MEMPHIS APPEAL.

THE PRICE OF TRUTH.

Great truths are dearly bought. The common truth
Such as men give and take from day to day,
Comes in the common walks of every life,
Bought in the market, at the current price,
Sold of the smile, the jest, perchance the scowl,
It tells no tales of daring or of worth,
Nor pierces even the surface of the soul.

Great truths are greatly won. Not formed by chance,
Nor wafted on the breath of summer dreams;
But grown in the strength of the storm,
And nurtured in the whirlwind and the stream.

Not in the general court 'mid corn and wine;
Not in the merchandise of gold and gems;
Not in man's world's gay hall of midnight mirth,
Nor mid the blaze of regal diadems.

But in the day of conflict, fear and grief,
When the strong hand of God, put forth in might,
Plows up the subsoil of the stagnant heart,
And brings the imprisoned truth-seed to the light.

Wrung from the troubled spirit, in hard hours
Of weakness, sickness, pressure of pain,
True springs, the harvest, from the well-plowed field,
And the soul feels it has not wept in vain.

Description for a Well-Taxed Country.

Sidney Smith's terrible picture of his well-taxed country will never be forgotten. What was then, and is still, true of England has been made too true of our country, by the wicked policy of sectional parties and by the robberies and plundering which were permitted in the prosecution of the war. Here is the picture:

"Taxes were piled on taxes until they reached every article which enters into the mouth or covers the back, or is placed under foot; taxes upon everything which it is pleasant to see, hear, feel, smell, or taste; taxes upon warmth, light and locomotion; taxes on everything on earth and in the waters under the earth; on everything that comes from abroad or is grown at home; taxes on the raw material; taxes an fresh value that is added to it by the industry of man; taxes on the source which pampers man's appetite, and the drug which restores him to health; on the ermine which decorates the judge, and the rope which hangs the criminal; on the poor man's salt and the rich man's spice; on the brass nails of the coffin and the ribbons of the bride. At bed or board, couchant or levant, we must pay.

"The school boy whips his taxed top; the beardless youth manages his taxed horse with a taxed bridle, on a taxed road; and a dying Englishman, pouring his medicine which has paid seven per cent. into a spoon that has paid fifteen per cent., flings himself back upon the chintz that has paid twenty-two per cent., makes his will on an eight pound stamp, and expires in the arms of an apothecary, who has paid a license of a hundred pounds for the privilege of putting him to death. His whole property is then immediately taxed from two to ten per cent. Besides the probate, large fees are demanded for burying him in the chancel; his virtues are handed down to posterity on taxed marble, and he is then gathered to his fathers to be taxed no more."

England was hundreds of years in piling up the debt which compelled this taxation. We did an equal "job" in four years. If we shall prove as smart in paying as in accumulating it, and thus speedily relieve our people from its great burdens, we shall much more exhibit our superiority to our English ancestors, and in a much more favorable light.—*Detroit Free Press.*

A NEW HORSE SHOE.—A Paris blacksmith has invented a new system of shoeing horses. Instead of the shoe being placed on the hoof and burning its own resting place, the outside of the hoof is cut away around the foot to the depth of half an inch; this leaves a ledge into which the shoe fits, and is then flush with the frog, which just touches the ground, instead of being raised, as of old, by the shoe. The advantages of this are that the foot is little pared, and that instead of a heavy shoe the animal is shod in what are little more than pad lip plates. The advantages claimed by the inventor are, that the horse never slips, that the shoe allows the foot to expand naturally, and that it lasts as long and is as cheap as the old plan.

PRAYER FOR JEFFERSON DAVIS.—A highly esteemed minister in a neighboring State remarks in a recent letter:

"I have often thought, of late, that if I could speak to all the praying people of the South, I would impress upon them the thought that it is their special duty to pray for Jefferson Davis. Surely he is in sore and sad pent, because of what we have done. He would not be there, if we had not made him our chief. Will the praying people of the South forget him in these trying hours?"—*Christian Observer.*

NEW SKIRT.

FOR 1866.

THE GREAT INVENTION OF THE AGE.

J. W. Bradley's

Celebrated Patent

DUPLEX ELLIPTIC

(Or double Steel Spring)

SKIRT,

WESTS', BRADLEY & CARY,

Sole Proprietors and Manufacturers, 97 Chambers and 79 and 81 Reade street,

NEW YORK.

This invention consists of Duplex (or Steel) Elliptic Pure Refined Steel Springs, ingeniously braided together, and firmly fastened, edge to edge, making the toughest, most flexible, elastic and durable article for giving your dress, a graceful or break, like the Single Springs, and consequently preserve the perfect and beautiful shape more than twice as long as any Single Spring Skirt that ever has or can be made.

The wonderful flexibility and great comfort and pleasure to any lady wearing the Duplex Elliptic Skirt will be appreciated particularly in all crowded assemblies, operas, carriages, railroad cars, church pews, arm chairs, for promenade and house dress, as the skirt can be folded when in use to occupy a small place as easily and conveniently as a small dress.

A lady having enjoyed the pleasure, comfort and great convenience of wearing the Duplex Elliptic Spring Skirt for a single day, will never afterwards willingly dispense with their use. For children, misses and young ladies they are superior to all others.

The hoops are sewed with two ply double twisted thread and will wear twice as long as the single yarn covering which is used on all single steel spring skirts. The binding and tape on every skirt are also double steel, and twice or double stitched to prevent the cutting or wearing of the tape when dragging down stairs, alone steps, etc., etc., which they are continually subject to when worn.

All are made of the new and elegant corded tapes, and are the most durable quality, giving to the wearer the most graceful and perfect shape possible, and are vastly preferable to tabbed tapes as more desirable, comfortable and economical skirt ever made.

For sale in all first class stores, Wholesale and Retail, in the city, and throughout the United States and Canadas, Havana, Cuba, Mexico, South America, and the West Indies.

BY AN

Efficient Organization of 1,000 Practical Underwriters, from Nova Scotia to California and Lake Superior, Mexico and the Gulf, harmonizing the Science of average with compensating rates to the Advancement of the Public Welfare.

FLATTERING TESTIMONIALS OF THE

ETNA

INSURANCE COMPANY,

From the Insurance Department

—OF THE—

STATE OF NEW YORK.

The Insurance Commissioner to the Legislature:

"The Ætna Insurance Company of Hartford, one of the most successful Fire Insurance Companies of this or any other country."

"Connected Companies follow the rules and practices of the Ætna almost as carefully as if they were embodied in statute law."

Again, indirect to other companies in New York Companies, the Ætna's successful management and solid results are called to their attention thus:

"It still remains more a matter of wonder than imitation, the success of the Ætna."

"By what subtle alchemy has this corporation been enabled to turn the full-paid capital into the philosopher's stone?"

"The extraordinary events which have distinguished its unparalleled financial history."

"The average Losses per diem in the United States, at this period of the year, are about $25,000. The telegraph daily sounds startling notes of burning in all directions."
