to the No. 5 engine house, on Shelby street. His wan and haggard looks, and deep depression excited the sympathies of some of the boarders, who learned from him that he had a wife and four children in Cleveland, Ohio. He had come down South for work, and had found some employment in the country back from Memphis. He was, after a short time taken sick; he came to this city and got no better; his little money was soon gone; he had sold his coat, and the little he got for that was nearly gone. He had wandered about the city sick and hungry, for he had been short of food. The unfortunate stranger retired to rest, and rest God gave him. In the morning his troubles were over, and a widow and five fatherless children in Ohio will probably offer wonder where the husband and father is before they hear of his sad fate. His name, from a paper in his pocket, was found to be Dechay. Esq. Mallory held an inquest over the remains, when the jury returned a verdict that "he died from causes unknown to the jury. From appearances he was in bad health, and had suffered from exposure, and the want of such attentions as his condition required." This is horrible; if Memphis had a proper provision for such cases, Dechay would have got back to his wife and children.

CITY PAUPERS.—In a city like this there necessarily must be persons who, from sickness, accidents and other causes, are temporarily reduced to the condition of being unable to support themselves and families. In such cases what must be done? Is the casual supply of chance charity to be relied upon? If so, it is evident that where persons are unknown, or their condition such as to confine them in bed from sickness, they must perish in many cases from the impossibility of showing their title to relief, or from inability to apply for it. Here the city must step in and give the necessary help; we must not have persons die in our midst from lack of food and medicine; yet such will be the case in many instances unless the public authorities have power to give aid. In such cases it has been the custom of the mayor—not until investigation by of the police, or on the recommendation of known and responsible citizens—to give what pressing necessity made necessary, generally by means of orders for food or other absolute requisites. When the account for some of this kind was last presented to council, that body refused to pay it, leaving the mayor in the position of being accountable for the payment of some five or six hundred dollars. Council can surely not wish to leave the poor and destitute to starve and die. We are certain our citizens will sanction no such economy as that. Foolish and unnecessary things that are done by council, from time to time, cost many times over what the expense of rendering necessary aid in extreme cases to the widow, the orphan and the sick amounts to.

DISUNIONISM AND MONEY.—In consequence of the clamor about disunion, indulged in by some of the States, the notes of South and North Carolina, and Alabama banks, are in extreme disfavor here. Our banks were taking them yesterday at two and a half per cent. discount. In the street we hear ten per cent. discount was submitted to. Citizens generally are unwilling to take it, and some embarrassment exists in consequence; large quantities of the money in circulation in this city. It is feared that the agitation, or panic, which prevails, will cause such a run upon the banks of these States, that it will be impossible for them to stand, and that the legislatures will then authorize a suspension of specie payments. We observe that the better informed commercial men appear the least alarmed, and that the banks seem to be keeping clear of the present raleg a very fair speculation. It is their opinion that when the frightened portion of the public find—after a few day's time to calm in—that they are not hurt, they will return to their ordinary sensible course of conduct.

ROBERT HELLER.—This remarkable man announces his intention of commencing his long expected performances on Monday evening, at Odd-fellows' hall, and the extraordinary reputation he has achieved for skill in his art is sufficient to attract crowded houses during his brief stay among us. Inasmuch as our citizens have been once disappointed at the non-arrival of Mr. Heller, in consequence of embarrassments in which the incapacity of his business manager had involved him, we gladly announce his arrival. The wizard was in our office last evening, and left us agreeably impressed with his gentlemanly bearing, his interesting conversation, and extensive acquaintance with every topic suggested. Let all go and see him.

DAN RICE AND THE SONS OF MALTA.—Dan Rice, with his usual liberality has resolved to leave in the city same mark of his kind feelings. He will present the proceeds of this night's exhibition to the charitable order of the Sons of Malta. That order will go to the tent on Jefferson street in procession dressed in full regalia. On behalf of the order Mayor Baugh will present to Mr. Rice, in the ring, a handsome Maltese cross. An interesting part of the exhibition will be the participation of the officers and leading members in the crowning of the victor in the grand tournament. It will be a great night at the show.

I. O. S. M.—INGOMAR LODGE NO. 1.—According to a resolution passed by the lodge on Thursday evening, and approved by the committee of arrangements, the members of Ingomar lodge are notified to meet at the lodge room, corner of Shelby and Union streets, this evening at 6 o'clock, to form in procession and march to the circus in full regalia. A brass band has been engaged for the occasion. Parties desiring to procure tickets during the day can obtain them at the Pearl saloon, Adams street.

QUICK TIME.—At the fire yesterday morning in John Overton's new building, corner of Jefferson and Second streets, the steam fire engine J. D. Danbury threw water on the fire in exactly eight minutes from the time the fire was lighted under the boiler, thus preventing at once the spread of the devouring element and saving the magnificent structure from certain destruction.

