RIVER AND STEAMBOAT MATTERS.

CITY WEATHER, BUSINESS, ETC.—The weather was cold, but quite pleasant yesterday; the levee is dry and in good order for business. The river is "mostly out," are covered with foam and drift. It has risen with considerable rapidity, covering, in the interval between sporting and three which in the afternoon, a beautiful expanse; a lot of marble, a quantity of machinery, and various other stray articles, some of which the waterbearer had to have removed, for fear of their incorporation to vessels at the landing.....

Business was dominated. The landing was as lonesome as a lonesome.....The St. Louis Republican of Saturday reports: The river was stationary yesterday. There is one foot in the channel off to Cairo, and no ice to interfere with navigation. There are no arrivals from any of the upper rivers. It is doubtful whether the Quickstep is soon as far up as Hannibal.....the Louisville Courier of Saturday, says: The river is rapidly, was fast assuming the most formidable dimensions and rising about an inch per hour. In the upper there were fully twelve feet water, and on the falls upwards of nine feet for steamboats. That makes the falls navigable for all classes of boats, and for the time being throws the canal, the Cincinnati chute, into disuse. There were nearly eight feet water in the middle chute on the falls last evening for steamboats boats, and we think the falls will be navigable for at least a week to come.....

The Cincinnati Enquirer of Saturday reports: The river is falling at Pittsburg with 14 feet water in the channel. Space to Cairo there is an abundance of water for all classes of boats. There is a tremendous freshet in the Cumberland, a perfect flood of waters, with 45 feet in the channel; reports received this morning, by the pilot mark, and the river still rising. All the tributaries were much swollen, and the freshet is one of the most sudden ever known. Fences and railroad bridges have been swept away in all directions, and immense damage done. Green river, and all the other lower tributaries are in an uproar, which will make a flood in the lower ports.....

The New Orleans Delta of Saturday says the Telegram got as high up as Point Pleasant, on the Quicksilver river, and reports four and a half feet water and rising in Bayou Bartholomew, where there is now plenty of water for purposes of navigation. The J. M. Sharpe brings tumbledown reports of the heavy rains on Red river, which is rising all the way out.....A report was received on Monday that there was four feet water in the Atchafalaya.....The Ingomar is the next boat for New Orleans.....The Cincinnati came in from Arkansas river with a tolerable trip and a considerable number of passengers; she left last night, defending, if the water would allow, to go to Fort Smith.....

The Messenger came in from Cincinnati with a large load; she picked up considerable deer on her way down; she has a thousand bales of cotton engaged, and if she could possibly get it on board she intended leaving last night.....The Admiral came in from White Cloud with a table crowded with passengers and 200 bales of cotton; she returns this evening.....The Mariner, Capt. Author's one boat, left for Louisville.....The Golden State goes out for White river this evening. The Ben McCulloch, from Picked Deer, up which she had been as high as Dyersburg, came in with 248 bales of cotton; she leaves for the same river to-day or tomorrow.....The St. Francis No. 2 is up for St. Francis river this evening.....

The Mississippi Belle, from Cairo to New Orleans, on the Tyler, Alex Scott; from Cincinnati to New Orleans, City of Madison; Melinda; from St. Francis, St. Francis No. 2; from New Orleans, Ingomar; up Forked Deer river, Ben McCulloch; from Hatchie river, New Moon; from White river, Admiral, Golden State, Kate Cheatham, Silver Moon, Messenger; from Louisville, Mariner.

MISCELLANEOUS.—The clever and handsome agent of the St. Louis boats, Josh Lawrence, Esq., has gone on a welcome trip to St. Louis.....A lessee has been established, consisting of Capt. Capt. Kountz's boat, the City of Memphis, had been fired into at Vicksburg; very doubtful, as that boat is on its up-river trip, a quarter from where the shooting is heard.....We notice the sinking of the Ben Franklin, in the Pearl volume; also the minute man's scheme for a battery on the boat.....The five bagge porters barbers, etc., on the Cincinnati and Louisville railroads have been notified not to visit Louisville anymore.....the Friday the Lady Jackson left 1001 bales of cotton into New Orleans from White river.....The Lady Jackson's officers report that a Palmetto flag had been raised at Columbia, Ky., and the citizens of that place had determined to secede.....The John Dwenty will arrive to day, she left St. Louis with a good trip of stock and produce.....The New Orleans Delta says: Boats from every direction are now bringing in good loads, quantities of cotton, sugar and western produce coming to our wharf. Boats leaving for the tributaries are now getting fine trips, as well, some of them being even compelled to refuse freights.....

