MILITARY NOTICE.

By special agreement between the morning papers of the city, it is arranged that all calls for, or proceedings of, military meetings shall be charged ten cents per line in our local columns—which is but one half of our regular rates—and to be paid for invariably in advance.

JOB PRINTING.—Our friends, both in the city and country, by leaving their orders at this office can be accommodated with any style of job printing desired on the most reasonable terms. All printing sent us will be executed neatly, on the best material and delivered promptly at the time promised.

A NEW COMPANY.—Our friend William C. Carr, Esq., is raising a company for active and immediate service. Another chance for "the boys."

GAVE BAIL.—Lee Mitchell, charged with stealing a gun from C. C. Churchill, yesterday gave bail for his appearance and was liberated from jail.

THE MEMPHIS LIGHT DRAGOONS.—This fine and popular cavalry company, under command of Capt. Logwood, left this city yesterday for Union city.

MILITARY TENTS.—We notice that an establishment is opened on Second street, near Union, where these necessary appendages of the camp are manufactured.

FINED.—For entertaining a slave of Mr. Graham's, Wm. Kelly, who keeps a grocery on Pigeon Roost road, was yesterday fined ten dollars by Squire Mallory.

SINGULAR.—The blockade is producing some singular results. New Orleans is shipping bacon to this city, and we are shipping rice to New Orleans; rice is lower with us than with them, and bacon higher.

DANGER.—The boats that have been detained by the city are lying together at the landing. Should one take fire, all must be consumed. Should not proper precautions be taken without delay?

☞ Gratify your taste, when you can do so at so little expense, by attending the Auction sale of engravings to-day at 10 a. m., by Gilbert, Andrews & Co., 252 Main st. Ladies particularly invited to attend this sale.

PRESENTATION.—A elegant silk flag was yesterday presented to the Young Guards by the hands of Miss Lovin, and received in very handsome terms by Captain Cameron. The presentation took place in Court Square. This company leaves to-day for Jackson.

☞ The Ringold Rangers completed their organization last evening, and the company is now ready for active service. The officers elected are: G. W. L. Crook, captain; L. G. Gardner, 1st lieutenant; M. Brooks, 2d lieutenant; T. B. Ruffin, 3d lieutenant; S. H. Blanford, 1st sergeant; L. Duvall, 2d sergeant.

LANDED.—Two thousand bags of salt that were on board the steamboat Sovereign, detained at our landing, were landed yesterday. They will be placed in the care of the agent of the house in New Orleans that shipped them for St. Louis—a tolerably strong warning to New Orleans to send no more goods in the direction of Lincoln proclivities.

SCANDALOUS.—The people passing along Main street between six and seven o'clock last evening were disgusted by the exhibition of a drunken fellow driving in an open barouche four or more females of whom the poet significantly wrote: "A drunken woman is the worst of men," who were also under the influence of liquor. Along the whole length of the more business part of Main street they past shouting, laughing uproariously, vociferating remarks upon individuals in the street, and as if this was not enough to call the public stare down upon them, waving a flag as they went along. Officer Sullivan overtook them beyond Winchester street and brought women and driver to the station house and locked them up.

NEWS FROM HOME.—"Go from home to hear the news." We find the following in the New York Herald of Monday, from Memphis, there are five or six fires every night. They are no doubt the work of an incendiary, and the greatest excitement prevails throughout the city. The other day a northern man was arrested on suspicion of firing the buildings, and because he was unknown and no one resided him, he is now in prison, confined as an abolition incendiary, with the sentence of death hanging over him. Our informant believes that before this he has been hung. There is said to have been no actual proof against the poor fellow." We have thought of taking most of our local intelligence from distant papers; they know so many things about Memphis we never hear of until they tell us.

SCOTTS PUBLICATIONS.—We have received from Scott & Co., of New York, their history of the London Quarterly for April. The History of Parts, a curious article on Rapheism, an account of the religious condition of London; another of extreme interest on African discovery further up the Niger, a long article on art, the lives of Pitt and Lord Dundonald, on Indian affairs, and on the iron manufacture, make up a sterling number. Price three dollars a year. The London, North British, Westminster and Blackwoods, all for ten dollars a year. We have also from the same publishers, the Edinburg Review for April. It opens with a searching review of the evidence on which the immortal Bacon has been slandered with "the meanest of mankind." The theologist will be gratified at the article upon the celebrated "Essays and Reviews." There are also articles upon the Republic of Andorra, Political Diaries, Eton College, Remains of De Tocqueville, Mrs. Piozzi, the fables of Bonaparte and Ireland; but the article that will most come home in this country is on the "Election of President Lincoln and its consequences." The reviewer looks upon the success of the Secessionists as absolutely certain.

