FINANCE AND TRADE.

OFFICE OF THE DAILY APPEAL, MEMPHIS, April 30, 1870.

FINANCE.

There is no change to note in local finance. Exchange is steady, both buying and selling, and the supply is about equal to the demand. City and county Scrips are quiet at our quotations of yesterday, and Tennessee money is unchanged.

Business men should remember that, after to-day, they will be required to dispense with the use of the "ribbon stamp" for canceling stamps, and either cancel them with pen and ink, or use either of the following machines, recommended by the Revenue Department: Holt's self-inking cancelor; E. D. Chamberlan's cutting and dating stamp; Hill's patent revenue canceling machine; or Wheeler's patent cancelor.

Under a decision recently made by the Commissioner of Internal Revenue, farmers will hereafter be required to make return, and pay taxes upon all produce sold within the year. It has also been decided by the commissioner that the farmer who puts up his own pork, or any part of it, must take out a manufacturer's license. The farmer is thus taxed as a producer and manufacturer.

If this decision is sustained, and there is no appeal from it, everything which the farmer raises and sells will be taxed. This is the most iniquitous decision of Columbus Delano.

The rim of the new Mexican silver dollars, coined since the middle of last year with new dies, is more perfect than that of the old dollars. The eagle varies somewhat, and on the reverse there is added to the cap of liberty a balance containing a book of laws. The new dollars seal to Europe are quoted at only 5 37-100 francs, whilst the old ones are quoted at 5 43-100. Last year $14,000,000 in silver were exported from Mexico to Europe, and now, to send that much in the new dollars, would entail a loss upon Mexican exporters first, and upon the people next, of $167,587. Under the circumstances, the new dollars are no longer wanted in Mexico, and a return to the old dies will be the result.

The St. Louis *Democrat* says: Should the Treasury in the next two months turn $35,000,000 or $40,000,000 of its gold and currency balances into United States 20's, which we believe to be highly probable, it will add largely to the prevailing ease in money, besides furnishing a correspondent amount of capital, now idle, in the shape of gold in the Treasury, for employment on the Stock Exchange, and in the adjustment of the foreign exchanges. Should the latter seem to require gold for shipment through May, June and July, the sales and gold interest payments from the Treasury will be both timely and entirely convenient.

Upon this question the New York *Times* argues as follows:

It is no matter of surprise that the funds should approach more closely the price of gold. The Treasury is rich in gold, and growing rich in currency, and there is no reasonable question that the Secretary of the Treasury will sensibly increase his purchases of United States 5-20's in May, and in a considerable measure increase his sales of gold through the same month. We believe it will be the policy of the administration, for several months to come, to utilize a large share of the present enormous and useless gold balances in the Treasury by conversion into United States 5-20's, saving not only 6 per cent. per annum interest, but realizing the difference in the exchange, now amounting to about 5 per cent. We make no prediction for the next month as to the rise or fall in gold, but have reason to look for a much closer approximation than at present of the price of 5-20's to the price of gold, and to large purchases of 5-20's before the close of the fiscal year ending June 30, for Treasury account. This calculation is outside the question of the Funding bill before Congress, which, if determined at all this session, at Congress, will take the simplest and least disturbing form, but it is based upon the point of practical economy in reducing the interest-bearing funded debt by the rigorous application of the gold and currency balances in the Treasury to this object. The total amount of United States 5-20's purchased since the present administration came into office, fourteen months ago, is now now over $110,000,000. By the 30th of June the amount should, and we believe will, be increased to $150,000,000.

COTTON.

The extraordinary volume of receipts for the week at all United States ports exceeds even the most exalted ideas of those who put the crop at over 3,000,000 bales, and staggers those who thought it would barely reach that figure. It certainly has influenced prices very largely in Liverpool, and that market has exhibited a very marked decline since yesterday. New York also has given way, and here, though operations were light and factors generally strong, some were disposed to concede in order to sell. This was not so much the case on fine grades as it was on low ones, but it is true of all. The day's sales foot up 613 bales, including 60 of Middlings, at 22@22¼c; and 273 Low Middlings, at 21¾@21¾c.

INSURANCE.

MASONIC MUTUAL Life Assurance Association OF MEMPHIS.

Co-operative and Purely Mutual—Charter Perpetual—Forever Exempt from all Taxes by the Laws of the State.

$10.000 for $10!

EXPLANATION: $10 makes you a member of the Association—i. e. $10 for policy, $1 medical examination fee, and $1 contingent fee; said $1 payable yearly, in advance, for office expenses. On the death of a member an assessment of $2 is levied on every surviving member, which is the amount paid to the widow or beneficiary of the deceased member, thirty days being given to pay in the assessment of $2 after due notification. When the Association numbers several thousand they will be classed according to ages, viz: All between the ages of 15 and 25 years in one class, and all between 25 and 35 years in another class, and so on up to 65 years, which is the limit; and every class to be carried to 5000 members, then each policy will be worth $10,000. Until that time each policy will be worth double the number of dollars as there are members of the class; and at the death of a member the surviving members of his class only are assessed the $2. The policy fee of $10, or the greater portion of it, is made a sinking fund to provide for the delinquencies of members; and said fund is loaned on interest, the interest accruing therefrom, after defraying the expenses, coming back to the policy-holders as dividends. The advantages over Regular Life Insurance Companies are: 1st, no one can break it; the fees are so small, and required to be paid at each long interval, that any one, every man can secure to his family a competency upon his death. This Company is not restricted to members of the Masonic fraternity.

Notice in Bankruptcy.

District Court of the United States, for the District of West Tennessee, in bankruptcy, in the matter of J. H. Howell and S. R. Wood, individually and as partners in firm of Howell, Wood & Co., bankrupts.

District of West Tennessee, ss:

THIS is to give notice that on the 29th day of April, 1870, a warrant of bankruptcy was issued out of the District Court of the United States for the District of West Tennessee, against the estates of J. H. Howell and S. R. Wood, individually and as partners of Howell, Wood & Co., of Memphis, in the county of Shelby, in said District, who have been adjudged bankrupts on creditor's petition; that the payment of any debts and the delivery of any property belonging to such bankrupts, to them or for their use, and the transfer of any property by them are forbidden by law; and that a meeting of the creditors of said bankrupts to prove their debts and to choose one or more assignees of their estates, will be held at a court of bankruptcy, to be held at corner of Madison and Second streets, Memphis, Tennessee, before Thomas J. Latham, Esq., Register in Bankruptcy, for said District, on the 30th day of May, 1870, at 10 o'clock a.m.