CITY FINANCES.—The city council have adopted a proposition to sell the $250,000 stock it owns in the Mississippi and Tennessee railroad, also to issue bonds to the amount of $50,000 payable in three years, $50,000 payable in five years and $100,000 payable in ten years, provided a popular vote sanctions the plan. It was resolved not to sell the navy yard property.

CONCEALED WEAPONS.—Among the parties fined at the recorder's court yesterday was one for having concealed weapons on his person.

☞ Rev. C. A. Davis will preach in the Wesley chapel Methodist church, on Second street to-morrow (Sabbath), at 11 o'clock, A. M.

SWORN IN.—At the common law court, before Judge Dixon, the following gentlemen were on Thursday sworn in as attorneys of that court: Jno. H. Reddie, of Memphis; Joseph W. Morrison, of New Hampshire; A. W. Boyd, of Georgia.

☞ Those of our readers in want of coats, pants, vests, linen bosom and all linen shirts, and of shirts, drawers, half-hose, pocket handkerchiefs, cardigan jackets, and everything in the furnishing line, will find it to their advantage to call on the well known house of Sproule & McCown, and see their stock.

☞ A. S. Levy & Co. will sell this morning, at their sales rooms, 196 Main street, a superior lot of new furniture, consisting of secretaries, book cases, sofas, sideboards, bureaus, wardrobes, office desks and tables, wash stands and lounges. Sale positive, as they must be sold to pay advances. Buyers will do well to attend this sale. Bargains will undoubtedly be had.

ADAMS EXPRESS.—We thank our friend Hamilton Borden, Esq., of Adams express for exchange papers.

CADAVERS.—Any occasion of unusual excitement, when through the dim vista of possible events a telescopic imagination sees reflected upon the glass of destiny famine, or pestilence, or war, like immense swamps in warm weather, breeds not only the miasma which is destructive to the body politic, but innumerable swarms of musketoes which suck the life blood of public confidence and credit by their incessant croakings. Like that horde of gold seeks which in the days of the reign of terror kept the capital of France in continual ferment by the malicious croaking which they continually kept up, these false prophets and newsmongers use their information to the injury of public confidence and the destruction of public credit. We hear innumerable predictions on the streets of stagnation in business and bankruptcy in commercial circles. Whatever the possible future may develop, in proof that the symptoms are not now upon us we may instance the fact that one of our most far-seeing business firms, Messrs. Davis & Co., yesterday bought of Horton, Estes & Co., 925 bales of cotton at the full figures of 11 cents, and another lot of 277 bales changed hands yesterday at the remunerative price of 11½ cents.

ASTEROLOGY.—This mysterious science has long been the wonder of the world. The feats, which are accomplished through its agency, daily astound the most knowing and sagacious of mankind. The vaticinations of the incidents of one's future life; the unaccountable knowledge of facts supposed to be utterly secret; the strange calling of a stranger's name upon first sight, are some of the mysteries professed to be performed by its devotees. "Love affairs," with all their train of panacanic shade and sunshine, receive the especial attention and study of the clairvoyant. Let all who desire to take advantage of the science not fail to consult Madame Arrabella Clifton, at 241 Main street, between Poplar and Washington streets.

MISSISSIPPI AND TENNESSEE RAILROAD STOCK.—It will be seen from an advertisement in another column that an opportunity will be offered to the citizens of Memphis on the 19th inst., to vote "yea" or "no" on the sale of the $250,000 stock which the city owns in the Mississippi and Tennessee railroad for fifty cents cash on the dollar.

FIRE ON SECOND STREET.—A fire broke out at two o'clock yesterday morning in the unfinished Overton building at the corner of Second and Jefferson streets, caused most probably by some one having purposely set fire to the shavings lying on the ground floor. The steam engine was rapidly on the spot and thanks to its powers the damage was restricted to the burning away of four joist and the flooring on them the width of the room. The loss was small.

MEMPHIS LYCEUM.—This prosperous young association met at their rooms, corner of De-Soto street and Bowen's avenue, on Wednesday night, when the following gentlemen were elected officers of the society: President, J. W. Dent; vice-president, F. W. Jennings; recording secretary, C. W. Landreight; financial secretary, A. B. Weaver; treasurer, S. S. Tate; librarian, Oliver Roaselle.

☞ The manufacturer's sale of those superior *Lemuel Gilbert pianos*, will be continued this (Saturday) morning at 10 o'clock, A. M., by J. V. Gilbert & Co., 182 Main street, up stairs. Ladies and gentlemen desiring to purchase instruments from a manufacturer direct, (avoiding a second profit,) widely known for thirty years as unsurpassed in the workmanship, tone and durability of his instruments, should attend this sale and avail themselves of so rare an opportunity.

☞ Don't fail to attend the sale of Stodart's pianos this morning at ten o'clock, at 262 Main street. The auction will continue till fifty dozen chairs, "what nots," "seats of tubs," mats, trays, all sorts of bedsteads, 100 gross clothes pins, chairs by the million, wardrobes and chamber sets, and a few sets of silver plated ware, with 100 gallons antique brandy, will be closed out this morning at ten o'clock, at 262 Main street.

