DEMOCRATS, REGISTER!

If you desire to achieve victory, go and register. Prepare for your duty by procuring a certificate that will enable you to vote.

MERCHANTS.

Go and register, and on the day of election vote the Democratic ticket, if you would rescue the judiciary from disgrace.

THE Washington correspondence of the New York *Herald* says that Gen. GRANT has returned his income for last year as $568.

THE *Press and Times* of Saturday has he name of W. B. STOKES for Governor at the head of its editorial column. This is in direct conflict with OLD PLUTO'S ideas, and will raise a row in the family. We hope so.

THE Georgia *Constitutionalist* cites Senator ABBOTT, the carpet-bag fire-eater from North Carolina, and also Mrs. HARRIET BEECHER STOWE, now of Florida, as instances of the way in which Northern people are impressed and influenced by Southern manners.

EMIGRATION AGENCY.

We have much pleasure in endorsing to the public the new emigration agency of DONOHO, JOY & Co. The members of this firm are old citizens, gentlemen well-known to the people of the Mississippi Valley, who know its capacity for population and capabilities for production, and are just the persons to locate immigrants, to see that they are dealt with fairly and realize as near as is possible their expectations in a home place or farm. For their own sakes, as well as for the welfare of the community among whom they have so long and worthily labored, we hope they will be as successful as their efforts will deserve.

THE PACIFIC RAILROAD COMPLETED.

The last spike necessary to the completion of the Pacific Railroad, was driven down yesterday amid all the eclat that its adroit management could invest it with. The spike, of gold, was hammered into its place by six strokes, the sounds of which were carried by electric telegraph to the remotest corners of this country and to Europe. Very dramatic these effects, but they will not blind the eyes of the public to the credit mobilier and the addition to the public debt heaped upon the country by connivant capitalists and dishonest Congressmen and officials. This fact of itself almost dwarfs a gigantic enterprise, one that does honor to our age and that henceforth takes its place among the enduring triumphs of human energy, skill and enterprise. We hope its completion will be the signal for renewed efforts towards the construction of the great line to which, more than aught else, Memphis is to be indebted for finality to her destiny.

THE COMMERCIAL CONVENTION.

The Commercial Convention, to meet here next Tuesday, is exciting a great deal of attention abroad; and predictions are plenty that the attendance will be large, and the delegates comprise many among the leading men of the country. As far North as Boston it divides attention with the great peace festival to come off in that city in June, and in New York and Chicago with the great excursion to Salt Lake City by the Pacific Railroad The objects of the Convention are such as to attract the thinking and speculative minds of the North, who begin to realize that only on the thirty fifth parallel is a paying and otherwise profitable railroad feasible. The possibility of utilizing, by system of levees, the vast area of unoccupied lands now marked upon the map as "swamp," is also attracting attention, as is the necessity for the encouragement of immigration to the South Anything like a proper appreciation by our own people of the opportunity the Convention will open for our section and city, must redound to our credit and profit. We must be apt with argument and statistics, brief and to the point, and must press upon the influential gentlemen who will meet us the superior claims we have upon Congress for all the aid that body can lawfully give, for the inauguration and support of levees and a Pacific Railroad, along the route of which there is water, wood and coal, the best of land, and mineral resources in iron, silver, lead and gold that cannot be surpassed elsewhere in the world. For a week the eyes of the whole people of the United States will be upon us; and whatever we offer for the consideration of the Convention will be closely scrutinized and well canvassed. We trust our merchants, lawyers, business men, capitalists and mechanics will all be prepared to avail themselves of the occasion, and that the results to our State and city will be as gratifying as the inducements that both hold out lead us to expect. We must make the most of this Convention. It is our opportunity. It should be made our best card, and a paying advertisement. We must make it pay. We must make it tell the story of our rise and progress, and prospects for advancement and growth. We must make it tell all that we are as open-hearted, liberal, candid, energetic, enterprising and law-abiding people; and we must make it speak for us a generous invitation to the people of all climes to settle amongst us and cast their destinies with us. Our facilities for railroad and river transportation to all points of the compass, and intercourse with every State in the Union, must be made prominent; and the extent, variety and value of our vast forests must be dwelt upon and pressed upon the attention of the Convention. In short, whatever advantages we possess that are attractive to enterprising men and capitalists must be published just as they are—no undue enhancement, no trickery, no effort at extra gloss or gilding—but the plain, simple truth. At the lowest estimate that can be put upon our situation, it is among the best in the country, and abounds in points to be seized and made profitable by capital, skill and energy. Nothing extenuate nor aught set down unduly. Acting up to these suggestions, we believe the liberality and hospitality of our citizens may be made profitable and the Convention be rendered memorable to us for practical results.

