Daily Appeal.

RIVER AND STEAMBOAT MATTERS.

RIVER, WEATHER, BUSINESS, ETC.—The river was rising now rapidly yesterday, at the rate of five inches in twenty-four hours.....The weather was beautiful in the morning, the dust blew in overwhelming clouds in the afternoon, the rain commenced falling in streets, at sunset.....Business was but moderately brisk at the landing.....The arrivals registered since our last were from St. Louis for New Orleans, Planet, Chateau; Nashville for New Orleans, Southport; Louisville for New Orleans, Magnolia; New Orleans for Nashville, Red River; New Orleans for St. Louis, Crescent City; from Arkansas river, Chancellor Adams; from Cincinnati, Lady Franklin; New Orleans for Louisville, Westmoreland; Cairo for New Orleans, Illinois. The Kentucky went out for St. Louis last night with a passable trip; is coming down she found four feet scant.....The Pocket, that left St. Louis Friday night or Saturday morning, had not reached here on Tuesday morning.....The Illinois passed down from Cairo to New Orleans so heavily laden that many persons thought, as she approached, that she was sinking.....The magnificent Gladiator went up from Cincinnati with a tremendous load of both freight and passengers, and 1700 bales of cotton.....The Lady Franklin came to from Cincinnati with a fine trip. She goes out to-day, having nearly secured 1200 bales of cotton. This is one of the most agreeable boats on the river to travel on. Capt. Jack Powers and the Clerk, John Bengal Jones, are fine officers and accessible gentlemen.....The Quapaw and the Kiowa have been snagged and sink in that limit of steamboats, the Arkansas. We give the few particulars that have reached us in a more appropriate place.....The Chester Ashley came in from the Arkansas river with a tolerable fair trip. She brought in 325 bales, and left 500 bales at Napoleon for New Orleans. She returns to the Arkansas this evening.....The Kansas is taking off cotton, the Heaven this evening.....The Admiral goes out for White river to-day.....The Moses McCollum leaves for Louisville to-morrow.....

The river at St. Louis rewarded five inches in the twenty-four hours ending at dark on Monday evening, according to city engineer's measurement. It was two feet one inch above low water mark in 1860. At Pittsburg, on Monday night, the river was 5¾ feet and falling. At Wheeling, six feet and stationary, and with seven feet from Charleston to the mouth. At Cincinnati the river has fallen 2 feet during the twenty-four hours, but was nearly at a stand on Monday night. The mild weather and rapid melting of the river is an indication of a speedy rise. There is 9 feet in the canal, and 4 feet in the steamboat pass over the falls. The lower Ohio is in fine navigable order. There is no in the Wabash from Terre Haute to the north. The Tennessee is at four feet high again. The Cumberland is falling, with twenty-five feet on Harpeth shoals.

MISCELLANEOUS.—At St. Louis one half the Bacon on was sold on Monday by the shovel for $2,100.....Tennessee is reported over its banks in several places, and rising.....The Harpeth is said to be rail feet rather water. Where that Cairo.....The ar- Alton will lose one trip to Memphis—the Lady taking her place. The Silver Moon will resume place in the trade on the Cairo.

Boats Leaving.

FOR WHITE AND LITTLE RED RIVERS.—The handsome and commodious steamer Admiral, Captain Thomas, will leave for the above rivers at 4 o'clock this evening, at 5 o'clock. Thos. H. Williams & Co., agents.

FIRE! FIRE! FIRE!

SINCE has been our misfortune since the late fire, and constant daily labors in removing our stock from a dangerous building and retiring a new one, we have source found time to express our publicly our truly HEARTFELT THANKS to the many friends who entered themselves so their utmost in saving our property at the fire, their great care taken in avoiding breakage and loss, and their effectual sympathy in our misfortune. To our neighbors, who kindly opened their doors open to us, and to Burnet Graham, Esq., who generously offered us the use of his three fine stores in the Jackson block, to store our stock safe from our perilous situation after the fire, we shall ever feel under deep obligations. We could mention many names of those who put forth daring exertions in saving our property, but we might be invidious by so doing. May they receive a reward such as are cannot bestow.

