FINANCE AND TRADE.

Redemption of National Currency.

NEW REGULATIONS OF THE TREASURY DEPARTMENT.

The following regulations are adopted in lieu of all which have been heretofore issued by the Treasury Department in regard to the redemption of United States currency:

MUTILATED CURRENCY.

Mutilated currency is redeemable by the Treasurer of the United States, at Washington, D. C., and by no other officer.

UNITED STATES NOTES.

Notes presented for redemption, the abrasion or loss of substance from which does not exceed one-twentieth of their original proportions, will be redeemed as whole notes.

1. Fragments of notes will not be redeemed in full, except when proof is adduced by affidavit that the missing parts of such notes have been totally destroyed, and stating the cause and manner of destruction. Less than half of a note is not redeemable at all, unless accompanied by such affidavit when presented by the holder. The character of the affidavit must be certified to be good by a magistrate or other public officer.

2. In the absence of such affidavit, fragments of notes, exceeding by measurement one-half of their original surface, will be redeemed in their proportion to the whole note—reckoning as a general rule by twentieths.

3. Mutilated notes which have been torn, no matter how much, but of which all the fragments are returned, or defaced, no matter how badly, so that it is certain they are genuine, will be redeemed at their full face value on presentation.

4. Fragments of legal tender notes for which less than the full value has been paid will be retained six months to enable owners to return to the Treasury missing parts of such notes and receive the amount previously withheld. Such refunds should give the date of the letter from this office transmitting the original remittance.

INTEREST-BEARING NOTES.

The rules for the redemption of mutilated United States notes are likewise applicable to mutilated interest-bearing notes.

Coupons of two years five per cent. Treasury notes separated from the notes of which they constituted a part, are of no value except when presented for redemption with the notes to which they belong. Coupons should not be detached from the five per cent. notes except by a Government officer authorized to redeem them at maturity. But this regulation does not apply to coupon notes or bonds other than five per cent. notes.

FRACTIONAL CURRENCY.

Defaced fractional notes, if whole, are not considered as mutilated when presented for redemption, nor is an evidently accidental diminution reducing the note by not more than one-tenth part in size regarded as a mutilation.

1. Fragments of a note will not be redeemed unless it shall be clearly evident that they constitute one-half or more of one original note; in which case a note, however mutilated, will be redeemed in proportion to the whole note, reckoning by fifths, except three cent notes, which will be reckoned by thirds.

2. Mutilations less than one-tenth will be disregarded, unless fraudulent; but any mutilation which destroys more than one-tenth of the original note will reduce the redemption value of the note by one-fifth its face value, or if a three cent note, by one-third of its original value.

3. Fragments of a three cent note will not be redeemed, unless such fragments constitute only two-thirds of the note in its original form.

4. Mutilated notes presented for redemption must be in sums of not less than three dollars of their original value.

UNITED STATES SECURITIES.

U. S. PACIFIC RAILROAD CURRENCY 6s.

Dated January 1s, 1865, and variously thereafter. These bonds are secured by the Government under Acts of July 1st, 1862, and July 2, 1864, to companies receiving their charter from Congress, which gives them the right to construct railroads to and from the Pacific coast, and on the completion of each twenty miles of track to receive at the rate of $16,000 per mile, $32,000 per mile, according to the difficulty of constructing the same. They are payable thirty years from date of issue; and are registered in bonds of $1,000, $5,000, and $10,000.

All of the Government Bonds are issued "Coupon" or "Registered." Coupon bonds can be changed into registered bonds, but registered bonds cannot be changed into Coupon. Coupon bonds are in denominations of $50, $100, $500, and $1,000, the registered bonds the same, with additions of $5,000 and $10,000.

FINANCE.

OFFICE OF THE DAILY APPEAL, MEMPHIS, November 16, 1869.

The heavy rains have again put a check upon cotton operations, and exchange is coming in slowly. The supply on hand is barely sufficient to meet the demand for a day or two to come, and without buyers take hold more liberally and the weather changes so they can ship, it is probable that the demand for exchange will absorb all upon the market, and rates, both buying and selling, will take a jump upward. Some of our banks are already taking cotton bills at ¼c discount on all Eastern points, but others maintain their old rates of ⅛c discount. The checking rate is steady at par, but an occasional transaction is reported at ⅛c discount.

Brokers are generally reticent about their operations in Tennessee money. A force-pump would be required to get at the proper idea of what is doing, and while our quotations are as near the truth as it is possible for us to arrive from the meager information we can pick up, we should not be astonished to know that a seller would be compelled to sell at 1 or 2c less, or that a buyer would have to pay that much more. From all we can gather the buying rate is 65c, while 66c is represented as the selling rate to tax-payers.