STOKES THE COMING RADICAL MAN.

The Knoxville (BROWNLOW'S owl) *Whig* is out for SENTER for Governor, the Nashville *Press and Times* declares for BILL STOKES, the Radicals of Bedford county have instructed their delegates to vote for W. H. WISENER for that office, those of Haywood go for NUNN, and those of Blount declare stoutly for MAYNARD, with a reservation in favor of STOKES, first, last and all the time, showing clearly that BROWNLOW'S early choice of SENTER is all sham, humbug, downright deception. The people of Blount are under the control of the Knoxville *Whig*, which is edited by PEARNE, BROWNLOW'S proxy. At least they were on occasion of the disgraceful onslaught upon that good Methodist and Christian, Rev. Mr. SMITH. If, then, they are so now, and doubtless have instructed their delegates as above, with a view to meet the desires and designs of OLD PLUTO, the master spirit of Radicalism. Having lent himself so far to this programme, we are justified in concluding that SENTER has gone to the dogs. STOKES is the upper "purp" in the Radical tussel for the Gubernatorial nomination.

WASHINGTON.

WASHINGTON, May 10.—The Secretary of the Treasury has decided that the tariff, as well as commercial usage, recognized a distinction between wrought iron tubes and wrought iron flues. The former are liable to a duty of 3½ per cent. per pound under the existing laws.

Patchen, of Baltimore, won the $100 purse to-day on the National Course, mile heats, best 3 in 5. Mountain Maid, of Philadelphia, won the first heat, time 2:28¼, and Star of the West, of Chicago, the second, time 2:27¼, and also the third in 2:31¼. Patchen won the fourth, fifth and sixth heats, time, 2:34¼—2:31—2:32. Warsaw was withdrawn after the first heat.

The receipts from Internal Revenue sources for the present month have been comparatively heavy, averaging about $500,000 per day. The receipts from customs also continues heavy, and the indications for a large revenue from that branch of the service for the present month are good. The coin balance in the Treasury is now quite $87,000,000, which is increased $20,000,000 by coin certificates.

John P. Taggart, of Galena, Ill., has been appointed Assor of Utah, vice Clery, declined. No further appointments of Supervisors will be made until the return of Commissioner Delano.

NEW ORLEANS.

NEW ORLEANS, May 10.—The remaining indictments against Auditor Wickliffe were dismissed this morning by Judge Abell, of the First District Court. Injunctions have been obtained both by Wickliff and De Cassidre, Gov. Warmoth's appointee, which leaves the office still without an incumbent.

A duel was fought yesterday between a Spaniard and Cuban, growing out of the cries "death to Spaniards," in the recent procession of the Cubans and their sympathizers. The Cuban was badly wounded, and the Spaniard unhurt. A general challenge is promulgated from the same Spaniard to all who indulged in the cries, and another duel is reported as being already arranged.

Fighting is said to be going on near Mauritas, but no particulars have been received.

FOREIGN.

LONDON, May 10.—A great mass meeting was held in Cork on Saturday evening to express the popular condemnation of the conduct of the Government in the matter of Mayor O'Sullivan.

MADRID, May 10.—In the Cortes on Saturday, Senor Orenz asked what action had been taken by the Government towards acquiring Gibralter, and Delorensana, the Minister of State, replied that the government fully recognized the importance of the Gibralter question, but before negotiations for its session were made the Government must be strongly constituted and financially reorganized.

CHICAGO.

CHICAGO, May 10.—The celebration of the completion of the Pacific Railroad to-day was the most successful affair of the kind that ever took place in Chicago, and probably in the West. It was almost entirely impromptu, and almost every man, woman and child in Chicago did their part towards making it a success. The procession was unique in appearance and immense in length, the lowest estimate putting it at seven miles. Every merchant, every trader, every milkman, every express and business wagon, were in the line, and filled with boxes supposed to contain goods directed to merchants in every city and town between this and China.

VIRGINIA.

RICHMOND, May 10.—Chief Justice Chase this morning delivered an opinion on an appeal from Judge Underwood's decision in the District Court, declaring null the sentence of Judge Shiffey of the State Court, on the ground of Shiffey's ineligibility under the 14th amendment. The case was that of Cesar Griffin (a negro), who was sentenced to the penitentiary for shooting a man.

The Chief Justice read the opinion of the Court, holding that as a State Government in Virginia had been recognized all during the war by Congress, first at Wheeling and then at Alexandria, and the action of the Government in dividing the State had been recognized by the Federal Government, and the Senators and Representatives elected by that Government had been allowed seats in Congress, and it was under this Government that Judge Shiffy had been appointed, and he was therefore a legal judge as far as the State Government was concerned, and the question now comes up whether being ineligible, he was absolutely removed by the operations of the Fourth Amendment. The Court said the Supreme Court unanimously concurred in the opinion that a prisoner sentenced by a Judge *de facto*, though not a Judge *de jure*, could not be reached by a writ of habeas corpus The decision of the District Court was reversed and Cesar Griffin was remanded to the State authorities.