THE GLOBE,

THE OFFICIAL PAPER OF CONGRESS

PUBLISHES an exact stenographic of "The Daily Globe," and also a tri-weekly and a semi-weekly, in addition to regular subscribers, and tender the same to subscribers, who desires will meet on the first Monday of next December, when it will commence issuing the above-named papers. They have been published at long, that most perfect system in the public service, therefore I deem it needless to give a minute account of the kind of matter they will contain.

"The Daily Globe" will contain a report of the debates in both branches of Congress as taken down by reporters, equal, at least, in any sense of short-hand writers in this, or any other country. A majority of them will, such, be able to report, reflection, and short-hand writers an hour, while the average number of words spoken by fluent speakers rarely exceeds seven thousand five hundred words an hour. When the debates of a day do not make more than forty-five columns, they will appear in "The Daily Globe" of the next morning, which will contain, also, the news of the day, together with such editorial articles as may be suggested by passing events.

"The Congressional Globe and Appendix" will contain a report of all the debates in Congress, revised by the speakers, the messages of the Presidents of the United States, the annual reports of the heads of the Executive Departments, the laws passed during the session, and such indexes to all. They will be printed on a double royal sheet in book form, large quarto size, each number containing eighteen pages. The whole will make, it is believed, at least 2,000 pages. This is acknowledged to be the cheapest work ever made in any country, whether a reprint or printed from manuscript copy, taking for data the average number of words translated.

The semi-weekly "Globe" will be a mere digest of this all-interesting one, because the editor will, in a great measure, be spared the pains of the labor, together with such editorial articles as it has been for many years past, the only source from which full debates of Congress can be obtained.

"The Congressional Globe and Appendix" goes free through the mails of the United States, as will be seen by reading the following extract from the resolution of Congress the 4th of August, 1852:

Joint resolution providing for the distribution of the laws and proceedings of the present session thereof.

With a view to the cheap circulation of the laws of Congress and the debates relating to the free interpretation thereof, and to make free the communication between the representative and constituent bodies:

Be it resolved, that the laws and the proceedings of the two Houses of the United States of America in Congress assembled, That from and after the present session of Congress, the "Congressional Globe and Appendix," which contains the laws and the debates thereon, shall pass free through the mails addressed to the members and delegates of Congress.

Provided, That nothing therein shall be construed to authorize the circulation of the "Daily Globe" free of postage.

Approved, August 4, 1852.

TERMS:

For a copy of the "Daily Globe for the ensuing session, commencing on the 1st day of December, and ending on the 3d day of March, inclusive, the price will be $10.00
For one copy of the "Congressional Globe and Appendix," during the session 6.00
For one copy, weekly, during the session 5.00
For one copy, semi-weekly, during the session 10.00

Postmasters will be paid to any order they may accompany the money.

Back numbers, current in the session of Congress when a subscriber receives, will be received on our, the whole, or any part of the session, at the rate of 25 cents per sheet, which is preferable to any other mode of remitting money or silver.

UNPARALLELED SUCCESS

OF THE

WORLD-RENOWNED

HIGHLAND BITTERS!

Or, SCOTCH TONIC,

The Greatest Remedy for all Diseases of the STOMACH, LIVER and BOWELS EVER DISCOVERED.

Health to the Sick! Drink and Live!

