Nashville Female Academy,

FOUNDED 1816.

AFTER a rest of six months, on the 19th of January, 1861, I resume my position as Principal of this Institution, with which I have been connected for twenty-one years.

The academy offers some peculiar advantages, among which, we think are the following:

1. A WELL ENCLOSED YARD—of about six acres, within the incorporate limits of Nashville, thus affording pupils equal exact freedom of home, while strictly secured and still subjecting them to the restraints of a refined and cultivated home.

2. BUILDINGS—In extent and suitableness, for all school purposes, unequaled in the United States by any Female Seminary. Large and well ventilated dormitories, offering comfort indispensable to children, in Hospital, Fresh air, without regard to the weather.

3. SECURITY FROM FIRE—These buildings are heated with steam and lighted by gas, and thus free the possibility of danger from at least one source of constant anxiety about their children.

4. HEALTH—unequaled in any Female School, in this or any other section of the country, and, we think, in any part of the time the largest, boarding school in the United States, and three deaths have occurred among the pupils in nearly 45 years.

5. NON-SECTARIAN—It is well known to all acquainted with the Academy, that Episcopalians, Presbyterians, Methodists, Baptists, and Cumberland Presbyterians, reside in the Institution, and it is a fact that the principles of our common religion will be daily inculcated.

6. MATERNAL CARE—This expression carries no exaggeration which is not fully met in the Academy. A competent number of ladies of piety and refinement, devote their entire time to the supervision of the expenses, the morals, habits and health of the boarding pupils.

Guardians and parents, who for any cause, may be seeking a permanent, comfortable home for little girls, will, we think, find such a home in the Academy.