The offerings of Ledger balances are much below the demand, and buying rates are nominal at 64@65½c. The call from tax-payers, though in a small way, is large in the aggregate, and selling rates are firm at 80c.

County Warrants are quiet and nominal. Buying, 64@65c. Selling, 67@68c.

Gold is in demand at New York rates. Selling at an advance of 16@19c.

No financial telegraphic advices came in after the wind-storm this afternoon. Tennessee bonds in New York were nominal; 69½c was bid for Old, and 52½c for New. Governments at noon were firm:

Acting Commissioner Douglas has decided that purchasers of gold dust are not subject to the special tax of bullion brokers. Dealers in retorted gold are held to be, within the meaning of the law, subject to the tax, and are to be regarded as brokers buying or selling bullion. The question was submitted by the assessors at Santa Fe, New Mexico.

COTTON.

The inquiry was active to-day, and buyers were very willing to take hold on a basis of 23¾c for Middling, but factors are stiffer, and have advanced their views from ⅛ to ¼c, in consequence of the better feeling noted in New York. It will be seen in our report of sales that some Middlings were picked up at the ¼c, but they were, except in one or two cases, scattering lots, and not indicative of the market, except so far as outside lots are concerned. Every day instances occur of small sales at ¼@¼c under the figures prevailing for full tables, and it would be well for planters to remember, when they send a few bales to market with imperative orders to sell on arrival, that they must be willing to make some slight concession from ruling quotations. On the 12th and 13th of November, last season, Middlings in this market were down to 22½c, (or within a ¼c of the lowest point reached, which was on the 22d of October). Prices began to improve on the 13th of November, and no decline was experienced except mere temporary ones, until Middlings went up to 30½c on the 14th of January. Whether the present firmness is the premonitory symptoms of a steady advance in prices, remains to be seen. Among the sales reported to-day were 16 bales Good Ordinary at 22½c; 28, 9 shy Low Middlings, 22¾c; 50 Strict Good Ordinary, 23c; 40, 4, and 100 (in various lots) Low Middlings, 23c; 40 Strict Low Middlings, 23¼c; 200, 13, 13, 30, 20, 60, 67, 120, 11, 68, 67, all Strict Low Middlings to Middlings, 23¼c; 82 Middlings, 23¾c; 60 Good Middlings, 24c, and 140, grade and price unknown. The day's sales will amount to at least 1300 bales, and the market closed with holders firm at 23½@23¾c for Middlings. We quote as follows:

Ordinary	22 @22¼
Good Ordinary	22½@22¾
Low Middlings	23 @23¼

John P. Hill & Co. yesterday shipped to New York the finest lot of cotton ever sent forward from Memphis or any other port. It consisted of 44 bales of the cotton entered at the late Fair, and is, without question, the largest lot of fancy cotton ever shipped at one time by any house in the South. The lot averaged him nearly 28c, and was shipped to the firm of Fenner, Bennett & Bowman, of New York city. It will create some stir in cotton circles in that city on arrival.

COTTON IN NEW YORK.

TRADE.

Very heavy rains fell this morning, and for some hours business was entirely suspended. We have had but light receipts from the upper country for some days, and boats are past due. Prices are generally steady, and in many things stocks have run very low.

Col. G. B. Lockett, of Georgia, has been making an experiment this year of "high" culture in cotton, which will be worth much as an example to the planters of the South. He put in six acres of cotton, with the design of making their product equal to that of 72 acres cultivated in the usual careless, superficial manner. The average yield of cotton on Georgia lands is about a quarter of a bale of lint to the acre, or a bale to every four acres. Col. Lockett aimed to gather three bales from each of his six acres, and the Albany (Ga.) *News* says that he will come pretty near doing it. His land was richly manured, carefully, deeply and minutely cultivated, and kept in the best order; and the result is that, notwithstanding the severe drouth in Georgia, which interfered materially with the experiment, he has a splendid crop. It is estimated that he will gather seventeen bales, of 500 pounds each, from the six acres.

BAGGING—The demand is steady and stocks moderate. Light weight 21c; Heavy 28@29; India 28@29.

BY THE GOVERNOR.

THANKSGIVING.

State of Tennessee—By the Governor.

A Proclamation!

THE President of the United States, recognizing the bountiful mercies of Almighty God in the prosperous year now drawing to a close, recommends a day of National Thanksgiving in the sisterhood of States. Tennessee's response for gratitude can be no mean, the least. Her people share the general good. No blight has here destroyed the fruits of the soil; no catastrophe has taken the life of our artificers; no commercial disasters overtaken our merchants; no pestilence invaded our land. The industry of the tillers of the soil, of the toilers in the mines, of the artificers in wood, copper, iron and gold, and the learned professions, has been prosperous; schools have been multiplied, churches have been opened. The figures and assurities of the past are fast fading into forgetfulness. The smiles and joys of peace have abounded throughout the borders of our States. The liberty of every man is assured. These blessings have not come to us by chance. They bespeak our gratitude to Him All-wise Giver. We should seek of Him their increase and confirmation in the future.