TO THE PUBLIC:

A FEW words in all that is necessary to make known to the public the wonderful curative powers of this astonishing remedial agent, the Highland Bitters, or celebrated Scotch Nectar, which has proved itself, in every instance, to be the only panacea or true infusion of health to the sick and afflicted of every nation and of every climate. It wonderfully cured Sir George Rainsford, M. D., F. R. S., Professor of Military Surgery in the Grand Medical College of Edinburgh, Scotland, when climatic diseases were cutting off in thousands the British and French soldiers in the Crimea, during the memorable campaign. Sir George Rainsford was consulted by Queen Victoria, as chief of the medical council, to investigate, in a scientific manner, the extraordinary longevity and remarkable good health which has always characterized the inhabitants of the Scottish Highlands, and the causes which led to such deplorable results to the same individuals when exposed to a change of climate.

Hear Sir George, discovered

By patient research, that the Highlanders had been in the habit of using a certain combination of herbs and roots, indigenous to their native hills and glens, which, when combined with oriental ale cattle, was found to be the most powerful invigorator and benifier of all the human system which the world or suffering humanity has ever known.

Its Remarkable Powers as a Medicine

Were fully tested, and crowned with unprecedented success in every instance where its virtues were tried, and it might have been truly said that the good time had come at last.

Having Proved itself

Equal to every emergency, the original recipe was handed over to a respectable firm of pharmaceutical chemists in Edinburgh, who have prepared it exclusively till its introduction into the Northern States a short time ago, and it may be mentioned as a proof of its intrinsic merit, its superiority over all other preparations or stomach medicines, either in European America, the unparalled

Three Million Bottles

Were sold in Great Britain alone, besides upward of 100,000 dozen exported to all parts of the habitable globe.

The attribute to the Scotch Tonic

Is proved as well as cure, by attacking the root of the complaint, and thereby removing the hidden causes of disease, by gently stimulating, and restoring the decaying energies of the system, and assisting nature to her task of vital and functionary reformation. To persons suffering from Dyspepsia and Liver Complaints, Dyspepsia, Indigestion, Heartburn, Loss of Appetite, Debility, Sick Headache, Costiveness, Impurities of the Blood, and all Maladies of the Stomach, Liver and Bowels, it is invaluable; and as a preventive of Chills and Fevers, whether Mild and Moderate, Intermittent, Typhoid, or any other form, it is peculiarly applicable, being a perfect regenerator of the whole functions of the human system. Comparatively few doses of this palatable alcoholic mixture will drive the sallow, pale and languid countenance all impediments, restore all impurities, strengthen generally the whole human functions, and has never been known to fail in a single instance where it has been tried.

Females and Children

Can use this strengthening Cordial for weakness or nervous diseases, and any kind. To the mother, while nursing, these Bitters are indispensable, and more particularly when the mother's nourishment is inadequate to the demands of the child.

To those who wish to Reclaim

Themselves from a life of drunkenness to one of sobriety, these Bitters will most effectually destroy the morbid appetite for strong drinks, and restore both the mind and body to a sound healthy condition, and will act like a charm in invigorating the system, and drive away the Sick Headache, Nausea, Stomach, and all the usual alleviants of dissipation.

This only true and refreshing Cordial, the Highland Bitters, or Scotch Tonic, is sold and prepared from the original recipe, by

DR. BILLING'S

Carminative Sirup

"Truth is Mighty and Will Prevail.

THOUSANDS can attest the force of this truism, when they have proclaimed aloud the happy effects of their Family, Friends and Kindred, in the enjoyment of health, who have been saved from a premature grave by the timely use of this invaluable medicine.

CHOLERA! that scourge—that curse of the Mississippi Valley, has made its appearance, and is fearfully destroying victims in its fatal path. PLEASANT as the most delicious fruitage, it is adapted to all ages, and all constitutions of the human system, and the testimonials of the human race are poured in upon Dr. Billing's Sirup.

DR. BILLING'S CARMINATIVE

Has been before the public for the last ten years, and each succeeding year adds increased vigor to its efficacy. From a local demand of a few gross, it has now reached every corner of the globe, and it requires the greatest exertions on the part of the proprietors to supply the extraordinary patronage this preparation.

