The total receipts of cotton at this port yesterday amounted to 116 bales.....The little steamer Tyle is loading at our levee for Ohio—Island, and will, most probably, set off to-day with her cotton. J. Guy, for New Orleans; the Ben Franklin, for St. Louis; the Frontier City and Gem, Pike, for White river, and the Tyle, for Cincinnati.....The arrivals at this port yesterday embraced the Marie Denning, Planet and War Eagle, from Ohio and Cumberland rivers; the Grand Duke did not get off yesterday for New Orleans, as was anticipated, but will positively leave this evening at 5 o'clock.....The departures to-day will embrace the Grand Duke and Mt. Correspondence.

Messrs. J. G. Loveless, Geo. Winchester, T. W. Wilkinson, of the Board of Underwriters of the city of Memphis:

WE hand you herewith a diagram of the Cotton Warehouse we have just completed, extending between Madison and Monroe streets, which we do not think is made whether it comes up to the requirements of a first-class warehouse, and submit only to the rates of insurance charged for first-class warehouses.

Your obedient servants,

DAY & PROUDFIT.

Memphis, September 1, 1860.

Messrs. Day & Proudfit: The diagram, as well as the cotton warehouse it represents, has been examined and found to be perfect, and we have no hesitation in fixing the classification of cotton warehouses, class No. 1, as recently adopted by the board of underwriters of the city of Memphis.

J. G. LOVELESS, Agent,
Tennessee Marine and Fire Insurance Company.
GEO. WINCHESTER, Secretary,
Memphis Fire Insurance Company.
T. W. WILKINSON, Secretary,
Memphis Insurance Company.

Memphis, September 3, 1860.

Referring to the above correspondence, and in view of the overall heavy advance in the rates of fire insurance charged on cotton warehouses, and the fact that houses, of the second, third and fourth class, caused, as they claim, by a greater frequency of fires than heretofore, and in view of repeated hazards of burning fires within the past year, the importance of having a secure place to store cotton, and the great loss to the cotton shipper. Planters not wanting insurance can safely rest more than usually secure. Not believing the principle of indemnity the safest, in connection with the fact that insurance on cotton in our warehouse can be effected at less cost, and probably more satisfactory, we do not, in good, chamberlain, consigned to, unless otherwise instructed. We respectfully solicit a share of public favors.

Cotton Seed Oil Company.

MEMPHIS COTTON SEED OIL COMPANY,

is now manufacturing a superior article of

OIL MEAL FOR FEED.

AS a cheap, economical and nutritious food for Horses, Mules, Oxen, Hogs, Sheep, Poultry, and stock of all kinds, especially for MILCH COWS, it has no equal. They eat it with avidity, and thrive on it wonderfully. In Europe, where all kinds of food are valued according to their intrinsic worth, this article readily commands $45 to $50 per ton. According to its application recently made in London, one pound Oil Cake contains as much nutriment as three pounds Oats, nine pounds Wheat Bran, or ten pounds Hay.

In sections where the unprecedented drouth has prevailed, this Oil Meal will be found a most excellent substitute for corn, cutting much less, while its nutritious qualities are as three to one.

We refer the condition to a few testimonials, which we have many to our possession:

FROM R. W. LEFFINGWELL, ESQ., ST. LOUIS.

ST. LOUIS, April 19, 1860.

Having heard the Cotton Seed Oil Meal highly recommended for stock, I received twenty bushels and commenced the use of it, and have continued its use ever since; and I can say as the recommendation I had of it, the half was not held to me. It is the best feed I have ever used. I would not do without it, and cann