Negotiations are pending for the introduction of the steamer Minnie McDonald into the Louisville and Memphis trade. Freight is abundant in that trade, and the possibilities are that she will come down.....The Prairie Rose has entered the trade between Memphis and Cincinnati, and will run in the accommodation line with the Messenger and Neptune.....Capt. Alex. Martin has purchased the Goody Friends for $2,400, at marshal's sale, and will place her in the Pittsburgh and Memphis trade.....

In Louisville, the Bonnie Doon, that was hoaxed for Memphis and White river, has abandoned that trade, and takes the place of the Grey Eagle, in the mail line to Henderson.....A transcript was offered in the house of the Indiana legislature on Wednesday to repeal the laws licensing pilots at the falls of the Ohio—to set any one at that capacity without license. No action was taken upon it.....

The U. S. Dexter, at Nashville, Monday, broke loose and floated down the river before she was secured, slipping between the piers of the railroad bridge without flinching. A narrow escape.....The James Wade was sold at Nashville, on Tuesday, to the United Insurance Company, for $7,000; Mr. Gibson, who purchased her for $27,500.

EUREKA.

UNPARALLELED SUCCESS

OF THE

WORLD-RENOWNED

HIGHLAND BITTERS!

Or, SCOTCH TONIC,

The Greatest Remedy for all Diseases of the STOMACH, LIVER and BOWELS EVER DISCOVERED.

Health to the Sick! Drink and Live!

TO THE PUBLIC:

A FEW words in all that is necessary to make known the history and wonderful curative powers of this celebrated Scotch Stomachic, which has proved itself, in every instance, to be the greatest blessing to invalids of health to the sick and afflicted at every nation and at every age. It was discovered by Sir George Ritland, M. D., F. R. S., Professor of Military Surgery in the far-famed University of Edinburg, Scotland. When effectual diseases were confined to the shoulder the British and French soldiers in the Crimea during the Russian war, Sir George Ritland was appointed by her majesty, Queen Victoria, as chief of the medical commission, to investigate, in a scientific manner, the extraordinary honesty and remarkable good health which has always characterized the inhabitants of the Scottish Highlands. The names which led to such deplorable results to the same individuals when exposed in a change of climate.

He, Sir George, discovered

By patient research, that the Highlanders had been in the habit of using a certain combination of herbs and roots, indigenous to their native hills and glens, which, when combined with certain ingredients, which found to be the most imperative invigorator and builder up of the human system, which the world or suffering humanity has ever known.

Its Remarkable Powers as a Medicine

Were fully tested, and numerous and unprecedented cures in every instance where its virtues were tried; and it might have been truly said that the good time had come at last.

Having Proved Itself

Equal to every emergency, the original recipe was presented to a responsible firm of pharmaceutical chemists in Edinburg, who have prepared it exclusively, till its introduction into the Southern States a short time ago. And it may be truly said that it is a positive proof of its intrinsic merit and superiority over all other preparations or stomach medicines, either in Europe or America, that upward of

Three Million Bottles

Were sold in the United States during the space of 700,000 dozen exported to all parts of the habitable globe.

The attribute to the Scotch Tonic

Is to prevent as well as cure, by attending to the root of the complaint, and thereby removing the hidden cause of disease. It gently stimulates and restores the drooping energies of the system, and assists nature in her task of vital and functionary restoration. To every description of men, from Bilious and Liver Complaints, Dyspepsia, Indigestion, Heartburn, Loss of Appetite, Debility, Sick Headache, Costiveness, Impurities of the Blood, and all Affections of the Stomach Liver and Bowels, it is invaluable; and to a by-gone age of Gloom and Fevers, whether Bilious, Remittent, Intermittent, Typhoid, or an other form, it is peculiarly applicable, being a perfect regenerator of the whole functions of the human system. Comparatively few doses of this inimitable stomachic will make the sallowness of sickness, cause sunken impediments, diseases of imperfect action, symptoms generally the whole human frame, and has never been known to fail in a single instance where it has been tried.

To Females and Children

Can use this strengthening Cordial for weakness or stomach diseases of any kind. To the mother, while nursing, it imparts a vigorous flow of nourishment, and thereby when the mother's nourishment is inadequate to the demands of the child.

To those who wish to Reclaim

Themselves from a life of drunkenness to use of spirituous liquors, this invaluable preparation, combining morbid appetite for strong drinks, and restores both the mind and body to a healthy state, it cannot fail to recommend itself to every temperate man.

Gentlemen, who have an extensive supply of all kinds of WINES, and all other articles usually kept in line of business, including all kinds of