PLANTERS

Consider it the only reliable remedy to give their negroes, preferring it to all other nostrums, as it relates to the Gospel testimonies to Mechanics, Mechanics, and all who have tried it, are loud in praise of its virtues, and willing to give their testimony to the many cures effected by Dr. Billing's Sirups the following cases:

DIARRHEA, CHOLERA MORBUS
BLOODY FLUX, ASIATIC CHOLERA.

Runaway.

RAN in the subscriber, living 11 miles east of Brownsville, Tenn., a NEGRO MAN named Burrell, six feet eight inches high, aged about 27 years and weighs about 170 pounds. Said negro is very black, had a permission from me, in writing, to hunt a home for the present year, and will probably avail himself of it to reach a free State. When last heard of he was in company with some male drovers, going in the direction of Memphis. A liberal reward will be given for the apprehension of said boy, or for his committal to jail, so that I can recover him.

Cotton Seed Oil Company.

MEMPHIS

COTTON SEED OIL COMPANY,

Is now manufacturing a superior article of

OIL MEAL FOR FEED.

AS a cheap, economical and nutritious food for Horses, Mules, Oxen, Hogs, Sheep, Poultry, and stock of all kinds, especially for MILCH COWS, it has no equal. They eat it with avidity, and thrive on it wonderfully. In Europe, where all kinds of feed are supplied according to their intrinsic merits, this article readily commands $45 to $50 per ton. According to an analysis recently made in London, one pound Oil Cake contains as much nutriment as three pounds Corn, nine pounds Wheat Bran, or one pounds Hay.

In sections where the unprecedented drouth has prevailed, the Oil Meal will be found a most excellent substitute for corn, cutting much less, while its nutritious qualities are as three to one.

We refer the credulous to a few who have used it, not having space for the many in our possession:

FROM R. W. LEPPINGWELL, ESQ., ST. LOUIS.

ST. LOUIS, April 12, 1860.

Having tested the Cotton Seed Oil Meal highly recommended by you, I feel bound to give you the result of the trial. I fed it to my horses, and they ate it with avidity, and I can say as to the recommendation I had to it, the half was not told me. It is the best feed I have ever had. I would not do without it, and cannot, while I have the use.

Yours truly,

H. W. LEPPINGWELL.

AYTON HOUSE, N. Y., July 30, 1860.

We are using at our son's farm, near Newark, New Jersey, the Cotton Seed Meal, and find it wonderful, when properly prepared, for fat meat and milk. We are all interested in this meal, as it is very valuable, not only for fattening our dairy use, but for the purpose peculiar to our agriculture, and the general use will and greatly to our national interests. One hundred and fifty cows are kept on this farm for the exclusive use of the hotel.

Truly yours,

R. A. SWINGH.

MEMPHIS, TENN., August 14, 1860.

MESSRS. WESTON & CO.: Proprietors Memphis Cotton Seed Oil—Gentlemen: It gives me pleasure to state that I have been using your Cotton Seed Oil Meal for some time, and find it to agree with the cows entirely satisfactory. Having fed my cows with it (some forty-five in number), they give abundance of milk, of a rich and pleasant flavor, and I would not be without it as long as it can be had.

Real Estate.

YOUNG & WELD,

281 MAIN STREET,

OVER MANSFIELD & CO.'S DRUG STORE.

OFFER for sale, in addition to the list of property in another column, a Plantation of 660 acres, in Chambers county, Mississippi, all of superior cotton land; 100 acres now in cultivation, and 100 more ready to cultivate. Only six miles from the river. In a healthy and desirable neighborhood. Good dwelling house, negro cabins, and all necessary outbuildings, etc., etc. The owner is desirous of concentrating his force on another place, which is his reason for selling. We are authorized to sell this place at a great bargain, and on very easy terms. A man who wants a good home can make this place pay for itself without expending a dollar after the first payment.

We have also another party who desires to trade improved city property, paying about twenty per cent. in rents, for land and negroes, or a good farm.