FATAL RAILROAD ACCIDENT.—At eight o'clock yesterday morning, when the freight and accommodation train going south on the Mississippi and Tennessee railroad was about one mile from the city, the rear car ran off the track and upset. The number of passengers in the car was not large, but all of them were injured more or less, and one of them, the wife of Mr. John Golder, of this city, was instantly killed. She was sitting on the side of the car that was uppermost when the vehicle was overset. She was thrown violently to the opposite side, then flung on the ground. She fell upon her head with so impetus that dislocated the neck—her death was of course immediate. She had been married about six months. Her husband was hurt in the hip. His brother, Mr. Wm. Golder, brickmaker, had a collar bone broken and a shoulder greatly injured. Mrs. Gillard, the only lady besides Mrs. Golder on the train, was very seriously hurt; her face was badly cut and bruised. J. G. Jeffries received severe injuries in the shoulder, and had a rib broken. Mr. W. T. Cole was also wounded. These two gentlemen reside near Senatobia, Miss., and are at the Worsham House, where every possible attention is shown them. The other wounded passengers are Lieut. Walsh and Mr. Davidson, both of the Tennessee Rangers; R. H. Yance, and John Berner, a brakeman—a total of one killed and nine wounded. The accident was caused by one of the wheels of the car becoming loose. The whole car had been carefully examined the previous evening, and the wheels greased, but nothing was then apparent indicative of approaching disarrangement. The train was moving at a moderate pace on account of being on a curve, and the unfortunate affair was the result of one of those accidents that care—and the carelessness of the Mississippi road is shown by its almost utter freedom from previous misfortune—and watchfulness cannot always guard against. The car fell down an embankment of twenty feet.

THE BLOCKADE.—The Louisville Courier says "the people of Pittsburg are trying to kill off their own trade by refusing to ship or float coal to the South. The fast towboat J. N. Kellogg, however, is coming with an immense tow of coal for this port for Kellogg & Co. The coal is expected to-day, which, together with the supply now on hand, will be more than enough for all their customers this year. Next year we will open the coal fields in Kentucky along the Memphis branch railroad. They are inexhaustible, and the coal as good as the best." The St. Louis Democrat mentions the following: "On Saturday Surveyor Howard and U. S. Marshal Rawlings proceeded on board and made an examination. Snugly stowed beneath some straw in the hold were twenty boxes in the style of soap boxes, marked 'extra family soap,' and directed 'J. D. & Co., Leavenworth.' The captain said that those boxes doubtless contained soap, and he invited his inquisitors to lift one and judge if the weight was not about that of a box of soap. In their judgment the weight did correspond with that of a box of saddly good soap. There therefore could be no objection to opening a box, and one was accordingly opened. The idea that here were twenty boxes of soap, was instantly dissipated, by the discovery that here were twenty boxes of cartridges! The development encouraged a further search, which revealed four cases of musket barrels. The boxes and cases were declared confiscated to the United States Government, and were sent to the arsenal. The boat's bill of lading was called for, but was refused. The steamer was therefore put under arrest, to await instructions. The bill of lading was subsequently shown, and the boat was discharged by Gen. Lyon. The steamer Lake City, bound up the river, was brought to at a late hour Saturday night, while about passing the battery at the southern point of Duncan's island. Two shots were fired and she came to. A search for contraband goods disclosed four kegs of powder, which was taken care of. An artillery company, under the command of Capt. Spenkofski, arrived at the arsenal from Cairo, on board the steamboat J. D. Perry, at two o'clock yesterday afternoon. They left Cairo last Friday, there being already more than a sufficiency of troops at that place. They tell us there is little apprehension and less fear of an attack there, so strongly fortified has the port been made. They are here solely because the Illinois brigades are full to repletion. The St. Louis Republican received the following telegram dated Cairo, May 18: "No provisions or other freight will be stopped here destined for Kentucky or any other State in the Union, unless there is good reason to believe that they are intended for secessionists." The Cincinnati Enquirer of Wednesday relates: "The U. S. Deputy Marshal at Gallipolis, two or three days since, took from the steamer Allen Collier a quantity of provisions, destined for a camp upon the Kanawha river, said to be a rendezvous of Secessionists. There was a stock consisting of 122 barrels of flour, 10 barrels of sugar, 20 bags of coffee, 2 casks of bacon, 6 barrels of molasses, 5 barrels of mackerel, and one barrel of herring. The captain of the boat, I. H. Johnson, left Cincinnati with a light freight, but picked up the above at some half dozen places on the way."

NEW CITY OFFICES.—Under the able superintendence of ex-Marshal Underwood the various city offices on Tuesday left their dark, mean quarters at the Exchange building, for the pleasant rooms provided for them at the north east corner of Jefferson and Second streets, and the council held their first meeting in the new room. The council chamber is spacious and extremely well lighted and ventilated. Convenient benches have been put up for the use of the public; the desks for the members are not yet in their places. A handsome room opening from the chamber is appropriated to the mayor. We hear that it is contemplated to appropriate the same room to committee purposes, but presume the mayor will be decidedly allowed the privacy of his office. The engineer's room is on the left hand of the entrance hall, and is roomy and adapted for the purpose. Turning up a passage to the left of the entrance hall, the first door on its right admits us into the register's office, which is furnished with a vault; this is less spacious and agreeable than the other rooms. Next is the city attorney's room, and opposite to the office of the city auditor, which is one of the pleasantest rooms in the building. Then comes the office of the tax collector. At his old quarters Mr. Brown was put—like the celebrated and amiable Jack Horner—"in a corner," and a dark inconvenient corner it was; he has been a comfortable, well-lighted office. We learn that the old council chamber will be devoted to the purposes of a recorder's court. The APPEAL was the first paper to call attention to the inconveniences in location and structure of the old offices; it is with pleasure we find that in this, as in some other important public and official improvements, we have not labored in vain. We congratulate the city council and the officers of the city on a change so agreeable to themselves and so adapted to facilitate the transaction of the public business.