We have been taught, from the Sacred Word, by devout parents, that the Lord taketh pleasure in those that fear Him—in His mercy He healeth the broken in heart; He bindeth up their wounds. He telleth the number of the stars; He prepareth rain for the earth; He maketh grass to grow upon the mountains; He maketh peace in our borders. Now, therefore, I, D. W. McVEIGH, Governor of the State of Tennessee do hereby recommend that

Thursday, the 18th Day of November, inst.,

be observed as a day of thanksgiving, prayer and praise to Almighty God, the giver of every good and perfect gift. I do further recommend that all the people of the State do assemble on that day in their accustomed places of public worship and unitedly render homage and praise to Him, our Father, Preserver of all things, and devoutly implore His continuance of the manifold blessings He has been bestowing upon the people of the State and nation.

Given at the Executive Office, in the city of Nashville, this 4th day of November, in the year of our Lord one thousand eight hundred and sixty-nine, and of the Independence of the United States the ninety-fourth.

(SEAL.) D. W. McVEIGH.

By the Governor:
A. J. FLETCHER, Secretary of State. nov

SPECIAL NOTICES.

"Who Would Suffer?"—It is now 22 years since Dr. Tobias first introduced the "Venetian Liniment" in the United States, and never in a single instance has his medicine failed to do all, if not more, than is stated in his pamphlet. As an external remedy in cases of Chronic Rheumatism, Headache, Toothache, Bruises, Burns, Cuts, Sores, Swellings, Sprains, Stings of Insects and Pains in Limbs, Back and Chest, its wonderful curative powers are miraculous. Taken internally for the cure of Cholera, Colic, Diarrhœa, Dysentery, Sick Headache and Vomiting, its Soothing and Penetrating qualities are felt as soon as taken. The oath with which each bottle is accompanied will show that there is nothing injurious in its composition. Thousands of certificates have been received speaking of the marvelous virtues of this valuable article. Any person after having used it once will never be without it. Every bottle of the genuine has the signature of "S. I. Tobias" on the outside wrapper.

Sold by the Druggists and Storekeepers throughout the United States. Price, 50 cents. Depot, 10 Park Place, New York.

THE CONSTITUTION OVERTHROWN.

The Constitution and Health may be ruined by a few applications of the lead or sulphur hair dyes now in the market. "Not a Dye" may be the motto of such nostrums, but A *DYE* may be the result of using them. But ONE HAIR DYE has been

TRIED AND ACQUITTED.

Of all deleterious tendency, under the infallible laws of Science; and it is a fact that

Cristadoro's Excelsior Hair Dye

Has been analyzed by the distinguished chemist, Professor Chilton, and his certificate of its wholesomeness may be seen at Cristadoro's, 6 Astor House, New York.

CRISTADORO'S HAIR PRESERVATIVE, as a Dressing, acts like a charm on the Hair after Dyeing. Try it.

In Remote Settlements of Untold Value. Food makes blood; blood makes the body. If the blood be pure, the body is healthy. So it we are not in health, we know some injurious one is making about which must be removed, and the sooner the better.

Brandreth's Pills remove all from the system which either vexes or hurts.

The wonderful cures effected by Brandreth's Pills have arrested the attention of enlightened physicians. Upwards of five thousand now use them in their daily practice, and too hundred have given their written testimony as to their invaluable aid in cases of sickness of the bowels and blood.

Their untold value is to those living in settlements where a doctor can only be had at great expense. For if you are sick, you need only to take one or more doses of Brandreth's Pills to get cured. Full directions are with each box. Sold by all druggists.

Batchelor's Hair Dye.—This splendid Hair Dye is the best in the world; the only true and perfect Dye; harmless, reliable, instantaneous; no disappointment; no ridiculous tints; remedies the ill effects of bad Dyes; invigorates and leaves the Hair soft and beautiful, GLOSSY BROWN. Sold by all druggists and Perfumers; and properly applied at Batchelor's Wig Factory, No. 16 Bond street, N. Y.

[From the Philadelphia Evening Telegraph.]

We advise persons having diseased hair to use Professor Christy's celebrated Hair Lotio. It is put up in a bottle and box. Ladies who once use Lotio discard every other preparation for the Hair, as it is the best dressing for the Hair in the world. The Lotio never fails to remove the most severe cases of Dandruff, and restore gray and bleached Hair to its natural color.

For sale by druggists; sample bottles sent to any address in the United States by express for $1.
