SENATE.

NASHVILLE, March 4.—The senate met, a quorum being present.

REPORT ON IMPEACHMENT.

The following report from the committee on the impeachment of Judge Frazier, was received and laid over:

The committee upon the matter of impeachment of Thomas N. Frazier, judge of the criminal court of Davidson county, have considered the subject matter referred to it, and report that impeachment is provided for in sections one, two and three of article five of the constitution of Tennessee. Under these sections the house of representatives have the sole power of impeachment. Impeachments are to be tried before the senate, senators being under oaths of affirmation. Two-thirds of the senators sworn to try, must concur to convict. The house of representatives are to elect three of its members to prosecute its impeachment, and no impeachment shall be tried until the legislature shall have adjourned *sine die*, when the senate shall proceed to try such impeachment.

The committee are of the opinion that the senate immediately after the adjournment *sine die* should form themselves into a court of impeachment, elect proper officers, issue a summons to the officer to be impeached, notifying him to appear before the court of impeachment to answer said impeachment, and also furnish him with a copy thereof; and also give notice to the committee selected by the house of representatives to prosecute the impeachment, of the time fixed for the investigation of said case. The committee report the following resolution for adoption:

Resolved, by the Senate, That immediately after the adjournment of the general assembly *sine die*, the senate will form itself into a court of impeachment for the trial of the impeachment case in which the State of Tennessee is plaintiff, and Thomas N. Frazier, judge of the criminal court of Davidson, is defendant.

Resolved, further, That a message be sent to the house of representatives, notifying it that immediately after the adjournment of the general assembly *sine die*, viz., on the 11th of March, 1867, the senate will, as a court of impeachment, proceed to fix the preliminaries for the trial of Judge Frazier, upon impeachment made by the house of representatives.

D. W. C. SENTER,
JOHN TRIMBLE,
W. J. McFARLAND,
Committee.

BANK OF TENNESSEE.

The following was reported by the committee, and adopted:

Resolved by the General Assembly, etc., That the president and directors of the Bank of Tennessee may prescribe their own time of meeting, but shall have at least one regular meeting every week, at which all business previously done shall be laid before the said board for its approval or disapproval, and a journal of the same shall be kept, which shall be open for inspection of the governor, and reported to the general assembly whenever required.

2. That all the books of the Bank of Tennessee shall be at all times open to inspection and examination of the governor of the state, secretary of state and comptroller, or any one of them, or attorney general, and the governor or either of said officers may and shall state and lay before said board any act which he thinks contrary to the interests of the bank, and shall report the same to the general assembly.

3. That all suits provided for in the seventh section of the act to wind up and settle the Bank of Tennessee, shall be brought under the direction of the governor of the state, by and with the advice of the attorney and counselor of the bank, and not without his direction and sanction, and all information necessary thereto, in possession of the board shall be given when required.

Mr. Trimble offered the following resolution, which was adopted under the suspension of the rules:

That a joint committee of five, consisting of two members of the senate and three of the house of representatives, be raised and invested with full authority to inquire, ascertain and report to the next general assembly all the facts of the case of the removal of the fund deposited with the treasurer of the state, under the act to wind up and settle the affairs of the Bank of Tennessee, with full power to sit at the capitol, or elsewhere, and send for persons and papers, and make a full and thorough examination thereof, and report the same with dates, names of persons, sums, etc., etc., so as to present a full and complete history and account thereof.

THE SCHOOL FUND.

Senate joint resolution in relation to the reinvestment of the fund placed by the late treasurer in the Tennessee national bank, of Memphis, was taken up and discussed at length. The resolution was adopted, with the amendment, "that the governor be authorized to make any and all settlements with said parties that his judgment may dictate for the best interest of the state."

Mr. Johnson gave the following reasons for voting for the resolution: When I was a member of the committee to look after the school fund, I received an anonymous letter from Memphis requesting me to propound certain questions to Mr. Rutter, the president of the Tennessee national bank. I met Mr. Rutter at the City hotel, and asked him if he or the bank had paid anything for the use of the fund obtained from the treasurer. He evaded the question, but left the impression on my mind that he had, and did admit it to a certain extent, that money had been used for that purpose. He told me that he had loaned members of the legislature money in business transactions. One of the directors, or attorney, gave me the same information. A member of the senate informed me that during the session of '65 and '66, he called on the treasurer for his per diem. Mr. Rutter was present and asked him if he was in want of money. He replied he was. Rutter said he would furnish him with as much as he wanted. After the adjournment last spring, a senator made a note and sent it to the bank to be discounted, which was never done. He has written to the bank for his note, but as yet has been unable to get his money or note.

HOUSE OF REPRESENTATIVES.

The house was called to order at 9 o'clock, acting Speaker Mulloy in the chair.

BILLS TAKEN UP.

The bill amending the franchise law, so as to allow colored men to hold office and sit on juries, was taken up on its third reading.

On the vote being taken, the bill was lost by ayes thirty-one, noes thirty-three.

