NOTICE.

OFFICE OF MEMPHIS AND ARKANSAS RIVER PACKET COMPANY, Memphis, May 17, 1871.

The Mail Contracts of the Memphis and Arkansas River Packet Company will expire on the 30th day of June next, and the business of the Company will be closed up as soon thereafter as practicable.

A large majority of the stock of the Company is owned by myself, but, being engaged largely in other business, where my personal attention is imperatively demanded, I am induced to adopt this course.

The Line is well established, having been in successful operation three years and half—the Boats (mostly new) having been built expressly for the trade, are well adapted to it, and are all in good repair.

Propositions for the purchase of the entire Line are invited, and will be considered until the first day of July next. Should all offers made for the purchase of the whole Line be declined, then in that case, the Boats will be sold separately as demand may occur.

To persons desiring to engage in the steamboat business, the present opportunity presents inducements, and advantages rarely met with. Liberal terms will be made with parties wishing to purchase.

JOHN D. ADAMS,
President M. and Ark. Pkt. Co.

We, the undersigned, Directors in the Memphis and Arkansas River Packet Company, concur, with great reluctance, in the action of the President, as indicated above, believing, as we do, that if the Line is discontinued, other lines will be established which will divert the trade from Memphis.

THOMAS H. ALLEN,
J. J. MURPHY,
R. P. WALT,
J. H. TUCKER

FINANCE AND TRADE.

OFFICE OF THE DAILY APPEAL, MEMPHIS, June 8, 1871.

FINANCIAL.

Nothing of unusual interest transpired in financial circles to-day, and but little except the usual daily routine of checking and depositing was done. The demand for money is more active than during the early part of the week, but is far from being pressing. The rates of discount at the bankers ranged 10@12 per cent., the inside being an exceptional rate to depositors and customers. In the open market there is less capital seeking investment and negotiations are made with not a little trouble, unless the borrower has sufficient stocks or bonds to offer as collaterals. Real estate is at a discount and rates on notes secured by mortgages are generally discounted at 16@18 higher than those secured by stocks or bonds or well indorsed paper. Bankers usually charge from 12@12 per cent. per month, but where the services of a third party, or "Gutter Snipe," are called into requisition 2½@3 per cent. per month is generally asked from the applicant.

The exchange market rules steady with scarcely any noticeable change in the demand but a gradual decrease in the supply and offerings. One or two of the banks that hitherto have been sellers were in the market to-day as purchasers and succeeded in obtaining from their neighbors $20,000 at $1 50 premium per $1000. Cotton bills are taken at par, and Eastern bank exchange ¼ premium. Selling rates are firm at ¾ premium for the latter and par for New Orleans bills. We quote rates on the different Northern and Eastern points steady as follows:

Cities.	Buying.	Selling.
New York	@¾ prem.	¼ prem
Boston	@¾ prem.	¼ prem
Providence	@¾ prem.	¼ prem
Fall River	@¾ prem.	¼ prem
Baltimore	@¾ prem.	¼ prem
Philadelphia	@¾ prem.	¼ prem
St. Louis	@¾ prem	¼ prem
Cincinnati	@¾ prem	¼ prem
Chicago	@¾ prem	¼ prem
New Orleans	@¾ dis	par.

There was but little done in gold during the day, both offerings and the demand being light. Brokers' purchases of $1600 are reported at 111¾, and sales of $1000 at 112. For small amounts the offering rate was 111¾, and selling rate 112¼.

The principal features in local securities were the demand for county warrants and Mississippi and Tennessee railroad shares. It is now positively known that Mr. McCombs is again in the market as a purchaser, and no little importance is attached to the presence in the city yesterday of his confidential agent, and his sudden departure. McCombs evidently has concluded to wait for the railroad kings of the East who passed over his line a few days since, that by a connection with his road at the Ohio river, a through line to the South, and, in due course of time, a line to the southern Pacific via Vicksburg and Marshall, Texas, can be controlled by them, provided the Mississippi and Tennessee road is obtained, to prevent a southern outlet from Memphis for competing lines now rapidly building toward the Ohio river in Illinois; and thus he would obtain possession of our Tennessee road and make it a feeder to his grand air line (contemplated) from the East to the Pacific States. Let us see how far he will succeed, and how much the business men of our city will assist him. It is known that those of our capitalists who so kindly came to President White's assistance at a former occasion, will do so again, and they, with Mr. White, are again in the market and will buy as long as McCombs cares to remain. No transactions have been reported, the holders of stock not caring to sell at a sacrifice. Offers of 20c have been made, however, by both parties for several respectable amounts, the owners of which are firm in the belief that they can rely upon Congress, or by holding until the election takes place. Other railroad shares are quiet. Memphis and Charleston is bought at 56 and sold at 57. Memphis and Little Rock are quoted 15@20 buying and selling. Memphis and Ohio first mortgage bonds are 78@80, buying and selling; second do., 60@62c. Memphis and Charleston first mortgage bonds are offered at 90, and second do., 77@80c. Mississippi and Tennessee first mortgage bonds are in demand at 82c and are held at 84c; second do., 72@73c. Memphis and Little Rock railroad 8 per cents are 72@74c, buying and selling. Memphis and Ohio first mortgage bonds are bought at 87c and sold at 89; second do. at 67@69c. Mississippi Central first mortgages are 82@85c, buying and selling, and seconds at 64@66c. Bank stocks are quiet and without change. Mississippi Valley is quoted at 30@31c. Planters' Insurance stock, 42@43. First National Bank shares are worth 110. State Bonds are quiet and new Tennessees opened steady in New York at 71¼, and closed firm at 71¾ for the former, and 71½ for the latter. Missouri 6's are quoted at 95, with more offering. Alabama 5's, 70; do 8's, 103; Arkansas 6's, old, are quoted at 50, and 7's at 48. Old Tennessee bonds are quoted at 71 buying, and new at 70. Bank of Tennessee money is held firmly at 85 over the counter, and is bought at 82@83. County warrants are in demand at 78, and sold to taxpayers at 75. A $2000 transaction between brokers was reported to-day at 73½. Memphis 6's, currency issue, are bought at 56 and sold at 57, and the gold issue at 60@61. Comptroller's warrants are worth 80.

