LOCAL MATTERS.

CRIMINAL COURT.—Yesterday being the first day of the special term of this court, little else besides an organization was effected. A number of cases on docket will be called up for trial to-day.

KILLED BY A RUNAWAY.—Toward dusk yesterday evening two horses attached to a wagon, in which there was a little negro girl, started off at a rapid rate up Main Street, turned the corner of Jefferson, and running toward and along Front Street, threw the little girl from the wagon, fracturing her skull in three places and breaking her legs. She survived her injuries but a short time.

THE ROBBERY OF MR. BENBEN'S STORE.—The persons whom we mentioned in our last, as being arrested on the charge of perpetrating this robbery, were, yesterday, discharged upon examination. Another warrant was, however, issued by Esquire Creighton, against a couple of negroes, on the same charge. They will be examined this morning.

(SUIT FOR DAMAGES.—Mr. C. Trigallas, who says his name as Martin Fields. The officer proceeded to the place directed, on Shelby street, and arrested Fields and lodged him in jail. The trading of the watch bearing the name of Mr. E. P. Stewart, to another negro, led to his discovery and arrest. Fields is of a copper colored hue, quite young in years and claims to have accompanied Mr. Clay Wright, of Ferguson's Brigade, throughout the late war, on the Southern side. He also claims to have an infallible cure for all cases of rheumatism. The evidence against him is of a very positive character.

CHANCERY COURT.—Owing to the indisposition of Judge Smith, no business was transacted in this Court yesterday. To-day is motion day. The following were the cases set for trial on Thursday:

ON WHOM DOES IT REST?—Mr. John Evans states that on the twenty-fifth of December last, there appeared an advertisement in the Chicago *Times*, calling for two hundred carpenters, two hundred masons and bricklayers, and five hundred laborers and their wives, to go to Memphis, where the advertisers, Messrs. Ford & Co., of Chicago, and Messrs. Pool & Co., of Memphis, guaranteed to them employment upon their arrival at this point. The masons and carpenters were to receive five dollars per day for their services, and board was to be obtained for them at six dollars per week. Their fare from Chicago to this point was to be refunded upon their arrival here. Mr. Evans read the advertisement, called upon Messrs. Ford & Co., and made arrangements under the conditions above mentioned. He paid two dollars, which were the fees charged for the information, and Mr. Ford, of the intelligence office, requested Mr. Evans to meet him at the depot of the Illinois Central Railroad, and the request was complied with. Mr. Evans and companions, then purchased their tickets, started to Memphis, and arrived here on New Year's day. Our surprise and indignation can well be imagined when they were informed by Mr. Pool's partner that their services were not needed, and, furthermore, that they were never sent for. What he was, we did not know, and not tradesmen. This is the substance of Mr. Evan's statement, and he is authorized to speak for his fifty-nine companions. From this it would appear that the grossest outrage and wrong has been perpetrated on these poor men by some one, who, extorting two dollars from each man, sent them to a strange city, arriving here without sufficient means to procure for themselves board or lodging. The guilty parties, whoever they are, should be ferreted out, and held up to the execration and scorn of all honest men. These men say that Ford & Co., at Chicago, are merely agents for Pool & Co., of Memphis. Is this true?

RECOVERY OF STOLEN PROPERTY.—A trunk, bearing the name of "Mrs. A. P. Butler, Rosslee Parish, La.," was found at the house of a negro woman, on Causey street, near South, by officer Cosgrove, early yesterday morning. It appears that the trunk was taken there the night previous by two negroes, named James Smith and Chas. Williams, broken open and robbed of a portion of its contents. The negress with whom the trunk was left, fearing that she might be implicated, made the fact known to the authorities, and they succeeded yesterday in recovering the trunk and arresting the guilty parties. The trunk contains an amount of silver ware, and some elegant silk dresses, besides a quantity of ladies wearing apparel. The negroes say that they have lately been running on the river, and from this fact, the inference is drawn that the trunk was stolen from the lady while traveling on the river.

THE MURDERER OF MR. STEWART ARRESTED.—As was predicted at the time of the outrageous assault upon the person of Mr. Stewart, the watch of which he was robbed would be instrumental in bringing the murderer to justice. On Monday evening last, a negro called upon an officer of the police force, and informed him of the whereabouts of the scoundrel, who gives his name as Martin Fields. The officer proceeded to the place directed, on Shelby street, and arrested Fields and lodged him in jail. The trading of the watch bearing the name of Mr. E. P. Stewart, to another negro, led to his discovery and arrest. Fields is of a copper colored hue, quite young in years and claims to have accompanied Mr. Clay Wright, of Ferguson's Brigade, throughout the late war, on the Southern side. He also claims to have an infallible cure for all cases of rheumatism. The evidence against him is of a very positive character.

ON 'CHANGE.

What a golden gush of weather is overflowing us just now! The city of Memphis basks beneath it like a substantial gat, who had retired on a fluid supper, from the active business of modeling, and had nothing more irksome to do than to stretch peacefully out, and devote herself to the elastic ablution of her paws. It is believed that it stroked judiciously, Memphis helped would actually purr—purrhaps.