The resolution authorizing the comptroller and treasurer to borrow money from the Tennessee national bank at Memphis, was postponed until to-morrow at 2 o'clock.

The bill extending the privileges of the elective franchise to such aliens as have resided one year in the state, passed its third reading.

The bill to amend the charter of the city of Memphis, by abolishing the county court, and providing for the government of the city by commissioners, was taken up on its third reading.

Mr. Sheppard offered an amendment to prohibit the state treasurer from making any further payments for metropolitan police purposes at Memphis, Chattanooga and Nashville.

Mr. Raulston moved to lay the amendment on the table. Lost—ayes 19, noes 52. The amendment was then adopted.

Mr. Able protested against the passage of the bill, reasserting squarely what he affirmed on the passage of the bill on its second reading, that nine-tenths of the union people of Memphis were opposed to the metropolitan police system. Since that system has been inaugurated in Memphis, its principal officers, acting under the commissioners, have been the veriest set of scoundrels that ever lived. The speaker mentioned the names of Pratt and Tuttle, two of the leading men in the police force, as sustaining the worst possible characters. Besides all this, there was the chief of the commissioners (Beaumont), who, in the early days of the war, had been an officer in the rebel army. He hoped the house would pay some regard to the wishes of the people of Shelby county, loyal and otherwise, and not pass the bill.

Pending the discussion, the house adjourned.

IMPORTANT NEW INVENTION.

SPECTACLES.

The only perfect Lens in existence. Superior to any other in use—constructed in accordance with the science and philosophy of nature in the peculiar form of a

Concavo-Convex Elipsis.

Admirably adapted to the Organ of Sight, and perfectly natural to the eye, affording altogether the best artificial help to the human vision ever invented. Sold only by the Professor of Optics and Specimen Manufacturer.

The Advantages

Of these Spectacles over all others are:

1st—The only true Lens known being perfectly free from chromatic light, so well known to be the cause of injury to the vision, and which makes the change from Spectacles to Glasses of stronger power so often required, while in many instances both near and distant objects are seen with equal facility through the same Glasses.

2d.—Can be worn with perfect ease for any length of time at one sitting, giving astonishing clearness of vision, particularly by candle or other artificial light—comfort to the spectacle wearer hitherto unknown.

3d.—When the eyes ache or pain through the action of a bright light, such as is reflected from snow, sunny weather, white paper, and in reading, writing or sewing, or vivid colored bodies, these lenses, by softening the rays, effect a most agreeable sensation and give great relief.

4th.—In all nervous affections of the eye, causing dull and startling pains in the eyeball or temple, appearance of luminous and dark spots in the atmosphere, aching or feeling like sand in the eyes, the disturbed nerves are quieted and soothed.

5th.—Ground by peculiar machinery, got up at great cost, mathematically calculated expressly for the manufacture of this lens, so as to produce it with the true spherical accuracy, and its focus is at the exact centre, a point of vital importance, and which no other lens possesses.

6th.—These Spectacles are scientifically adjusted to every case of defective sight with unerring accuracy, whether arising from age, disease, strain, or overwork or premature decay, by Dr. M. BERNHARDT, on a new, exact principle entirely his own, which has seldom failed to benefit.

7th.—Proof of superiority over the old kind of Spectacles: They are used exclusively in all the hospitals for diseases of the eye in Berlin, Prussia, and elsewhere.

Testimony of Recommendations

From Medical Gentlemen,

Professors of the highest Opthalmic talent in Memphis, Tennessee, and in the Union:

MEMPHIS, TENN., February 14, 1867.

I do most willingly bear my testimony in favor of the superiority of the Australian Crystal Spectacles over all other kinds. They are constructed upon the best established and understood principles of Optics, and their adaptation to the human eye in its different conditions of vision is so perfect as to render sight easy without effort. In my opinion none others should be used, since the eyes, once used to these, do not seem to grow old, and by having a focus at any point of the sphere, they appear to restore the eyes to their youthful energy. I can the more confidently recommend Dr. BERNHARDT to the public, from an acquaintance with many of those from whom he comes recommended to us. A. K. TAYLOR, M. D.

MEMPHIS, TENN., February 15, 1867.

I have found a great deal of pleasure in examining the exquisite fabrics of Dr. BERNHARDT, in the way of Eye-Glasses. The Crystal used by him is of wonderful purity, and the fit of his Glasses so diversified as to suit every conceivable case of need. He has selected for me a pair of Glasses, which promise to give me great aid and comfort in my future reading. I am among the many persons who testify to his capacity as an Optician and Oculist, and to the value of his services rendered to them, several prominent Clergymen and Statesmen with whom I am acquainted. JOHN R. FRAYSER, M. D.

MEMPHIS, TENN., February 16, 1867.

We have examined the Lenses of Dr. BERNHARDT, and consider them superior to any we have seen. They are admirably adapted not only to improve the imperfections of impaired sight, but to relieve the weariness of vision which sometimes only produces. Many of the Glasses are of new and luminous a character. We cordially recommend the Doctor to all those who require sensible optical assistance. JOHN FIZEMAN, M. D.