In the United States Circuit Court, this morning, Peter Phillips, who is sentenced to be hung on next Friday morning, was brought before the court on a writ of habeas corpus and remanded to the State authorities, on the ground that he was sentenced before the fourteenth amendment was promulgated.

NEW YORK.

NEW YORK, May 10.—Last evening a man named George McNeery got into an altercation with a man named Peter Elenger, in front of a boarding house in Wallace street, and stabbed him in the abdomen and side, inflicting, probably, fatal injuries. Louis Bust, a friend of Ellenger's interfered, when McNeery stabbed him also, cutting his heart in two, and causing instant death. No provocation for the assault appears to have existed. The officers are in search of the murderer.

Judge Benedict to-day charged the Grand Jury in the United States Circuit Court in reference to the revenue frauds in this city, and more particularly the "draw back" frauds, involving many government officials in forged paper to the amount of $700,000. The Judge said it was the duty of the Grand Jury to indict all, poor and rich, who were guilty of frauds on the revenue.

The police to-day received by letter post-marked Elmira, N. Y., $13,000 worth of the shares of the Eureka Mining Company of Polk county, Tennessee, which were stolen from Smallwood & Co. on the 3d instant.

Report says that on Saturday afternoon a vessel laden with war materials for the Cubans, sailed from one of the piers in East river, where she had been laying unnoticed, and, also, that a large number of recruits embarked on a tug at Jersey City, and were transferred at Sandy Hook to the war vessel. The authorities and the Cubans are both very reticent on the subject. Recruiting is stopped at the principal Cuban headquarters, though it is understood that men are still being enlisted at the branch offices.

The expedition alluded to above is said to be composed of emigrants, who enlisted at Castle Garden.

Attorney Pierpont has received two letters from the State Department directing energetic measures to enforce the neutrality laws, and to punish the violators thereof, and particularly calling his attention to the case of the Quaker City.

A Washington special says orders were telegraphed to New Orleans to-day to the Federal officials to look sharp after certain Cuban expeditions said to be fitting out there.

Cols. Warren and Castello, the released Fenians, arrived yesterday.

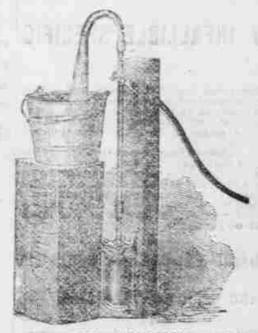
A. BALDING'S
DOUBLE ACTING SUBMERGED
FORCE PUMP,



PATENTED AUGUST 8, 1865

MANY thousand of them have been tested during the the past four years, and have proved a perfect success, as thousands of certificates could be produced; but I deem it unnecessary as the pump will show for itself, and prove all its qualities on examination

It is a Pump which is ultimately destined to supersede all other Pumps now in use, for the simple fact—first, the cylinder is made of solid flint glass, and it undoubtedly will last one hundred years, and still be good as ever Second, it will never give any bad taste to the water, or rust it. Third, it will never wear out, so as to put the working part out of order Fourth, the Plunger working in glass, it will last as long as five in iron or wood Fifth, the valves are made of glass, and are so placed that it is impossible for them to get out of order Sixth, the conducting pipe is manufactured of wrought iron galvanized inside and out making it perfectly free from rust. Seventh, no water stands in the pipe to get warm in running or freeze in winter, and requires no priming to start it. Eighth it is the best hand fire engine ever invented. It will force the water from any common well or cistern to the top of the highest dwelling, at the rate of twenty gallons per minute. Ninth, its simple construction is so simple and complete that renders it less liable to get out of order than any pump yet invented, and makes it the cheapest on the continent. When all its qualities are fully understood no one will be without it. It will save its cost in insurance, and many times save valuable property.

Having established a factory in the city of Memphis, Tenn., for the manufacture of these Pumps we are now prepared to furnish, at wholesale and retail, to all parties engaged, or wishing to engage in the business.

Prices for this Pump, Complete:

For Pump 16 feet long, $1 50 per foot.....$24 00
" 18 " " 1 50 " " 27 00
" 20 " " 1 50 " " 30 00

and fifty cents per foot for every additional foot.

Agents wanted for this Pump, either to buy County Rights and sell the Pumps, on which a liberal discount will be given to the wholesale trade, and no charge for the right of territory.

All orders for this Pump must be addressed to