London telegrams of to-day state that the Bank of England has not changed its rates of interest as was expected, but need it do so as the amount of notes it had in circulation at the date of its last statement was £24,302,660. The stock of bullion held by the bank was £23,077,037. The annexed statement shows the position of the bank on the 17th ultimo, and the prices of consols and French rentes, as compared with the corresponding date last year:

	31 present.	Last year.
Bullion	£23,077,037	£20,605,237
Reserve	11,774,377	11,277,637
Notes in circulation	18,352,660	18,328,175
Rate of discount	2½ p. cent.	3½ cent.
Consols	92¼	93¼
French rentes	55¼	75f. 75c.

Several days since we gave the condition of the New York banks. The last return of the Boston banks shows the following items in detail: Capital, $47,550,000; loans, $113,922,408; specie, $1,880,849; legal-tender notes, $12,821,203; due other banks, $21,195,436; due to other banks, $17,000,963; deposits, $51,982,272; circulation (national), $24,923,541. An exchange says that while the loans of the banks are receding a little, the reserves show a steady increase, as was the case with the New York banks last week.

COTTON.

The New York market opened quiet at 19¾c for Middling, and declined ⅛c on all grades at the second regular board. Subsequently prices gradually declined until the close, when another decline of ⅛c took place in the market, closing weak at 19¾. The Liverpool market opened steady at the closing rates of the previous day, but closed weak and 1-16d lower. New Orleans market opened quiet and weak, and closed dull and 1-16c downward tendency, and a decline of ⅛c. Factors, early in the day, anticipated a small decline, but were unwilling to make any reduction in prices until late in the day, when a majority of them began to feel a little anxiety as to the probable extent of the decline elsewhere, and were willing to accept offers made in the morning. Buyers were not, however, operating to any great extent, and had it not been that several had orders to complete, there would probably have been no demand. Sales were 290 bales at Liverpool, 1-16d lower for cotton, and 1-16d lower for Uplands. Receipts were 241; shipments, 624; stock on hand, 6445.

PROVISIONS IN CHICAGO.

From the *Times* of the 6th:

There was a fair amount of activity in the trading in mess and the lard on yesterday, but in meats the movement was exceedingly light, and hence the general market ruled tolerably quiet. The feeling was also a little heavy. Lard was steady at former figures, and meats were nominally unchanged, but for mess pork the tendency of prices was in favor of buyers and a decline of fully 25c was suffered. No special cause was assigned for this reduction, which was undoubtedly occasioned by the weakness of holders, an increased desire to sell, large stocks of this season, and a remarkably limited consumptive and export demand. The closing quotations were $14@14 25 for cash mess pork, $14 50 for seller June; $14 25 for seller July, and $14 60 for seller August. Seller the year was offered at $13 25. Lard was steady at 9½c for cash or seller June, and for seller July 9½c was bid at the close. Meats were dull, and sales were confined to a round lot of shoulders at 5¼c. Rough sides were quoted at 7c; short-ribs at 7¾; short clear at 7¾c, and sweet pickled hams at 9@10½c. Prime ribs were in request, and a trifle higher. 9¾c was bid at the close. Meats were dull, and sales were confined to a round lot of shoulders at 5¼c. Rough sides were quoted at 7c; short-ribs at 7¾; short clear at 7¾c, and sweet pickled hams at 9@10½c. Prime ribs were in request, and a trifle higher. 9¾c was bid at the close. Meats were dull, and sales were confined to a round lot of shoulders at 5¼c. PROVISIONS AT LOUISVILLE.

The provision trade is showing but little vitality the opening hour, but prevails that prices have touched their lowest possible level, and transactions are reported which indicate that this is the conclusion of men who are not likely to invest their money without fair probabilities of profits. At prices which bacon has sold during the present dull season, say 6¾, 8¾ and 8½c for shoulders, clear rib sides and clear sides, hogs should have been slaughtered, and it would have to have afforded a fair profit, and to show how far below the cost of production prices have gone, it is only necessary to state that the average prices paid by packers for hogs this week, at points where were $6 75 per 100 lbs. At the extreme low figures which have ruled, the masses have been able to purchase hog meats, and they have been the cheapest food on the market, and it is a fair question if holders of stocks it is fair to assume that a reaction is likely to occur in prices at an early day. That prices will regain the highest point from which they have declined is not probable, but they will advance sufficiently to realize handsome profits upon present quotations is believed. We quote shoulders, 6½@6¾c; clear rib sides, 8½@8¾c, and clear sides, 8¾@9c. Sugar cured hams range in below bacon packed, and ⅜c loose. Mess pork is unchanged, and we continue to quote at $15 50@16 per barrel. Lard is quiet at 10@10½c for prime leaf in tierces, and 11@12c in kegs; we quote sales in tierces at 10½c. Rates are steady, and we note sales 10 tcs sugar-cured at 15c, and we quote at $14@15c.—*Ledger*, June 7th.

PROVISIONS IN ST. LOUIS.

Reports received to-day from St. Louis indicate a firmer feeling, which led to a slight advance in bulk meats, bacon and lard. It is also stated that the stock of provisions is much smaller than at this time last year. Yesterday's *Republican* says: "In provisions there was a slight improvement. Mess pork was as dull as ever, but there was more demand for 15