A brown rose at a Christmas table is not more bewitchingly out of season, than these radiant days, which flood us with sunshine, and spring suggestions. Eighteen hundred and sixty-six is as full of new and crimson life, that it breaks out irrepressibly into floral smiles, and presents to the calendar of years such a prismatic picture of youth, as it has rarely shown.

It would be too cruel an admission against the nobility of our common nature, to suppose that such weather as this can fail of moral effect. It is hoped that it is not too much to expect, that it will penetrate with an irradiating influence, even to the Legislature of Tennessee. Mr. Sumner being above the sway of human obligations, is not supposed to be affected by it.

On the good city of Memphis, however, it falls, as we have seen, with a fascinating and potent. The dull population here are incapable of the summer elysium, and although our streets are perhaps susceptible of improvement, and the Chamber of Commerce is, it may be, ready to receive the sacred wafer, our citizens retain, notwithstanding, a mysty conception of their spiritual obligations, and are willing on the whole, to accept so charming a dispensation, and honestly thank God for it.

Exchange.

For the first time in a long while, we have to announce that New York Sight is unsalsably dull. Its quotations even, are shaken in the unanimity they have hitherto preserved. In several instances reported to-day, small amounts have changed hands at ¼ off, buying, and ¼ off, selling. Generally, however, the former rates continue, buying at ⅛ off, and selling at par.

In New Orleans Sight the cramping scarcity which was a feature of yesterday's market, is reproduced with mitigated force. The demand is eager, and seven temperamental, but the makers and holders of it, exhibit so much reluctance that only a few trifling operations occurred, at the former rates, buying at par, and selling at ½ per cent. premium.

Time Bills.

Some transactions in New York Time, for Thirty-days, have been reported to us, but we could learn of no movement in any other of its ramifications. Its formal figures are entirely nominally. Five-day Bills ¾ off, Ten-days 1 percent, Fifteen days 1¼, and Thirty-day Bills 1½ off.

A dealer scarcely enters into the supply of New Orleans Time, which changes less than of its Sight exchange. Little or none of it is offering on the market, although the demand for it seems strong enough, and steady enough, to excite a hope that it will ere long, be established and renewed, nominally. Five-day Bills ¾ off, Ten-days ⅞, Fifteen-days 1 per cent., and Thirty-day Bills 1¼ per cent. off.

Loans.

The market for Discounts has fallen from mild to dull. It is presumed that the whole world was alarmed to-day, lounging in the bright sunshine, and thinking in the intoxicating draughts of ozinoline, which flowed (although not a liquid) like veritable milk and honey, with a strong ambient infusion. Under such circumstances, no man could see his soul with the thought of force. So the Bankers had almost a nominal time of it, at previous quotations. Prime Five-days paper ¼ off, Ten-days ½, Fifteen-days ¾, and Thirty-days 1 per cent off.

City Scrip.

Nothing is doing in City Scrip, on account of the very novel condition it has recently developed. Formerly, it was stationary because it contained so little demand; now, it is stationary because no supply is offering. In so doubling, therefore, would seem to be a condition of its life, no matter what the elements are, which may be at work. We therefore quote it nominally at 90 buying, and 95 selling.

Stocks.

Not a single movement is observed to-day in government securities. Seven-Thirties are still and nominal, at 97 buying, and 99 selling with accrued interest. Five-Twenties are utterly stagnant, at 101½. Nothing at all reported in Compound int. Notes, which are also restated nominally.

Gold and Silver.

Obeying the depreciative tendency lately acquired, Gold has recedes, yesterday, moved from 40 to 35, and difficult to find even at that. So demonetized in fact has it become, that a few customers Brokers decline to receive it at more than 30 cents. The ordinary rules, however, are 35 buying, and 40 selling.

Silver is similarly affected and exhibits once yesterday a further decline of 2 cents. It is now buying at 38, and selling at 37.

Commercial Pamphlets.

Southern money continues unabatedly active and buoyant. Many small transactions occurred, all at quotations full and firm. One very heavy operation was reported, in the basis of the Planter's Bank of Tennessee, at 56 cents. This is an improvement of 3 cents over its previous rate, and the indications are cheerful of a still further appreciation. A similar tendency, of a less marked character, is remarked generally of the Alabama Banks. Save however in the instance of the Planters' Bank, no transaction is reported, which disturbs the table of quotations in yesterday's issue.

☞ The Boston *Journal* relates of a Springfield soldier, recently returned from the war, that when he went into the service, he could not understand even the military orders in English, but made a good soldier. Coming to this city, he got into debt for his board with one of his own countrymen, and said that, when he enlisted, he received five hundred dollars in bounty, which he hid in a crevice of his barracks on going to war. His landlord and others took him about to the several military camps, in the hopes that a recollection of the place would enable him to recover the secreted money; and it was not until a friend had provided him with the means of going to New Bedford to ship, and his missing the way and return, and that chance led him to New Hampshire, where it proved that he enlisted, and, on going to the barracks at Concord, he found his five hundred dollars, which had remained safe for two and a half years.

☞ Ex-President Fillmore and wife sailed for Europe on the fifth instant. They intend spending the winter in Spain, for the benefit of Mrs. Fillmore's health.

☞ A woman describing her runaway husband, says: "Daniel may be known by a scar on his nose—where I scratched him."