GAYOSO DEBATING CLUB.—At the election of officers last night, in this society, the following was the result: President, J. R. J. Creighton; vice-president, R. Hall Flournoy; secretary, R. D. Wallace; treasurer, W. A. Mebon.

COMMON LAW COURT.—In his court in the case of Fellows & Co. against Williams and DeShiel, the amount of $9,000 was awarded. In the case of Lane against Cowley for the title to a slave, the judgment was for the plaintiff. Thos. T. Grayson Esq., of Mississippi, was admitted to practice at the court.

SALE OF PROPERTY.—Very nearly all the property offered for public sale yesterday by Mr. Bowen, the city tax collector, was sold to various parties in the city.

CRIMINAL COURT.—At this court yesterday the case of Skinner was proceeded with, the testimony for the State was expected to be got through with before the rising of the court, and that for the prisoner to commence this morning.

PRESENTATION.—On Thursday evening, at the depot of the Memphis and Ohio railroad, the employes of the company, by the hands of James Tallinage, Jr., Esq., presented the respected superintendent, Wm. L. Nelson, Esq., with a splendid service of plate, as a mark of their profound respect. Mr. Nelson has retired from the position he has occupied with great credit to himself and advantage to the company.

A CANINE BONE BREAKER.—On Thursday a dog ran with such violence against a little boy, son of Mr. Hopkins, who resides in the eastern part of the city, that he threw him down, breaking the right arm below the elbow.

CITY LOAN.—At its last meeting council agreed to lend the Mississippi and Tennessee railroad company $3,000 to be used in making the locating survey of the branch Yazoo valley railroad.

CONTROLLER APPROVED.—At an extra meeting yesterday council approved of the appointment of W. O. Lofland, Esq., as city controller.

☞ We are under obligations to H. Borden Esq., of the Adams express company, for late New Orleans and Cincinnati papers.

FIRE.—The alarm of fire yesterday afternoon was occasioned by the burning of a frame house on the corner of Madison and DeSoto streets, belonging to an Italian by the name of Faro. Although the fire companies were promptly on the ground, the combustible material in the house rendered all efforts to save it fruitless, and it was entirely consumed. The loss will be about $500, with no insurance.

THE WEATHER.—Yesterday morning was wet, dark and cold; after dinner the dark canopy which had shut out the blue vault parted and vanished, the sun shone out, and material existence was robbed of some of its misery.

THE COUNTY COURT HOUSE.—The city council have appointed a committee to draw up a remonstrance upon the subject of the absurd location chosen for the court house.

FAST DRIVING.—It will be well for drivers of vehicles to notice that the police are vigilant just now in arresting those who drive too fast in the city streets. A marshamed Joseph Barker was arrested yesterday for that offense.

DISCHARGED.—Edward Flinn, who was arrested on a charge of having thrown a man from a boat in Kentucky, and who has been detained thirty days awaiting a requisition from the governor of that State, was yesterday discharged from custody by Esquire Hill no requisition having been received.

BONES BROKEN.—Yesterday morning the police found an old man in the building in Overton's block on Second and Jefferson streets, next door to the one in which the fire broke out. He had gone into the building with probably the intention of finding a corner to sleep in, when he fell in the dark through an uncovered hatchway.

SPLENDID LAMP.—The steamer "Danbury" has been fitted up with a splendid new lamp, made purposely for it by Williams, of Utica, New York. It cost $106 and well answers the purpose of giving sufficient illumination for working the engine.

THEATRICAL.—The inimitable Collins appeared last night at the new Memphis theater before a large and delighted audience, as "Rory O'More," in the Irish comedy of that name, which will be rendered again to-night, with a laughable afterpiece. Mr. Collins is still the great favorite of theater-goers—in the Irish line—and is well supported by the "stock" at our neat little temple of Thespis.

RETURNS.—We are still without official figures from the three districts mentioned by us yesterday, but hope to give the entire official vote for the county to-morrow.

THE INFIRMARY.—The new infirmary preparing for the reception of the city patients, will be ready for its tenants in a few days.

TWO NEW FIRE ENGINES.—Latta, of Cincinnati, is now building two of his fourth class engines for this city, the first of which will be finished and delivered here about New Year.

## Monetary and Financial.

**New Orleans Money Market.**

The New Orleans Picayune of November 7, reports as follows:

The election was the all-absorbing excitement of the day, and but few people cared about business. There was a good deal of talk about the probable result. Scarcely any paper and bankers were affected. In exchange, however, there were some transactions at the following figures:

Clear Sterling bills.....6@8½ Prem.
Sixty days do do.....Par@¼ do
Ninety days do do.....¼@½ do
Sight.....¼@¾ do

The accounts by the Pereire to the 26th ult., published this morning, bring no response to the free advance, as the steamer which carried out these advices had not arrived. Tomorrow the result of the election will be known, and we shall have to make up for lost time.
