Nashville Female Acadmy,

FOUNDED 1816.

AFTER a vacation of six months, on the 19th of January, I shall resume my position as Principal of this local institution, with which I have been connected for twenty-four years.

The course offers some peculiar advantages, among others, we think are the following:

1. A healthy SITE, in the vicinity of about six acres, within the incorporated limits of Nashville, thus affording pupils the greatest freedom in innocent recreation, and still enforcing them to the restraints of a refined and intelligent society.

2. BUILDINGS—the extent and establishment, for all school purposes, unequaled in the United States by any female School; and these surrounded by spacious and elegant grounds, offering constant inducements to children, to breathe the free air of heaven, without regard to the weather.

3. SECURITY FROM FIRE.—These buildings are heated with steam and lighted by gas, and this free the parents of our pupils from at least one source of anxiety about their children.

4. HEALTH—unrivaled in any Female School, in this or any other country. Though one of the largest, and a part of the time the largest, boarding schools in the United States, yet last year the deaths have occurred among our pupils in nearly 40 years.

5. MORALS—Parents may rest in well known to all acquainted with the Academy, that a Baptist, Episcopalian, Methodist, or Presbyterian, with the doctrine here, perfectly satisfied, that in no respect will offense be given to his peculiar views, and yet equally satisfied that the principles of a sound evangelical religion will be daily inculcated.

6. MATERNAL CARE.—This expression carries to expectation which is not fully met in the Academy. A suitable number of ladies of piety and refinement, devote their entire time to the supervision of the expenses, the morals, habits and health of the boarding pupils.

Guardians and parents, who for any reason, may be seeking a permanent educational home for little girls, can, we think, find such a home in the Academy.