DEAD CHILD FOUND.—Last evening, near the Market street bridge, a newborn child, dead and wrapped in a blanket, which was covered with some bricks and stones, was found in a ravine. No attempt had been made to bury the little one, and it had evidently been but recently placed where it was found. It is natural to expect that a case like the present is the result of illicit intercourse, but, as we some time ago explained to our readers, on the authority of a public medical official, the secretary of the board of health, still born children are often surreptitiously disposed of in this city on account of the outrageous expense attending burial in the regular cemeteries. The practice of such revolting acts will only be abandoned when the city council do as other cities and provide a potter's field where the poor can have free burial and the working population have sepulture at prices within their means.

TWO MEN STABBED.—A dispute occurred at three o'clock on Monday afternoon, at the boarding house of John Reagan, on Chickasaw street, between Winchester and Commerce streets, during which John Conlan, with a knife, stabbed James Curry and Thomas Burns. The former was stabbed in the left side above the hip, the latter on the same side but more in front of the person. Curry is severely hurt, but it is thought not mortally; the wound of Burns is comparatively slight. The men are at the hospital and were progressing favorably yesterday morning. Conlan was arrested by officers P. M. Winters and J. Wilson.

A CARD.

TO MY FRIENDS:—Having been elected captain of the Swiss Rifle Company, for actual service, and my business not allowing my absence from here, I have tendered my resignation to said company.

J. J. SUTER.

MEMPHIS, May 23, 1861.

By the resignation of captain J. J. Suter, of the Swiss Rifle Company, we have elected JOSEPH KELLER, of said company, as captain, who has accepted the office, and has tendered the services of the company to the State of Tennessee for actual service.

All members will be present at the Armory, by nine o'clock to-morrow morning.

By order of the captain.

JULIEN JUNKERMAN, O. S.

ATTENTION YOUNG MEN!

A few young men desiring to go into active service can have an opportunity of joining the "Young Guard" that left this morning for Jackson, Tenn., by calling at their old armory near the corner of Second and Madison streets, where there will be an officer to receive them.

JOHN CAMERON, Capt.

J. P. WILSON, O. S.

ATTENTION!—The members of the Flying Artillery will meet at 10 o'clock this morning, at Exchange buildings. By order of

WM. MILLER, Major.

SPECIAL NOTICE.—We have been requested by the news agents on the various railroads, to request persons at the different stations along those roads to ascertain among themselves, before the arrival of the trains, the number of papers the crowd wants, and place the money to pay for them in the hands of one person, who can receive the papers and distribute them to all who wish to purchase. The demand for the papers is so great that the newsboys find it impossible, in the short space of time the trains remain at a station, to supply all who want to purchase by delivering a paper to each separately, receiving the money, making change, etc. By adopting the plan above suggested, all may be supplied without failure.

RIVER AND STEAMBOAT MATTERS.

The river was nearly stationary yesterday; the weather was fine and business was quiet.....The Ben McCulloch came in from Packet Deer, with seven bales of cotton, eleven hogsheads of tobacco and five hundred sacks of corn.....The Meteor left for Vicksburg with four bales of cotton and twelve hogsheads of tobacco.....The Sovereign put off two thousand bags of salt, which had been shipped to St. Louis; it will be placed in the hands of the agents of the house in New Orleans that shipped it.....The Dr. Kane went out for St. Louis with a number of passengers, and but little else..... The Walsh brought among her cargo one hundred and sixty bales of Texas wool, and one hundred and twenty-nine sacks of wool from New Orleans..... The St. Louis Democrat, of Tuesday says: In regard to business, people will be prepared everywhere to hear that it is dull. Brandon has done its work, drawback is the accompaniment and a total, or nearly total suspension of shipments from this port port Cairo. Cargoes from the upper rivers are gradually getting now here, and a commercial enormous will soon be reached. Steamboats are being laid up daily, and those who were employed on them are idly perambulating the streets, or returning to the country. We presume that during the war there will continue to be some little local river commerce. But very few boats will pass Cairo from this point. There will be occasionally a boat for Cincinnati and Pittsburg, a boat leaving daily for the Upper Mississippi, a regular Alton packet, two or three departures weekly for the Illinois, and about the same number for the Missouri. The Memphis Courier for the same date says: The river trade, excepting one or two short packet routes, is virtually suspended, and the E. J. Adams, which was posted for St. Louis, has been withdrawn, and laid up.
